

Public Document Pack

MEETING:	Cabinet
DATE:	Wednesday, 8 February 2017
TIME:	10.00 am
VENUE:	Reception Room, Barnsley Town Hall

AGENDA

1. Declaration of pecuniary and non-pecuniary interests
2. Leader - Call-in of Cabinet decisions

Minutes

3. Minutes of the previous meeting held on 25th January, 2017 (Cab.8.2.2017/3)
(Pages 3 - 4)
4. Minutes of the BDR Joint Waste Board held on 30th September, 2016
(Cab.8.2.2017/4) (Pages 5 - 10)

Items for Noting

5. Decisions of Cabinet Spokespersons (Cab.8.2.2017/5)

Petitions

6. Petitions received under Standing Order 44 (Cab.8.2.2017/6)

Items for Decision/Recommendation to Council

Corporate Services Spokesperson

7. Service and Financial Planning 2017/18 - Revenue Budget, Capital Programme and Council Tax (Cab.8.2.2017/7) (Pages 11 - 144)
RECOMMENDATION TO FULL COUNCIL ON 23RD FEBRUARY, 2017
8. 2017/18 Treasury Management Policy and Strategy Statement (Cab.8.2.2017/8)
(Pages 145 - 202)
RECOMMENDATION TO FULL COUNCIL ON 23RD FEBRUARY, 2017
9. Prudential Indicators 2017/18 (Cab.8.2.2017/9) (Pages 203 - 216)
RECOMMENDATION TO FULL COUNCIL ON 23RD FEBRUARY, 2017
10. Redundancy Compensation and Procedures 2017/18 (Cab.8.2.2017/10)
(Pages 217 - 220)
RECOMMENDATION TO FULL COUNCIL ON 23RD FEBRUARY, 2017
11. Census 2021 - Trialling of Questions in Barnsley (Cab.8.2.2017/11)
(Pages 221 - 224)

Place Spokesperson

12. Sports Facilities and Playing Pitch Strategy (Cab.8.2.2017/12) (Pages 225 - 240)

People (Achieving Potential) Spokesperson

13. Proposed School Term and Holiday Dates 2018-19 (Cab.8.2.2017/13)
(Pages 241 - 260)

Communities Spokesperson

14. Unauthorised and Illegal Encampment Protocol (Cab.8.2.2017/14)
(Pages 261 - 294)
15. Exclusion of Public and Press
It is likely that the public and press will be excluded from this meeting during consideration of the items so marked because of the likely disclosure of exempt information as defined by the specific paragraphs of Part I of Schedule 12A of the Local Government Act 1972 as amended, subject to the public interest test.

Corporate Services Spokesperson

16. Building Schools for the Future Re-Financing Position (Cab.8.2.2017/16)
(Pages 295 - 306)
Reason restricted:
Paragraph (3) Information relating to the financial or business affairs of any particular person (including the authority holding that information)

To: Chair and Members of Cabinet:-

Councillors Houghton CBE (Chair), Andrews BEM, Bruff, Cheetham, Gardiner, Howard, Miller and Platts

Cabinet Support Members:

Councillors Cherryholme, Franklin, Frost, David Griffin, Lamb and Saunders

Chair of Overview and Scrutiny Committee

Chair of Audit Committee

Diana Terris, Chief Executive

Rachel Dickinson, Executive Director People

Matt Gladstone, Executive Director Place

Wendy Lowder, Executive Director Communities

Julia Burrows, Director Public Health

Frances Foster, Director Finance, Assets and Information Services

Andrew Frosdick, Director Legal and Governance

Alison Brown, Service Director Human Resources

Katie Rogers, Communications and Marketing Business Partner

Anna Morley, Scrutiny Officer

Ian Turner, Service Director, Council Governance

Corporate Communications and Marketing

Labour Group Room – 1 copy

Please contact Ian Turner on 01226 773421 or email governance@barnsley.gov.uk

Tuesday, 31 January 2017

MEETING:	Cabinet
DATE:	Wednesday, 25 January 2017
TIME:	10.00 am
VENUE:	Reception Room, Barnsley Town Hall

MINUTES

Present Councillors Houghton CBE (Chair), Andrews BEM, Bruff, Cherryholme (for Cheetham), Gardiner, Howard, Miller and Platts

Members in Attendance: Councillors Franklin, Frost, David Griffin, Lamb, Saunders and Sheard

169. Declaration of pecuniary and non-pecuniary interests

There were no declarations of pecuniary or non-pecuniary interests.

170. Leader - Call-in of Cabinet decisions

The Leader reported that no decisions from the previous meeting held on 11th January, 2017 had been called in.

171. Minutes of the previous meeting held on 11th January 2017 (Cab.25.1.2017/3)

The minutes of the meeting held on 17th January, 2017 were taken as read and signed by the Chair as a correct record.

172. Decisions of Cabinet Spokespersons (Cab.25.1.2017/4)

There were no Records of Decisions by Cabinet Spokespersons under delegated powers to report.

173. Action Taken Under Paragraph B6 of the Responsibility for Executive Functions - Officer Delegations Contained in the Council Constitution (Cab.25.1.2017/5)

RESOLVED:-

that the action taken under Paragraph B6 of the Responsibility for Executive Functions – Officer Delegations, as contained with the Appendix attached to the report now submitted and detailed below, be noted:

Decision of the Executive Director Place, after consultation with the Cabinet Spokesperson for Place to accept the clause within the Heads of Terms, that once solicitors have been instructed, the Council agree to pay a specified amount to the cinema operator, should the Council not exchange an agreement to lease with the said cinema operator as part of the Better Barnsley Scheme. At the point of exchange of the agreement to lease this clause falls away.

174. Petitions received under Standing Order 44 (Cab.25.1.2017/6)

It was reported that no petitions had been received under Standing Order 44.

Communities Spokesperson

175. Disabled Facilities Grant Policy (Cab.25.1.2017/7)

RESOLVED that the proposed revised Disabled Facilities Grant Policy 2016, as set out in Appendix 1 of the report now submitted, be approved and adopted by the Council.

Cabinet Support Member for People (Achieving Potential) Spokesperson

176. Admission Arrangements for Community and Voluntary Controlled Primary and Secondary Schools for the 2018-19 School Year (Cab.25.1.2017/8)

RESOLVED that the proposed admission arrangements for Community and Voluntary Controlled Primary and Secondary Schools for the 2018-2019 school year, as detailed in the report now submitted, be approved.

177. Co-ordinated Scheme for Admission to Primary and Secondary Schools for the 2018-19 School Year (Cab.25.1.2017/9)

RESOLVED that the proposed scheme for Co-ordinating the Admission to Primary and Secondary Schools for the 2018-2019 school year, as detailed in the report now submitted, be approved.

.....
Chair

BARNSLEY, DONCASTER AND ROTHERHAM JOINT WASTE BOARD

BARNSLEY, DONCASTER AND ROTHERHAM JOINT WASTE BOARD

Friday, 30th September, 2016

Present:- Councillor P. R. Miller (Barnsley MBC) (in the Chair); Councillors S. Allen and E. Hoddinott (Rotherham MBC), Councillor G. Jones (Doncaster MBC), together with Mrs. L. Baxter and Mrs. K. Hanson (Rotherham MBC), Mr. P. Castle (Barnsley MBC) and Mr. L. Garrett (Doncaster MBC).

Apologies for absence were received from Councillor C. McGuinness (Doncaster MBC), Councillor B. Lodge (Sheffield City Council), Mrs. G. Gillies (Doncaster MBC), Mrs. G. Charters (Sheffield City Council) and from Mr. J. Busby (DEFRA).

15. DECLARATIONS OF INTEREST

There were no Declarations of Interest made at this meeting.

16. MINUTES OF THE PREVIOUS MEETING HELD ON 1ST JULY, 2016

Consideration was given to the minutes of the previous meeting of the Barnsley, Doncaster and Rotherham Joint Waste Board, held on 1st July, 2016.

Agreed:- That the minutes of the previous meeting of the BDR Joint Waste Board be approved as a correct record for signature by the Chairman.

17. MATTERS ARISING

The following matters arising from the minutes of the previous meeting of the BDR Joint Waste Board were discussed:-

(1) Minute No. 6(2) – the revised Inter-Authority Agreement (IAA.3) has been finalised and signed by each constituent Authority.

(2) Minute No. 8 – a separate meeting for Elected Members is to be arranged for consideration of the Waste Compositional Analysis.

18. BDR JOINT WASTE PROJECT - MANAGER'S REPORT

The Barnsley, Doncaster and Rotherham (BDR) Joint Waste Manager submitted a report which highlighted and updated the following issues relating to the Joint Waste Private Finance Initiative (PFI), for the period June to August 2016:-

: the Inter-Authority Agreement 3 has now been signed by all three constituent, BDR, local authorities;

: the BDR Joint Waste Manager has presented the Joint Waste Project Annual Report 2015/16 to the South Yorkshire Local Authorities' Leaders' meeting;

BARNSELY, DONCASTER AND ROTHERHAM JOINT WASTE BOARD

- ⊖ Rotherham MBC Internal Audit Team is undertaking the second audit of the procedures and processes of the BDR contract compliance team;
- ⊖ contract delivery and performance (Bolton Road facility);
- ⊖ recycling and diversion (the contents of the BDR Manager report was noted);
- ⊖ waste composition (including analysis for each of the three local authorities individually);
- ⊖ complaints (about flies and noise); total complaints in 2014/15 and in 2015/16;
- ⊖ health and safety - it was noted that there had been a fire at the facility in the quarantine bay that had resulted in attendance at site by the South Yorkshire Fire Service. Another smaller fire had occurred in a shredder pit, the foam was activated and no further action was necessary.
- ⊖ compliance issues, April to August 2016;
- ⊖ Ferrybridge facility;
- ⊖ Grange Lane facility;
- ⊖ communications – the BDR PFI project has been successful in the Best Energy from Waste Initiative category in the National Recycling Awards 2016;
- ⊖ recycling week events, 12th to 18th September, 2016;
- ⊖ legal issues;
- ⊖ financial issues.

Members discussed the following the issues:-

- the impact of the commodities market, including fluctuations in the price of oil, on the value of recycled plastic;

- the waste composition analysis will begin on 10th October, 2016 and will repeat the kerbside analysis of domestic refuse which had been utilised in 2009 and in 2014, to facilitate meaningful comparison; the analysis of waste at the household waste collection sites and of trade waste will also be undertaken.

Agreed:- That the BDR Manager's report be received and its contents noted.

19. BDR JOINT WASTE PROJECT - CURRENT ISSUES

The Barnsley, Doncaster and Rotherham (BDR) Joint Waste Manager reported on the following current issues affecting the Bolton Road facility at Manvers:-

(a) Noise - the requirement was for the site noise level to remain below ten decibels; the results of the most recent noise-level test are not yet available; the complaints received will be analysed by frequency, post code and also date to ascertain whether there are repeat or new complainants and whether there is any specific seasonal trend;

(b) Flies – the chemical treatment has been altered to try and secure an improved means of prevention of flies on the site; there is already a known seasonal, weather-dependent trend affecting the problem of flies on the site, together with a history of complaints being received from residents of the local area over several years.

Agreed:- That the information be noted.

20. RISK REGISTER

The Barnsley, Doncaster and Rotherham Joint Waste Board considered the updated Waste PFI risk status report (risk register) which had been maintained during the various stages of the joint waste project. The report stated that thirteen risks are registered, with none being added nor deleted since the last Joint Waste Board meeting held on 1st July, 2016. There had been one downward movement in 'target' risk score, since the July meeting, in relation to the Environmental Impact risk, which was due to the mitigation measures used by the contractor relating to the issues of noise and flies affecting the Bolton Road site.

It was clarified that the existing risk register relates only to the BDR PFI contract, although the development has begun of a wider ranging risk register for the partnership working on waste disposal in South Yorkshire.

Agreed:- (1) That the updated information on the risk status report, as now submitted, be received.

(2) That, currently, there are no risks to be added to, nor deleted from the BDR PFI risk register.

21. EXCLUSION OF THE PRESS AND PUBLIC

Agreed:- That, under Section 100A(4) of the Local Government Act 1972, the press and public be excluded from the meeting for the following items of business on the grounds that they involve the likely disclosure of exempt information as defined in Paragraph 3 of Part 1 of Schedule 12A to the Local Government Act 1972 as amended (information relating to the financial/business affairs of any person (including the Joint Waste

Board)).

22. BDR PFI BUDGET UPDATE 2016/17

Consideration was given to the Budget Summary, as at August 2016, for the Barnsley, Doncaster and Rotherham Joint Waste Private Finance Initiative (PFI). It was noted that current expenditure remained within the agreed budget. Discussion took place on the desirability of continuing to include a contingency sum within the budget, to fund any unexpected and/or unplanned items of expenditure.

Agreed:- (1) That the report be received and its contents noted.

(2) That, at future meetings of this Joint Waste Board, the budget summary report be included on the agenda as an open item.

**23. SOUTH YORKSHIRE WASTE STRATEGY 2016 - 2021
(CONSULTATION DRAFT)**

The Barnsley, Doncaster and Rotherham Joint Waste Manager submitted a report which provided both analysis and evaluation of the results of the South Yorkshire Waste Strategy (SYWS) consultation, which had been conducted over an eight weeks' period during the Summer, 2016 across the county, ending on 31st July, 2016. The report also detailed the methodology and approach of the consultation process, which included questionnaire data and thematic analysis of qualitative data.

The results of the consultation identified that stakeholders either strongly agreed or agreed with the proposed priorities. The analysis revealed that priorities were ranked in the following order : A (Educate and inspire), C (Reliable service), B (Working together), D (Exploring technology) and E (Influencing decision-making). Analysis of the qualitative data provided more insight into the meaning of these priorities in context for stakeholders.

The report concluded that the qualitative and quantitative data both support the four Councils' proposed priorities for the SYWS. This information is to be used to inform the SYWS collective approach for the next five years, as well as individual Council's action plans.

Members suggested that the specific themes for each of the four individual Local Authority areas ought to be listed within the report.

It was noted that a working group would shortly be established to consider the proposed all-service review, as well as the need to engage Elected Members in the review.

Agreed:- That the report be received and its contents noted.

24. DATE, TIME AND VENUE FOR THE NEXT MEETING

BARNSLEY, DONCASTER AND ROTHERHAM JOINT WASTE BOARD

Agreed:- (1) That the next meeting of the Barnsley, Doncaster and Rotherham Joint Waste Board be held on Friday, 16th December, 2016 at the Town Hall, Rotherham, commencing at 2.00 p.m. and an invitation be extended to the representatives of Sheffield City Council to attend this meeting.

(2) That, if necessary, a meeting of the Barnsley, Doncaster and Rotherham Joint Waste Board be held on a date to be arranged during March, 2017.

(3) That the next annual meeting of the Barnsley, Doncaster and Rotherham Joint Waste Board be held on a date to be arranged during June or July, 2017 at the Town Hall, Rotherham, commencing at 2.00 p.m.

MEETING:	Cabinet
DATE:	Wednesday, 8 February 2017

2017/18 – 2019/20 SERVICE AND FINANCIAL PLANNING

CONTENTS

- 1 Local Government Act 2003 - Section 25 Report *(Pages 3 - 8)*
- 2 Overview of Financial Planning for 2020 *(Pages 9 - 18)*
 - 2a Medium Term Financial Forecast *(Pages 19 - 22)*
- 3 Budget Recommendations *(Pages 23 - 26)*
- 4 Summary of 2020 Council Budget Plans
 - 4a 2017/18 Budget Summary *(Pages 27 - 28)*

Section 1

2020 FUTURE COUNCIL

LOCAL GOVERNMENT ACT 2003, SECTION 25 REPORT ON THE 2017/2018 BUDGET PROPOSALS

1. Purpose of the Report

- 1.1 To provide, in accordance with the requirements of Section 25 of the Local Government Act 2003, advice from the Authority's Chief Finance Officer (CFO) on aspects of the 2017/18 Budget Proposals.

2. Background

- 2.1 Part 2 of the Local Government Act 2003 contains a series of duties and powers that give statutory support to aspects of good Financial Management within Local Government.
- 2.2 Section 25 requires the CFO to report to an Authority, when it is making its decision on determining the council tax, providing advice on the following issues:
- The robustness of the estimates included in the budget
 - The adequacy of the reserves the budget will provide
- 2.3 The CIPFA Prudential Code also requires consideration to be given to the affordability and prudence of capital investment, given its impact on the revenue budget.

3. Advice of the Chief Finance Officer

- 3.1 This report is based on the Budget Recommendations as set out in **Section 3** of the 2017/18 Budget documentation.

Robustness of the Estimates

- 3.2 As Members are aware, the setting of the 2017/18 Revenue and Capital budgets is the first stage of the Financial Plan for 2020 that will form the framework for the budget for the next 3 years. As part of this process consideration has been given to various pressures and key priorities for inclusion within those budgets.
- 3.3 Given the difficult financial environment facing Local Government the emphasis has been given to ensuring that any risks associated with the budget have been clearly identified to ensure that properly informed and prioritised decisions are made.
- 3.4 Members have also been made aware throughout this year's process that there are significantly greater risks in relation to overall funding levels, given the Business Rates Retention system and the local Council Tax discount scheme.

3.5 This assessment therefore reflects this changing financial environment in addition to the specific proposals contained within the budget.

3.6 In terms of expenditure estimates, which are included in the proposed budget, I would offer the following comments:

(i) ***Pay Inflation Assumptions***

A provision for the pay award of 1% increase in 2017/18 and future years taking account of the Government's general position on public sector pay. Further consideration may need to be given to this provision if that position changes.

A provision has also been made in relation to the potential impact of the introduction of the living wage on external contracts. The full impact will need to be monitored and managed during the year.

(ii) ***Interest Rate Assumptions***

A prudent view of interest rates has been taken in constructing estimates for interest charges in 2017/18 and future years. Whilst these estimates are considered to be adequate at this point in time, interest rates will inevitably rise at some future point and therefore Capital Financing operations will need to continue to be monitored closely throughout the year by the established Treasury Management Panel, to facilitate timely action designed to optimise the Authority's position.

(iii) ***Service Pressures***

The budget for 2017/18 and forecasts for future years contains some significant increases in expenditure that are a result of increasing demand on services, particularly around social care. Whilst some of these have been quantified as far as is possible, the nature of the services means that demand can be difficult to predict. I have no reason to believe that the current assumptions are not robust but it is vital that these areas are monitored closely during the year so that any action required can be taken in a timely manner.

3.7 In relation to the income estimates that form the proposed budget, I would offer the following comments:

(i) ***Council Tax Income Assumptions***

The estimates for Council Tax Income are based on a collection rate of 95%. This remains at the same level as last year and reflects the anticipated ongoing impact of the revised local Council Tax Discount scheme. Although at this stage I have no reason to believe that this is not a robust assumption, given the changes, the position will need to be closely monitored during the course of the year.

(ii) ***Business Rates Income Assumptions***

Under the current Business Rate Retention scheme, Barnsley retains 50% of the total income collected. Clearly there is the potential for volatility around this income source, in relation to the overall level of businesses in the Borough and also in relation to any appeals that are already within the 'system' that will fall to the Council to fund. At this stage the expected income of £22.032m included within the budget is, I believe, based on prudent assumptions after taking account of the national revaluation position. However the position will need to be closely monitored during the course of the year.

Adequacy of Reserves

- 3.8 **Section 10** of the Budget papers sets out the position in relation to the current level of Provisions, Reserves and Balances available to the Authority.
- 3.9 As indicated in that paper, the current Minimum Working Balance held by the Authority remains at £15m as agreed last year. I consider that this level remains prudent.
- 3.10 The paper also indicates the current levels of all other earmarked Reserves and Provisions and a review of these has taken place during the year to ensure their continued validity and to make additional earmarking where appropriate. Against this backcloth I consider the current levels to be adequate. However, it is appropriate and necessary that ongoing monitoring should be applied to these levels in the light of any changing circumstances and a further review will be carried out as an integral part of the 2016/17 Accounts closure.
- 3.11 The current strategic reserves strategy also identifies additional resources that will be potentially available over the planning period of £63.1m of which £31.7m is currently 'banked'.
- 3.12 The Council's investment priorities over the period to 2020 have also been considered and it is recommended that £56m of our potential available resources be earmarked for identified schemes. It is however recommended that subject to individual business cases, only resources only up to the amount of £31.7m actually 'banked' is released during the year.
- 3.13 This would leave no additional resources for 2017/18, however at this stage I feel this is prudent given other earmarking's against potential risks. Clearly this position will need to be reviewed during the year if circumstances change.

Prudence and Affordability

- 3.14 The current Prudential Borrowing regime places a duty on the CFO to ensure that the financial impact of decisions to incur additional borrowing over and above that supported by Government are affordable both in the immediate and over the longer term.
- 3.15 Consideration of all new Capital Schemes and their revenue impact is therefore undertaken alongside other Revenue service issues to ensure that resources are allocated in accordance with the Authority's overall priorities and within the overall resources available.
- 3.16 The budget includes provision for £5.0M of Prudential Borrowing which has already been earmarked to support the priorities of the Jobs and Business Growth Plan and Town Centre Redevelopment. The position on any additional capital resources arising over the planning period will continue to be monitored throughout the year and further consideration given to their use.

Medium Term Financial Strategy and Budget Reduction Measures 2017/2020

- 3.17 A balanced 2017/18 budget can be delivered through the agreement of the proposals within the budget papers. However, this view is contingent upon the additional matters identified at 3.6 (iii) above and 3.18 below.
- 3.18 The draft budget for 2017/18 is again based upon a significant volume of budget reduction measures and there needs to be a strong and sustained focus on ensuring the timely and comprehensive implementation of these measures.
- 3.19 Whilst the Council has accepted the 4 year deal on funding from the Government to provide some certainty over the planning period, there still remain uncertainties around the overall level of resources which will be available to Local Authorities going forward particularly given the Governments ambition to move to full localisation of Business Rates and the potential for further cuts.
- 3.20 Although the medium term plan provides for known pressure over the planning period, any additional pressures that may be identified will need to be considered as part of future budget processes. Members therefore need to be mindful that if these pressures cannot be contained, then the gaps already identified within the current MTFP paper at **Section 2i** have the potential to increase.

Budget Recommendations

- 4.1 As indicated in the 3 year forecast at **Section 2i**, based on the Budget Recommendations a balanced budget would be set for 2017/18.
- 4.2 This would also see Minimum Working Balances maintained at £15.0M and an additional £56.0M of reserves available to be earmarked in support of future investment over the planning period.

- 4.3 The proposals identified within the budget papers also provide the framework around which Future Council 2020 can be delivered and balanced budgets achieved over the planning period based on the current assumptions.
- 4.4 It is however clear that these assumptions will change and therefore further action is likely to be needed to ensure that the plan remains on track in future years. However, as previously stated a strong focus must be given to ensuring the achievement of the service changes and associated savings agreed over the planning period and particularly for 2017/18.
- 4.5 **In summarising my advice, I would stress that the robustness of the estimates and adequacy of the reserves which the budget will provide are satisfactory. However, this is contingent upon the requirements outlined at paragraphs 3.17 and reiterated at paragraph 4.4 being delivered.**

Section 2

2020 FUTURE COUNCIL

BUDGET OVERVIEW OF FINANCIAL PLANNING FOR 2020

1. Purpose of the Report

- 1.1 This paper provides an update on the Council's Financial Planning position for 2020 and its impact on the formulation of our Future Council budget for 2017/18.

2. Background/ Context

The Council's Funding Position

- 2.1 The Council's 2016/17 budget was approved on 25th February 2016 leaving a remaining budget gap of £28M to address by 2020.
- 2.2 As part of the process for addressing the gap, Cabinet approved the Medium Term Financial Strategy (MTFS) for 2020 in September 2016. This outlined how the Council would align its existing and future resources to the agreed priorities underpinning Future Council 2020 and set out clearly the financial challenges we would face in doing so. The MTFS also provided a further updated position and as a result of mitigations identified the budget gap was reduced from £28M to £17.8M for the period through to 2020.
- 2.3 The Government had previously made an offer to Local Government that would guarantee the level of RSG for the next 4 years that was published as part of the 2016/17 settlement. This guarantee was predicated on local authorities submitting and publishing an efficiency plan. The Council accepted this offer and our Efficiency Plan was published in October 2016.
- 2.4 The Cabinet also considered, in September 2016, the first phase of efficiency proposals for 2020, totalling £12.7M to help bridge the gaps identified in the MTFS. The Council's 2017-2020 position as at September 2016 is shown below:-

	<u>2017/18</u>	<u>2018/19</u>	<u>2019/20</u>	<u>Total</u>
	<u>£M</u>	<u>£M</u>	<u>£M</u>	<u>£M</u>
Potential Gap – September 2016	4.550	6.359	6.890	17.799
Phase 1 - Proposals	-4.021	-3.701	-4.940	-12.662
Revised Gap – September 2016	0.529	2.658	1.950	5.137

3. Barnsley's Draft 2017/18 Local Government Settlement

Business Rate Retention (BRR) Scheme

- 3.1 The provisional Local Government Finance Settlement was announced on 15th December. This outlined the funding resources for the Business Rates Retention (BRR) scheme that was implemented in April 2013 split between:-
- Baseline Funding (eg Local Share of Business Rates/ Top Up Grant);
 - Revenue Support Grant (RSG).
- 3.2 To remind Members, the purpose of the BRR scheme is to allow local authorities to retain 50% of any income it raises locally on business rates (known as the 'local share') and pass the other 50% over to central Government.
- 3.3 The draft settlement confirms that Barnsley's RSG is in line with the 4 year offer and whilst the overall position for baseline funding is largely in line with the 4 year offer, the composition has changed. A national scheme for revaluating business rates was carried out during this financial year to take effect from 1 April 2017. The Government promised that revaluation would have a neutral impact on local authorities and as such top up grant has increased to compensate for business rates going down in the Barnsley area.
- 3.4 This revised settlement position is in line with the Authority's own expectations. It should be noted that what we actually collect locally may differ from the Government's expected share due to local circumstances. The Council has already taken a decision not to include any growth for local share in 2017/18 in order to reflect the disruption caused by the town centre redevelopment and is the main reason why our forecast position differs from the government's settlement position. There are a number of other changes to the composition of funding in the revised settlement however the overall impact on our forecast is neutral as shown below:-

	Original Forecast 2017/18 £M	Revised Forecast 2017/18 £M	Diff £M
Local Share of Business Rates	25.440	22.032	+3.408
Top Up Grant	27.179	30.342	-3.163
Revenue Support Grant (RSG)	25.260	25.260	-
Funding via BRR scheme	77.879	77.634	+0.245
S31 Grant - 2% capping & SBRR*	1.994	2.239	-0.245
Total Funding	79.873	79.873	+0.000

3.5 The revised settlement also included announcements on other funding streams that impact on the forecast and/or reserves strategy. These are set out below.

New Homes Bonus (NHB)

3.6 The Government confirmed the consultation proposals that it would seek to reduce NHB from a rolling 6 year position to 5 years in 2017/18 and 4 years in 2018/19. In addition the government also announced it would only pay grant to local authorities that achieve a 0.4% increase in growth. It currently pays NHB on any increase in growth. The impact on NHB allocations is shown in the table below:-

	2017/18 £M	2018/19 * £M	2019/20 * £M
NHB Allocation	5.2	4.0	3.9

* figures taken from the Government's spending power projections

3.7 The impact on the MTFs reserves strategy has marginally improved (**see Section 8**) for funding capital new starts as only £4M p.a. was prudently set aside from NHB over the next 3 years to reflect the consultation proposals. However it should be noted that future NHB funding does depend upon the actual number of homes built which may impact on the above estimates.

Improved Better Care Fund

3.8 Government re-affirmed the improved Better Care Fund allocations for Barnsley that were announced last year and included in the forecast. These are £1M in 2017/18, £5.9M in 2018/19 and £10.1M in 2019/20.

Adult Social Care Grant

3.9 The Secretary of State for DCLG also introduced a new Adult Social grant. This is a one year only grant worth £1.2M for Barnsley and included in the forecast. It should however be noted that this is not 'new' monies but was the result of top-slicing of the monies previously allocated from the NHB. In overall terms Barnsley lost slightly from this change in methodology.

Adult Social Care Council Tax Precept

3.10 The Chancellor had previously announced that local authorities could increase council tax by 2% per annum over the next 3 year period to support Adult Social Care pressures. The Government announced that local authorities could accelerate this increase to 3% in the next two years with a nil increase in 2019/20 ie the overall impact is neutral over the next 3 years.

- 3.11 This flexibility is offered in recognition of demographic changes which are leading to a growing demand for Adult Social Care, with consequential higher cost pressures on council budgets. See para 6.4 for the overall Council Tax position for the Council.
- 3.12 The Council Tax options for the Council are set out in Section 7, however at this time the assumption in this report is that we will take advantage of the 3% increase in 2017/18 to fund pressures and that this will add an additional £0.8M into our base.

4. Implications of the Local Government Settlement / Other changes to MTFS

Revenue

- 4.1 As outlined at section 3 the impact of the draft 2017/18 settlement has been broadly neutral for Barnsley. However there have been a number of other changes since the September position that have impacted the forecast. These are summarised below:-

	<u>2017/18</u> <u>£M</u>	<u>2018/19</u> <u>£M</u>	<u>2019/20</u> <u>£M</u>	<u>TOTAL</u> <u>£M</u>
Revised Gap (Sept 2016)*	+4.550	+6.359	+6.890	+17.799
<u>Additional Pressures</u>				
Town Centre – Policy Decisions	+1.605	+0.137	-0.474	+1.268
Other Changes (Pensions/ ESG/NNDR)	+1.180	+0.220	-0.400	+1.000
Unavoidable Pressures - Demographics	+1.000	+1.000	+2.500	+4.500
Revised Gap (Dec 2016)*	+8.335	+7.716	+8.516	+24.567
<u>Mitigations</u>				
Use of BCF (net of investments)	-0.800	-3.900	-3.400	-8.100
Additional Mitigations (MRP reprofiling etc)	-1.046	-0.353	-0.230	-1.629
Council Tax increase @ 4.9% in 17/18	-0.807	-	-	-0.807
Adult Social Care grant	-1.244	+1.244	-	-
Revised Gap (Jan 2017)*	+4.438	+4.707	+4.886	+14.031
Phase 1 Proposals (adjusted)	-4.057	-3.512	-5.010	-12.579
Phase 2 Proposals	-0.381	-1.061	-0.923	-2.365
Revised Future Council 2020 Gap	0.000	+0.134	-1.047	-0.913

* Assuming permanent savings achieved to meet previous years deficits

4.2 The revised position is based on the following key forecast assumptions:-

- Assuming permanent savings achieved to meet the previous years' deficit;
- Pay award in 2017/18 to reflect the final employer offer which is an average 1% increase;
- Assuming a 1% per annum pay increase (2018/19 onwards) and a provision for contract inflation;
- Council Tax based on a 4.9% increase in 2017/18 and 2.9% thereafter (see Section 7);

Capital

4.3 The Council's Reserves Strategy (as outlined in the Council's MTFS) projected out the level of funding available to fund capital new starts through to 2020. A list of prioritised schemes is provided in the indicative Capital Programme report at Section 6. A contingency amount of around £7.2M has been set aside to mitigate against adverse variances. See **Section 6** for further details.

5. Funding for Schools / Education services

5.1 Details of the Dedicated Schools Grant (DSG) were also announced on 20 December 2016 and included details of the DSG allocations and other schools / education related funding such as the Pupil Premium Grant (PPG), Education Services Grant (ESG), etc.

Dedicated Schools Grant (DSG)

5.2 The schools' revenue funding settlement for 2017/18 confirmed Barnsley's Dedicated Schools Grant funding allocations for schools. DSG funding continues to be based on the current 'spend-plus' methodology and is set out in three spending blocks (schools; early years and high needs blocks). It should be noted that the anticipated implementation of the new national funding formula (intended to address the current unfairness in funding) has now been deferred to 2018/19.

The following are the main highlights for Barnsley as announced in the settlement:

- The total DSG allocation for Barnsley for 2017-18 is £165.2m before adjusting for transfer of funding relating to academies (£159.2m in 2016/17). The increase of £6m is mainly attributable to increased

funding for pupil numbers, funding transfers relating to ESG retained duties (previously allocated to the Council) and the extension to the early years 30 hours free entitlement for working parents (for 3 and 4 year olds). The DSG allocation for Barnsley is comprised of the following:

- schools block £137.4m
- early years block £ 14.1m
- high needs block £ 13.7m

- The **schools block** funding has been derived using the adjusted schools per pupil unit of funding for Barnsley of £4,491 (as notified by the DfE in July 2016 and is consistent with the amount for 2016/17). There is no real term uplift for inflation within the confirmed funding per pupil. The funding for academies although included in the total schools block allocation for Barnsley will be paid directly to academies by the Government;
- The school block funding for 2017/18 has risen by £3m due to an increase in pupil numbers (+707 when compared to 2016/17) and £0.5m additional funding transfer from the previous education services grant (for LA retained duties to maintained schools / academies);
- **Early years block** £14.1m is comprised of the following funding: 15-hour entitlement for 3 and 4 year olds (including the extension to 30 hours from Sept for working parents); participation funding for 2 year olds; early years' pupil premium and the newly introduced disability access fund. It should be noted that the early years block allocation includes an increase in funding (£0.8m) to Barnsley as a result of the implementation of the new **national early years funding formula** (which was consulted upon over the summer 2016). Under the new national formula, Barnsley's early years funding rate per hour (for 3-4 year olds) will increase from £3.92 to £4.30;
- Barnsley's **high needs block** allocation includes increased funding of £470k to reflect the additional resources (£130m) distributed by the Government to all local authorities (based on population uplift and growth). The allocation for Barnsley of £13.7m has been adjusted to reflect high needs places that are funded directly by the Education Funding Agency (EFA) e.g. special academies, FE colleges.

5.3 The Government is committed to introducing a new schools National Funding Formulae (for schools and high needs funding blocks) that would address the current unfairness and inequity allocation of funding. A stage 2 consultation has been launched, which sets out some key funding proposals as well as indicative DSG allocations under the new proposed national funding formula.

5.4 The new national formula is not expected to be in place until 2018/19. The indicative allocations showed an increase in schools / high needs funding of **£11.9m** for Barnsley if the new NFF is implemented fully. This represents a 7.7% increase against the current adjusted baseline funding. This puts Barnsley in the top quartile of authorities benefiting under the proposed new schools NFF (Barnsley has the highest gain in Yorkshire & Humber). However, the above gain has been mitigated by the transitional protection – under which gains have been limited to 2.4% (**£3.7m**) in 2018/19 (the first year of the new NFF).

Individual schools budgets 2017/18

5.5 The DSG settlement for schools is as expected and not significantly different from budget planning assumptions as reported to the Schools Forum in October 2016. Barnsley's 'Authority Proforma Tool' (funding model used to determine the budgets for individual schools) has been updated by the DfE using the October 2016 census data. No significant changes to the funding model are proposed to be implemented for 2017/18 and no major changes are envisaged on the level of funding to be centrally retained by the Council (with the exception of the ESG retained duties funding included within DSG which would need to be retained centrally). Therefore budgets for schools will be on a consistent basis as in 2016/17. Consultation on the 2017/18 schools budgets with the Schools Forum will take place on 12 January 2017, at which approval of the level of DSG budgets to be retained centrally will be sought.

5.6 To ensure stability in individual schools budgets, a minimum funding guarantee for schools will apply at the Government recommended level. This will ensure that no school will see a reduction of more than a 1.5% per pupil in their 2017-18 budgets compared to 2016-17.

Pupil Premium Grant (PPG)

5.7 The PPG is based on the number of eligible disadvantaged pupils (i.e. pupils on free school meals); number of Armed Forces' children and number of pupils that are looked after by the authority. From 2017/18, the PPG per pupil amount will remain the same as the current year i.e.

- Disadvantaged pupils (primary) £1,320
- Disadvantaged pupils (secondary) £935;
- Pupils looked after by the authority or adopted from care (pupil premium plus) £1,900;
- Service children £300.

5.8 Overall, the PPG allocation for Barnsley (including academies) for 2017/18 is currently estimated at £7.2m (based on 2016/17 pupil count). Final allocations for 2017/18 will not be confirmed until the summer of 2017 as it is based on the January 2017 pupil census count.

Other Schools grant funding

- 5.9 The Government has confirmed the continuation of the following schools grant funding into 2017/18: Universal Infant Free School Meals (UIFSM); Year 7 catch-up premium; and the primary PE and sport premium. Details of allocations will be confirmed in the new year.
- 5.10 In addition, the Department for Education wrote to local authorities on 20 December confirming Special Educational Needs and Disability (SEND) implementation grant funding of £40 million for 2017 to 2018. This is an increase of £4.2 million from 2016 to 2017. The funding is to continue to support the transition to the new system for SEND and to support local authorities to make effective plans for this important final year of the transition. The allocation for Barnsley is £166k.

Education Services Grant (ESG)

- 5.11 ESG funding was introduced in 2013 to cover the cost of education services provided by local authorities to maintained schools (general duties) and to all schools including academies (retained duties). ESG is currently applied by the Council to part fund services or functions such as school improvement; outdoor education; education welfare service; asset management; education strategic management; etc.
- 5.12 The funding settlement for schools confirmed the cessation of the ESG general duties element (£1.4m FYE) from Sept 2017 and the transfer of the retained duties element (£0.5m) into the Dedicated Schools Grant. However, transitional funding at a reduced per pupil rate (£536k) will be provided to fund ESG general duties for the 5 months April to August 2017. The cessation of the general duties ESG (from Sept) has been accounted for in the Council's MTFS, however the unanticipated reduction in the transitional funding would result in a £89k pressure.
- 5.13 A new annual **schools improvement funding** for local authorities is been introduced from Sept 2017 and will provide £30m to enable LAs maintain their statutory intervention functions and services, such as monitoring and commissioning school improvement support (which is currently funded from ESG).

6. Council Tax Options

- 6.1 Details of the current position on Council Tax can be found at **Section 7** which outlines the resources that could be generated at various levels of increase. In summary each 1% variation in the level of increase equates to approximately £0.8M of Council Tax Income.
- 6.2 The Government has once again confirmed that there will not be a Council Tax freeze grant in 2017/18 and also announced details of the referenda criteria for increasing Council Tax for General Services based on a 2% cap. The precepts levied by the Police and Fire Authorities will also impact upon the overall Council Tax levels for the Borough.

6.3 As mentioned at para 3.10 the Government also announced that local authorities with responsibilities for Adult Social Care will be given flexibility to increase council tax by an additional 3% in 2017/18 and 2018/19 or 6% for the remaining period of this Parliament (2017-2020). This is over and above the 2% referendum threshold for General Services.

6.4 This revised criteria allows local authorities to increase overall Council Tax levels to just below 5% in 2017/18 and 2018/19 but with a reduction to just below 2% in 2019/20. The updated forecast has provision for 4.9% in 2017/18 and 2.9% in 2018/19 and 2019/20. As such, there is scope to increase Council Tax levels by a further 1% over the planning period if Members were so minded. This would generate a further £0.8M in additional income.

7. **Medium Term Budget Forecast**

7.1 In taking decisions in relation to the 2020 budget, it is very important that Members are mindful of potential changes to this position over the Medium Term.

7.2 The broadly balanced position to 2020 is predicated on delivering £15M of KLOE savings and there remain a number of risks/ pressures (eg Social Care issues, retaining BCF at the levels assumed, the volatility of business rates, further government cuts etc) which if they materialise will affect the MTFS position.

7.3 Given these potential risks, ongoing work needs to concentrate on the implementation/ embedding of 'Future Council' over the next 3-5 years.

7.4 Further reports detailing the progress on the Medium Term Financial Strategy will be brought back to Members as part of the ongoing Service and Financial Planning process.

8. **Options for Maintaining a Balanced Budget in 2018/19 and Beyond**

8.1 In order to ensure balanced budgets are delivered in future years, the Council will need to build on the approaches identified to deliver our Future Council 2020 along with more 'traditional' methods of making savings in order to offset any future gaps/ new pressures. These will include:-

- ***Using technology to improve our services*** – continue to invest in channel shift and mobile technology that will maximise our impact and deliver efficiencies from the ways we will work more effectively.

- **Facilitating and accelerating growth** – continue to work holistically as a Council to attract further businesses into the region and drive up business rate income. This will clearly increase in importance as we move towards 100% retention in 2020;
 - **Marshalling our resources to support early help offers** - we will need to redesign our approach so that making use of our community assets is the first port of call for public services so releasing resources for other priorities
 - **Making decisions on what we will stop, start and invest more in doing:** We will pull together our corporate priorities, our core offer and our outcomes and use this foundation to make our decisions about which of our current activities we will stop, as well as which new activities we will start and which of our existing activities we will further invest in.
-
- **Income Generation** – continue to review current levels of charges and investigate the potential for any new areas of income generation;
 - **Additional Funding** – continue to seek to access / influence funding opportunities especially in relation to the Sheffield City Region;
 - **Asset Rationalisation** – review the Authority’s asset base and ensure its relevance to future service needs;
 - **Council Tax Levels** – increased income could be generated by setting Council Tax levels higher than those assumed within the forecast (see para 6.4 for the potential scope) however this needs to be considered within the constraints of needing to go to a local referendum and the capacity of the local taxpayer to pay for higher bills.;
 - **Use of “One Off” resources** – any such use must only be considered as part of a ‘bridging’ strategy whilst permanent reductions in expenditure are delivered.

8.2 Whilst the Council is facing significant cuts, it remains important to note that the Future Council 2020 will still spend around £161M (net) by 2019/20 on services for the residents of Barnsley. Moreover the implementation of the 2020 plan will continue to seek to build on the Future Council model and deliver further efficiencies and improvements in services.

Section 3

2020 FUTURE COUNCIL

2017/18 – 2019/20 BUDGET RECOMMENDATIONS

1. 2017/18 Revenue Budget, Capital Programme and Council Tax

1.1 Further to previous reports submitted by the Director of Finance, Assets and IT.

RECOMMENDED:-

- i) that Cabinet are recommended:-
 - a) that the report of the Director of Finance, Assets and IT under **section 25 of the Local Government Act 2003 at Section 1** be noted and that the 2017/18 budget proposals be agreed on the basis that the Chief Executive and Senior Management Team (SMT), in consultation with Cabinet Spokespersons, submits for early consideration detailed proposals from the ongoing activity in order that the potential budget gaps in 2018/19 and the longer term be closed;
 - b) that the Overview of Financial Planning for 2020 report and forecast budget positions for 2017/18 to 2019/20 contained in **Section 2** be noted and monitored as part of the arrangements for the delivery of the Future Council 2020;
 - c) to consider the budget for all services and approve, for submission to Council, the 2017/18 – 2019/20 budget proposals as separately presented in **Sections 4 and 5**, subject to the submission of detailed implementation reports, as appropriate;
 - d) that the 2020 Directorate spending plans outlined in **Section 6** be noted;
 - e) that the proposed savings in 2018/19 and 2019/20 be agreed subject to further consideration in future budget processes taking account of any further Equality Impact Assessments;
 - f) that the total additional specific funded capital investment of £23.1m as outlined at **Section 7** be included within the capital programme and released subject to further detailed reports on the proposals for its use;
 - g) that the future Council Investment requirements as outlined in Table 1 **Section 7** be agreed to progress to full business cases and be considered by Cabinet on a case by case basis. At this stage approval up to the resources currently available of £31.7m be considered.
 - h) that the detailed proposals for increases in fees and charges as set out in **Section 8** be agreed;
 - i) that **Section 10** (Position on Reserves, Provisions and Balances) be noted;

- j) that the Aggregated Equality Impact Assessment (**Section 11**) of the proposals be noted and the proposed mitigation actions in the report be approved;
- k) that the Council be recommended to approve cash limited budgets for each service with overall net expenditure for 2017/18 of £166.201M (see **Section 4**);
- l) that the Chief Executive and SMT, in consultation with the Cabinet Spokespersons as appropriate, be required to submit reports into Cabinet, as a matter of urgency, in relation to the detailed General Fund Revenue Budget for 2017/18 including recommendations on any action further to that set out above required to achieve an appropriately balanced budget for that financial year;
- m) that the Chief Executive and SMT be responsible for managing their respective budgets including ensuring the implementation of savings proposals;
- n) that the Chief Executive and SMT, in consultation with the appropriate Cabinet Spokesperson, be required to submit regular reports as necessary on the implementation of proposals into Cabinet as a matter of urgency to resolve any outstanding issues in relation to their budgets and deal with any consequential effects;
- o) that the Authority's SMT be charged with ensuring that the budget remains in balance and report regularly into Cabinet on budget/ savings monitoring including any action required;
- p) that the Cabinet be authorised to make any necessary technical adjustments to form the 2017/18 budget;
- q) that appropriate consultation on the agreed budget proposals takes place with the Trade Unions and representatives of Non Domestic Ratepayers and that the views of consultees be considered by Cabinet and the Council;
- r) that the budget papers be submitted for the consideration of the full Council.

2. Council Tax 2017/18

RECOMMENDED:-

that Cabinet note the contents of **Section 9** (2017/18 Council Tax calculation) and that:-

- a) the Council Tax Collection Fund net surplus as at 31 March 2016 relating to BMBC of £1.615M be used to reduce the 2017/18 Council Tax requirement, in line with statute;
- b) the 2017/18 Band D Council Tax increase for Barnsley MBC's services be set at 4.9% (1.9% for Barnsley MBC services and an additional 3% for the Chancellor's Adult Social Care levy);

- c) the Band D Council Tax for Barnsley MBC's areas be determined following confirmation of the South Yorkshire Police Authority and South Yorkshire Fire Authority precepts for 2017/18;
- d) the Band D Council Tax for areas of the Borough with Parish / Town Councils be determined following confirmation of individual parish precepts for 2017/18.

This page is intentionally left blank

Ref	Proposal Theme	Brief Description of Proposal	2017/18 Saving £	2018/19 Saving £	2019/20 Saving £	Full Year Effect £	FTE 2017/18	FTE TOTAL	GROSS EXPENDITURE
<u>COMMUNITIES</u>									
<u>Customer Services</u>									
BU7 E1	Re-Modelling of Customer Services Project:	In response to delivery of the Customer Services Strategy to achieve 70% take up on online transactions we anticipate a new model of customer service face to face contact through the public library service. In addition we will remodel the statutory public library service within a revised financial envelope. The outcome of the public engagement programme with libraries will influence the realisation of savings.	-	-	165,675	165,675	-	-	2,766,847
BU7 E2	Telephony Channel	In response to the delivery of the Customer Service Strategy to achieve 70% take up of online transactions we anticipate a reduced requirement for telephony support through the contact centre.	-	-	144,000	144,000	-	-	773,107
BU7 E4	Reduce resources in Customer Feedback and Improvement Team	The implementation of a new management information system for the Customer Feedback and Improvement function is proposed for Q3/4 2016/17. This will enable the removal of a support role from 2017/18 with a further expected reduction in resources from 2019/20.	20,164	-	31,486	51,650	1.00	1.00	344,066
BU7 E5	Combine two head of service roles into one.	Management restructure	-	-	67,000	67,000	-	1.00	67,000
BU7 E6	Reduce service development resources	Reduce service development resources once support for redesign and remodelling is completed. To be achieved through a restructure.	-	-	205,595	205,595	-	-	296,607
BU7 E7	Supported Living service - review of internal support function	Deletion of support post	17,547	-	-	17,547	1.00	1.00	19,795
BU7 E8	Disabled Facilities Grant & Service Management Team:	Recharge 50% of management costs back to Disabled Facilities Grant. A new policy on DFG is due to come into Cabinet for consideration in December 2016. It is important to note that there is no detriment for users of the grant for this proposal, it will benefit customers by ensuring effective management of the process.	24,000	-	-	24,000	-	-	197,381

COMMUNITIES									
BU7 E9	Electronic Kitchen Management System:	Reduction of post following implementation of School Electronic Kitchen Management System and associated savings from transition to paperless systems.	27,833	49,167	-	77,000	-	-	3,818,290
BU7 E10	Day Opportunities and Enablement Teams	Deletion of current vacancies and continue the day opportunities review.	155,930	-	84,070	240,000	3.60	3.60	2,400,000
BU7 E11	Review Org structure of School Catering Management Team	Take into account Electronic Kitchen Management System impact and also to further improve customer service to schools. Widen scope to improve healthier life choices to schools who buy back.	3,000	6,000	-	9,000	-	-	3,818,290
Sub - Total Customer Services			248,474	55,167	697,826	1,001,467	5.60	6.60	
Safer, Stronger & Healthier Communities									
BU8 E1	Selective licensing	Requires political support and a policy decision. To mitigate this it would appear that the government (through the Housing and Planning Bill) will mandate licenses for all Houses in Multiple Occupation (HMOs). We will need to be clear on our definition of HMOs and thoroughly review the fee structure in line with other areas but the numbers of HMOs are probably in the region of 400 to 500 for Barnsley. Achievement in 2017/18 being subject to Council & DCLG approvals being granted by December 2017.	40,000	105,000	-	145,000	-	-	New Income Generation Proposal - No Current Budget
BU8 E3	Healthier Lifestyle Services	Increase the efficiencies against healthier lifestyle services	-	-	250,000	250,000	-	-	1,000,000
BU8 E4	Welfare Rights redesign	Implement phase 2 of the Welfare Review.	-	-	70,000	70,000	-	-	196,324
BU8 E5	Contract efficiencies	Contract efficiencies through new tender and contract awards for domestic abuse, substance misuse and multiple needs. Assumes cashable savings by providers of 10% in year 3.	-	-	220,000	220,000	-	-	5,545,340
BU8 E6	Volunteering & engagement	Linked to Voluntary and Community Sector review considering reducing team of 3 Volunteering & Engagement Officers to 2, assuming funding advice function can transfer to Voluntary and Community Sector.	30,000	-	-	30,000	1.00	1.00	93,200

2020 SERVICE & FINANCIAL PLANNING

Efficiency Proposals - Phase 1

Ref	Proposal Theme	Brief Description of Proposal	2017/18 Saving £	2018/19 Saving £	2019/20 Saving £	Full Year Effect £	FTE 2017/18	FTE TOTAL	GROSS EXPENDITURE
PLACE									
Economic Regeneration									
BU4 -E1	(ED) Property Investment Fund Income -	Estimated income levels to be obtained from the leasing of PIF units. The saving assumes that 100% of the floor space will be occupied. The 4 units are built following the successful launch of the property investment fund to stimulate investment at Junction 36. Joint proposal with asset management.	10,000	20,000	-	30,000	-	-	no current budget - new income proposal
BU4 -E2	(PLN) Planning Fee Increases	National review of planning fees is currently ongoing. It is expected that this will result in a 6% in the level of fees that can be levied. The last review took place in 2012.	-	50,000	-	50,000	-	-	-843,852
BU4 - E3	(ED) Business Centre Income	Occupancy rates are on the rise at our Managed Workspace (Mount Osborne, Oakwell and the DMC). In addition, rents are expected to increase following a rent review currently being conducted by Asset Management. There is therefore a potential for a further look at how we can commercialise the offer further. (Investment in improved IT to help with the business offer offset by future rent income growth).	-	30,000	-	30,000	-	-	-378,000
BU4 - E4	(PLN) Community Infrastructure Levy Adoption	A one off £65,000 investment is required to fund the adoption of the Community Infrastructure Levy. The investment will be utilised to fund the procurement of a supporting IT system and to fund Examination In Public Adoption of CIL is projected to result in the Council securing an estimated £475,000 annual contribution in CIL (Capital) receipts. This figure is based on an assumption of 500 new qualifying housing permissions each year. Level of contributions will either increase or decrease dependent on permissions actually granted. CIL receipts will be received in a form of capital monies not revenue. However, CIL receipts can potentially be used as a contribution to the delivery of infrastructure priorities identified by the Council or as match funding therefore reducing the call on core Council capital Following the adoption of CIL, the Council has the ability to retain up to 5% of CIL receipts to cover operational costs of the Levy. Monies could potentially be utilised to offset existing revenue cost of 1 grade 3 role and cover maintenance cost of supporting IT system. Estimated realisation date would 01/04/2019 assuming adoption 2017.	-	-	28,000	28,000	-	-	no current budget - new proposal
BU4 - E5	(CROSS CUTTING) - IT Consolidation	Potential consolidation of the Planning & Regulatory Services IT Systems. Total combined maintenance cost of both packages is £44k. Assume a 25% saving equates to £11k efficiency. Significant change estimated realisation 01/04/19.	-	-	11,000	11,000	-	-	44,000

PLACE									
BU4 - E6	Cessation of service provision in specific Community Buildings	Centres no longer have Employment & Skills provision and / or staff attached to them as they were part of the Phase 1 reduction in community assets. Jump Children's Centre is now a Family Centre. Employment & Skills is working with 2 community organisations to explore a community asset transfer this year for Worsborough Common ICT Centre and Blackerhill ICT Centre. If successful associated building costs will cease as these will be taken over by a 3rd party dependent on an approved business plan. If not the buildings will close and all associated costs will cease.	20,000	-	-	20,000	-	-	20,000
Sub -Total Economic Regeneration			30,000	100,000	39,000	169,000	-	-	
Culture, Housing & Regulatory Services									
BU5-E1	Various Income Generation Proposals	Proposals include: - Project management fees for Housing Developments. Proposal is to capitalise current revenue funded project management costs on specific housing developments to be proposed over the next few years. - Burial & Cremation Fees - Inflationary increase in the fees currently charged for the burial and cremation service by approx. 2% p.a. This is in line with increases in recent years and is not expected to be detrimental to the market. - A review of the car parking provision at Elsecar Heritage Centre initially around the holding of Events at the Centre with a full business case being included as part of the wider Elsecar Masterplan	50,000	50,000	50,000	150,000	-	-	-117,243
									-2,150,352
BU5 -E2	External Contributions	Review and re-negotiate contributions made to Barnsley Premier Leisure and the Barnsley Civic Partnership - Barnsley Premier Leisure - Barnsley Civic Partnership	50,000 7,000	75,000 15,000	100,000 28,000	225,000 50,000	- -	- -	531,932 233,260
BU5 -E3	Various Efficiencies Regulatory Services	A full review is to be undertaken within regulatory services looking at efficiencies and charging. This review will include increasing the licencing fees chargeable as well as reviewing charges for theory tests and safeguarding training. Other potential fee increases would include Animal Boarding Establishments, Food Hygiene Training, Land Search fees, Scrap Metal Licence Fees. Reviewing and streamlining the level of technical support including closing the Licencing Duty Office, on the basis of establishing an on-line licence application/renewal system. Also a general review of overhead resources and engaging in a partnership with the National Market Traders Federation to provide advice and support which will be chargeable along similar lines to the current partnership with the National Butchers Federation.	10,000	-	43,000	53,000	-	-	1,706,103

Efficiency Proposals - Phase 1

Ref	Proposal Theme	Brief Description of Proposal	2017/18 Saving £	2018/19 Saving £	2019/20 Saving £	Full Year Effect £	FTE 2017/18	FTE TOTAL	GROSS EXPENDITURE
PLACE Environment & Transport BU6 -E1	Various Income generation	<p>Areas to be reviewed will include:</p> <ul style="list-style-type: none"> - undertaking an annual review of fees and charges with a general increase in rates to reflect inflation / service improvements e.g. a 1% increase in prices (excluding car parking) could generate upwards of £25k additional income per year - Developing a sustainable parking strategy for Barnsley to maximise opportunity in parking revenue and to support economic growth in the town and local centres. AECOM have been commissioned as part of the town centre regeneration to review the car parking usage and strategy for the future. Proposals to include a change to the current Saturday Parking arrangements e.g. only allowing free parking at certain times, introduction of zone parking with different charges in different zones - e.g. market gate/courthouse car parks to be premium charges, introduction of evening car parking charges, improved payment facilities. It is estimated that an additional £75k increase in income can be generated from these changes per annum Yorkshire permit scheme. There is an opportunity to review the roads included within the scheme beyond the primary routes. Some authorities are applying the permit scheme across all roads - opportunity to review this. Review of cost recovery model. Additional income could be in the region of £25K per annum New highways constructed as part of commercial and residential and subsequently adopted. A review of s38 charges to ensure costs are fully recovered from developers. Currently developers are only charged for first inspection - proposal therefore is to introduce charges for subsequent inspections - Additional income of £30k to be generated Commercial Services - Review of services provided via commercial arm e.g. commercial waste, signs etc. This includes better promotion of services together with introduction of new products and services. In addition looking to improve council wide procurement for banners/signage. Estimated to generate additional £20k income per annum 		175,000	200,000	375,000	-	-	-6,271,177

2020 SERVICE & FINANCIAL PLANNING**Efficiency Proposals - Phase 1**

Ref	Proposal Theme	Brief Description of Proposal	2017/18 Saving £	2018/19 Saving £	2019/20 Saving £	Full Year Effect £	FTE 2017/18	FTE TOTAL	GROSS EXPENDITURE
PLACE BU6 -E2	Cross Business Unit Restructure	<p>Succession planning and business continuity:</p> <p>'In recognition of the ageing demographics profile of the service as staff leave, the services will be redesigned with new posts to better reflect the needs of the service. This is about succession planning and building in opportunities for development, apprenticeships and recruitment of more vulnerable groups. Efficiencies will be created through effective workforce development. Approximately 10% of the workforce will be affected. An initial review of service delivery has identified that there are up to 111 roles where a further review to redesign and restructure can be undertaken. At this stage of the planning process it is reasonable to estimate that we will only achieve approximately 50% reduction. Further work will be undertaken during 2017/18 with a proposal to be presented to Cabinet towards the end of the year.</p> <p>- Revised working patterns - Revised working patterns to reduce the reliance on overtime to deliver services thus saving resources set aside for overtime costs.</p> <p>- Restructuring in line with the HR principles co-terminus with the release of benefits through new ways of working.</p>	-	570,000	720,000	1,290,000	-	50.82	14,182,993
BU6 -E3	Service Delivery Re-design	<p>Linked to the wider re-structure a review of existing service delivery is also being undertaken. Key proposals currently being considered include:</p> <p>Waste & Recycling - Ongoing Service Review to determine the best service model for waste collection. This includes a revision of the existing process for collecting missed bins where the non-collection is as a result of the resident. The current practice of returning for missed bins removes daily working capacity from the service and incurs additional cost. Options for change to be explored include issuing residents with identifiable sacks which can be put out on the next scheduled collection. (NB this does not affect the service agreement to return to properties, streets or areas that have not received a collection due to a failure of the service to complete it's daily scheduled work)</p> <p>- Better use of Transfer Station. Currently numerous trips per day are made to the waste transfer station. Better route planning should reduce the number of trips made and result in cost savings</p>		75,000	75,000	150,000	-	-	3,419,491
BU6 -E4	BU functions/Interfaces	<p>Review of service delivery functions to determine aggregation / improved cross business unit and cross directorate alignment opportunities: This proposal should create efficiencies. Key areas to be reviewed</p> <p>- Neighbourhood Services</p> <p>- Park Services</p> <p>- Enforcement Services</p> <p>- Planning services / Development Control / SUD's</p>		-	50,000	50,000	-	-	-2,165,603

<u>PEOPLE</u>									
<u>Education, Early Start & Prevention</u>									
BU1 E1	Co-location of the Targeted Youth Support Service	Proposal to relocate the early intervention and prevention team and the YOT team at 18 Regent street with a customer facing building at 20 Regent street. This will result in a reduction in rent at McClintocks and vacation of the Wombwell site as a staffing base. Services for young people will continue to be delivered from Wombwell.	-	-	102,000	102,000	-	-	2,422,675
BU1 E2	Increase income generation for services to the private, voluntary, maintained and independent sector providers of early years and education	Review current traded activities and fee charging policy with the view of increasing opportunities / capacity for income generation - both locally and across the region or across networks.	-	-	65,000	65,000	-	-	-1,398,651
BU1 E3	Review current use of buildings in communities	Undertake a review of building use that supports an early help offer across early start and families including family centres, targeted youth support, public services hub and targeted information advice and guidance in conjunction with external partners including the police and health.	-	30,000	30,000	60,000	-	-	budget sat in premises FM budgets
BU1 E4	Review current contracts and commissioned services	Identify the potential for cost savings or efficiencies on contracts across the range of services within the Business Unit including early years / childhood services; Align YPSM services with Adolescent Support. Greater personalisation of Short Breaks / SEND – reduce 'block' contract provision	10,000	10,000	50,000	70,000	-	-	872,700
BU1 E5	Review of staffing structures in Early start, prevention and sufficiency service (including Family Centres, TYS, Early Start, Schools admissions & org)	A service redesign to be undertaken resulting in further restructuring of the early start and families service, family centres 0-19 service (inclTYS) and school admissions / organisation service. The redesign will include options for further integration of services within and beyond BU1 targetted at vulnerable children, young people and families.	21,000	-	427,000	448,000	1.00	16.00	11,506,557
BU1 E6	Improved contracting with SEN Placement providers (schools, DSG)	Reduce spot purchasing of placements through improved contracts and framework arrangements and the use of DSG to support statutory SEN services to schools provided by the Council	50,000	80,000	80,000	210,000	-	-	2,562,600
BU1 E7	Review of education/schools support services funded through the Education Services Grant	The cessation of external government funding and changes in the role of local authorities in education and support to schools (as per the education white paper / the acadamisation agenda) offers the opportunity to review existing support functions to schools. Savings proposals £270k have been put forward following the review of the ESG funded services within BU1 - based on anticipated statutory guidance and the role of the LA going forward. The proposed savings are in the school improvement/school procurement & commissioning service areas. It is expected that the balance will be delivered by other business units outside People Directorate.	-	-	500,000	500,000	-	5.00	-1,500,000
BU1 E10	Staff Turnover	Introduce staff turnover target.	75,000			75,000	-	-	4,802,331
BU1 E11	Two Year Entitlement Administration	Fund the Administration of the Two Year Entitlement from DSG rather than base budget.	75,000			75,000	-	-	646,932
Sub - Total Education, Early Start & Prevention			231,000	120,000	1,254,000	1,605,000	1.00	21.00

PEOPLE									
Adult Social Care & Health									
BU2 E1	Targeted reviews - direct payments and high cost residential placements, particularly OP/MH (high cost LD placements already part of transformation project)	Creation of a dedicated reviewing team within Adult Social Care and Health to identify and review cases where we can safely step down or cease care provision and make efficiency savings. Review and introduce progression through robust reviews. (1) Review existing placements that are above a certain amount; and (2) Embed Care Funding Calculator approach in determining fees for all new placements over cost – analyse how many new high costs cases per year are expected. Consider procurement approach, draft policy, deliver training to front line staff, market engagement, monitor results	400,000	200,000	150,000	750,000	-	-	22,885,400
BU2 E2	Reducing double-handed care	OT assessments to review cases to reduce double-handed care. There are currently 161 service users that receive care from two carers. Based on a previous pilot project in Barnsley and benchmarking with other local authorities there is potential to reduce packages of care for approximately 40% of service users.	300,000	352,000	-	652,000	-	-	9,036,980
BU2 E3	Reducing spend on respite care	Review of respite care cases and revised policy to better target and reduce spend.	46,500	-	-	46,500	-	-	625,500
BU2 E4	Maximising income	(1) Remove ceiling and increasing charging to 100% of cost. Review charging fees (including respite charges). (2) advice to service users to maximise benefits entitlement e.g. DLA and attendance allowances with a view of increasing client contributions towards care provision cost (3) review charging policy, particularly around application of disregard rules e.g. night time element and explore opportunities under the Care Act	-	400,000	-	400,000	-	-	-4,938,000
BU2 E5	Social Care Contracts	Review of all contracts to identify potential savings.	-	50,000	-	50,000	-	-	1,200,000
BU2 E6	Direct payment surplus draw-back and monitoring	Short, medium and long-term approach to reduce surpluses and monitor more closely.	150,000	150,000	150,000	450,000	-	-	16,981,500
BU2 E7	Extra care as alternative to residential care	Business case for extra care development to save money / reduce admissions.	-	50,000	50,000	100,000	-	-	22,885,400
BU2 E8	Health contribution towards Continuing Health Care cases / work	Stopping case / care management of Continuing Health Care (CHC) cases or charging full cost recovery to health. Approx. 170 cases in receipt of CHC funding. In addition to involvement of the social worker in the eligibility assessment currently, social care undertake all the case management including recording and provisioning on ERICA, invoice payment to providers and subsequent billing to recover costs and the carrying out of annual reviews.	100,000	-	-	100,000	-	-	-2,178,800
BU2 E10	Shared Lives	The full cost for shared lives placements is fully borne by the council, unlike other models of support where service users are expected to contribute to their care and support e.g. Residential care. The proposal is to 1) change the way the costs of support are funded. This involves the service user claiming housing benefit and thereafter a contribution for board payment would be made by the service users directly to the carer. (Board payment of £50 per week and a housing benefit claim of the maximum currently allowed £51.50 per week). This would result in a reduction of around £100 per week to the payment made under the shared lives scheme to service users (around 41 long terms users). 2) That this new approach be applied to all existing service users who have long term placements with shared lives carers and any new referrals.	200,000	-	-	200,000	-	-	1,500,000

PEOPLE									
Education, Early Start & Prevention									
BU1 E12	Two Year Entitlement Administration	Fund the Administration of the Free 15 hours Education Entitlement (2, 3 and 4 year old) from DSG rather than base budget (linked to proposal BU1 E11)	-	75,000	-	75,000			646,932
BU1 E13	Review current contracts and commissioned services	Further scope for cost savings or efficiencies on contracts across the range of Children Services commissioned contracts, particularly examining the continued funding of health related functions (e.g. occupational therapists and physiotherapists) through the complex care short breaks contracts (linked to proposal BU1 E4)	-	40,000	-	40,000			872,700
BU1 E14	Council's contribution to schools delegated budget	The council currently supplements the schools delegated budget, through a recurrent £1m base budget contribution. This contribution was agreed at the time of setting up the primary schools PFI contract - to bridge the affordability gap and relieve the burden / impact on the schools budget at that time. The £1m contribution represents 0.7% of the total funding delegated to schools / academies through the funding formula (£133m). In light of the impending implementation of the national funding formula (which is expected to increase the funding to schools) and the increasing academisation of schools (funded directly by the EFA), consideration needs to be given to reducing or removing this contribution. The Council need to ensure this would not be a breach of the schools finance regulations, also the impact on individual schools budget would need to be assessed - although it is expected that the minimum funding guarantee should offer some protection to schools (on a per pupil basis).		1,000,000		1,000,000			97,438,450
BU1 E15	Additional funding for schools statutory duties	Proposed investment to support the council's schools statutory duties in relation to school improvement. Planned changes to a number of ESG funded services (see proposal BU1 E7) as a result of the pending fall out of the ESG funding by DfE from Sept 2017 would result in a significant scaling down of the council's school improvement capacity (stripped down to merely data collation and reporting). The Council's place shaping role in education and particularly championing the cause of the most vulnerable children in Barnsley would be undermined as well as possible impact on the effectiveness of the Barnsley Alliance model of school to school support.	-	-250,000		-250,000			594,403

Section 7

2020 FUTURE COUNCIL

INDICATIVE CAPITAL PROGRAMME

1. Purpose of Report

- 1.1 To identify the Council's capital investment needs and resource availability through to 2019/20 and to outline a methodology for approving a three year 2017- 2020 capital programme.

2. Recommendation

It is recommended that:

- 2.1 The schemes identified at Table 1 proceed to full business case development stage in line with the Council's new Programme and Project Management methodology and that these are assessed for viability for future submission to Cabinet on a case by case basis;
- 2.2 Initial approvals through Cabinet be capped to the level of actual resource availability at that time (currently £31.7 million);
- 2.3 The schemes not proceeding to full business case stage at this time, form part of a live and rolling programme of future capital investment considerations; and
- 2.4 The indicative external resource allocation of £23.1m, as outlined in paragraph 6.6. be approved.

3. Overall Resource Position

- 3.1 The updated Reserves paper at **Section 10** has identified £31.7M of 'banked' resources that are currently available to support 2020 Future Council priorities and / or to serve as temporary support to the budget over the planning period.
- 3.2 In addition, a further £31.3M has been identified as being potentially available over the same planning period but which is not yet guaranteed / banked at this time.
- 3.3 Should the anticipated resources materialise, there would therefore be potentially £63.1M available to support priority investment over the planning period. Table 2 at paragraph 4.5 below shows the projected phasing of the potential resources available.
- 3.4 Based on the indicative expenditure profiles of prioritised schemes and the projected resources expected, the overall capital programme is deliverable, including an initial contingency amount totalling £7.2M (paragraph 4.6 refers).

- 3.5 In addition, it is proposed that as the detailed business cases for priority investments are approved by Cabinet, that both the capital programme expenditure plans and resources alike are released annually in line with the profiles and capped to the total resources actually banked at that time, on a rolling basis, currently £31.7M.
- 3.6 The overall profiled expenditure plans and resource position will be monitored throughout the planning period and assessments against available resource will be regularly considered.
- 3.7 As projected resources are realised further priority business cases can be released up to the value of resources actually available.

4. Prioritisation

- 4.1 Services have submitted outline capital investment proposals totalling some £115.1 million over the 3 year period to 2020.
- 4.2 Clearly, given that this exceeds the maximum sum of money estimated to be available over the planning period a prioritisation process has been developed to rank / score and ultimately prioritise the Council's relative capital investment needs.
- 4.3 Members of the Capital Programme Oversight Board ranked the proposals based on an initial assessment against 4 scoring and 3 non scoring criteria as described below:

Scored Criteria

1. *Does the proposal deliver efficiency (financial and non-financial) and / or clear return on investment? (30%);*
2. *Will the proposal lever in other funding sources and investment? E.g. voluntary sector, private sector, SCR (30%);*
3. *What are the measurable outputs / outcomes? (20%); and*
4. *Is there a clear and robust evidence base for doing the scheme? (20%).*

Non Scored Criteria

5. *Impact on corporate priorities;*
6. *Is the investment required for staffing?; and*
7. *Timing of return on investment.*

4.4 This produced a ranked list of relative priorities as follows:

Table 1: Schemes Recommended to Proceed to Full Business Case Stage

Ref	Proposal	Investment Requirement				Total
		2016/17	2017/18	2018/19	2019/20	
		£	£	£	£	£
BU12 I1	Microsoft Licenses	366,000	106,000	-	-	472,000

BU4 I2	Property/Commercial Land Investment Fund	361,000	8,189,000	-	-	8,550,000
BU5 I17	Longcar Housing Development	-	3,875,000	-	-	3,875,000
BU5 I9	Implementation of the Elsecar Masterplan	-	150,000	50,000	250,000	450,000
BU4 I11	Principal Towns Programme	-	2,500,000	2,500,000	-	5,000,000
BU1 I4	Youth Zone	-	3,000,000	-	-	3,000,000
BU5 I23	Wedding Infrastructure at Cannon Hall	-	100,000	-	-	100,000
BU5 I13	Empty Homes Programme	-	-	500,000	-	500,000
BU5 I24	Refit of Shop at Cannon Hall	-	25,000	-	-	25,000
BU6 I16	Wakefield Road Junction	-	1,800,000	1,200,000	75,000	3,075,000
BU4 I7	Courthouse Enabling and Development Works -	-	-	1,310,000	1,250,000	2,560,000
BU6 I18	A61 Old Mill Lane	-	150,000	1,600,000	50,000	1,800,000
BU4 I12	Town Centre Phase 2 Development	-	1,000,000	14,000,000	-	15,000,000
BU4 I13	Town Centre- Jumble Lane Crossing Bridge	-	-	3,000,000	-	3,000,000
BU4 I6	Public Realm Phase 1 / 2	-	1,800,000	1,500,000	1,800,000	5,100,000
BU5 I28	Residential Investment Fund	-	1,000,000	-	-	1,000,000
		737,000	25,900,000	25,860,000	3,425,000	55,922,000

4.5 The table below demonstrates the phasing of expected investment against anticipated resources received.

Table 2: Phasing of Resources in Comparison to Phasing of Investment Required

	2016/17	2017/18	2018/19	2019/20	Total
	£M	£M	£M	£M	£M
Potential Resources Available	21.948	23.447	8.826	8.863	63.084
Investment Required	(0.737)	(25.900)	(25.860)	(3.425)	(55.922)
Cumulative Resources Available	21.211	18.758	1.724	7.162	7.162

- 4.6 An overall balance totalling £7.2M has been identified at this time to be held as a contingency against potential variances, ensuring that the Authority remains prudent. As these proposals are 'firmed up' in the business case stage, this contingency balance will be reviewed accordingly.

5. Proposal

- 5.1 It is proposed that the schemes identified in Table 1 above are now progressed to full business case stage using the Council's new Programme and Project Management methodology and that these are considered in detail by the Capital Programme Oversight Board / SMT.
- 5.2 Viable business cases to be submitted to Cabinet and considered on a case by case basis with total approvals through Cabinet being capped in terms of both expenditure plans and resources allocated, to the actual level of resource available at that time (currently £31.7M).
- 5.3 A contingency amount will be held (initially £7.2M) to mitigate against any potential adverse variances, the amount of which will be reviewed and assessed periodically as the Authority determines.
- 5.4 That the remaining schemes not developing to full business case stage at this time form part of a rolling programme of capital investment considerations that can proceed to full business case stage when either priority schemes are not progressed to implementation and / or additional resources over and above those estimated materialise.
- 5.5 In particular, the above list includes schemes relating to resolving a potential shortfall in secondary school places across the Borough, principally in and around the town centre. The Authority has commissioned consultants AMF UK Ltd to formulate an option appraisal report outlining the opportunities available to the Authority to alleviate this issue. The findings from this report will be presented in due course.

6. Other Resources

- 6.1 The Authority also receives annual allocations in respect of capital funding which is ringfenced as to what it can be spent on. The capital programme quarterly monitoring updates will report on these allocations as and when the allocations are received.

6.2 Specific Funding to be Approved

School Maintenance Programme

Anticipated resources in 2017/18 totalling £1.5M relate to investment and maintenance in the schools' stock, early years settings and children's centres (maintenance allowance).

In future years, resources totalling £1.5M are also available for the same purpose.

These amounts are given indicatively at this stage and are subject to change depending on the rate of academy conversion of the Authority's maintained schools. The capital programme plans will be capped accordingly, in line with the confirmed amounts in due course.

Disabled Facilities Programme

The Authority has an indicative grant allocation totalling £2.3M for 2017/18 with respect to the Better Care Fund relating to the Disabled Facilities Grant.

This amount is not yet confirmed at this stage and is therefore subject to change. The capital programme plans will be capped in line with the confirmed amounts established in due course.

Local Transport Programme

Estimated resources in 2017/18 totalling £5.0M of specific grants relates to the Local Transport Programme (LTP Maintenance Block Allocation £3.4M + LTP Maintenance Block Incentive Funding £0.3M + Integrated Transport Pot £1.0M + Pot Hole Fund £0.3M) which is available to invest in the Borough's road maintenance needs.

Resources for 2018/19 have been identified relating to the Local Transport Programme totalling £4.7M (LTP Maintenance Block Allocation £3.1M + LTP Maintenance Block Incentive Funding £0.6M + Integrated Transport Pot £1.0M).

The allocations for 2017/18 and 2018/19 were originally approved by Cab 7.10.2015/8.0 as indicative figures but have since been updated and are for information only.

Estimated resources in 2019/20 totalling £4.7M of specific grants relates to the Local Transport Programme (LTP Maintenance Block Allocation £3.1M + LTP Maintenance Block Incentive Funding £0.6M + Integrated Transport Pot £1.0M).

School Admission / Basic Need Programme

Resources in 2017/18 totalling £3.1M relates to the Basic Need Grant which supports the capital requirement for providing new pupil places by expanding existing schools within the Borough.

The allocation for 2017/18 (Basic Need) was originally approved by Cab. 29.6.2015/6.1. and is for information only.

Resources in 2018/19 totalling £0.1M relates to the Basic Need Grant which supports the capital requirement for providing new pupil places by expanding existing schools within the Borough.

- 6.3 It is recommended that the list of programmes summarised in the table below (funded from specific capital grants) are approved for inclusion in the Authority's 2017/18 – 2019/20 Capital Programme. However, it

needs to be noted that the allocations are indicative and the approvals will be capped in line with actual allocations.

- 6.4 The funding approved as part of other Cabinet Reports has been aligned to specific capital schemes and included within the funding within the current Capital Programme.
- 6.5 The funding to be considered as part of this report has yet to be assigned to specific schemes. The inclusion for approval is to indicatively note the anticipated receipt of the allocation. Subsequent Cabinet Reports will be presented, aligning the confirmed allocation to individual schemes, in due course.
- 6.6 The indicative capital programme proposals for 2017/18 – 2019/20 are as follows:

	2017/18 £M	2018/19 £M	2019/20 £M	Total £M
<u>Specific Funding to be Approved</u>				
School Maintenance Programme (indicative)	1.497	1.497	-	2.994
Disabled Facilities Programme (indicative)	2.330	-	-	2.330
Local Transport Programme (indicative)	5.023	4.727	4.727	14.477
School Admissions Programme	3.116	0.138	-	3.254
Total	11.966	6.362	4.727	23.055

Section 8

2020 FUTURE COUNCIL

FEES AND CHARGES 2017/18

1. Purpose of The Report

- 1.1 This report brings together the Council's proposed fees and charges for 2017/18 which are an integral part of 2017/18 Business Unit plans. These are summarised in Appendix 1 to this report.

2. Recommendation

2.1 It is recommended that:

- **The fees and charges set out in Appendix 1 are recommended to Council for approval from 1st April 2017 or later in 2017/18 as applicable;**
- **That additional reports are submitted throughout the course of the year, as and when further amendments to existing fees & charges have been finalised as part of the development of Business Unit plans;**
- **That Cabinet note the objectives and progress of the Council's Commercial Strategy.**

3. Introduction & Background

Work Undertaken on Fees & Charges

- 3.1 The Council has reshaped and transformed into an effective, efficient, high performing and sustainable Future Council. This has provided the foundations to ensure we are in a position to achieve our agreed priorities and outcomes as we continue our journey to 2020.
- 3.2 The implementation of the Future Council structure means that the delivery of our key services are based on a Business Unit model supported by a strong and lean core. The 2017/18 financial plans for the Future Council framework have been developed around a reduced resource envelope and therefore consideration of setting appropriate fees and charges is an important consideration for Business Units.
- 3.3 All fees and charges for 2017/18 have been proposed in light of the Council's formally agreed Fees and Charges Policy. This provides a corporate framework within which all decisions on implementation and / or changes in the levels of fees and charges are considered and approved.
- 3.4 It should be noted that proposals in relation to some existing fees and charges have not yet been finalised as they form part of a wider consideration of Business Unit plans. These will be submitted to

Cabinet in due course when all relevant issues have been worked through.

Fees & Charges Policy

- 3.5 A significant element of the Council's activity is underpinned by income generated through a variety of fees and charges made in relation to such activities.
- 3.6 Whilst being an important element of the overall financing of the Council's services and activities, fees and charges can also have an important role in other areas such as:
- Demonstrating the value of a service;
 - Discouraging abuse of a service;
 - Strengthening service and corporate objectives; and
 - Promoting and encouraging access to services.
- 3.7 Therefore, as well as ensuring that fees and charges are in line with Council objectives, it is also sound practice to ensure that the impact on service users of any change in fees and charges is appropriately evidenced. The objectives of any charging policy should also be clearly communicated to the public who should have the opportunity to hold the Council to account.

Legal Framework

- 3.8 The legal basis for charging is much clearer following the implementation of specific provisions contained in both the Local Government Act 2003 and more latterly, the Local Government Goods and Service Act 2011.
- 3.9 In addition to existing statutory provisions which expressly authorise charging, Section 93 of the 2003 Act allows a local authority to charge for any services which it has discretion to provide. Charges cannot be made for any services for which there is a duty to provide or where legislation expressly prohibits the charging for discretionary services. In exercising its charging powers, a local authority is under a duty to ensure that taking one financial year with another, the income from any charge for a service does not exceed the cost of providing the relevant service and where it does should be reinvested in the service.
- 3.10 In addition to the charging powers outlined above, the 2011 Act expressly addressed charging for profits. This outlined the need to establish trading vehicles where profit driven services are being delivered and reflects the approach adopted by the Council to be more commercial in its activities.
- 3.11 The key features to consider in the framework include:
- Fees and charges will be structured to support the Council's Corporate Plan and encourage public engagement in policy development;

- The income generated from fees and charges will be used to support the work of the Council;
- Fees and charges will normally be calculated on a marginal or full cost recovery basis, depending on the state of the market and any other relevant factors;
- All concessions will be specified;
- Any Fees and Charges agreed to generate income greater than costs incurred should be clearly articulated as part of the decision, having regard to the principles in the 2003 and 2011 Act and the guidance issued by the Secretary of State to establish trading vehicles where necessary;
- Market research, comparative data, management knowledge and any other relevant information will be used where appropriate to ensure that charges do not adversely affect the take up of services;
- Fees and charges will not be used in such a way that would restrict access to information or services;
- The impact on income from fees and charges will be taken into consideration when a decision is taken to change any services provided by the Council;
- The cost of collection will be considered to ensure that fees and charges are economical to collect; and
- The income generated from fees and charges will be monitored on a monthly basis as part of the overall budget monitoring process.

Commercial Strategy

- 3.12 Whilst the key features of a fees and charges framework are set out above, the overriding principle is to ensure that the Council's fees and charges are set within a value for money context where financial, performance, access and equality issues are considered fully and appropriately, and decisions are taken in a transparent and balanced way.
- 3.13 To aid delivery of this, the Council has been developing a Commercial Strategy that underpins the Council's 4 key themes:-
- Developing a **Commercial Culture**.
 - Ensuring that we demonstrate **Value for Money** across all activities.
 - Effective **Procurement and Commissioning**.

- Maximise the income generation potential for our **Commercial Services**.

3.14 The Commercial Services strategy recognises a changing market place that will provide new opportunities and that as a Council, we need to be actively seeking out any new opportunities on offer. This will help us achieve our commercial aspirations but also potentially help deliver much needed additional income. We will seek to achieve this by:

- Identifying and implementing opportunities for cross selling our services providing our customers with the ability to buy a package of products;
- Helping to shape the commercial services agenda at a Sheffield City Region level;
- Working collaboratively with other local authorities where significant commercial opportunities exist;
- Horizon scanning the marketplace to seek out and secure new commercial opportunities;
- The ability to set discretionary fees and charges in markets where flexibility is required.

3.15 Through consideration and implementation of the Commercial Strategy it is envisaged that the overall principle set out at para 3.10 will be achieved.

4. **Summary**

4.1 In accordance with the overall review of all fees and it is recommended that the full schedule of fees and charges as set out in Appendix 1 are implemented from the 1st April 2017 or later in 2017/18 as applicable.

4.2 It should be noted that proposed changes to the charges relating to the Borough's Car Parking provision will form part of a separate report to be presented in March 2017.

Means Tested Charges - Linked to Fairer Charging Policy care package and are then charged the full cost or whatever they are assessed as being able to pay up to a maximum sum.								
	Currently the agreed maximum an individual would pay towards meeting their assessed care cost is £150. A review of the Charging Policy is currently underway, with consideration to be given to reducing further the subsidy to those who can pay and increase charging to 100%. The financial impact will need to be assessed with any change subject to consultation and Cabinet approval.	NA	3,249	Currently the agreed maximum an individual would pay towards meeting their assessed care cost is £150. A review of the Charging Policy is currently underway, with consideration to be given to reducing further the subsidy to those who can pay and increase charging to 100%. The financial impact will need to be assessed with any change subject to consultation and Cabinet approval.	NA	3,249	-	
Residential Care

2020 FUTURE COUNCIL **2017/18 COUNCIL TAX OPTIONS**

1. **Introduction**

1.1 This report considers the calculation and options for setting the Authority's Council Tax for 2017/18.

2. **Basis of Council Tax Calculation**

2.1 The following stages are involved in determining options for setting the Council Tax:

- 1) Determining the Council Tax Base;
- 2) A review of past performance in collecting Council Tax;
- 3) Identifying the potential impact on the Council's Medium Term Financial Strategy of various Council Tax increases; and
- 4) Options for setting the Council Tax in the context of national and local policy.

Step 1 – Determining the Council Tax Base

2.2 The Authority's Tax Base represents the estimated number of chargeable dwellings in the area, expressed in terms of Band D equivalent properties and after allowing for disabled persons relief, discounts and other statutory adjustments.

2.3 The calculation of the tax base is further complicated by the Governments' Local Government Finance reforms that took effect from 1st April 2013. These changes are summarised below.

Local Council Tax Support Scheme

2.4 The Local Council Tax Support Scheme (LCTS) was introduced in 2013/14. Funding for the scheme forms part of the overall resources allocated to the Council as part of the Local Government Settlement.

2.5 Members will recall that following cuts in Government funding, a review of the original LCTS scheme was conducted in 2014/15. Following this review Members agreed a revision to the original scheme. The new scheme introduced on 1st April 2015 requires working age claimants to contribute a minimum of 30% to their Council Tax. It was also agreed that this revised scheme would operate for a minimum of 2 years before any further revision would be considered. (Cab.14.1.2015/7.3 refers).

2.6 A further review of the scheme has been undertaken and there are no proposed changes to the scheme as part of the 2017/18 budget process. The scheme is continuously under review with any proposed changes to be submitted to Cabinet as part of future years budget processes.

Technical Changes to Council Tax

2.7 Government announced that from 2013/14, local authorities have more discretion to charge Council Tax on second homes and empty properties. The Council implemented the following policy:-

- A discount of 0% be applied to second homes and empty furnished homes;
- a discount of 25% be applied to properties that are vacant and undergoing repair or major structural alterations for up to 12 months, or 6 months after the completion of works, whichever is shorter;
- a discount of 8.3% (1 month) be applied to properties that are vacant and unfurnished from the date the property becomes empty;
- a 150% premium be charged on properties which have been empty and unfurnished for in excess of two years.

2.8 A revised Council Tax Base report was submitted in January 2017 (Cab.11.1.2017/11 refers) reflecting these policy changes as well as normal in year movements to the Tax Base.

Step 2 - Review of Performance in Collecting Council Tax

2.9 The policy changes mentioned above have impacted on the collection of Council Tax. However, estimates made predicted this and the current projected collection rates are in line with forecast assumptions. The collection rates will continue to be reviewed and a final update made prior to the setting of the 2017/18 Council Tax.

Step 3 – Potential Council Tax Yields 2017/18

2.10 Table 1 below provides information on the estimated Council Tax yields that could be generated based on the currently estimated Council Tax base at different levels of tax increase.

Table 1 – Council Tax Options (2017/18)

% Increase	0% £M	1.00% £M	1.50% £M	1.90% £M	2.50% £M	3.00% £M	3.50% £M	3.90% £M	4.50% £M	4.90% £M
Council Tax Income	80.755	81.562	81.966	82.289	82.774	83.177	83.581	83.904	84.389	84.712
Collection Fund Surplus	1.615	1.615	1.615	1.615	1.615	1.615	1.615	1.615	1.615	1.615
Total Council Tax Income	82.370	83.177	83.581	83.904	84.389	84.792	85.196	85.519	86.004	86.327

2.11 Each 1% increase in the Authority's Band D Council Tax generates additional income to the Authority of approximately **£0.807M** per annum recurrently (0.5% = £0.4M).

2.12 Table 2 below provides an analysis of the impact of the various increases on the actual Council Tax for BMBC services for each band.

Table 2 –Indicative 2017/18 Council Tax Levels for BMBC Services

% Increase	0.00%	1.00%	1.50%	1.90%	2.50%	3.00%	3.50%	3.90%	4.50%	4.90%
	£	£	£	£	£	£	£	£	£	£
Band A-	719.58	726.78	730.37	733.25	737.57	741.17	744.77	747.64	751.96	754.84

Band B	1,007.42	1,017.49	1,022.53	1,026.56	1,032.61	1,037.64	1,042.68	1,046.71	1,052.75	1,056.78
Band C	1,151.33	1,162.84	1,168.60	1,173.21	1,180.11	1,185.87	1,191.63	1,196.23	1,203.14	1,207.75
Band D	1,295.25	1,308.20	1,314.68	1,319.86	1,327.63	1,334.11	1,340.58	1,345.76	1,353.54	1,358.72
Band E	1,583.08	1,598.91	1,606.83	1,613.16	1,622.66	1,630.57	1,638.49	1,644.82	1,654.32	1,660.65
Band F	1,870.92	1,889.63	1,898.98	1,906.47	1,917.69	1,927.05	1,936.40	1,943.89	1,955.11	1,962.60
Band G	2,158.75	2,180.34	2,191.13	2,199.77	2,212.72	2,223.51	2,234.31	2,242.94	2,255.89	2,264.53
Band H	2,590.50	2,616.41	2,629.36	2,639.72	2,655.26	2,668.22	2,681.17	2,691.53	2,707.07	2,717.43

2.13 It must be noted that the final overall Council Tax increase for properties in the Borough will also depend on the precepts levied by the Police and Fire Authorities. These are currently being discussed by the respective authorities and are not yet available. It is however estimated that every 1% increase in the precepts (applied equally to Police and Fire) from the base BMBC increase will add an additional 0.15% to the overall headline Council Tax increase.

Step 4 – Options for Setting the Council Tax in the Context of National and Local Policy

Options for 2017/18

Council Tax Referendums & Council Tax Capping

General Services

2.14 Schedule 5 of the Localism Act introduced a new Chapter into the 1992 Local Government Finance Act, making provision for Council Tax referendums to be held if an authority increases its Council Tax by an amount exceeding principles determined by the Secretary of State and agreed by the House of Commons.

2.15 As in previous years a referendum will be required if an Authority sets Council Tax increases above **2%**. The cost of holding a referendum is estimated to be around £0.4M so any additional income received for increases above 2% would need to wholly cover this cost.

2.16 The Council could however agree an increase in Council Tax of say 1.9% without the requirement to seek the approval of the electorate in a referendum. This would result in additional **permanent** base resources of £1.5M per annum.

Additional flexibility for Adult Social Care Pressures

2.17 The 2015 Spending Review announced that for the remainder of the current Parliament (until 2020) local authorities with responsibilities for Adult Social Care will be given

flexibility to increase council tax by an additional 2% over and above the current referendum threshold (2%)

2.18 This flexibility is offered in recognition of demographic changes which are leading to a growing demand for Adult Social Care, with consequential higher cost pressures on council budgets. Members will recall that the Council took the decision to implement an adult social care precept in the 2016/17 budget process effectively increasing Council tax by 3.9%.

2.19 As part of the provisional 2017/18 Local Government Financial Settlement, the Secretary of State announced that Local Authorities would be given further flexibilities around the Adult Social Care Precept. This added flexibility permits authorities to introduce up to a 3% precept in 2017-18 and/or in 2018/19 with no increase in 2019/20 bringing the aggregate increase over the three years to 6%. Alternatively authorities can choose to implement up to a 2% Social Care Precept increase in each of the next 3 years.

2.20 The Adult Social Care pressures in Barnsley continue to rise and therefore this option open to Members will help the Council bridge the ever increasing funding gap. Should Members chose to adopt the option of a 3% increase in 2017/18, additional **permanent** base resources of £2.4M (or £1.6M for a 2% increase) over and above the £1.5M raised from a 1.9% increase, would be generated. However, these resources would need to be earmarked specifically for Adult Social Care.

2.21 Table 3 below provides an analysis of the impact of an additional **2%** on top of the suggested 1.9% increase as above, on the actual Council Tax for BMBC services for each band.

Table 3 –Indicative 2017/18 Council Tax Levels at 3.9%

Pensioner Discount Scheme

2.22 The Council introduced a Council Tax Pensioner Discount scheme in 2010/11 whereby eligible persons aged 65 and over do not experience an increase in the Barnsley element of their Council Tax (over the previous year).

2.23 Members agreed in 2014/15 to gradually phase out the scheme over 5 years. The effects of this have already been factored into the Medium Term Financial Strategy.

Conclusion

2.24 Given the significant financial pressures that the Council continues to face particularly in relation to Adult Social Care, Members will need to give careful consideration as to whether to:

1. Increase Council tax over and above the referendum cap and hold a referendum; or;
2. Increase Council Tax upto the existing 2% referendum cap; and/or
3. Take up the flexibility of an additional increase up to 3% to fund Adult Social Care pressures.

Section 10

2020 FUTURE COUNCIL

RESERVES AND BALANCES UPDATE – JANUARY 2017

1. Purpose of Report

- 1.1 To update the Council's reserves and balances position as at January 2017.

2. Recommendation

- 2.1 Note the current position in relation to all reserves and balances as outlined in the report;
- 2.2 Note the current position in relation to those reserves and balances identified as being potentially available to support priority investment over the planning period totalling £63.1m as identified in Table 5.
- 2.3 Note the intention to retain the minimum working balance of £15m as a contingency for unforeseen events over the planning period.

3. Previous Position - Available Reserves & Balances

'Banked' Reserves & Balances

- 3.1 Following the 2015/16 external audit the Council's published accounts, recorded total earmarked reserves of £95.279m (Table 1 & Appendix 1 refers). These funds are required to be earmarked under statute (e.g. school balances), required for corporate cross cutting expenditure commitments (e.g. redundancy costs) or represent cash required to fund previously agreed investment decisions (e.g. the redevelopment of the town centre).
- 3.2 Over and above this and as reported to Members in August 2016 the accounts reported banked revenue balances potentially available to support priority investment of £20.848m.
- 3.3 In addition and over and above the figures reported in the published accounts, the Council's forward looking MTFS had provided for £5 million of new capital investment in each of 2018/19 and 2019/20 (although £200k of the amount available in 2018/19 had been set aside to fund a previously agreed commitment).
- 3.4 This brought total available balances potentially available for priority investment to £30.6m (£20.8m in 16/17, £4.8m in 18/19 and £5m in 19/20).

Table 1 – ‘Banked’ Reserves and Balances

		2016/17 £M	2017/18 £M	2018/19 £M	2019/20 £M	TOTAL £M

TOTAL – All Reserves & Balances		78.931	27.738	12.258	7.000	125.927

*1 Revenue balances per published statement of accounts.

*2 Only available to fund capital investment.

Forecast Reserves & Balances

- 3.5 Over and above ‘banked’ reserves, the position reported to Members in August established a forward projection of the potential level of reserves that may be available over the planning period to assist in agreeing a strategic approach to the use of reserves.
- 3.6 Based on known information at that time, this estimated a further £27m that could become available, bringing the total potentially available to support priority investment over the planning period to £57.6m.

Table 2 – Forecast Reserves and Balances – August 2016

		2016/17 £M	2017/18 £M	2018/19 £M	2019/20 £M	TOTAL £M

4. Updated Summary Position – January 2017

- 4.1 Since August there have been a number of changes to both the budget monitoring position reported to Cabinet at Q2 and also to the anticipated levels of New Homes Bonus following the provisional local government finance settlement announced in December 2016.
- 4.2 In addition since this time, the Council's asset disposal programme has realised £1.1m from the sale of surplus assets.
- 4.3 As can be seen from Table 3 below, based on the latest available information it is now forecast that there is some **£31.7M** banked and available to support priority investment over the planning period.

Table 3 – Updated Banked Resources Available 2017 - 2020

	2016/17 £M	2017/18 £M	2018/19 £M	2019/20 £M	TOTAL £M

2020 FUTURE COUNCIL

INDICATIVE CAPITAL PROGRAMME

Aggregated Equality Implications of Budget Efficiency Proposals (2017/18 to 2019/20)

1. Purpose of Report

- 1.1 This paper provides an overview of the approach undertaken by the Council to ensure that the equality impact of any proposals being considered through the service and financial planning process are appropriately assessed and considered. It summarises the aggregated and inter-related impact of each of the budget reduction proposals and proposes how potential inequalities can best be mitigated.

2. Background

A. Purpose of Equality Impact Assessment (EIA) Process

- 2.1 The budget efficiency process is clearly an area where we need to evidence that we have given “due regard” to the equality impact of our decisions and avoid any unfair and/or disproportionate impact on key equality groups. Therefore, we have embedded an EIA into the process of identifying, evaluating and implementing budget saving proposals.
- 2.2 This enables us to:
- have a written record of the equality considerations we have taken into account;
 - ensure that decisions include a consideration of the actions that would help to avoid or mitigate any unfair impact on particular equality groups;
 - make decisions based on evidence: a decision which is informed by relevant local and national data about equality is a better quality decision. EIAs provide a clear and systematic way to collect, assess and put forward relevant evidence;
 - make the decision-making process more transparent. This should also help to secure better public understanding of the difficult decisions we will be taking;
 - comply with the law: the duties are legal obligations which should remain a top priority, even in times of economic difficulty. Failure to meet the duties may result in the Council being exposed to costly, time-consuming and reputation-damaging legal challenges.

B. Stage One – Initial Community Impact Assessment (CIA)

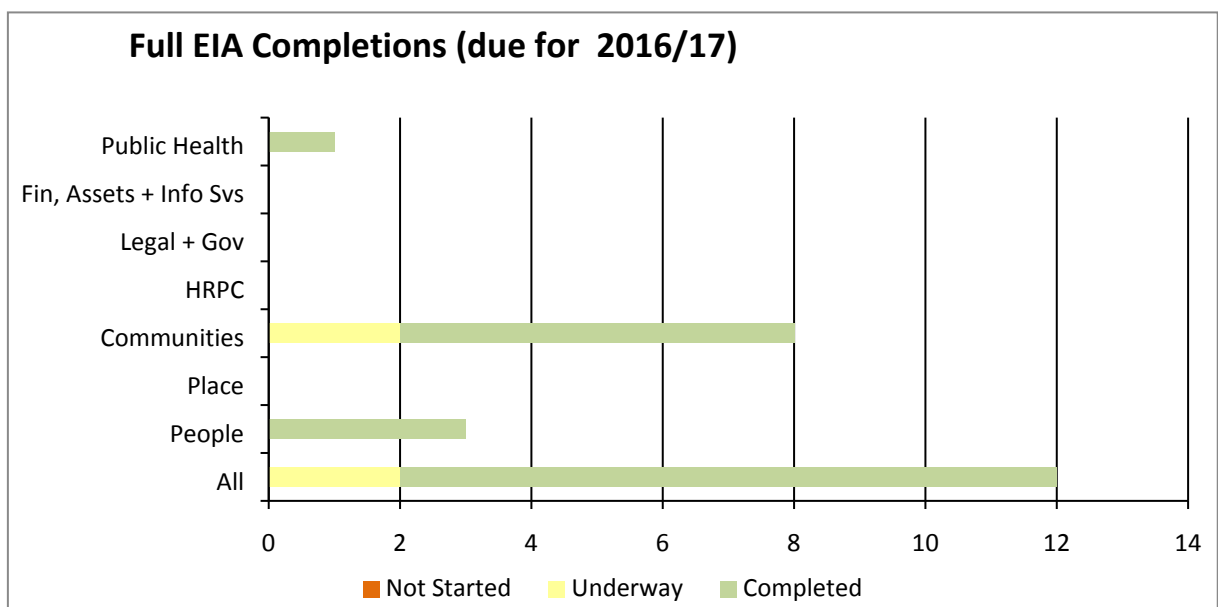

- 2.3 The first stage of the EIA process is to differentiate those proposals where there could potentially be a significant equality impact from those where the impact will in all probability

be low or negligible. To do this an Initial CIA has been completed for all 82 budget efficiency proposals.

2.4 The initial CIA is used to determine which of the budget efficiency proposals may need to undertake a full EIA, where there was a potentially high or moderate degree of impact, so we can better understand the impact the proposal may have on the local community.

2.5 Of the 82 initial budget saving proposals where an Initial CIA has been carried out, 10 have been identified as requiring a full EIA to be completed before the proposals are implemented from 1st April 2017. Of these, 8 have been completed, 3 are underway, with initial conclusions included and 1 is yet to begin:

2.6 A further 7 budget savings proposals have been identified as requiring a full EIA before the final implementation of those savings begins in either 2018 or 2019. The anticipated equality impacts from these budget savings will be assessed and reported separately as part of the implementation process for each of these savings.

C. Stage Two – Full Equality Impact Assessment (EIA)

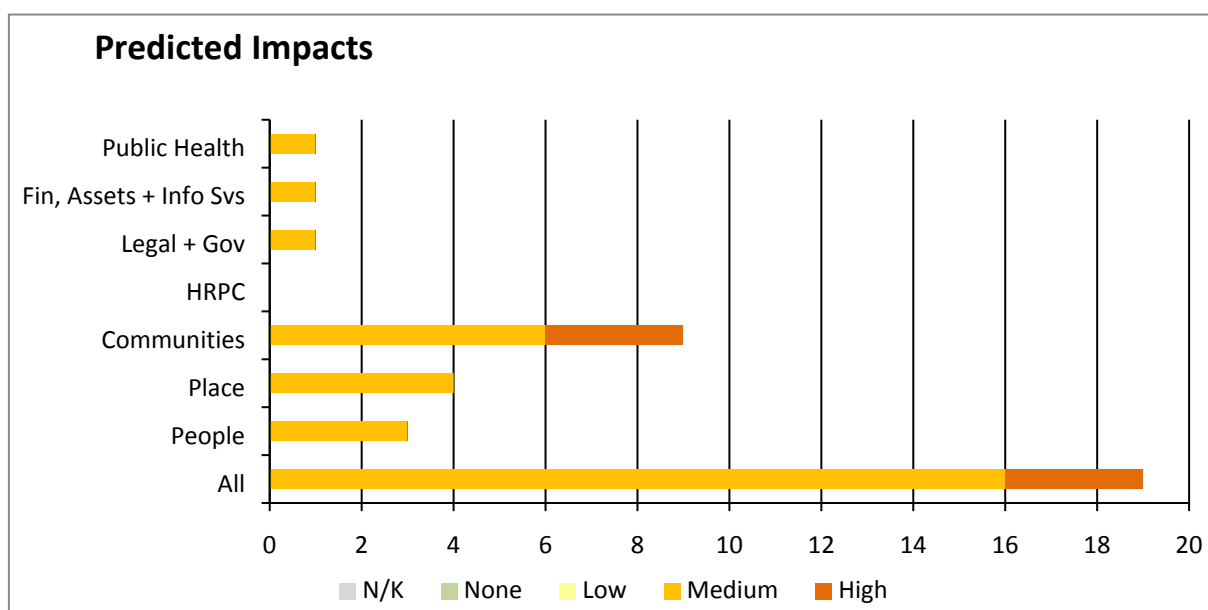

2.7 The Full EIA requires services to:

- assess the evidence they have about the potential impact in terms of service take-up, service quality and customer access;
- consider how they will seek the views of the local community (and in particular those groups most affected by the proposal);
- identify potential mitigating actions where negative impact has been found.

2.8 Individual decisions should also be informed by the wider context of decisions in our own and other relevant public bodies, so that particular groups are not unduly affected by the cumulative effects of different decisions.

2.9 The EIAs are an iterative process and their conclusions may change overtime as efficiency proposals are refined, feedback from consultation is considered or mitigating actions identified that may reduce any negative impacts.

2.10 The EIAs that have been begun so far have identified the following degree of potential impacts:

2.11 All reports outlining a budget efficiency proposal should include an outline of the key findings of the EIA undertaken for that Budget Saving Proposal. This should as a minimum describe:

- the main negative impacts anticipated;
- how this has been assessed and the evidence used;
- how the views of those negatively impacted have been sought;
- what options for mitigation should be considered as part of the proposal; and
- how the actual impact will be reviewed after implementation.

D. Stage Three – The Aggregated Equality Impact Assessment (EIA)

2.12 The Aggregated EIA is an assessment of the cumulative impact of all the budget efficiency proposals on different sections of the local community and should be taken into account when deciding whether and how to implement the proposal. It also seeks to take into account the other factors that will be affecting how diverse groups experience the impact of the budget efficiency proposals. This could, for example, include the impact of Brexit, welfare reform and / or previous budget efficiencies.

3. Aggregated Impacts 2017 to 2020

3.1 The vast majority of the budget savings proposals have been assessed as having little or no impact on service delivery and as a result no unequal impacts on diverse groups. However 10 budget savings proposals to be implemented from 2017/18 were identified as having potential adverse impacts on one or more diverse group and hence would require a full EIA to be carried out. A further 7 savings proposals were identified as requiring a full EIA from 2018/19 onwards as these could not be completed until further details of the implementation of the efficiency were known. All 17 savings proposals where a potential for a significant impact has been identified are summarised in the appendix to this report.

3.2 The key impacts of the budget proposals for 2017/18 are largely as a result of changes to how we will encourage and, in some cases, require customers to contact the council in the future, changes to social care provision and the implementation of the Welfare Advice Review recommendations.

3.3 In 2018/19 onwards other savings proposals have greater influence including environment and transport service redesigns and the recommissioning of public health and social care services.

3.4 Looking at the cumulative impact of those budget efficiency proposals which were considered to have a significant potential equality impact we can see that the groups most likely to be adversely affected are disabled people followed by older people and Deaf people.

3.5 However some groups, including disabled and older people, are also thought to be beneficiaries of more positive impacts as a result of other budget saving proposals.

Groups affected (protected characteristic)	Impacts Identified		
	High	Medium	positive
Disabled people	5	9	3
Deaf people	3	4	-
Women (including maternity and pregnancy)	-	2	-
Men	-	1	-

BME communities	1	9	-
Older People	3	5	1
Younger People	3	2	1
Lesbian Gay and Bisexual People / Transgender	-	2	-
Religion or Belief	-	-	-

4. Other factors affecting degree of impact

4.1 These areas of greatest cumulative impact in 2017/18 however will not take place in isolation; they may in practice add to the effects of budget savings implemented in previous years.

4.2 In previous years the greatest impacts we predicted as a result of budget savings were identified as:

4.3 Disabled people

- A number of service reductions were predicted to have a particular impact on disabled people (and especially people with learning difficulties) such as those that involve transport, employment and skills, customer services and work, advocacy, community and housing support.
- Also people with physical impairments or complex care needs were predicted to be affected by a number of transport-related saving proposals as well as proposals that were predicted to mean they may need to travel further to access services, for example, due to changes to services such as Early Childhood services and Employment and Skills.
- The result is likely to be that disabled people would receive less support and have fewer opportunities for accessing services and obtaining employment.
- It was also thought likely that there would be a reduction in mental health services resulting in slower and less responsive service and the process for putting care packages in place will be more arduous. There will be less scope for prevention and services will increasingly only be able to respond to crises.
- There was also a specific concern relating to disabled children and young people who are most likely to be adversely affected by transport-related budget savings, both pre-school and post-16, as their families are much more likely to be on low incomes and may face considerable inequalities as a result of these planned changes.
- Also the My Barnsley Too Disability Forum, in two reports in recent years, has outlined how it believes austerity has impacted on the lives and opportunities of disabled people and how public transport options remain very restricted for many disabled people.

4.4 Older people

- A number of budget savings were predicted to have a negative impact on vulnerable older people that could mean they would find it takes longer to leave hospital; they have no help with their medication; may have less housing support, reduced support for equipment and adaptations and may find it harder to access welfare rights advice.

4.5 Vulnerable Adults and Families

- Several years of reduced financial provision from central government to fund the Supporting People function has impacted hard on all vulnerable people who require housing support services to be able to maintain their tenancy and live independently in the community. People who have been receiving these services include victims of domestic violence, care leavers, young people at risk of homelessness, teenage parents, offenders, substance misusers and those whose lifestyle could be described as ‘chaotic’.
- People in these groups are, generally, struggling to overcome issues and disadvantages and the loss of support can not only seriously decrease their chances of living independently but also has the potential to impact on other services such as Community Safety, Police, Probation and health services.
- Whilst the Council has no specific equality duty relating to these groups, given that many protected characteristics are over represented amongst these groups, for example single gay men are more likely to experience substance misuse and mental health problems, women are more likely to be victims of domestic violence, there is a clear need to apply the “due regard” responsibility here also.

4.6 Young People

A variety of budget reductions in previous years have been predicted to have a particular impact upon young people, and especially those young people from diverse groups, for example disabled young people or those in more vulnerable situations, for example young people in care or leaving care. A range of young people’s services have been reduced including positive activities, volunteering, community and democratic engagement, information, advice, guidance and support and targeted services such as sexual health, and substance misuse. Whilst every effort has been made to protect those in greatest need the EIA process has highlighted potential adverse impacts including:

- Negative impact on anti-social behaviour in communities / localities – youth nuisance, public perception, youth offending rates etc.
- Negative impact on young people’s health outcomes – physical and mental health and emotional well-being, teenage pregnancy rates and prevalence of risky behaviours.
- Reduced capacity to ascertain the views of young people and to take them into account in making decisions about services and activities for them.
- Reduced budgets to support individual young people to access education, employment or training, for example travel, subsistence and hardship funds.

5. Proposed actions to mitigate aggregated impacts

5.1 Proposed Mitigation 1: Understanding Impact on Vulnerable or Disabled People.

Background:

The framework of service available to support disabled people to live their lives in an equitable and inclusive way with the wider community has changed in recent years beyond almost all recognition. Welfare reform has transformed the package of benefits available to disabled people and the eligibility criteria for them. Social care services have increasingly been focused on providing disabled people with the control over their own care budgets enabling them to make active choices about their own lives. Directly provided services have been replaced by services which seek to support a disabled person to undertake activities for themselves. Developments in the town centre are increasingly building in disability access to higher standards than ever before. However at the same time disabled people are often living on less money, fewer are in receipt of care packages, are more likely to be out of work and experience higher levels of hate crime in the community.

Other people who may be living in vulnerable situations have seen the support they receive change due to central government cuts to budgets such as Supporting People, welfare reform and the Council's programme of budget savings. This may be having some impact on the ability of people to successfully manage their lives and interactions with agencies.

Whilst Council services have made every effort to mitigate the impact of budget cuts on these groups, not least due to the impacts of welfare reform affecting these groups at the same time, it is possible that we have not been entirely successful in these efforts? Therefore, can we be confident that changes to support services have brought about the improvements in independence and life opportunities that we have tried to achieve or have these objectives been hindered by cuts to services and benefits?

Proposal:

To commission a project to research a number of case studies so we can better understand the impact of changes to service delivery, in the context of wider welfare and other government reforms, on disabled people and other vulnerable groups in Barnsley.

When:

The project is to be commissioned and undertaken in 2017/18 with a view to reporting its findings in 2018/19.

Outcome:

The Council will have clearer understanding of the impact of its decisions on the most vulnerable groups which can be used to inform future decision making.

5.2 Proposed Mitigation 2: Improving access to services for disabled people.

Background:

Digital by default is the foundation of the Customer Services Strategy of the Council in the future. It is based on the idea that the public can and should do more on line for itself and not rely on customer service staff to do this face to face or over the telephone. However the Council accepts that no one should be left behind by this policy. We recognise that some

people find accessing services on-line much harder and that they should not be disadvantaged as a result. We have put in place a number of improvements to minimise any impact of digital by default on this group of people, such as improving the usability and accessibility of the website, providing more information in accessible formats including BSL video, continuing to provide telephone customer service can now be more targeted towards those in greatest need, running a series of courses helping people to get on-line across the borough and providing access to computers in our libraries across the borough.

Older people are another group we have identified as potentially being more affected by the shift towards accessing services online. Those who have problems accessing services for a reason relating to a disability will be covered by this proposed project and those who face barriers due to being on low incomes or lack of confidence using technology will be supported by existing projects to help them access services on-line, such as the Device Doctors sessions.

Proposal:

The next step is to identify those people who cannot access services online and find suitable ways for them to contact the Council which meet their individual needs and encourages the greatest independence.

We will develop a practical project and campaign to encourage members of the public who have difficulty contacting the Council online for a reason related to their disability to tell us so we can identify suitable solutions for them. We will then review the effect on the experience of disabled and Deaf people, in terms of a fair and equitable service provision, of the digital by default policy and the various mitigation measures we have put in place to enable access to services.

When:

The campaign and review will take place by March 2018. If successful this campaign would need to continue to ensure all those who needed this assistance were aware of how to request it.

Outcome:

The findings will be incorporated into the ongoing EIA for the Customer Services Strategy and will be used to inform all future decisions and plans for customer access to services.

APPENDIX – SUMMARY OF EQUALITY IMPACTS (2017/18 to 2019/20)

Communities

Re-Modelling of Customer Services Project (BU7 E1)

Group (protected characteristic)	Mitigated impact
Older People (mobility, access and technology)	High
Deaf People (who face language barriers)	High
Disabled People (Learning Difficulty or Disability)	High
BME groups (limited English speakers and new arrivals)	Medium
Young People (access and age restrictions)	High
People on a low income (access)	Medium

In response to delivery of the Customer Services Strategy to achieve 70% take up on online transactions we anticipate a new model of customer service face to face contact through the public library service. This EIA is focusing on the review of the library services. They have identified that a significant number of customers already complete their contacts with the Council online but they have acknowledged that there are some people who will need continued support to do this. Customer Services have stated that they will continue to assist customers who need support to contact the Council, and they will continue to provide public access computers, free Internet and free Wi-Fi in all public libraries, along with support to use IT, and enable customers to transition to self-service.

The future delivery model for the public library service will need to ensure that the provision meets the needs of the residents of Barnsley in providing access to our statutory library services. . Since libraries function as a neutral community space, they are a venue for community groups to hold meetings, and a place where people from different backgrounds and communities come together and interact.

Access Barriers:

Depending on the outcome of the review of the libraries services and the recommendations for the future services delivery model, there have been a number of initial conversations around the likely impacts for the below groups. An updated EIA will be required at the point of decision making to explore the likely impacts further and to plan any mitigating actions where appropriate.

- Older people use the library service for both traditional library services, to access IT and to use the community spaces within libraries in order to socialize and learn. Older people may have difficulties with mobility, using their own or public transport or carrying items for long distances. The Home Library Service is predominantly used by older people.
- Economically deprived people may not have access to the internet at home, so a library's free internet / free Wi-Fi is important for accessing services. This group may also have limited access to a car or be affected by the cost of public transport, and therefore close proximity of a library to where they live is a key determinant in continued use of the Service.
- Disabled people use customer services and the public library service to access Council services and to find out about community services.
- It is thought that very few Deaf People use the service. Deaf people, hearing impaired people and visually impaired people may experience difficulties accessing the service both now and following any change due to the limited specialist resources or trained staff to help with communication needs.

- Children/young people use the library service for their learning, reading for pleasure, attending groups and holiday activities and to supplement a school's resources. The Service plays a key role in supporting language development in very young children and literacy for children generally. Under 8's need to be accompanied by an adult and the location of the libraries in some rural areas means that some young people are dependent on adults to take them. A move to increased access through self-service would require all under 16's to be accompanied by an adult during non-staffed hours.
- BME people access the library service in order to attend community groups, Conversation Cafes and access library stock in languages other than English. Use of the public access computers is high for migrants/asylum seekers, both for maintaining contact with family and friends and to find out about life in Britain and the residency/asylum process. This group may also need assistance in completing customer service functions due to language/communication needs.

Mitigation:

The Service is currently considering ways in which it can remain accessible to all sections of the community. The engagement will lead to recommendations for the development of the new library service.

EIA Process:

The new operating model for the public library service will meet the statutory requirements of the 1964 Public Libraries & Museums Act and will be formulated following an initial period of public engagement and consultation. This will then be subject to a longer period of public consultation where comments will be invited on the preferred future delivery model from members of the public and stakeholders, before a final decision is made by Council. There will need to be an updated EIA, outlining any likely impacts of the recommendations, to inform the decision making (following the initial consultation).

Telephony Channel (BU7 E2)

Group (protected characteristic)	Mitigated impact
Older People (mobility, access and technology)	Medium
Deaf People (who face language barriers)	Medium
Disabled People (Learning Difficulty or Disability)	Medium
BME groups (limited English speakers and new arrivals)	Medium

A significant number of customers already complete their contacts with the Council online and it is anticipated that their need for telephony will reduce. However for some people this transition to online self-service is much harder and hence may experience a significant impact as the telephony service is reduced.

Access Barrier:

The biggest impact is anticipated for; older people, disabled people, Deaf people (using BSL Video Relay), BME people, and people on a low incomes.

With a reduction in telephone provision there is a potential for some of the above groups to find it difficult to contact the Council over the telephone – furthermore waiting times, are also likely to increase as a result of this change. Access may become particularly difficult if someone does not have access to a computer, a library, if they cannot use a computer or if they have limited finances.

Mitigation:

Customer Services are currently reviewing their telephony and access channels as part of the service delivery review. They will continue to assist customers who need support to contact the Council, and they will continue to provide public access computers, free Internet and free Wi-Fi in all public libraries, along with support to use IT, and enable customers to transition to self-service. An updated and more detailed EIA is being completed for this project.

EIA Process:

The EIA was created as part of the Customer Services Strategy Review in 2015. This is currently being reviewed and updated in line with the plans to reduce telephone provision. This EIA will inform the review of the contact centre requirements and assist to mitigate potentially negative impacts.

Creation of a Single Customer Contact Centre (BU7 E3)

Group (protected characteristic)	Mitigated impact
Older People (access and technology)	High
Deaf People (who face language barriers)	High
Disabled People (accessing Adult Social Care)	High
BME groups (limited English speakers and new arrivals)	Medium
Young People (access and age restrictions)	High
People on a low income (access)	Medium
Carers (of people accessing adult social care)	Medium

This change will consolidate telephone provision.

Access Barriers:

The biggest impact is anticipated for; older people, disabled people, Deaf people (using BSL Video Relay), BME people, people on a low income.

With a reduction in telephone provision there is potential for some of the above groups to find it difficult to contact the Council over the telephone – furthermore waiting times, are may increase as a result of this change. Access may become particularly difficult if someone does not have access to a computer, a library, if they cannot use a computer or if they have limited finances.

Mitigation:

Customer Services are currently reviewing their telephony and access channels as part of the service delivery review. The service will continue to assist customers who need support to contact the Council, and they will continue to provide public access computers, free Internet and free Wi-Fi in all public libraries, along with support to use IT, and enable customers to transition to self-service. An updated and more detailed EIA is being completed for this project.

The Service will use the feedback from customers to enable them to learn from the diverse community members any challenges and barriers to access that they face.

EIA Process:

The EIA was created as part of the Customer Services Strategy Review in 2015. This is currently being reviewed and updated in line with the plans to reduce the number of telephone operatives. This EIA will inform the review of the contact centre requirements and assist to mitigate potentially negative impacts.

Day Opportunities Review (BU7 E10)

Group (protected characteristic)	Mitigated impact
Disabled People (people with learning disabilities)	High

The reduction in posts in 2017/18 will not have an impact on service delivery as these posts are already vacant. However the savings identified for 2019/20 may be affected by the wider Day Opportunities Review which will be subject to a separate EIA process.

Selective Licensing (BU8 E1)

Group (protected characteristic)	Mitigated impact
Disabled People	High
BME people	High

A selective licensing scheme would be designed with the objective of driving up standards in the private rented sector benefiting those whose financial situation dictates that they reside in the poorest elements of this sector, transient communities including new arrivals from abroad and some of our most vulnerable residents.

The scheme will have the greatest impact on the landlords operating and residents living within the designated area. We are aware that such areas have a higher prevalence of socially excluded people, people on low incomes, migrant workers and those in receipt of benefits.

Access Barriers;

There will be a period of statutory consultation before a decision is taken. It is important for the consultation to be both accessible and engaging with those most affected. Therefore there will be both online consultation and some targeted/supported consultation. Considerations around the accessibility of the consultation will be needed, taking into account the demographics of the local community to ensure that they have access to translation services as required.

There are some risks around the recharging of the fees which will also need to be considered and managed.

Mitigation:

As the extent of the potential impact is currently not known this will be monitored and mitigating actions taken should these be necessary/appropriate.

EIA Process:

The EIA will need to be updated and the impact monitored to better understand the actual impact of this scheme. The EIA has so far highlighted the need for:

- Further community and stakeholder consultation to better understand the impacts. This will enable us to address these whilst looking to foster better relationships within the community itself promoting community cohesion.
- Monitoring of equality information to better understand the issues faced within the community, to enable us to ensure there is a fair and consistent approach, to mitigate any discrimination and to ensure that the reporting mechanisms and information around the scheme are accessible to all.
- Review the impact that the scheme is having on the community to reduce the likelihood of any disproportionately negative impacts on those with protected characteristics.

Be Well Barnsley (BU8 E3)

Group (protected characteristic)	Mitigated impact
Disabled People (especially those with learning disabilities, long term health conditions and mental health issues)	Medium
Young People	High
Older People	Medium
BME People	Medium
People on a low income	Medium

This efficiency equates to a 40% reduction to existing healthy lifestyle commissioned resources by 2019/20. This allows current contracts to run for 3 years and for the Council to work to embed sustainability in other areas. The Lifestyle Review that is currently underway will inform how these savings can best be delivered, which may affect the predicted impacts outlined above. Nonetheless, this is a significant budget reduction which will significantly alter the shape, reach and capacity of the service in the future and so we will keep the potential impacts on the affected groups under review.

Mitigation:

The Service will target the delivery of the remaining resources to engage with those groups with the poorest health outcomes, such as people with learning disabilities and mental health issues and long term conditions. However this will depend on the outcome of the review.

EIA Process:

A full EIA will be completed for this budget saving once there are recommendations, or options for service reductions, to be considered.

Welfare Rights Redesign (BU8 E4)

Group (protected characteristic)	Mitigated impact
Older People	Medium
Disabled People	Medium
Deaf People (using Deaf Advice Service – with BSL interpreter)	High
People on a Low Income	Medium
BME People (limited English speakers)	Medium

Welfare Rights will undergo a further restructure and remodel to contain the budget reductions – to merge the operational arm of the service, including housing options and welfare, into the Safer Communities structure so as to deliver a more holistic service model. This will result in the decommissioning of externally funded advice currently delivered by CAB and DIAL Barnsley. Area Councils may choose to retain services in their local areas by commissioning these independently but this cannot be guaranteed.

The reduced support could lead to increased waiting times and customers being unable to resolve issues within required timescales which could impact on entitlement and hence their income levels. Residents may have reduced incomes which could lead to health issues both physical and mental, debt issues, increase in poverty, and pressure on other services. A high percentage of the support provided by the Welfare Rights Service is around sickness related benefits, tax credits and appeals/tribunals. There is also significant support provided to cancer patients and their carer's by the Macmillan advisors.

Access Barriers:

The EIA has identified that older people and disabled people are particularly at risk of significant adverse impact as a result of the proposed changes but there would also be an impact on Carers, BME people and those on low incomes. Deaf people would also be high risk if the Deaf Advice Service is not retained, which would require a specific EIA as a result.

For the largest percentage of people needing advice or guidance; it is expected that they will be able to self-serve online. The focus of the remaining resources will be on supporting the most vulnerable people who find self-service inaccessible – meeting their access and support needs appropriately.

The capacity for home visits will be significantly reduced – which will be a barrier for some older or disabled people. The service will be centralised as well which may have a negative impact on some members of the community who cannot travel to the available locations, for example disabled people, older people, and people on a low incomes.

More BME people are approaching the Service where English is not their first language, so they may encounter more issues with a web based system.

Mitigation:

The equality profile of customers accessing welfare rights advice is not currently understood and the intention with the new contract is to collect and analyse equality information in order to get a better understanding of the clientele, their needs and any presenting gaps or issues. It will also allow them to review the accessibility of the service and plan any required mitigations. The following actions have been identified as part of the EIA process so far:

- Monitoring of equality information and mapping this against current performance data (i.e. benefit gains, type of advice required etc.), to better understand the customer profile and customer needs;
- Monitoring the impact that the service change is having on the community to reduce the likelihood of any disproportionately negative impacts on those with protected characteristics;
- Continued consultation with the community to better understand the issues/barriers/concerns;
- Key partners, stakeholders, community members, customers and current service providers to be involved in the development of the new service;

EIA Process:

Online consultation has been undertaken as part of the review and redesign process, and this will continue after changes are implemented.

Contract efficiencies (BU8 E5)

Group (protected characteristic)	Mitigated impact
Disabled People (physical access or communication needs)	Medium
Deaf People	Medium
LGBT people	Medium
Women (particularly for DV services)	Medium
People with Multiple and Complex needs (homelessness, substance misuse, offending and mental ill health)	Medium
BME people (cultural barriers and for DV services)	Medium
Young people	Medium

There are 3 services areas (Substance Misuse, Domestic Violence and Multiple and Complex Needs) that have been reviewed, remodelled and retendered under this efficiency. Each of the new contracts has the budget reduction already factored in. It is hoped that the services will deliver a more tailored, targeted service for those who need them.

Access Barriers:

Barriers may include access to services including both physical and communication barriers. The promotion of the services also needs to be considered in order to ensure that it is engaging people in the right way, at the right time (i.e. BSL users, limited English speakers). The services need to ensure that they are providing support that is tailored to the individuals support and communication needs, including things like cultural considerations and flexibility of the support approach as well.

Mitigation:

It is envisaged that the changes to the services will be positive, creating better access to these services, reaching a wider audience and offering tailored support to the people who need it. This will require the services to work in partnership and collaboration in order to offer tailored support.

Commissioned services will also be required to collect, monitor and review the diversity of their service users in order to better understand the impact of the changes. They will also monitor waiting times, access and awareness of the services in order to try and mitigate any negative or unforeseen impacts.

EIA Process:

Each of the service areas has undertaken an EIA as part of the review and tendering process. Online consultation, service user consultation and Equality Forum consultation has been undertaken as part of the review and redesign process within each area. The EIA's, and equality information gathered, will continue to be reviewed in line with the monitoring of the services and will need to be updated when there is a better understanding of the actual impacts.

Reconfigure of staff teams across Safer and Healthier (BU8 E9)

Group (protected characteristic)	Mitigated impact
Victims of Anti-Social Behaviour (ASB)	Positive

Significant changes have been made to service governance structures, a strengthening of policies and procedures, triage and deployment capabilities and a change to working hours by key front line staff, to cover times of peak demand and weekends. The aim of this is to strengthen the delivery of services. In addition to the above a number of additional roles have been created to develop and strengthen the Council's engagement with diverse communities.

The new re-designed structure will deliver a more focused and joined up approach to tackling ASB. Subsequent diversionary strategies may have to be developed to offer young people support. The restructuring is designed to provide support based upon risk and the risk has been identified as ASB – this is particularly prevalent amongst young people.

Mitigation:

As the full extent of the impact is not known at this point, monitoring, feedback and further community consultation will need to be undertaken following the changes in order to gain a better understanding of the extent of any impact and to identify what steps can be practically taken to minimise this impact.

Specialist officers dealing with Cohesion and Prevent, Asylum and Migration, Gypsy and Travellers, will bring opportunities to gauge public sentiment with regards to any potential negative impact that may arise.

EIA Process:

The EIA action plan will need to consider how to effectively monitor the impact of the changes on the community, and to then look to reduce the likelihood of any disproportionately negative impacts, as appropriate.

Finance, Assets and Information Services

Finance Business Unit Major Restructure (BU13 E1)

Group (protected characteristic)	Mitigated impact
Disabled people (access barriers)	Medium
Deaf people (language barriers)	Medium
Disabled people in vulnerable situations (mental health, learning disabilities)	Medium
BME groups (new arrivals with limited English)	Medium

The efficiency proposals are in part predicated upon increasing the rate at which customers change the way they contact the Council and manage their council tax and benefits payments – with an increasing proportion choosing to do this online as opposed to face to face or telephone services. The choice to access services is not however an equal one for all customers. Some groups will face significant barriers including:

People on low incomes, with multiple and complex needs:

People on very low incomes are more likely to be in temporary accommodation and more likely to be in vulnerable situations, such as those with mental health problems, young people, ex-offenders, people with drug and alcohol problems, people with learning disabilities and people who have been victims of domestic violence. As a result people on low incomes are less likely to have good access to the internet and likely to

have more complex enquiries associated with their council tax or benefits. People on low incomes for one or more of these reasons will also find it difficult to travel to a library to use the internet access there. The consequence could be that they fall into even greater financial and social difficulties as a consequence.

Access barriers:

For some people the main barrier with on-line services is that they can be inaccessible given their disability or language needs. Many Deaf people find understanding written English difficult to understand because BSL is their first language and they often have much lower levels of literacy. People with learning disabilities and people with specific learning difficulties, such as dyslexia or dyspraxia, can find completing on-line forms very complicated and stressful. Others rely on additional software, voice recognition or software that reads the content of a webpage, to access the internet, but on-line transactional forms are not always compatible with this software. New arrivals to the borough including asylum seekers refugees and migrant workers can also find completing on-line forms is difficult due to language barriers. Failure to enable these groups to enquire about their council tax or benefits could increase their social isolation.

Mitigation:

The emphasis on requiring customers to access services online if they can, and only by other means if they are not able to do this, is a corporate priority as part of our Customer Service Strategy. The implications of this and steps to mitigate the impact of this have been addressed as part of this wider strategy and are further considered in this report (see section 5.2)

EIA Process:

The full EIA will be completed as part of the planning for the implementation of this saving in 2018/19.

Legal and Governance

Deletion of Electoral Registration Outreach Officer Post (BU18 E6)

Group (protected characteristic)	Mitigated impact
Disabled people	Medium
Older People	Medium

The Outreach Officer’s primary role is to visit residential homes for the elderly and disabled to ensure that all residents are registered to vote. Deletion of this post would make it harder for people who need support to register to vote.

Engagement with nursing homes and care providers will be key to devising an alternative strategy for reaching these groups and helping them to register to vote

People

Targeted reviews of social care packages (BU2 E1)

Group (protected characteristic)	Mitigated impact
Disabled people / Older People (reduced care packages)	High
Disabled people / Older People (increased independence)	Positive

In line with the Care Act 2014 requirements to ensure regular review of care and support plans, a dedicated reviewing team will be created to complete effective and timely reviews of current care packages. This will allow the service to review all cases to ensure that individual's continue to meet the Care Act's eligibility criteria and that assessed eligible needs are being met in the most cost effective way. This will also allow the service to identify cases where there is a need to increase care provision.

The Care Act requires authorities to conduct a review of care and support plans no later than every 12 months. Where needs have changed service users may see their current care packages being reduced or removed; alternatively, some service users may see an increase to their current care package. More robust and regular reviews will also help to identify potential safeguarding issues.

Older and disabled people:

Altering the care packages to which people have become accustomed can have an impact on their quality of life and their ability to take part in the social and community life of their neighbourhoods and with the families and friends. However altering care packages can increase people's independence and enable them to contribute more towards their local community.

Mitigation:

A specific team will be established to conduct the review of the largest care packages, training will be provided to all front-line staff and a more robust and frequent system of case reviews will be put in place.

EIA Process:

Assess the extent to which quality of life outcomes are being improved or not as a result of these changes. This may be part of a larger review of the impact of a range of changes to social care in recent years.

Children's Social Care and Safeguarding - Charging for Newsome Ave Respite Unit (BU3 E2)

Group (protected characteristic)	Mitigated impact
Disabled children and young people with high level and complex care needs	Low

This budget saving proposal will increase the income generated from the sale of short term respite places to other local authorities by increasing sales activity underpinned by effective marketing / pricing of the provision. In theory this reduces the availability of bed spaces at Newsome Avenue for disabled children in Barnsley but in practice, due to careful management through the Panel approval and admissions process, the spare capacity will be better utilised without limiting access for local disabled people. Nonetheless if at

any point it appears that there is a risk that this income generation could impact of bed availability for local children and young people then a full EIA will be undertaken before this takes effect.

Place

Environment and Transport Cross-Business Unit Restructure (BU6 E2)

Group (protected characteristic)	Mitigated impact
Disabled people seeking work / skills	Positive
Care leavers not in employment	Positive

The specifics as to how these efficiencies will be realised are not yet agreed. However the broad principles have been identified and the impact on service delivery is likely to be minimal. The main equality impact is likely to be on those who would benefit from greater employment and skills opportunities that the changes will open up for those who currently face significant barriers to work.

Disabled people / care leavers:

Disabled people and young people leaving care frequently face the highest levels of unemployment and economic inactivity as a result of the barriers they face to obtaining qualifications, skills and employment opportunities. The service restructure will result in the provision of a greater number of training placements and apprenticeships for people from these groups.

EIA Process:

The restructure will not be implemented until 2018/19 and a full EIA will be completed as part of this process if it is felt there will be significant changes to service delivery.

The service restructure will include the development of a number of training placements and apprenticeships. These will be monitored and performance reported regularly.

Environment and Transport Service Delivery Re-design (BU6 E3)

Group (protected characteristic)	Mitigated impact
Disabled people (communication barriers)	Medium
BME groups (new arrivals with limited English)	Medium

The specifics as to how these efficiencies will be realised are not yet agreed. However the broad areas where service changes are to be planned have been identified. Changes to policies with regards bin collections, such as missed bins and green waste collection charges, can have greater impacts on those people who are less able to understand or adapt to the changes. These impacts will be considered in more detail as the plans are developed for implementation in 2018/19 and appropriate mitigation incorporated to minimise any negative impacts on vulnerable groups.

People with communication barriers:

People with significant communication barriers can often find they are unaware of changes to even high profile services such as refuse collection. People with learning difficulties, Deaf people and people with sensory impairments can find mainstream publicity inaccessible to them and they as a result have to rely on information passed from family and neighbours. Others have limited English and understanding of Council services and hence information about changed policies for the collection of waste and recycling can fail to reach these groups. Given refuse collection can already be a cause of disagreement between neighbours, where new arrivals are unfamiliar with the process and requirements, there are potential cohesion implications also.

Mitigations:

The service will look at ways to improve awareness and understanding of waste and recycling policies to ensure all sections of the community are fully aware of any changes. Last year the service produced a video in BSL to enable Deaf people to have a better understanding of which items to recycle in which bin for example.

EIA Process:

The service re-design will not be implemented until 2018/19 and a full EIA will be completed as part of this process if it is felt there will be significant changes to service delivery.

South Yorkshire Passenger Transport Executive (3-5 Year strategic plan) (BU6 E7)

Group (protected characteristic)	Mitigated impact
Disabled people (entitled to concessionary fares)	None
Young people (entitled to concessionary fares)	None
Older people (entitled to concessionary fares)	None

This budget efficiency proposal will result in a significant reduction in the amount of funding given to the SYPTE over the next 3 years. How this reduction will impact upon transport services and passengers will need to be determined by SYPTE. Early indications however are that there will be no impact on transport services nor concessionary travel arrangements as the savings will be realised through initiatives such as refinancing and efficiencies. If this position changes the Council will seek to ensure the SYPTE undertake a full EIA of any proposed changes.

PH E2 Review of Contracts and Commissioning

Group (protected characteristic)	Mitigated impact
Disabled people	Medium
Women and Men	Medium
BME communities (especially new arrivals)	Medium
Young people	Medium
Older people	Medium
Sexual orientation (LGBT community)	Medium

There are three key lines of enquiry for the budget saving and for each a separate EIA will be completed:

1 – The re-procurement of NHS Health Checks. The proposed model will bring the Barnsley service in line with other local authority commissioned Health Check services and the Department of Health benchmarking data. GP practices are signing up to undertake the health checks at a very good rate and so we anticipate that Health Checks will continue to be delivered in 2017/18 without a break in service while we re-procure and commence a new contract for 2018/19.

2 – Integrated Sexual Health Service. At this moment in time the impact of efficiencies is unclear. Before efficiencies are realised and contract values are reduced there will be a full service review, including stakeholder engagement and EIA. The findings of the review will be shared and the impact of proposed changes considered before any action is taken.

3 – 0-19 Health Child Programme. The service transitioned from SWYPFT to the Council on 1.10.16. A service review and re-design will be required to ensure that the services, including health visiting and school nursing, are fit for purpose for the future. An EIA will be completed as part of the service re-design.

BARNSELY METROPOLITAN BOROUGH COUNCIL

This matter is a key decision within the Council's definition and has been included within the relevant Forward Plan

Cabinet: 8TH February 2017

Report of the Director of
Finance, Assets and IT

TREASURY POLICY AND STRATEGY STATEMENTS 2017/18

1. Purpose of Report

- 1.1 The purpose of this report is to present for approval the 2017/18 Treasury Policy Statement and Treasury Strategy Statement, including the Annual Investment Strategy.

2. Recommendations

2.1 It is recommended that: -

- Members note the main treasury management policies, as outlined in the Treasury Policy Statement (Annex A).
- Members approve the attached Treasury Management Strategy Statement for 2017/18 (Annex B) including:
 - the revised Minimum Revenue Provision (MRP) Statement at Appendix E.
 - the Annual Investment Strategy for 2017/18 at Section 4 of the TMSS.

3. Background

- 3.1 The Treasury Management Code of Practice requires local authorities to produce a Treasury Management Strategy and Policy Statement on an annual basis.
- 3.2 The Council adopted the original CIPFA Code of Practice on 13th February 2002, and this resolution is carried through to the revised Code. Therefore, the attached Treasury Policy Statement and Treasury Management Strategy Statements for 2017/18 have been prepared in compliance with the revised Code.

4. Treasury Policy Statement

- 4.1 Attached at Annex A is the Council's Treasury Policy Statement (TPS) for 2017/18. This complies with the requirements of the Code and is submitted for approval.
- 4.2 The TPS defines the Council's policies, objectives and approach to risk management of its treasury management activities. Further detail is contained within the Council's Treasury Management Practices (TMPs) document. This is the key systems document for the Council and the Section 151 Officer in the operation, review and performance assessment of the Treasury Management function.
- 4.3 The revised code recommends the TPS should include the organisation's high level policies for borrowing and investments and these requirements are addressed within the 2017/18 document.

5. Treasury Management Strategy Statement

- 5.1 Attached at Annex B is the Council's Treasury Management Strategy Statement (TMSS) for 2017/18. This Statement details:
 - Outlook for interest rates;
 - Borrowing requirements & strategy;
 - Annual investment strategy;
 - Approach to risk management;
 - Minimum Revenue Provision statement for 2017/18.
- 5.2 The Authority's treasury management advisor Capita forecasts that the bank rate will remain unchanged at 0.25% until the first increase to 0.50% in the second quarter of 2019. Forecasts are uncertain at present and will remain so in terms of the unknown effects of Brexit and political developments in the US. The TMSS is based on the latest interest rate forecast and close monitoring of rates will continue throughout the year.
- 5.3 The Council has developed General Fund and Housing Revenue Account borrowing strategies in response to the changes following the implementation of housing self-financing.
- 5.4 The Council's borrowing strategy will continue to focus on interest costs in order to minimise the impact on the overall revenue budget however it will also seek to address the GF interest rate risk exposure and refinancing risk. The approach will consider a range of options to address these aims including:
 - Borrowing from the Municipal Bond Agency;

- Borrow on need – continuing to use temporary/short-term borrowing from other local authorities;
- Restructuring existing variable rate debt;
- Risk spreading by borrowing in smaller tranches to cover fixed rate maturities over the next three years;
- Deferred loans – fixing rates now for loans that commence in future.

The above options are discussed in further detail within the report together with recommendations as to the most suitable action for both the GF and HRA.

5.5 The key aim of the HRA borrowing strategy is to manage the affordability of debt repayments. In a surprise announcement in his budget on 8th July 2015 the Chancellor of the Exchequer stated that social housing rents would decrease by 1% per annum for the next 4 years with the aim of reducing the Housing Benefit bill. This replaces the existing Government commitment made in 2013 to allow rents to increase by the Consumer Price Index of inflation (CPI) plus 1%. This means that HRA debt can no longer be repaid within the 30 Year Business Plan.

5.6 The TMSS outlines the Council's Minimum Revenue Provision (MRP) statement for 2017/18. The Council will apply Option 3 (Asset Life Method) in respect of supported and unsupported capital expenditure. Within Option 3 revenue provision will be calculated using the annuity method. The MRP Statement for 2017/18 is shown at Appendix E.

6. Annual Investment Strategy

6.1 In compliance with CLG Guidance the Council's investment priorities are security, liquidity and then yield.

6.2 As a result of the Council's strategy of internal borrowing, investment balances will remain depleted. This approach, combined with low money market rates will reduce the level of investment income.

6.3 The Code requires authorities to analyse information over and above credit ratings including share price and Credit Default Swaps (CDS). In tandem with Capita, the Council will continue to monitor these revised indicators of creditworthiness.

6.4 We remain in a very difficult investment environment and the 2017/18 investment strategy has been developed to take into account of continuing uncertainty within financial markets. Whilst counterparty risk appears to have eased, market sentiment has been subject to extreme volatility and economic forecasts remain full of uncertainty.

7. Consultations

- 7.1 The Treasury Policy and Strategy Statements were drafted in consultation with the Council's Treasury Management advisers (Capita).

8. Risk Implications

- 8.1 The successful identification, monitoring and control of risk is an important and integral element of its treasury management activity.
- 8.2 Credit, interest rate and refinancing risk are the most relevant to the Council at the current time. The following 2017/18 TMSS and TPS sets out how the Council intends to address these risks. An additional Appendix has also been included (Appendix B) within the TMSS which further examines the risks faced by the Council and the mitigations used to address these risks.
- 8.3 In order to implement the strategy and monitor treasury management activity, the Council has set up a Treasury Management (TM) Panel. Chaired by the Section 151 Officer and including the Cabinet Spokesperson and Cabinet Support Member for Corporate Services, the TM Panel meets on a quarterly basis to ensure that the approved treasury strategy is implemented.
- 8.4 To further enhance the scrutiny and risk management of the treasury management operation, treasury officers have been working closely with members of the Audit Committee.

9. Reduction of Crime and Disorder

- 9.1 None arising directly from this report.

10. Employee Implications

- 10.1 None arising directly from this report.

11. Financial Implications

- 11.1 The strategy outlines borrowing and investment activity which will be factored into the wider budget.

12. Annexes

12.1 Annex A - Treasury Policy Statement 2017/18

Annex B - Treasury Management Strategy Statement 2017/18

13. Background Papers

13.1 The following documents and publications were used in preparation of the Treasury Management documents :

- CIPFA's Treasury Management Code of Practice
- CIPFA's Prudential Code for Capital Finance in Local Authorities.
- CIPFA's guide to Housing Self Financing.
- Papers from the Council's Treasury Management advisers (Capita).

Annex A

TREASURY POLICY STATEMENT

2017/2018

1 Introduction & Background

- 1.1 The Treasury Management Code of Practice requires local authorities to produce a Treasury Management Strategy and Policy Statement on an annual basis.
- 1.2 The Council adopted the original CIPFA Code of Practice on 13th February 2002, and this resolution is carried through to the revised Code. Therefore, the Treasury Policy Statement for 2017/18 has been prepared in compliance with the revised Code.
- 1.3 Accordingly, the Council will create and maintain the following key documents in accordance with the revised Code of Practice and other relevant guidance:
 - Treasury Management Policy Statement, outlining the key objectives of its treasury management activities;
 - Treasury Management Strategy Statement including the Annual Investment Strategy setting out the specific expected treasury activities for the forthcoming financial year;
 - Treasury Management Practices (TMP's) setting out the manner in which the Council will seek to achieve its objectives, and prescribing how it will manage and control those activities;
 - Treasury Management Prudential Indicators as prescribed within the Prudential and Treasury Management Codes.
- 1.4 The Council will receive reports on its treasury management activities, including as a minimum, an annual strategy for the forthcoming year, an annual report after year end and interim quarterly reports.
- 1.5 The Council delegates responsibility for the implementation and monitoring of its treasury management policies and practices to Full Council, and for the execution and administration of treasury management decisions to the Section 151 Officer, who will act in accordance with the Council's Policy Statement and the CIPFA Code of Practice.
- 1.6 The Council nominates the Treasury Management Panel and the Audit Committee as being responsible for ensuring the effective scrutiny of the treasury management strategy and policies.
- 1.7 The Treasury Management Panel will meet on a quarterly basis to monitor and review the Councils implementation of the Treasury Management Strategy and Policy. The Audit Committee will receive reports through which it will gain assurance regarding the effective implementation of the Strategy and Policy.
- 1.8 Internal Audit consider on an annual basis carrying out a regulatory review of the treasury management function including probity testing. This decision is made on a risk-based strategy and discussed and agreed with management.

2. Policies and Objectives of Treasury Management Activities

2.1 The Council defines its treasury management activities as:

“the management of the organisation’s investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”

2.2 Approved activities of the Treasury Management operation cover:

- Borrowing;
- Lending;
- Debt repayment and rescheduling;
- Consideration, approval and use of new financial instruments and treasury management techniques;
- Managing cash flow;
- Banking activities;
- Leasing; and
- Managing the risk associated with the Council’s treasury management activities.

2.3 The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will include their risk implications for the organisation.

2.4 This Council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving best value in treasury management, and to employing suitable performance measurement techniques, within the context of effective risk management.

2.5 The Council’s borrowing will be affordable, sustainable and prudent and consideration will be given to the management of interest rate risk and refinancing risk. The Section 151 Officer has delegated powers to select the most appropriate form of capital financing (including leasing arrangements) from the approved sources. The source from which the borrowing is taken and type of borrowing should allow the Council transparency and control over its debt.

2.6 The Council’s primary objective in relation to investment remains the security of capital. The liquidity of the Council’s investments and the yield earned remain important but secondary considerations.

2.7 The Annual Investment Strategy details the categories of investment the Council will invest in, maturity periods and criteria for selecting investment counterparties. Any revisions to these criteria will require Council approval.

1 INTRODUCTION

Background

- 1.1 The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the Council's low risk appetite, providing adequate liquidity initially before considering investment return.
- 1.2 The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning, to ensure that the Council can meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any debt previously drawn may be restructured to meet Council risk or cost objectives.
- 1.3 CIPFA defines treasury management as:

“The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”
- 1.4 The Council is responsible for its treasury decisions and activity. The successful identification, monitoring and control of treasury management risk are integral to treasury management activity. The following 2017/18 TMSS sets out how the Council intends to address the most significant risks and a schedule is included at Appendix B.

Reporting Requirements

- 1.5 The Council is required to receive and approve Treasury Management reports during the year, including:
 - **Prudential and treasury indicators and treasury strategy** (this report)
 - **Quarterly update treasury management reports** – These will update members with the progress of the capital position, amending prudential indicators as necessary, and whether any policies require revision.
 - **An annual treasury report** – This provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

Scrutiny

- 1.6 In order to implement the strategy and monitor treasury management activity, the Council has set up a Treasury Management Panel. Chaired by the Section 151 Officer and including the Cabinet Spokesperson and Cabinet Support Member for Corporate Services, the TM Panel meets on a regular basis to ensure that the approved treasury strategy is implemented. The above reports are required to be adequately scrutinised before being recommended to the Council.

Treasury Management Strategy for 2017/18

- 1.7 The strategy for 2017/18 covers two main areas:

Capital Issues

- the capital plans and the prudential indicators;
- the minimum revenue provision (MRP) policy.

Treasury Management Issues

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- policy on use of external service providers.

These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, CLG MRP Guidance, the CIPFA Treasury Management Code and CLG Investment Guidance.

Training

- 1.8 The CIPFA Code requires the responsible officer to ensure that members with responsibility for treasury management receive adequate training in treasury management. The training needs of treasury management officers are periodically reviewed and general training requirements are reported through the Council's Personal Development Review (PDR) process.
- 1.9 Staff members involved in treasury operations have previously completed the CIPFA-ACT International Treasury Management qualification. Ongoing training is accessed through Capita and CIPFA workshops. All training activities are recorded

in accordance with Treasury Management Practice 10 – Training and Qualifications.

Treasury Management Consultants

- 1.10 The Council uses Capita Asset Services, Treasury Solutions as its external treasury management advisors.
- 1.11 The Council recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon our external service providers.
- 1.12 It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

2 CAPITAL EXPENDITURE PLANS 2017/18 – 2019/20 AND CAPITAL PRUDENTIAL INDICATORS

- 2.1 The Council’s capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist members’ overview and confirm capital expenditure plans.
- 2.2 Following the reform of the HRA Subsidy system, the Council adopted the two-pool approach to debt management, maintaining separate pools for the General Fund (GF) and Housing Revenue Account (HRA).
- 2.3 Maintaining two pools, in theory, allows decisions on the structure and timing of borrowing to be made independently. Whilst the key issue facing the GF is one of short-term affordability, the HRA has to consider treasury management as a key risk against the viability of the 30 year business plan.
- 2.4 A separate borrowing strategy for the HRA has been produced which is approved by the Berneslai Homes board. A copy of this is shown at Appendix I. The Prudential Indicators below show the split between the GF and the HRA.

Combined GF/HRA Capital Expenditure

- 2.5 This prudential indicator is a summary of the Council’s capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. Members are asked to approve the capital expenditure forecasts:

Capital Expenditure £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
General Fund	52,401	68,217	51,182	32,274	6,931
HRA	25,091	29,905	30,004	32,975	21,888
Total	77,492	98,122	81,186	65,249	28,819

The above financing need excludes other long term liabilities, such as PFI and leasing arrangements which already include borrowing instruments.

- 2.6 These capital expenditure plans are monitored and amended by individual project leads throughout the financial year, to reflect the anticipated spend over the five years. These variances are reported formally to Cabinet each quarter, along with the suite of financial performance reports.

- 2.7 The table below summarises the above capital expenditure plans and how these plans are being financed by capital or revenue resources. The Authority's programme is fully approved at an individual level, including schemes to be financed from an increased borrowing need. Where the Council can generate additional funding to support capital expenditure, this will reduce its borrowing needs. Therefore leveraging in additional grant from funding/ regional bodies such as Sheffield City Region can have a direct impact on our capital financing costs and future levels of debt.

Financing of Capital Expenditure £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Capital Expenditure	77,492	98,122	81,186	65,249	28,819
Capital Receipts	11,104	7,439	1,675	1,107	702
Capital Grants	12,567	31,484	6,246	6,024	0
Capital Reserves	0	22,444	62,815	40,414	21,808
Revenue	23,472	7,135	10,450	12,903	1,310
Net Financing Need for the year as a result of Capital Expenditure	30,349	29,620	0	4,801	4,999

The Council's Borrowing Need (the Capital Financing Requirement)

- 2.8 The second prudential indicator is the Council's Capital Financing Requirement (CFR). The CFR is simply the total historic outstanding capital expenditure which has not yet been financed from either revenue or capital resources. It is essentially a measure of the Council's underlying borrowing need.
- 2.9 Capital expenditure not financed from internal resources (i.e. Capital Receipts, Capital Grants and Contributions, Revenue or Reserves) will produce an increase in the CFR.
- 2.10 The CFR does not increase indefinitely, as there is a statutory obligation for the Authority to set aside an annual revenue charge, the minimum revenue provision (MRP). This broadly reduces the borrowing need in line with each assets' life. A separate statement on the Council's policy on MRP is shown at Appendix F.
- 2.11 In addition, the Authority is able to make voluntary contributions towards reducing its CFR as it sees fit.

2.12 The CFR includes any other long term liabilities (e.g. PFI schemes, finance leases). Whilst these increase the CFR, and therefore the Council's borrowing requirement, these types of scheme include a borrowing facility and so the Council is not required to separately borrow for these schemes. The Council currently has £239M of such schemes within the CFR.

2.13 The Council is asked to approve the CFR projections below:

Capital Financing Requirement £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
CFR – GF	654,779	680,030	675,658	675,925	676,566
CFR – HRA	282,511	280,561	278,532	276,423	274,228
Total CFR	937,290	960,591	954,190	952,348	950,794

3 BORROWING

3.1 The capital expenditure plans set out in Section 2 provide details of the service activity of the Council. The treasury management function ensures that the Council's cash is organised in accordance with the relevant professional codes of practice, so that sufficient cash is available to meet this service activity. This will involve both the organisation of the cash flow and, where capital plans require, the organisation of appropriate borrowing facilities. The strategy covers the relevant treasury / prudential indicators, the current and projected debt positions and the annual investment strategy.

Current Portfolio Position

3.2 The Council's treasury portfolio position at 31 March 2016, with forward projections are summarised below. The table shows the **General Fund's** actual external debt (the treasury management operations), against the underlying capital borrowing need (the Capital Financing Requirement - CFR), highlighting any over or under borrowing.

General Fund: £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
External Debt:					
Capital Financing Requirement	654,779	680,030	675,658	675,925	676,566
Less: Other Long-Term Liabilities (OLTL)	(241,027)	(239,285)	(237,838)	(236,348)	(235,185)
Borrowing CFR	413,752	440,745	437,820	439,577	441,381
Less Existing Profile of Debt	(262,399)	(282,335)	(271,044)	(248,312)	(209,605)
Cumulative Maximum External Borrowing Requirement	151,353	158,410	166,776	191,265	231,776
Usable Reserves *	116,126	86,799	41,961	36,503	25,222
Cumulative Net Borrowing Requirement	35,227	71,611	124,815	154,762	206,554

* The above table assumes that the Authority's current level of "banked" reserves will be utilised over the planning period, except for reserves totalling £25M relating to a

minimum working balance and other statutory functions . It also does not assume any replenishment of these reserves, on a prudent basis.

- 3.3 The GF has a significant ongoing borrowing requirement as shown in the table above. This is as a result of the strategy of internal rather than external borrowing (using internal balances to minimise credit risk and avoid the cost of holding cash in the current climate of low investment returns) to fund major capital schemes such as the Building Schools for the Future Programme and the markets and town centre development.
- 3.4 As at 31st March 2017 the level of un-funded CFR exceeds the available balances and reserves, illustrated by the positive net cumulative borrowing requirement of £64M. This position will be monitored throughout the financial year and the borrowing options available to the Authority are discussed in greater detail from section 3.33 of the report.
- 3.5 The following table shows the level of internal borrowing as a percentage of the Capital Financing Requirement for both the GF and HRA. The average internal borrowing across Capita’s local authority clients is approximately 15%:

Internal Borrowing as a % of CFR	2016/17	2017/18	2018/19	2019/20
GF CFR	680,030	675,658	675,925	676,566
GF Usable Reserves	86,799	41,961	36,503	25,222
%	12.8%	6.2%	5.4%	3.7%
HRA CFR	280,561	278,532	276,423	274,228
HRA Usable Reserves	37,000	27,000	17,000	10,000
%	13.2%	9.7%	6.1%	3.6%

- 3.6 This position is subject to change as factors such as capital slippage, working capital and investments will all impact on the borrowing requirement. Officers will monitor the Council’s cash position to ensure sufficient liquidity is maintained.
- 3.7 Within the prudential indicators there are a number of key indicators to ensure that the Council operates its activities within well-defined limits. One of these is that the Council needs to ensure that its gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2017/18 and the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue purposes.
- 3.8 As per the Local Government Act 2003, a local authority may borrow money either for capital purposes or for the purposes of the prudent management of its financial affairs. Accordingly, the Authority may consider borrowing during

2017/18 for such purposes, including, for example, upfront repayment of its pension deficit for the next three years, as it is financially beneficial to do so.

- 3.9 The Director of Finance reports that the Council complied with this indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and proposals in this budget report.

Treasury Indicators: Limits to Borrowing Activity

- 3.10 The Operational Boundary. This is the limit beyond which external debt is not normally expected to exceed. This limit is set to match the Capital Financing Requirement as shown in the table at 2.11.

Operational Boundary £000	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Debt	721,306	716,352	716,000	715,609
Other Long Term Liabilities	239,285	237,838	236,348	235,185
Total	960,591	954,190	952,348	950,794

- 3.11 The Authorised Limit for External Debt. A further key prudential indicator represents a control on the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by the full Council. It reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term. The Authorised Limit has been set at £30M above the Operational Boundary.

- 3.12 This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils’ plans, or those of a specific council, although this power has not yet been exercised.

- 3.13 The Council is asked to approve the following authorised limit:

Authorised Limit £000	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Debt	751,306	746,352	746,000	745,609
Other Long Term Liabilities	239,285	237,838	236,348	235,185
Total	990,591	984,190	982,348	980,794

- 3.14 The following graph illustrates the profiles of the GF and HRA in terms of current debt, CFR, Operational Boundary and Authorised Limit.

- 3.15 External debt, represented by the bars, has already been spent on funding capital expenditure. The CFR line shows the amount in the programme which needs to be funded. Therefore, the area highlighted represents internal borrowing (capital spend not supported by direct funding).
- 3.16 The above graph estimates the level of temporary borrowing facility at £75m in 2016/17 and 2017/18 and £55m thereafter.
- 3.17 Separately, the Council is also limited to a maximum HRA CFR through the HRA self-financing regime. This limit is currently:

HRA Debt Limit £m	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
HRA Debt Cap	301,000	301,000	301,000	301,000
HRA CFR	277,000	271,000	264,000	257,000
HRA Headroom	24,000	30,000	37,000	44,000

- 3.18 The HRA Borrowing Strategy 2017/18 is included at Appendix I.

Interest Rate Risk

- 3.19 The risk profile of the GF has altered significantly following the apportionment of debt resulting from the implementation of self-financing. The GF loan pool is now

subject to a much greater degree of interest rate risk, as shown below (estimated at 31.3.17):

Borrowing Method	Value (£M)	% of Portfolio	Interest Rate Risk
PWLB - Fixed	144	33	No
Market Fixed	27	6	No
PWLB – Variable	34	8	Yes
Temporary Borrowing	75	17	Yes
Other Local Authority	2	1	No
Internal Borrowing / Borrowing Requirement	159	36	Yes
TOTAL	441	100	

Note – although market loans are viewed as fixed rate borrowing, there is a potential interest rate risk attached to these instruments should the lender exercise the call option.

- 3.20 Assuming an estimated borrowing CFR of £441M (CFR less long-term liabilities) at the end of 2016/17, 61% (£268M) of the GF loan pool is exposed to short-term interest rate movements and in the case of temporary borrowing, refinancing risk.
- 3.21 Exposure to variable interest costs will be offset to some extent by maintaining a level of variable rate investments. Assuming investments of £40M, net interest rate exposure is reduced from 61% to 52%.
- 3.22 Retaining a relatively high level of exposure has clear benefits in reduced interest costs. The GF's share of existing PWLB variable rate loans (£35M) continues to represent excellent value with an interest rate of approximately 0.42% and the average rate payable on temporary borrowing is 0.57% (Dec 16).
- 3.23 There are three debt related treasury activity limits. The purpose of these are to restrain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of any adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce costs / improve performance. The indicators are:
- Upper limits on variable interest rate exposure. This identifies a maximum limit for variable interest rates based upon the debt position net of investments;
 - Upper limits on fixed interest rate exposure. This is similar to the previous indicator and covers a maximum limit on fixed interest rates;
 - Maturity structure of borrowing. These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.
- 3.24 The Council is asked to approve the following treasury indicators and limits:

£m	2017/18	2018/19	2019/20
Interest Rate Exposures – (GF)			
	Upper	Upper	Upper
Upper Limit on Fixed Interest Rates based on Net Debt (GF)	90%	90%	90%
Upper Limit on Variable Interest Rates based on Net Debt (GF)	25%	25%	25%

30 years to 40 years	0%	75%	
40 years to 50 years	0%	75%	

Refinancing Risk

- 3.25 The strategy of using inexpensive temporary borrowing to fund capital expenditure does expose the Council to a degree of refinancing risk. Whilst there is limited PWLB borrowing maturing in the next five years, approximately £55M of temporary borrowing from other local authorities is set to mature within the next 12 months. This source of funding is not guaranteed and rates are dictated to some extent by supply and demand, which represents an ongoing risk.
- 3.26 Low interest rates mean the Council's £63M of LOBOs loans (GF share of £27M) are unlikely to be called in 2017/18. The interest rate of 4.75% is above current market rates and therefore the refinancing risk in respect of these loans is low when taking into account prevailing market conditions. The Council will take the option to repay the LOBO loans at no cost should the opportunity arise to do so. In addition, the Council is also exploring the option (with specialist advisers) to repay the debt on more favourable terms in order to take advantage of prevailing low interest rates. The extent to which this will present an opportunity will depend upon the level of penalties that the current funders are likely to charge to break the loan conditions.

Prospects for Interest Rates

- 3.27 The Council is currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loan debt as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This strategy is prudent as investment returns are low and counterparty risk is still an issue that needs to be considered.
- 3.28 Against this background and the risks within the economic forecast, caution will be adopted with the 2017/18 treasury operations. The Director of Finance will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances:
- *if it was felt that there was a significant risk of a FALL in long and short term rates (e.g. due to a marked increase of risks around relapse into recession or of risks of deflation), then long term borrowings will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered.*
 - *if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an acceleration in the start date and in the rate of increase in central rates in the USA and UK, an increase in world economic activity or a sudden increase in inflation risks, then the portfolio position will be re-appraised. Most likely, fixed rate funding will be drawn whilst interest rates are lower than they are projected to be in the next few years.*
- Any decisions will be reported to the Treasury Management Panel at the next available opportunity.

Borrowing Strategy for 2017/18

- 3.29 High internal borrowing and variable rate debt creates a high level of risk. However, the strategy continues to pay dividends and support budget savings in the current economic environment. By postponing borrowing, the Council has greatly benefitted from an unexpected fall in fixed borrowing rates, which mitigates this risk to some degree.
- 3.30 The PWLB variable debt, combined with internal borrowing creates a very cheap position, but at risk of an uplift in interest rates. With interest rates at a record low, there is an option to fix out a proportion of the Authority's GF debt portfolio to remove a degree of refinancing risk. Conversely, a high proportion of the HRA portfolio is fixed rate debt, so there could be a potential to switch this to variable.
- 3.31 A Debt Options analysis has been carried out to assess the current position of the GF and requirements over the next 5 years. It is important to ascertain the right approach in a difficult climate. An analysis has been completed to project the impact of taking various decisions and how this feeds through to the Capital Financing Budget.

- 3.32 In addition to the Council's CFR repayment, the Council also has a number of loans due to mature over the next 5 years. The loans that have been identified as dropping out of the portfolio over the next 5 years are shown in the table below. This includes fixed and variable rate loans.

Maturing Loans	Principal £M	Rate %	Financial Year
Jan-17	2,100	8.625	2016/17
May-17	3,200	8.625	2017/18
May-17	5,400	7.375	2017/18
Nov-19	1,300	9.375	2019/20
Total Fixed	12,000		
Nov-19	21,400	0.700	2019/20
Mar-20	13,200	0.430	2019/20
Total Variable	34,600		
TOTAL	46,600		

Options to Consider

- 3.33 **Municipal Bond Agency** – This has been established to offer an alternative source of borrowing for local authorities to the PWLB. The Agency aims to provide cheaper capital finance to local authorities, undercutting the PWLB, via periodic bond issues. The Authority is a shareholder in the Agency, together with 55 other local authorities and the Local Government Association.
- 3.34 **Borrow on need** - Borrow fixed, temporary or longer dated debt as loans mature. As the outlook for rates is to remain low this is a cheap option which matches cash flow and reduces counterparty exposure and cost of carry. The use of temporary borrowing injects volatility into the portfolio in terms of interest rate and refinancing risk, but this is offset by reduced interest costs. At a time of increasing budgetary pressures, the use of temporary borrowing is a key consideration when balancing the requirements of risk versus affordability.
- 3.35 **Restructure variable rate debt** - Consider switching some of the variable rate debt to fixed longer term PWLB. The variable rate debt would not incur any penalties if repaid early, will reduce variable rate risk, but clearly will introduce additional costs to refinance. Each £10m rescheduled will cost roughly £200k p.a. This option is suitable for the GF, but the high level of fixed rate debt already maintained by the HRA means that this would not be a suitable strategy for the HRA.
- 3.36 **Risk spreading** - Borrow in small tranches to cover the fixed rate maturities over the next 3 years. This will spread the refinancing risk and address the borrowing need. Borrowing in smaller tranches may be beneficial due to uncertainty and volatility of rates and to hedge against rates moving even lower. This approach could be considered in terms of both the GF and HRA debt portfolios.

3.37 **Deferred loans** – There are offers in the market of deferred loans, giving the option to fix the rate now for a period of up to 5 or 6 years in advance. This would allow the Authority to continue a short term, cheap position, with the comfort of fixed rate loans being delivered in the future. The risks are, once agreed, the Authority is committed to the funds and the market rates could potentially be cheaper in 3 years' time. Arranging the loans could be quite a lengthy process involving a great deal of due diligence with commercial lenders.

Borrowing Strategy Recommendations for 2017/18

3.38 Based on the above information, it is recommended that:

- The Council borrows £10M from the Municipal Bond Agency to cover the loans due to mature in the next six months which are shown in the table above. This will enable the Authority to access funding at lower rates than the PWLB and help the Agency establish itself as an alternative source of funding for Local Authorities from the PWLB. This borrowing will be undertaken by the GF, but is an option that could be considered by the HRA in future years. The Agency is a new initiative and it is worth noting that at the time of writing it has yet to make its first bond issue. This will only go ahead with a sufficient level of commitment and interest from local authorities. Should the bond issue fail to materialise within our required timescales, the Authority will seek to use the PWLB as an alternative source of funding.
- In addition, it is recommended that a proportion of the portfolio is fixed out, to move towards fixing out temporary variable loans as a policy objective. This is suitable for the GF, but not recommended for the HRA.
- The Council will look at deferred loans to cover off the large variable loan due to mature in 2019/20. This could present an opportunity for both the GF and HRA debt portfolios.

3.39 The potential combination of these approaches should help to keep interest payments at relatively low levels, whilst gradually reducing the GF's exposure to interest rate and refinancing risk.

Policy on Borrowing in Advance of Need

3.40 The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds. Borrowing in advance of need will only be undertaken when there is a clear business case for doing so.

PFI Refinancing

- 3.41 The Council is currently reviewing its PFI programmes (particularly its Building Schools for the Future programme) to determine whether these can be refinanced on cheaper terms. The PFI element of the BSF programme was originally financed through commercial funders in 2009/10 and the Council is currently exploring opportunities (in conjunction with shareholders on the Barnsley Local Education Partnership) to re-finance the programme on more favourable terms taking into account potential break costs. It is envisaged that this work be completed during the 2017/18 financial year.

Source of Borrowing

- 3.42 As detailed in the 2016/17 Strategy, a consultation has been issued regarding the abolition of the PWLB Commissioners. HM Treasury have confirmed that despite the proposed abolition, the lending function will continue unaffected and that local authorities will continue to have access to the same range of borrowing facilities and there will be no impact on existing loans held by authorities.
- 3.43 The preferred method of borrowing will be through the PWLB but officers will continue to examine alternative options in 2017/18. The Authority has become a shareholder in the Local Government Agency's (LGA) Municipal Bond Agency and is looking to undertake borrowing as part of the first bond issue by the Agency.
- 3.44 The Council will continue to access funding from other local authorities. This source of funding is not guaranteed and is reliant on the cash flow position of other authorities. Officers will continue to assess the market to identify the level of refinancing risk.
- 3.45 Approved sources of long and short-term borrowing are:
- PWLB,
 - UK local authorities,
 - Any institution approved for investment,
 - UK public and private sector pension funds,
 - Capital market bond investors,
 - Special purpose companies created to enable joint local authority bond issues, and
 - Commercial lenders and banks.
- 3.46 As stated at 3.26, the Council holds £63M of LOBOs, the GF share of £27M representing just less than 10% of GF debt. To protect against the uncertainty and refinancing risk associated with such products, no further LOBO borrowing will be undertaken.

Leasing

- 3.47 Leasing remains a value for money option for financing suitable assets with a defined residual value, such as vehicles. Despite the financial crisis causing some banks to withdraw from the market, the remaining funders are willing to take risks on the future residual value of assets, making leasing a cheaper option for financing than funding acquisitions in-house. There is also a benefit to transferring the risk associated with the residual value away from the Council. The most appropriate and cost effective method of financing will continue to be identified for all assets.

4 ANNUAL INVESTMENT STRATEGY

Investment Policy

- 4.1 The Council is required to set an Annual Investment Strategy (AIS) as prescribed in guidance from the CLG on Local Government Investments.
- 4.2 The Director of Finance, under delegated powers, will undertake the most appropriate form of investments in keeping with the investment objectives, income and risk management requirements and Prudential Indicators. Decisions taken on the core investment portfolio will be reported to the Treasury Management Panel.
- 4.3 The Council holds invested funds, representing income received in advance of expenditure plus balances and reserves held. In 2016/17 (to 31st Dec 2016), the Council's investment balance has ranged between £24M and £60M, and similar variations are expected for the forthcoming year, depending on cash flow patterns.
- 4.4 Low investment risk is a key treasury objective, and to comply with the CIPFA Code and the CLG guidance, the Council's general policy objective is to invest its surplus funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Council's investment priorities are:
- **Security of the invested capital;**
 - **Liquidity of the invested capital;**
 - **Optimum yield which is commensurate with security and liquidity.**
- 4.5 In accordance with the above guidance from the CLG and CIPFA, and in order to minimise the risk to investments, the Council applies minimum acceptable credit criteria in order to generate a list of highly creditworthy counterparties which also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the Short Term and Long Term ratings.
- 4.6 Ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To this end the Council will engage with its advisers to maintain a monitor on market pricing such as 'credit default swaps' and overlay information on top of the credit ratings.
- 4.7 Other information sources used will include the financial press, share price and such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.

Security (Credit and Counterparty Risk)

4.8 As outlined above, BMBC applies the creditworthiness service provided by the Authority's Treasury Management Advisers, Capita Asset Services. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moody's and Standard and Poor's. The credit ratings of counterparties are supplemented with the following overlays:

- credit watches and credit outlooks from credit rating agencies;
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

4.9 This modelling approach combines credit ratings, credit Watches and credit Outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads for which the end product is a series of colour coded bands indicating the relative creditworthiness of counterparties.

4.10 **Approved Counterparties:** The Authority may invest its surplus funds with any of the counterparty types in table 1 below, subject to the cash limits (per counterparty) and the time limits shown.

Table 1: Approved Investment Counterparties and Limits

	Maximum Amount	Maximum Duration
UK Government Debt	Unlimited	5 yrs
Banks (subject to Capita rating: minimum A-)*	£10m	2 yrs
Barclays Bank – the Authority's Banker	£10m	liquid
Building Societies	£5m	6 mths
Local Authorities	£5m	1 yr
Money Market Funds (AAA-mmf rated)	£10m	liquid
Enhanced Money Market Funds (AAA-mmf rated)	£10m	liquid

**Specific banks will be subject to maximum durations depending on Capita's Credit List. This list is received on a weekly basis and investments are placed in accordance with the recommended maximum duration for individual counterparties at that time. At present, the Council will place investments with UK and non-UK institutions that have a minimum long term rating of A- or equivalent. In the current volatile economic environment there is the possibility that the ratings of financial institutions could be downgraded across the board. The Authority will review its view on minimum credit ratings should this become the case.*

4.11 Investment treasury indicator and limit - total principal funds invested for greater than 364 days. These limits are set with regard to the Council's liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds after each year-end.

4.12 The Council is asked to approve the treasury indicator and limit: -

Maximum Principal Sums Invested > 364 days			
£m	2017/18	2018/19	2019/20
Principal Sums Invested > 364 Days	£m 20	£m 20	£m 20

4.13 The Barclays Flexible Interest Bearing Current Account (FIBCA) continues to be used by treasury staff to effectively manage daily cash flows and the FIBCA also provides an additional annual interest payment. Barclays currently meets the Council's minimum credit criteria. Even if the bank's credit rating falls below the minimum criteria, the Authority will continue to use the bank for short term liquidity requirements and business continuity arrangements. An individual limit of £10M applies to the Authority's bank account provider, Barclays, (specifically the FIBCA account) in order to meet the Authority's cash flow requirements. From 1st April 2017, no new fixed term deposits will be placed with Barclays.

4.14 Money Market Funds that offer same-day liquidity and aim for a constant net asset value will be used as an alternative to instant access bank accounts, while pooled funds whose value changes with market prices and/or have a notice period will be used for longer investment periods.

4.15 Counterparties will be individually selected for investment and as such there is no definitive list of counterparty names within this Annual Investment Strategy. The list of current eligible counterparties is monitored on a weekly basis and circulated to treasury staff. Any negative credit developments that affect the counterparty list are communicated immediately. An institution that meets criteria may be suspended, but institutions not meeting criteria will not be added.

Liquidity (Liquidity Risk)

4.16 In line with the CLG investment advice on the liquidity of investments, the Council will aim to keep a proportion of the investment portfolio totally liquid (i.e. use of FIBCA and Money Market Funds).

4.17 In a period of prolonged low interest rates, accepted practice would be to lengthen the investment period to lock in to higher rates. However, the uncertainty and volatility in the financial markets has heightened credit risk. As a consequence the Council will keep the investment maturity relatively short, and

this is reflected in the maturity periods specified in the Prudential Indicator shown in Appendix D.

Yield

- 4.18 As a result of continuing stress within the market, opportunities for investment are limited and returns are expected to remain subdued. The Council will seek to maximise returns from its investments but this will be secondary to security and liquidity priorities. Short-term money market rates are likely to remain at low levels throughout 2017/18 and this will result in reduced investment income.
- 4.19 Although the Council currently has a good spread of investment instruments, officers will continue to evaluate alternative investment options that meet the principles of security, liquidity and yield. Consideration will be given to alternative investment instruments and whether they are suitable for the investment portfolio. Proposals for new investment instruments will be taken to Treasury Management Panel for discussion and advice will be sought from Capita prior to making any investment decisions.

Diversification

- 4.20 In addition to the core investment principles of security, liquidity and yield the Council will also seek to diversify investments to avoid concentration in specific banks, types of instrument, sovereign state etc.
- 4.21 In order to diversify a portfolio largely invested in cash, investments will be placed with approved counterparties over a range of maturity periods. Maximum investment levels are set to ensure prudent diversification is achieved and these, together with minimum ratings and cash limits, are shown in Table 1.

Performance Measurement

- 4.22 The Council receives benchmarking information from Capita which compares performance against that of their other clients. This information has the added advantages of including risk weightings and also allows comparison with other Authorities who are receiving the same investment advice. The Authority also participates in the CIPFA Treasury Management benchmarking survey.

Berneslai Homes

- 4.23 The funds of Berneslai Homes continue to be ring fenced in a segregated Barclays account, with clear separation from Council funds. Officers of the Council are responsible for the management of Berneslai Homes cash balances and the account is run in accordance with Treasury Management best practice and the effective management of risk.

Capita Asset Services Economic & Interest Rate Forecast December 2016

Economic Background

The Council has appointed Capita Asset Services as its treasury advisor and part of their service is to assist the Council to formulate a view on interest rates. The following table gives the latest view for 2016 - 2020.

Capita Asset Services Interest Rate View													
	Dec-16	Mar-17	Jun-17	Sep-17	Dec-17	Mar-18	Jun-18	Sep-18	Dec-18	Mar-19	Jun-19	Dec-19	Mar-20
Bank Rate View	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.50%	0.75%	0.75%
3 Month LIBID	0.30%	0.30%	0.30%	0.30%	0.30%	0.30%	0.30%	0.30%	0.40%	0.50%	0.60%	0.80%	0.90%
6 Month LIBID	0.40%	0.40%	0.40%	0.40%	0.40%	0.40%	0.40%	0.40%	0.50%	0.60%	0.70%	0.90%	1.00%
12 Month LIBID	0.70%	0.70%	0.70%	0.70%	0.70%	0.70%	0.80%	0.80%	0.90%	1.00%	1.10%	1.30%	1.40%
5yr PWLB Rate	1.60%	1.60%	1.60%	1.60%	1.60%	1.70%	1.70%	1.70%	1.80%	1.80%	1.90%	2.00%	2.00%
10yr PWLB Rate	2.30%	2.30%	2.30%	2.30%	2.30%	2.30%	2.40%	2.40%	2.40%	2.50%	2.50%	2.60%	2.70%
25yr PWLB Rate	2.90%	2.90%	2.90%	2.90%	3.00%	3.00%	3.00%	3.10%	3.10%	3.20%	3.20%	3.30%	3.40%
50yr PWLB Rate	2.70%	2.70%	2.70%	2.70%	2.80%	2.80%	2.80%	2.90%	2.90%	3.00%	3.00%	3.10%	3.20%

The **referendum vote for Brexit** in June 2016 delivered an immediate shock fall in confidence indicators and business surveys at the beginning of August, which were interpreted by the Bank of England in its August Inflation Report as pointing to an impending sharp slowdown in the economy. However, the following monthly surveys in September showed an equally sharp recovery in confidence and business surveys so that it is generally expected that the economy will post reasonably strong growth numbers through the second half of 2016 and also in 2017, albeit at a slower pace than in the first half of 2016.

The **Monetary Policy Committee, (MPC), meeting of 4th August** was therefore dominated by countering this expected sharp slowdown and resulted in a package of measures that included a cut in the Bank Rate from 0.50% to 0.25%, a renewal of quantitative easing, with £70bn made available for purchases of gilts and corporate bonds, and a £100bn tranche of cheap borrowing being made available for banks to use to lend to businesses and individuals.

The **MPC meeting of 3 November** left the Bank Rate unchanged at 0.25% and other monetary policy measures also remained unchanged. This was in line with market expectations, but a major change from the previous quarterly Inflation Report MPC meeting of 4 August, which had given a strong steer, in its forward guidance, that it was likely to cut Bank Rate again, probably by the end of the year if economic data turned out as forecast by the Bank.

The latest MPC decision included a forward view that **Bank Rate** could go either up or down depending on how economic data evolves in the coming months. Capita forecast that the Bank Rate will remain unchanged at 0.25% until the first increase to 0.50% in quarter 2 2019. It is worth pointing out that forecasting as far ahead as mid 2019 is highly fraught as there are many potential economic headwinds which could blow the UK

economy one way or the other as well as political developments in the UK, (especially over the terms of Brexit), EU, US and beyond, which could have a major impact on forecasts.

The **August quarterly Inflation Report** was based on a pessimistic forecast of near to zero GDP growth in quarter 3 i.e. a sharp slowdown in growth from +0.7% in quarter 2, in reaction to the shock of the result of the referendum in June. However, consumers have very much stayed in a 'business as usual' mode and there has been no sharp downturn in spending; it is consumer expenditure that underpins the services sector which comprises about 75% of UK GDP. After a fairly flat three months leading up to October, retail sales in October surged at the strongest rate since September 2015. In addition, the GfK consumer confidence index has recovered quite strongly to -3 in October after an initial sharp plunge in July to -12 in reaction to the referendum result.

Bank of England GDP forecasts in the November quarterly Inflation Report were as follows, (August forecasts in brackets) - 2016 +2.2%, (+2.0%); 2017 1.4%, (+0.8%); 2018 +1.5%, (+1.8%). There has, therefore, been a sharp increase in the forecast for 2017, a marginal increase in 2016 and a small decline in growth, now being delayed until 2018, as a result of the impact of Brexit.

The Chancellor has said he will do 'whatever is needed' i.e. to **promote growth**; there are two main options he can follow – fiscal policy e.g. cut taxes, increase investment allowances for businesses, and/or increase government expenditure on infrastructure, housing etc. This will mean that the PSBR deficit elimination timetable will need to slip further into the future as promoting growth, (and ultimately boosting tax revenues in the longer term), will be a more urgent priority. The Governor of the Bank of England, Mark Carney, had warned that a vote for Brexit would be likely to cause a slowing in growth, particularly from a reduction in business investment, due to the uncertainty of whether the UK would have continuing full access, (i.e. without tariffs), to the EU single market. He also warned that the Bank could not do all the heavy lifting to boost economic growth and suggested that the Government would need to help growth e.g. by increasing investment expenditure and by using fiscal policy tools. The newly appointed Chancellor, Phillip Hammond, announced, in the aftermath of the referendum result and the formation of a new Conservative cabinet, that the target of achieving a budget surplus in 2020 would be eased in the Autumn Statement on 23 November. This was duly confirmed in the Statement which also included some increases in infrastructure spending.

The other key factor in forecasts for Bank Rate is **inflation** where the MPC aims for a target for CPI of 2.0%. The November Inflation Report included an increase in the peak forecast for inflation from 2.3% to 2.7% during 2017; (Capital Economics are forecasting a peak of 3.2% in 2018). This increase was largely due to the effect of the sharp fall in the value of sterling since the referendum, (16% down against the US dollar and 11% down against the Euro); this will feed through into a sharp increase in the cost of imports and materials used in production in the UK. However, the MPC is expected to look through the acceleration in inflation caused by external influences (outside of the UK), although it has given a clear warning that if wage inflation were to rise significantly as a result of these cost pressures on consumers, then they would take action to raise Bank Rate.

What is clear is that **consumer disposable income** will come under pressure, as the latest employers' survey is forecasting median pay rises for the year ahead of only 1.1% at a time when inflation will be rising significantly higher than this. The CPI figure has been on an upward trend and reached 1.2% in November. However, producer output prices rose at 2.1% and core inflation was up at 1.4%, confirming the likely future upwards path.

Gilt yields, and consequently PwLB rates, have risen sharply since hitting a low point in mid-August. There has also been huge volatility during 2016 as a whole. The year started with 10 year gilt yields at 1.88%, fell to a low point of 0.53% on 12 August, and have hit a new peak on the way up again of 1.55% on 15 November. The rebound since August reflects the initial combination of the yield-depressing effect of the MPC's new round of quantitative easing on 4 August, together with expectations of a sharp downturn in expectations for growth and inflation as per the pessimistic Bank of England Inflation Report forecast, followed by a sharp rise in growth expectations since August when subsequent business surveys, and GDP growth in quarter 3 at +0.5% q/q, confounded the pessimism. Inflation expectations also rose sharply as a result of the continuing fall in the value of sterling.

Employment has been growing steadily during 2016, despite initial expectations that the referendum would cause a fall in employment. However, the latest employment data in November, (for October), showed a distinct slowdown in the rate of employment growth and an increase in the rate of growth of the unemployment claimant count. House prices have been rising during 2016 at a modest pace but the pace of increase has been slowing since the referendum; a downturn in prices could dampen consumer confidence and expenditure.

The Federal Reserve in the **USA** embarked on its long anticipated first increase in rates at its December 2015 meeting. At that point, confidence was high that there would then be four more increases to come in 2016. Since then, more downbeat news on the international scene and then the Brexit vote, have caused a delay in the timing of the second increase which is now strongly expected in December 2016. Overall, despite some data setbacks, the US is still, probably, the best positioned of the major world economies to make solid progress towards a combination of strong growth, full employment and rising inflation: this is going to require the central bank to take action to raise rates so as to make progress towards normalisation of monetary policy, albeit at lower central rates than prevailed before the 2008 crisis.

The result of the **presidential election** in November is expected to lead to a strengthening of US growth if Trump's election promise of a major increase in expenditure on infrastructure is implemented. This policy is also likely to strengthen inflation pressures as the economy is already working at near full capacity. In addition, the unemployment rate is at a low point verging on what is normally classified as being full employment. However, the US does have a substantial amount of hidden unemployment in terms of an unusually large, (for a developed economy), percentage of the working population not actively seeking employment.

The Republicans now have a monopoly of power for the first time since the 1920s, in having a President and a majority in both Congress and the Senate, there is by no means any certainty that the politicians and advisers he has been appointing to his team, and both houses, will implement the more extreme policies that Trump outlined during his election campaign. Indeed, Trump may even rein back on some of those policies himself.

Given the number and type of challenges the EU faces in the next eighteen months, there is an identifiable risk for the EU project to be called into fundamental question. The risk of an electoral revolt against the EU establishment has gained traction after the shock results of the UK referendum and the US Presidential election. But it remains to be seen whether any shift in sentiment will gain sufficient traction to produce any further shocks within the EU.

Brexit Timetable and Process

The following Brexit timetable and process may be helpful in terms of the economic background to the 2017/18 TMSS:

- March 2017: UK government notifies the European Council of its intention to leave under the Treaty on European Union Article 50
- March 2019: two-year negotiation period on the terms of exit. This period can be extended with the agreement of all members i.e. not that likely.
- UK continues as an EU member during this two-year period with access to the single market and tariff free trade between the EU and UK.
- The UK and EU would attempt to negotiate, among other agreements, a bi-lateral trade agreement over that period.
- The UK would aim for a negotiated agreed withdrawal from the EU, although the UK may also exit without any such agreements.
- If the UK exits without an agreed deal with the EU, World Trade Organisation rules and tariffs could apply to trade between the UK and EU - but this is not certain.
- On exit from the EU: the UK parliament would repeal the 1972 European Communities Act.
- The UK will then no longer participate in matters reserved for EU members, such as changes to the EU's budget, voting allocations and policies.
- It is possible that some sort of agreement could be reached for a transitional time period for actually implementing Brexit after March 2019 so as to help exporters to adjust in both the EU and in the UK.

Council's Approach to Risk Management

The following schedule contains information from the Treasury Management Practice documents and the Council's risk management software, and provides a summary as to how the Council manages the various treasury management risks.

1. Credit and Counterparty Risk

Risk : Credit and counterparty risk is the risk of failure by a third party to meet its contractual obligations to the Council under an investment.

Mitigation : Credit & Counterparty risk is addressed through the use of the Annual Investment Strategy (AIS) as detailed in Section 6. The implications of 'Bail-in' will impact on the ratio of probability of loss. The AIS aims to reduce the impact through diversification whilst acknowledging that the probability of default will potentially increase.

Probability : Medium

Impact : High

2. Liquidity Risk

Risk : Liquidity risk is the risk that cash will not be available when it is needed.

Mitigation : The Council has access to short-term funding through the money markets and borrowing is also readily available from the PWLB.

The Council will also aim to keep a proportion of investments totally liquid i.e. with immediate access.

Probability : Low

Impact : Medium

3. Interest Rate Risk

Risk : Interest Rate risk is the risk that fluctuations in the levels of interest rates create an unexpected or unbudgeted burden on the Council's finances.

Mitigation : Both the HRA and particularly the GF debt pools are subject to a degree of interest rate risk. The balancing of risk against cost is a key theme for 2017/18 and is addressed in detail throughout the TMSS.

Probability : Medium

Impact : Very High

4. Exchange Rate Risk

Risk : Exchange rate risk is the risk that fluctuations in foreign exchange rates create an unexpected or unbudgeted burden on the Council's finances.

Mitigation : None – the Council undertakes minimal foreign currency transactions, so the risk is negligible.

Probability : Very Low

Impact : Very Low

5. Refinancing Risk

Risk : Refinancing risk is the risk that maturing borrowings cannot be refinanced on terms that reflect the provisions made by the Council.

Mitigation : The GF has a significant amount of temporary borrowing which will need to be refinanced and this is addressed in the borrowing strategy. The Pls place limits on the maturity structure of borrowing to limit the refinancing risk.

Probability : Medium

Impact : High

6. Legal and Regulatory Risk

Risk : Legal and regulatory risk is where the Council fails to act in accordance with its legal powers or regulatory requirements, and suffers losses accordingly.

Mitigation : The Council receives professional advice from Treasury Management advisers and officers receive regular training updates.

Probability : Low

Impact : Low

7. Fraud, Error and Corruption Risk / Contingency Management Risk

Risk : Fraud error and corruption and contingency management risk is the risk that the Council fails to identify the circumstances in which it may be exposed to the risk of loss through fraud, error, corruption or other eventualities in its treasury management dealings.

Mitigation : Internal Audit consider on an annual basis carrying out a regulatory review of the treasury management function including probity testing. This decision is made on a risk-based strategy and discussed and agreed with management. The recommendations of these reports are actioned in accordance with the agreed timetable.

Probability : Low

Impact : Medium

8. Market Risk

Risk : Market risk is the risk that through adverse market fluctuations in the value of the principal sums the Council invests, its stated investment objectives of security of capital is compromised.

Mitigation : The use of alternative investments vehicles such as property funds may increase the level of market risk. Investment in such instruments will only be undertaken after rigorous assessment and on the advice of Capita Asset Services.

Probability : Medium

Impact : Medium

Policy on use of Financial Derivatives

1. The general power of competence in Section 1 of the Localism Act 2011 removes much of the uncertainty over local authorities' use of financial derivatives. The CIPFA Code requires authorities to clearly detail their policy on the use of derivatives in the TMSS.
2. The Council will only use derivatives where they can be clearly demonstrated to reduce the overall level of financial risk
3. Derivatives may be arranged with any organisation that meets the Council's approved investment criteria.
4. The Council will only use derivatives after seeking a legal opinion and ensuring that officers have the appropriate training to effectively manage their use.

THE CAPITAL PRUDENTIAL AND TREASURY INDICATORS 2017/18 – 2019/20

The Council's capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist members' overview and confirm capital expenditure plans.

Capital Expenditure

Capital Expenditure £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
General Fund (GF)	52,401	68,217	51,182	32,274	6,931
Housing Revenue Account (HRA)	25,091	29,905	30,004	32,975	21,888
Total	77,492	98,122	81,186	65,249	28,819

Affordability Prudential Indicators

The previous sections cover the overall capital and control of borrowing prudential indicators, but within this framework prudential indicators are required to assess the affordability of the capital investment plans. These provide an indication of the impact of the capital investment plans on the Council's overall finances. The Council is asked to approve the following indicators:

a. Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream.

%	2016/17 Approved	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
GF	15.0	9.5	8.8	9.2
HRA	43.6	43.8	45.7	47.7

b. Incremental impact of capital investment decisions on the band D council tax

This indicator identifies the revenue costs associated with proposed changes to the three year capital programme recommended in this budget report compared to the Council's existing approved commitments and current plans. The assumptions are based on the

budget, but will invariably include some estimates, such as the level of Government support, which are not published over a three year period.

£	2016/17 Approved	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Council Tax - band D	8.30	4.49	4.30	4.26

c. Incremental impact of capital investment decisions on housing rent levels

Similar to the council tax calculation, this indicator identifies the trend in the cost of proposed changes in the housing capital programme recommended in this budget report compared to the Council's existing commitments and current plans, expressed as a discrete impact on weekly rent levels.

£	2016/17 Approved	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Weekly housing rent levels	0.86	0.61	1.91	3.36

Adoption of the CIPFA TM Code

This indicator is acknowledgment that the Local Authority has adopted CIPFA's *Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes*.

The Council adopted the CIPFA Code of Practice on Treasury Management on 13th February 2002.

Gross Debt and the Capital Financing Requirement

Gross Debt & CFR	2017/18 Estimate
	£M
Outstanding Borrowing	549
Other Long-Term Liabilities	239
Gross Debt	788
Max CFR	954
Headroom	166

ADDITIONAL INVESTMENT STRATEGY INFORMATION AND LIMITS

1. The Council may invest money using any of the following instruments:
 - interest-bearing bank accounts,
 - fixed term deposits,
 - callable deposits where the Council may demand repayment at any time (with or without notice),
 - certificates of deposit,
 - bonds, notes, bills, commercial paper and other marketable instruments, and
 - shares in money market funds and other pooled funds.

Investments may be made at either a fixed rate of interest, or at a variable rate linked to a market interest rate, such as LIBOR, subject to the limits on interest rate exposures specified in section 3.22 of the report.

2. Investments made by the Authority will be classified as either specified or non-specified investments. The CLG Guidance defines specified investments as those:
 - denominated in pound sterling,
 - due to be repaid within 12 months of arrangement,
 - not defined as capital expenditure by legislation, and
 - invested with one of:
 - the UK Government,
 - a UK local authority, parish council or community council, or
 - a body or investment scheme of “high credit quality”.

It should be emphasised that institutions with a rating within the single A band are considered to be ‘high credit quality’ (Fitch). At present, the Council will place investments with UK and non-UK institutions that have a minimum long term rating of A- or equivalent. In the current volatile economic environment there is the possibility that the ratings of financial institutions could be downgraded across the board. The Authority will review its view on minimum credit ratings should this become the case.

In terms of Sovereign ratings, the UK is currently rated AA, but is on negative watch due to Brexit concerns. To reflect this uncertainty, the Council will use UK banks irrespective of the UK sovereign rating and any other sovereign with a minimum rating of AA-. Any new specified investments will be made within the limits shown within table 1 in the AIS. For money market funds and other pooled funds ‘high credit quality’ is defined as those having a credit rating of ‘AAA-mmf’ or higher.

3. Any investment not meeting the definition of a specified investment is classed as non-specified. The Council does not intend to make any investments denominated in foreign currencies, nor any that are defined as capital expenditure by legislation, such as company shares. Non-specified investments will therefore be limited to long-term investments, i.e. those that are due to mature 12 months or longer from the date of arrangement, and investments with bodies and schemes not meeting the definition on high credit quality. Limits on non-specified investments are shown in the table below:

Non-Specified Investment Limits

	Cash limit
Total long-term investments	£20m
Total investments without credit ratings or rated below [A-]	£30m
Total investments with institutions domiciled in foreign countries rated below [AA-]	£10m
Total non-specified investments	£60m

All non-specified investments must be approved in accordance with the authorisation procedures as detailed in Treasury Management Practice Document 5: Organisation, Clarity and segregation of Responsibilities and Dealing Arrangements. This involves prior authorisation and approval of the Acting Head of Financial Services.

4. To minimise counterparty risk, the maximum that will be lent to any one organisation (other than the UK Government) will be £10 million. A group of banks under the same ownership or a group of funds under the same management will be treated as a single organisation for limit purposes. Limits will also be placed on investments in brokers' nominee accounts (e.g. King & Shaxson), foreign countries and industry sectors as below:

Investment Limits

	Cash limit
Any single organisation, except the UK Central Gov.	£10m each
UK Central Government	unlimited
Any group of organisations under the same ownership	£15m per group
Any group of pooled funds under the same management	£15m per manager
Negotiable instruments held in a broker's nominee account (King & Shaxson)	£30m per broker
Foreign countries	£15m per country
Registered Providers	£10m in total
Unsecured investments with Building Societies	£10m in total
Money Market Funds	£30m in total
Loans to small businesses	To be determined

5. When deteriorating financial market conditions affect the creditworthiness of all organisations, as happened in 2008 and 2011, this is not generally reflected in credit ratings, but can be seen in other market measures. In these circumstances, the Council will restrict its investments to those organisations of higher credit quality and reduce the maximum duration of its investments to maintain the required level of security. The extent of these restrictions will be in line with prevailing financial market conditions. If these restrictions mean that insufficient commercial organisations of high credit quality are available to invest the Council's cash balances, then the surplus will be deposited with the UK Government. This will cause a reduction in the level of investment income earned, but will protect the principal sum invested.
6. The Council understands that credit ratings are good, but not perfect, predictors of investment default. Full regard will therefore be given to other available information on the credit quality of the organisations in which it invests, including credit default swap prices, financial statements, information on potential government support and reports in the quality financial press. No investments will be made with an organisation if there are substantive doubts about its credit quality, even though it may meet the credit rating criteria.
7. Where an entity has its credit rating downgraded so that it fails to meet the approved investment criteria then:
 - no new investments will be made,
 - consideration will be given to recalling or selling any existing investments with the affected counterparty where there will be no cost to the authority.

Where a credit rating agency announces that a credit rating is on review for possible downgrade (also known as “rating watch negative” or “credit watch negative”) so that it may fall below the approved rating criteria, then only investments that can be withdrawn on the next working day will be made with that organisation until the outcome of the review is announced. This policy will not apply to negative outlooks, which indicate a long-term direction of travel rather than an imminent change of rating.

2017/18 MRP STATEMENT

The Council is required to make a prudent provision for debt redemption known as the Minimum Revenue Provision (MRP). Guidance on MRP has been issued by the Secretary of State and local authorities are required to “have regard” to such Guidance under section 21(1A) of the Local Government Act 2003.

The four MRP options available are:

Option 1: Regulatory Method

Option 2: CFR Method

Option 3: Asset Life Method

Option 4: Depreciation Method

NB This does not preclude other prudent methods.

MRP in 2017/18: Options 1 and 2 may be used only for General Fund supported expenditure. Methods of making prudent provision for General Fund self-financed expenditure include Options 3 and 4 (which may also be used for supported expenditure if the Council chooses). There is no requirement to charge MRP in respect of HRA capital expenditure funded from borrowing.

The MRP Statement is required to be submitted to Council before the start of the 2017/18 financial year for approval. Any revision of which must be submitted to Council for approval.

The Council is recommended to approve the following statement:

- **For capital expenditure incurred before 1st April 2008, and for supported capital expenditure incurred on or after that date, MRP will be determined in accordance with Option 3.**
- **For non-supported (prudentially borrowed) capital expenditure incurred after 1st April 2008, MRP will be determined in accordance with Option 3.**
- **MRP in respect of Private Finance Initiatives (PFI) brought on balance sheet under the International Reporting Standard Code of Practice will be determined in accordance with Option 3.**
- **Within Option 3, MRP is permitted to be calculated in one of two ways – equal instalments or on an annuity basis. The Council has chosen to calculate MRP on an annuity basis.**
- **MRP will normally commence in the financial year following the one in which expenditure is incurred. However, MRP Guidance permits authorities to defer MRP until the financial year following the one in which the asset becomes**

operational. The Council has chosen to employ this “MRP holiday” on the significant qualifying projects such as the Building Schools for the Future programme.

MRP in respect of leases brought on balance sheet under the International Financial Reporting Standard Code of Practice will match the annual principal repayment for the associated deferred liability. This approach will produce an MRP charge comparable to that under Option 3 in that it will run over the life of the lease term.

TREASURY MANAGEMENT SCHEME OF DELEGATION

Full Council

- Receiving and reviewing reports on treasury management policies, practices and activities;
- Approval of annual strategy.

Boards/committees/council/responsible body

- Approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices;
- Budget consideration and approval;
- Approval of the division of responsibilities;
- Receiving and reviewing regular monitoring reports and acting on recommendations;
- Approving the selection of external service providers and agreeing terms of appointment.

Body/person(s) with responsibility for scrutiny

- Reviewing the treasury management policy and procedures and making recommendations to the responsible body.

THE TREASURY MANAGEMENT ROLE OF THE SECTION 151 OFFICER

The S151 (responsible) officer

- Recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance;
- Submitting regular treasury management policy reports;
- Submitting budgets and budget variations;
- Receiving and reviewing management information reports;
- Reviewing the performance of the treasury management function;
- Ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function;
- Ensuring the adequacy of internal audit, and liaising with external audit;
- Recommending the appointment of external service providers.

**Housing Revenue Account
Borrowing Strategy
2017/18**

1 Background

- 1.1 Following the reform of the HRA subsidy system, on 1st April 2012 the Council notionally split each of its existing long-term loans into General Fund (GF) and Housing Revenue Account (HRA) pools.
- 1.2 This split included all long-term fixed and variable rate debt, from both the Public Works Loan Board (PWLB) and market sources. The HRA was apportioned debt of £269M in addition to the £22M payment made to Government to 'buy out' of the subsidy system, giving a total debt level of £291M.
- 1.3 Debt costs account for approximately 20% of expenditure on the business plan and therefore represent an area of key risk. Given the significance of debt management to the business plan, it is acknowledged that there is a need for a separate borrowing strategy for the HRA and this is addressed within the TMSS.

HRA Borrowing Requirement and Strategy**2 Current debt portfolio**

- 2.1 Since 2012, there have been a number of part repayments of PWLB annuity and equal instalment of principal (EIP) loans lowering the debt level to £275M as at November 2016. A loan repayment of £2.9M is due in January 2017, so the forecast debt level at the end of 2016/17 is £272M, and the breakdown is shown below:

2.2

Borrowing method	Value (£M)	% of Portfolio	Interest Rate Risk
PWLB – fixed (inc settlement loan £22M)	190	70	No
Market Fixed	36	13	No
PWLB – variable	46	17	Yes
TOTAL	272	100	

- 2.3 As at 31st March 2017, 17% of the forecast debt portfolio is sensitive to interest rate fluctuations. The PWLB variable loans (£46M) continue to represent excellent value at rates of 0.43% (£28M) and 0.70% (£18M). There is an interest rate risk associated with the loans, but the semi-annual rate fixing provides some protection against increases.
- 2.4 Low interest rates mean the Council's £63M of LOBOs loans (HRA share of £36M) are unlikely to be called in 2017/18. The interest rate of 4.75% is above current PWLB levels and therefore the refinancing risk in respect of these loans is low when taking into account prevailing market conditions.

3 Borrowing and Capital Financing Requirement

- 3.1 The Capital Financing Requirement (CFR) reflects the HRA's underlying need to finance capital expenditure by borrowing. Any capital expenditure that is not resourced immediately (from useable capital receipts, capital grants and contributions or charges to revenue) will result in an increase in the CFR.
- 3.2 The forecast CFR for end of the 2016/17 financial year is £277M against a borrowing level of £272M. Therefore, the HRA is £5M under-borrowed. A debt level below the CFR means the HRA has been internally borrowing – using internal reserves and balances in-lieu of external borrowing.
- 3.3 Assuming this under-borrowed amount is subject to interest rate fluctuations, then 19% of the debt portfolio is subject to interest rate movements, as shown below:

Borrowing method	Value (£M)	% of Portfolio	Interest Rate Risk
PWLB – fixed (inc settlement loan £22M)	190	68	No
Market Fixed	36	13	No
PWLB – variable	46	17	Yes
Unfunded CFR	5	2	Yes
TOTAL	277	100	

- 3.4 This figure of 19% is still well within the Prudential Indicator of 25% which determines the upper threshold for variable rate exposure.
- 3.5 The HRA CFR has been reduced from £291M at the implementation of Self-financing, to the forecast £277M at the end of 2016/17. The reduction is due to applied capital receipts from housing properties sold under the Right to Buy Scheme. Where sales under the Right to Buy exceed those assumed in the Self Financing Settlement the Council is allowed to retain an amount to cover the housing debt which would have been supported from the rental income on the additional properties sold. It is considered prudent to apply this funding to reduce

the CFR. In addition, a 50 year annuity debt repayment policy was agreed with the Council in early 2016 and has been reflected within the debt figures.

- 3.6 In a surprise announcement in his budget on 8th July 2015 the Chancellor of the Exchequer stated that social housing rents would decrease by 1% per annum for the next 4 years with the aim of reducing the Housing Benefit bill. This replaces the existing Government commitment made in 2013 to allow rents to increase by the Consumer Price Index of inflation (CPI) plus 1%. This means that HRA debt can no longer be repaid within the 30 Year Business Plan.
- 3.7 Overall borrowing is limited by the debt cap set by the CLG of £301M, leaving headroom of approximately £24M. However, in the new financial environment additional borrowing to fund extra capital investment is unlikely to be affordable.
- 3.8 There is no requirement to charge Minimum Revenue Provision (MRP) as with the GF CFR.
- 3.9 The HRA's estimated CFR is shown below:

	Estimate 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	£M	£M	£M	£M
Capital Financing Requirement (CFR)	277	271	264	257
Less : Existing Profile of Borrowing	272	259	257	207
Cumulative Maximum External Borrowing Requirement	5	12	7	50
Usable Reserves	37	27	17	10
Cumulative Net Borrowing Requirement	(32)	(15)	(10)	40

- 3.10 The HRA has a borrowing requirement in 2019/20; this is partially offset by HRA useable reserves.

Borrowing Strategy

- 3.11 The key aim of the HRA borrowing strategy is to manage the affordability of debt repayments within the 30 year business plan. The options are set out below:

Internal and Short-Term Borrowing

- 3.12 As stated, there is a limited borrowing requirement in the immediate future and any changes to the HRA working balance, for example slippage in the capital programme, will mean the HRA can fund this requirement internally.
- 3.13 As shown in the above table, the HRA is in an internally borrowed position. Essentially, this means that the actual level of debt is below the CFR and the HRA has used internal resources (reserves and balances) to fund some of its unfinanced capital expenditure. The main benefit of the strategy of internal borrowing is that the cost of carry associated with long-term fixed rate borrowing compared to investment returns is such that the use of internal resources remains an attractive means of minimising external debt payments.
- 3.14 Given the limited borrowing requirement, the initial strategy will be to monitor the HRA treasury position, and to borrow short-term should any need arise. When the borrowing requirement arises in 2019/20, the HRA could consider introducing more variable rate debt to the portfolio. Although there is interest rate risk associated with variable rate debt, this is offset by reduced interest rate costs. At a time of increasing budgetary pressures, maximising the debt portfolio is a key consideration when balancing the requirements of risk versus affordability.

Borrowing in Advance of Need

- 3.15 Given the HRA's limited borrowing requirement, it is unlikely there will be any borrowing in advance of need.
- 3.16 There may be opportunities to borrow in advance of need to fund future loan maturities, but this will only be undertaken where there is a key business case for doing so.

Premature Redemption of Debt

- 3.17 Given the Council's budget deficit, consideration will be given to restructuring existing fixed term loans. There is a potential impact on the HRA as the debt split was only notional so any premature repayments will include elements of both GF and HRA debt.
- 3.18 The Director of Corporate Services for Berneslai Homes will be consulted on any rescheduling decisions to ensure the impact on the HRA, and the 30 year business plan, are fully understood.

Charging of Debt Interest Costs

- 3.19 Long-term borrowing, post 1st April 2012 is allocated directly to either the GF or HRA pool. Interest payable and other charges (e.g. premiums on early redemption) will be allocated to the respective revenue account.
- 3.20 Differences between the value of the HRA loans pool and the HRA's underlying need to borrow (adjusted for HRA balance sheet resources available for investment) will result in a notional cash balance which may be positive or negative.
- 3.21 This balance will be measured each month and interest will be transferred on a quarterly basis between the General Fund and HRA at the monthly average rate earned by the Council on its portfolios of treasury investments and short-term borrowing.

4. HRA Prudential Indicators

4.1 The Local Government Act 2003 requires the Council to adopt the CIPFA Prudential Code and produce a suite of Prudential Indicators. In accordance with the principle of a developing a distinct borrowing strategy for the HRA, a suite of Prudential Indicators for 2017/18 to 2019/20 have also been produced.

1. Capital Expenditure

	Approved 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	£M	£M	£M	£M
HRA	37	27	28	28

2. Ratio of Financing Costs to Net Revenue Stream

	Approved 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	%	%	%	%
HRA	43.6	43.8	45.7	47.7

3. Capital Financing Requirement

	Approved 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	£M	£M	£M	£M
HRA	277	271	264	257

4. Estimates of the Incremental Impact of Capital Decisions on Housing Rents

	Approved 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	£	£	£	£
Increase in Average Weekly Housing Rents	0.86	0.61	1.91	3.36

5. Interest Rate Exposure

	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	%	%	%
Upper Limit for Fixed Interest Rate Exposure	100	100	100
Upper Limit for Variable Rate Exposure	25	25	25

6. Maturity Structure of Borrowing

	2017/18		
	Lower Limit %	Upper Limit %	Estimated Current Profile (31.3.17) %
Less than 12 months	0	25	22
12 months & within 24 months	0	25	1
24 months & within 5 years	0	25	3
5 years & within 10 years	0	25	11
10 years & within 20 years	0	75	7
20 years and within 30 years	0	75	6
30 years and within 40 years	0	75	25
40 years and within 50 years	0	75	25
50 years and above	0	75	0

7. HRA Limit on Indebtedness

	Approved 2016/17	Year 1 2017/18 Estimate	Year 2 2018/19 Estimate	Year 3 2019/20 Estimate
	£M	£M	£M	£M
HRA CFR	277	271	264	257
CLG HRA Debt Cap	301	301	301	301
Headroom	24	30	37	44

This matter is a Key Decision within the Council's definition and has been included within the relevant Forward Plan

Cabinet: 8TH February 2017

Report of the Director of
Finance, Assets and IT

PRUDENTIAL INDICATORS 2017/18

1. Purpose of Report

- 1.1 The purpose of this report is to seek approval to the Council's 2017/18 Prudential Indicators in accordance with the requirements of the 2003 Local Government Act.

2. Recommendations

2.1 It is recommended that:

- **Members approve the Prudential Indicators set out at Appendix B for the financial year 2017/18 to 2019/20;**
- **Further monitoring reports be submitted on the indicators during the year as necessary.**

3. Background

- 3.1 The Prudential Code provides a framework that supports effective capital investment decision making by local authorities.

3.2 The framework has two main objectives:

- To ensure that capital investment is affordable, prudent and sustainable;
- To ensure that Treasury Management decisions are made in accordance with good practice.

4. Prudential Indicators

- 4.1 To ensure that these objectives are achieved, the framework sets out a number of factors that must be taken into account by local authorities as part of the revenue budget setting process and when making capital investment decisions. These are set out below: -

- Service objectives e.g. as set out in the Corporate Plan;
- Stewardship of assets e.g. asset management planning;

- Value for Money e.g. options appraisals;
- Prudence and sustainability e.g. the implications for the Authority's external borrowing and whole life costing;
- Affordability e.g. the implications for Council Tax payers and Council Housing rents;
- Practicality e.g. achievement of the Medium Term Financial Strategy.

4.2 Having consideration to the above factors each authority is required to set a suite of prescribed Prudential Indicators. For information purposes a methodology paper is attached at Appendix A. This provides a description of each indicator and the nature of its calculation. The actual prudential indicators for the forthcoming year are attached at Appendix B for approval.

5. Treasury Policy & Strategy Statements 2017/18

5.1 These are the key operational documents for the Council in relation to treasury management. They detail the framework, objectives and strategies upon which the prudential indicators are based. Member approval of these statements is required and is therefore presented elsewhere on this agenda.

6. Consultations

6.1 The prudential indicators set out in this report were established in consultation with the Council's Treasury Management advisers.

7. Reduction of Crime and Disorder

7.1 None arising directly from this report.

8. Employee Implications

8.1 There are no direct employee implications arising from this report.

9. Financial Implications

9.1 The prudential indicators are factored into the wider budget.

10. Appendices

10.1 Appendix A - Prudential Indicators Methodology Paper
Appendix B - Prudential Indicators 2017/2018

11. Background Papers

11.1 The following documents and publications were used in the preparation of the Prudential Indicators :

- CIPFA's Treasury Management Code of Practice
- CIPFA's Prudential Code for Capital Finance in Local Authorities.
- Papers from the Council's Treasury Management advisers (Capita).

Office Contact: Frances Foster

Date: 23.01.17

Prudential Indicators – Methodology

1. Background and Information

There is a requirement under the Local Government Act 2003 for local authorities to have regard to CIPFA's Prudential Code for Capital Finance in Local Authorities (the Prudential Code) when setting and reviewing their Prudential Indicators.

The Prudential Code imposes on local authorities clear governance procedures for setting and revising of prudential indicators, and describes the matters to which an authority will 'have regard' when doing so. This is designed to deliver accountability in taking capital financing, borrowing and treasury management decisions.

The Prudential Indicators required by the Prudential Code are designed to support and record local decision making and not as comparative performance indicators.

A number of treasury indicators which previously formed part of the Prudential Code are now contained within the Treasury Management Code and Guidance. Local authorities are still required to 'have regard' for these indicators.

2. Basis of Methodology

Estimates of Capital Expenditure

The estimates of the Council's future capital expenditure levels (and the HRA) underpin the calculation of the other prudential indicators. The capital expenditure estimates are based on a projection of future levels of capital resources/ allocation.

Estimates of capital expenditure are a significant source of risk and uncertainty and it is important that these estimates are continually monitored and the impact on other prudential indicators (particularly those relating to affordability) assessed regularly.

Estimates of Capital Financing Requirement

The Capital Financing Requirement (CFR) measures the Council's underlining need to borrow for capital purpose, i.e. its borrowing requirement. The CFR is the amount of capital expenditure that has not yet been financed by capital receipts, capital grants or contributions from revenue.

Operational Boundary for External Debt

This indicator refers to the means by which the authority manages its external debt to ensure it remains within the statutory authorised limit. It differs from the authorised limit in as far as it is based on the most likely scenario, in terms of capital spend and financing during the year.

The operational boundary limit comprises the Council's existing debt plus the most likely estimate of capital expenditure/financing for the year. It excludes any projections for cash flow movements. Unlike the authorised limit breaches of the operational boundary (due to cash flow movements) are allowed during the year as long as they are not sustained over a period of time.

Authorised Limit

The Authorised Limit sets the maximum level of external borrowing on a gross basis (i.e. excluding investments) for the Council. This Prudential Indicator separately identifies borrowing from other long term liabilities such as finance leases. It is consistent with the Council's existing commitments, its proposals for capital expenditure and financing and its approved treasury management policy statement and practices.

The Authorised Limit has been set on the estimated debt with sufficient headroom over and above this to allow for unusual cash movements.

The Authorised Limit is the statutory limit determined under the Local Government Act 2003 and must not be exceeded during the year.

Interest Rate Exposure

These indicators allow the Council to manage the extent to which it is exposed to changes in interest rates.

The upper limit for variable rate exposure has been set to ensure that the Council is not exposed to interest rate rises which could adversely impact on the revenue budget.

The limits adopted by Council provide the necessary flexibility within which decisions will be made for drawing down new loans on a fixed or variable rate basis; the decisions will ultimately be determined by expectations of anticipated interest rate movements as set out in the Council's treasury management strategy.

Maturity Structure of Borrowing

This indicator highlights the existence of any large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates

and is designed to protect against excessive exposures to interest rate changes in any one period, thereby managing the effects of refinancing risks.

The maturity of borrowing should be determined by reference to the earliest date on which the lender can require payment.

Maximum Principal Sums Invested for more than 364 Days

This indicator sets an upper limit for the level of investment that may be fixed for a period greater than 364 days. This limit is set to contain exposure to credit and liquidity risk.

Ratio of Financing Costs to Net Revenue Stream

This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs.

Incremental Impact of New Capital Investment Decisions on Council Tax / Housing Rents

This is an indicator of affordability that shows the impact of capital investment decisions on Council Tax and Housing Rent levels. The incremental impact is calculated by comparing the total revenue budget requirement of the current approved capital programme with an equivalent calculation of the revenue budget requirement arising from the proposed capital programme.

Adoption of the CIPFA TM Code

This indicator is acknowledgment that the local authority has adopted the CIPFA's *Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes*.

Gross Debt and the Capital Financing Requirement

This is a key indicator of prudence. In order to ensure that over the medium term debt will only be for a capital purpose, the local authority should ensure that debt does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years.

Where the gross debt is greater than the capital financing requirement the reasons for this should be clearly stated in the annual treasury management strategy.

This page is intentionally left blank

Capital Prudential and Treasury Indicators 2017/18 – 2019/20

Estimates of Capital Expenditure

This prudential indicator is a summary of the Council's capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. Members are asked to approve the capital expenditure forecasts:

Capital Expenditure £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
General Fund	52,401	68,217	51,182	32,274	6,931
HRA	25,091	29,905	30,004	32,975	21,888
Total	77,492	98,122	81,186	65,249	28,819

The above financing need excludes other long term liabilities, such as PFI and leasing arrangements which already include borrowing instruments.

Estimates of Capital Financing Requirement

The CFR includes any other long term liabilities (e.g. PFI schemes, finance leases). Whilst these increase the CFR, and therefore the Council's borrowing requirement, these types of scheme include a borrowing facility and so the Council is not required to separately borrow for these schemes. The Council currently has £239M of such schemes within the CFR. The Council is asked to approve the CFR projections below:

Capital Financing Requirement £000	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
CFR – GF	654,779	680,030	675,658	675,925	676,566
CFR – HRA	282,511	280,561	278,532	276,423	274,228
Total CFR	937,290	960,591	954,190	952,348	950,794

Limits to Borrowing Activity

The Operational Boundary. This is the limit beyond which external debt is not normally expected to exceed. This limit is set to match the Capital Financing Requirement as shown above:

Operational Boundary £000	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Debt	721,306	716,352	716,000	715,609
Other Long Term Liabilities	239,285	237,838	236,348	235,185
Total	960,591	954,190	952,348	950,794

The Authorised Limit for External Debt. A further key prudential indicator represents a control on the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by the full Council. It reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term. The Authorised Limit has been set at £30M above the Operational Boundary.

This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils' plans, or those of a specific council, although this power has not yet been exercised.

The Council is asked to approve the following authorised limit:

Authorised Limit £000	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Debt	751,306	746,352	746,000	745,609
Other Long Term Liabilities	239,285	237,838	236,348	235,185
Total	990,591	984,190	982,348	980,794

Interest Rate Exposure and Maturity Structure of Borrowing

There are three debt related treasury activity limits. The purpose of these are to restrain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of any adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce costs / improve performance. The indicators are:

- Upper limits on variable interest rate exposure. This identifies a maximum limit for variable interest rates based upon the debt position net of investments;
- Upper limits on fixed interest rate exposure. This is similar to the previous indicator and covers a maximum limit on fixed interest rates;
- Maturity structure of borrowing. These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The Council is asked to approve the following treasury indicators and limits:

General Fund

£m	2017/18	2018/19	2019/20
Interest Rate Exposures – (GF)			
	Upper	Upper	Upper
Upper Limit on Fixed Interest Rates based on Net Debt (GF)	90%	90%	90%
Upper Limit on Variable Interest Rates based on Net Debt (GF)	25%	25%	25%
Maturity Structure of Fixed Interest Rate Borrowing 2017/18 - (GF)			
	Lower	Upper	
Under 12 months	0%	50%	
12 months to 2 years	0%	25%	
2 years to 5 years	0%	25%	
5 years to 10 years	0%	25%	
10 years to 20 years	0%	75%	
20 years to 30 years	0%	75%	
30 years to 40 years	0%	75%	
40 years to 50 years	0%	75%	

Housing Revenue Account

£m	2017/18	2018/19	2019/20
Interest Rate Exposures – (HRA)			
	Upper	Upper	Upper
Upper Limit on Fixed Interest Rates based on Net Debt (GF)	100%	100%	100%
Upper Limit on Variable Interest Rates based on Net Debt (GF)	25%	25%	25%
Maturity Structure of Fixed Interest Rate Borrowing 2017/18 - (HRA)			
	Lower	Upper	
Under 12 months	0%	25%	
12 months to 2 years	0%	25%	
2 years to 5 years	0%	25%	
5 years to 10 years	0%	75%	
10 years to 20 years	0%	75%	
20 years to 30 years	0%	75%	
30 years to 40 years	0%	75%	
40 years to 50 years	0%	75%	

Maximum Principal Sums Invested for more than 364 Days

These limits are set with regard to the Council's liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds after each year-end.

The Council is asked to approve the treasury indicator and limit: -

Maximum Principal Sums Invested > 364 days			
£m	2017/18	2018/19	2019/20
Principal Sums Invested > 364 Days	£m 20	£m 20	£m 20

Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream.

%	2016/17	2017/18	2018/19	2019/20
	Approved	Estimate	Estimate	Estimate
GF	15.0	9.5	8.8	9.2
HRA	43.6	43.8	45.7	47.7

Incremental Impact of Capital Investment Decisions on Band D Council Tax

This indicator identifies the revenue costs associated with proposed changes to the three year capital programme recommended in this budget report compared to the Council's existing approved commitments and current plans. The assumptions are based on the budget, but will invariably include some estimates, such as the level of Government support, which are not published over a three year period.

£	2016/17	2017/18	2018/19	2019/20
	Approved	Estimate	Estimate	Estimate
Council Tax - band D	8.30	4.49	4.30	4.26

Incremental Impact of Capital Investment Decisions on Housing Rent Levels

Similar to the council tax calculation, this indicator identifies the trend in the cost of proposed changes in the housing capital programme recommended in this budget report compared to the Council's existing commitments and current plans, expressed as a discrete impact on weekly rent levels.

£	2016/17 Approved	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Weekly housing rent levels	0.86	0.61	1.91	3.36

Adoption of the CIPFA TM Code

This indicator is acknowledgment that the Local Authority has adopted CIPFA's *Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes*.

The Council adopted the CIPFA Code of Practice on Treasury Management on 13th February 2002.

Gross Debt and the Capital Financing Requirement

Gross Debt & CFR	2017/18 Estimate
	£M
Outstanding Borrowing	549
Other Long-Term Liabilities	239
Gross Debt	788
Max CFR	954
Headroom	166

BARNSLEY METROPOLITAN BOROUGH COUNCIL

This matter is a Key Decision within the Council's definition and has been included in the relevant Forward Plan.

**Report of the Director
(Human Resources, Performance
and Communications)**

**2017/2018 SERVICE AND FINANCIAL PLANNING
REDUNDANCY COMPENSATION AND PROCEDURES**

1. Purpose of Report

- 1.1 To consider the maximum amount of compensation to be paid under the Discretionary Compensation Regulations 2006.
- 1.2 To consider the period of notice to be afforded to employees declared compulsory redundant.

2. Recommendations

- 2.1 **That for the purpose of the 2017/2018 budgetary procedures, payments in accordance with the Discretionary Compensation Regulations 2006 be up to a maximum of 30 weeks actual pay based on the Statutory Redundancy Scheme.**
- 2.2 **That any employee (excluding Teachers) declared redundant be afforded the maximum of 12 weeks notice of termination of employment.**

3. Introduction/Background

- 3.1 The above regulations provide Local Authorities with the power to make discretionary one-off lump sum payments (enhanced redundancy payments) to employees who are made redundant.
- 3.2 With effect from 1 April 2007, the Council introduced a revised scheme of compensation using the Statutory Redundancy Scheme but based on actual pay.

4. Current Position

- 4.1 Employees are entitled by their contract of employment to receive a period of notice if their employment is to be terminated by reason of redundancy.
- 4.2 This period of notice is the greater of either that specified within their contract of employment or that specified by statute.
- 4.3 In previous years, the Council has agreed the maximum of 12 weeks notice, irrespective of an employee's length of service, would be served on any employee declared compulsory redundant. In addition to this, redeployment opportunities will be sought for affected employees during the statutory consultation period.
- 4.4 The advantage of affording 12 weeks notice to all employees are:-
- (i) The maximum time will be available to pursue and achieve redeployment opportunities.
 - (ii) Successful redeployment will negate the need to make a redundancy payment (maximum up to 30 weeks actual pay).
- 4.5 The disadvantage is if no redeployment opportunities exist, then there is a cost over and above what the contractual/statutory notice entitlement would have provided.

5. Options

- 5.1 To accept the report recommending payment up to a maximum of 30 weeks actual pay to all employees who are redundant and any employee declared compulsory redundant to be offered the maximum of 12 weeks notice of termination.
- 5.2 Not accept the report.

6. Local Area Implications

- 6.1 There are no direct Local Area implications.

7. Compatibility with European Convention on Human Rights

- 7.1 There are no implications.

8. Ensuring Social Inclusion

- 8.1 There are no implications.

9. Reduction of Crime and Disorder

9.1 There are no implications.

10. Risk Assessment

10.1 There are no implications.

11. Consultations

11.1 The Director – Human Resources, Performance and Communications, Finance and the Trade Unions have been consulted.

12. Proposal

12.1 It is recommended that Cabinet approve the recommendations of this report.

13. Glossary

13.1 None

14. List of Appendices

14.1 None

15. Background Papers

15.1 Discretionary Compensation Regulations 2006 – available for inspection from Human Resources.

BARNSELY METROPOLITAN BOROUGH COUNCIL

This matter is not a Key Decision within the Council's definition and has not been included in the relevant Forward Plan

Report of the Director of Core Services

2017 Census Test

1. Purpose of report

- 1.1 The purpose of this report is to notify Cabinet that the Office for National Statistics (ONS) has selected seven areas across the Country to conduct a large-scale test in April 2017 and Barnsley is one of their chosen areas.

2. Recommendations

- 2.1 It is recommended that Cabinet supports the mandatory Census Test and encourages residents to complete the Census Test questionnaire and return it to ONS.

3. Introduction

- 3.1 As part of the planning and testing programme for the 2021 Census, the Office for National Statistics (ONS) will be conducting a large-scale test in April 2017, covering 100,000 households across seven local authorities in England and Wales. This will allow them to test systems as they aim to conduct the 2021 Census online and to try out proposed new questions, for example, the effects of including a question on sexual identity.

- 3.2 Seven Local authorities across England and Wales have been selected to ensure a mix of rural and urban areas; some areas with a substantial student population; areas with a range of broadband coverage; some areas with concentrations of ethnic groups; and some multi-lingual areas. The mandatory areas are:

- Barnsley
- Blackpool
- Powys (selected LSOAs in North)
- Sheffield
- South Somerset
- Southwark
- West Dorset

3.3 350 staff will be required for the test and will be recruited, paid and trained by Brook Street on behalf of, and to the requirements of ONS. The recruitment site will go live on 11 January 2017.

4. Proposal and justification

4.1 Barnsley has been selected because of the following characteristics:

- Mix of urban and rural areas
- Area with lower broadband coverage
- Mix range of mobile connectivity
- Mining Heritage & Manufacturing
- Population Turnover
- Close proximity to Sheffield

4.2 Census Test vacancies will be promoted through our vacancy website to encourage local people to apply for these short term employment opportunities.

4.3 ONS will select a sample from the seven areas of around 100,000 households. 14,000 of which will be from Barnsley. The sample will be balanced to give adequate representation of the “hard to count” drivers we are likely to encounter, alongside the new digital inclusion element. It must also ensure sufficient sample within each area to get the representation required.

4.4 ONS will provide the communication materials at the end of January and we will support ONS by using their communication materials to communicate with Barnsley residents via radio, press and social media to encourage them to complete and return the questionnaire.

4.5 Key dates for the Census Test are:

- 20 March onwards – internet access codes sent out to households
- 9 April – Census Test Day
- 13 April – field follow up of non-responders starts
- 17 May – field follow up finishes

5. Consideration of alternative approaches

5.1 ONS will carry out the Census Test with or without our support.

6. Implications for local people / service users

6.1 The Census Test will create 37 short term employment opportunities within the area and will provide them with useful skills in preparation for the Census 2021.

6.2 Local people will be recommended to complete the Census questionnaire within the required timescale and return to ONS.

7. Financial implications

7.1 There are no financial implications to us other than officer time.

8. Employee implications

8.1 The Communications and Marketing team will support ONS by using their communication materials to communicate with Barnsley residents. Research and Business Intelligence Team will provide the link between the Council and ONS.

9. Communications implications

9.1 Communication materials will be provided by ONS at the end of January and will be used to communicate information to residents to encourage them to complete the questionnaire via radio, press and social media.

10. Consultations

10.1 ONS are consulting with the seven local authorities that have been selected as test areas. SMT has been made aware that this test is due to take place in April 2017.

11. Glossary

11.1 ONS – Office for National Statistics.

12. Background papers

Details of background papers can be obtained through the Research and Business Intelligence team on the contact details below.

BARNSELEY METROPOLITAN BOROUGH COUNCIL

This matter is not a Key Decision within the Council's definition and has not been included in the relevant Forward Plan

**Report of Executive Director
Place**

Playing Pitches and Sports Facilities Strategy

1. Purpose of report

1.1 To seek adoption of the Playing Pitch and Sports Facility Strategy 2016 – 2019

2. Recommendations

2.1 It is recommend that:

- The Playing Pitch and Sports Facility Strategy 2016-2019 be adopted.
- The strategy is updated every 3-5 years to comply with planning policy reviews.

3. Background

3.1 The previous Barnsley Playing Pitch and Sports Facility Strategy was completed in 2010/11 by Strategic Leisure, part of Scott Wilson Group, on behalf of the Council. Dialogue with Sport England indicated that the current strategies are considered to be out of date.

3.2 The council has a statutory responsibility to meet the requirements of the National Planning Policy Framework and Sport England funding to have an up to date Playing Pitch and Sports Facility Strategy.

3.3 The sports facility and playing pitch strategy has been conducted to reflect current and best practice in developing sports Facility and Playing Pitch Strategy with Sport England's guidance. Essential to the completion of the strategy is the requirement to conduct assessments of Local authority playing pitches and sports facility stock to address the following elements:

- **Quantity** - are there enough facilities with sufficient capacity to meet needs to 2033.
- **Quality** - are the facilities fit for purpose for the users? Does the quality meet the level of play needed?

- **Accessibility** - Are the facilities in the right physical locations for users?
- **Availability** – are the facilities available at the right time to users who want to use them?

3.4 As the key strategic and statutory planning lead for the Barnsley borough the council has a statutory duty to meet the requirements of the 2012 National Planning Policy Framework (NPPF). **The NPPF outlines in paragraph 73:**

“Access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning Policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision are required.”

3.5 **additionally, paragraph 74 of the NPPF** emphasise that existing open space, sports and recreational facilities and land, including playing field, should not be built on unless:

- An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or
- Any loss would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or
- The developments are for alternative recreation or open space facilities, the need for which clearly outweighs the loss.

3.6 The Council’s Local Plan sets out the key elements of the planning framework for Barnsley, and the approach to its long term physical development to achieve the Council’s vision of what sort of place Barnsley wants to become. As such in order to ensure the Local Plan complies with paragraph 73 of the National Planning Policy (NPPF), the Barnsley Playing Pitch and Sports Facility strategy required updating in order to be considered sufficiently robust.

3.7 Having an up to date, formal Playing Pitch and Sports Facility Strategy will not only underpin policy, but is also a requirement of any Sport England funding that, the Council, or any organisation in the Borough, maybe looking to bid into in the future.

3.8 Against this backdrop the rationale for producing the strategy is that it will support us to deliver on the broader public health agenda to increase participation in sport and physical activity. This is key to improving health and wellbeing outcomes and will play an important role in the development of community cohesion and integration.

4. Proposal and justification

4.1 To adopt the Playing Pitch and Sport Facility Strategy and its associated action plans.

- 4.2 Adopting the strategy will guide future provision and management of sports facilities, outdoor playing pitches and community use services to serve existing and new communities in the Barnsley Metropolitan Borough area.
- 4.3 The strategy will underpin the contribution that sport, and the facilitation of opportunities has toward achieving a healthy lifestyle, sitting within the context of the Council's Corporate Plan 2015-2018 which has 3 priorities:
- Thriving and vibrant economy
 - People achieving their potential
 - Strong resilient communities
- 4.4 The Playing Pitch and Sports Facility Strategy delivers on three specific priorities:
- Prioritise the reduction of health inequalities between different parts of the borough and the borough to the rest of the country.
 - Make the improvement of people's health and wellbeing everybody's business, with an emphasis on prevention and the contribution that all services can make
 - Ensure that we play a strong part in keeping the borough clean, green and safe, working with partners to improve community safety.
- 4.5 In addition, the Playing Pitch and Sports Facility Strategy supports the delivery of our Sport and Active Lifestyle Strategy's (2015-2018) vision to ensure that Barnsley's environment enables people to live healthier and more active lifestyles.
- 4.6 It is essential for BMBC, as the statutory planning lead for Barnsley Borough, to understand both current and future playing pitch and sports facility need in the borough, taking account of other providers; the importance of education, private and voluntary sector provision and under the duty to co-operate, cross boundary supply and demand issues.
- 4.7 The development of this new Playing Pitch and Sports Facility Strategy will enable BMBC to shape the future playing pitch and sports facilities offer. Barnsley's population is predicted to grow significantly over the next few years, so there is a need to ensure sufficient provision of accessible, quality and affordable facilities and pitches to meet local need.
- 4.8 The development of the strategy is an opportunity to set out a strategic vision for the future provision of playing pitch and sports facilities, based on robust evidence and appropriate needs assessments.
- 4.9 Furthermore, the strategy will provide a rationale to enable National Governing bodies to further invest and deliver their working outcomes as outlined in their various strategic development documents.
- 4.10 The outcomes arising from the strategy and its associated assessments will inform the BMBC Infrastructure Delivery Plan (IDP) which underpin the Local Plan. The IDP's purpose is to set out an analysis and assessment of existing infrastructure

provision within BMBC including playing pitches (indoor and outdoor) and sports facilities, by identifying current shortfalls, existing and future needs and the demands for the Council to support new development and a changing population.

5. Key findings and recommendations

5.1 The strategy is split into two sections, sports facilities and outdoor playing pitches, the key findings and recommendations are presented to reflect this:

5.2 Facilities

Overall, Barnsley has a good range of existing sport and leisure facilities across the area; however, some are now ageing, and will require replacement in the future. This is particularly true of Barnsley Metropolitan Borough Council owned sports hall and swimming pool facilities with regard to both current and projected future demand.

The sports halls built in 2011 on education sites are very good quality facilities. However, they do not benefit community participation as much as they have the potential to do so, despite having formal Community Use Agreements (CUAs) in place. This is because Advanced Learning Centres prefer community use times to be blocked booked by clubs and organisations/groups, meaning that they are rarely available for individuals on a pay and play basis. The sports halls and pools which do offer pay and play community use are already at capacity; supporting other schools to offer more pay and play community use could increase and develop pay and play participation.

There are options available for the council to alter the current CUAs in place. A report presented to Purple Cabinet on 2nd November 2016 and subsequently approved by a member delegated decision recommended that the current level of subsidy for community use be reduced from 1,000 hours to 400 hours per annum for every Advanced Learning Centre within the Borough. This report also recommended that ALC's are supported to develop community use that meets the needs of the Sport & Active Lifestyle Strategy (2015-2018) either directly through the ALC's themselves or through a third party.

To this end we have 2 options:

Option 1: Outsource the running of community use to an external provider i.e. Barnsley Premier Leisure (BPL).

Part 3 of the Management of the Trust Leisure Operation contract states that we can ask BPL to operate any additional leisure properties and in this case we could ask BPL to manage the leisure operation and management at our Advanced Learning Centres.

Option 2: Support ALC's to increase community use.

Schools may wish to manage community use themselves and we could support them to do this by:

- Promoting and influencing local physical activity initiatives (Barnsley Young People's Health and Well-Being Strategy 2013-2026)
- Working with local communities to develop community use

Discussions are already taking place to explore both options through the Playing Pitch and Sports Facility working group in partnership with schools to establish the most appropriate option.

It is important that there is increased access to opportunities for physical activity at local level, so it is easy for residents, particularly those who are currently inactive, and those without access to private transport, to participate, and become physically active. This is important given the existing low levels of physical activity and the high level of obesity in the Borough, together with the significant health inequalities across the borough, in particular between the West and the East.

Some facility capacity issues can be addressed by working with our partners to address their current timetabling, which, with adjustments, could increase capacity for community use in some of the borough's swimming facilities for example. Recommendations outlined in the strategy and reflected in Appendix B need to be explored for feasibility and where feasible delivered by the relevant services / partners.

Given current funding restraints it is important that Barnsley Metropolitan Borough Council works with partners moving forward, to develop and deliver facility provision. Barnsley Metropolitan Borough Council can no longer be the provider and funder of last resort, but needs to adopt more of an enabling and facilitating role.

5.2 Playing Pitches

In most cases playing pitches are part of the wider park and open space environment and enjoyed by the community on a regular basis.

The (Playing Pitch Strategy) PPS identifies the formal sports needs for football, cricket, hockey, rugby and rugby league.

5.3 Football

There are 213 individual grass football pitches across Barnsley Metropolitan Borough (BMB). In total 158 are secured communities use football pitches across BMB, and 55 unsecured.

Pitch quality – 50% of football pitches have been rated as poor, 4% as good and 46% standard.

School sites that do provide community use are not currently secured for formal use, in such instances formal community use agreements need to be put in place if possible and practicable to increase pitch stock further.

Through maximising the use of existing resources, changing community use agreements at school sites and re-marking pitches to accommodate different size football pitches; will help support the council to address future deficiencies in senior and junior football.

5.4 Artificial Grass Pitches

There are currently 10 full artificial grass pitches (AGP's) available for community use and club training. 3 are deemed suitable for competitive matches. These are Barnsley FC's training ground, Netherwood School and Penistone Grammar.

The calculations and scenario testing with regards to future provision suggests that the number of teams in the Borough would require 7 full size 3G pitches to accommodate training requirements.

5.5 Cricket

25 sites provide community cricket across Barnsley Metropolitan Borough. 22 provide secured community use and 3 provide unsecured community use. There are 25 cricket squares providing 253 grass pitches and 20 no turf pitches.

In general pitches and ancillary facilities are considered to be of a good condition – 16 are considered to be good and 9 standard.

The sub areas of North East and Penistone have pitches to meet current demand less so than the North and south areas.

There is a need for additional cricket pitches overall, particularly at the grounds that are currently over capacity. This means we need to ensure that established clubs that are currently over capacity are supported to, where possible, provide additional wickets to meet future growth and facilities will need to be improved to cater for new residential population growth.

5.6 Rugby Union

We have 2 club sites at Shaw Lane Sports Club and Wortley, providing 4 senior pitches, 1 mini and 1 small sided Artificial Grass Pitch (AGP) with floodlights. There is a current over play of pitches across Barnsley Metropolitan Borough. This requires attention to provide additional match and training pitches.

5.7 Rugby League

There is only 1 venue that provides pitches suitable for Rugby League at Ingsfield Sports and Social Club this is in council ownership and leased to a club.

Both pitches are classed as 'Standard' quality. There is current overplay on these two pitches. With current, latent and future population demand there is an under capacity of 7 match and training equivalents by 2030.

5.8 Hockey

There is only 1 artificial turf pitch on 1 site suitable for Hockey at Darton College. This pitch is classed as poor and is in urgent need of replacement.

Key priorities are to ensure the community use artificial hockey pitch site or seek to provide a community use artificial turf pitch.

There is currently overplay on these two pitches of 5 match / training equivalents. Drainage is an issue for all clubs particularly at Wortley and is something over time that needs to be addressed to assist with capacity issues.

5.9 Recommendations for Playing Pitches

There is an identified surplus of poor quality community use pitches in the Borough. Where appropriate we need to protect and enhance existing pitches and ancillary facilities through improving their quality, accessibility and management, providing new pitches and facilities that are fit for purpose to meet demands for participation now and in the future.

Recommendations outlined in the strategy and reflected in Appendix C need to be explored for feasibility and where feasible delivered by the relevant services / partners.

Officers with responsibility for providing, protecting and enhancing pitches across Barnsley Metropolitan Borough need to keep the strategy alive by:

- Monitoring the delivery of the recommendations and actions
- Provide up to date annual supply and demand for pitch stock
- Address changing trends and formats for the different pitch sport as they develop and monitoring participation of these change and trends.

The on-going monitoring of the strategy will be led by Barnsley Metropolitan Borough Council and will be linked to the relevant Playing Pitch and Sports Facility Steering Group. The strategy will be updated every 3-5 years to fit in with planning policy reviews.

6. Implications for local people / service users

There are no immediate or direct implications for local people or service users as a result of the completion of the strategy.

The actions and recommendations referred to in the strategy have the potential to have implications for services and local people but these will need to be assessed on a case by case basis.

7. Financial implications

There are no direct financial implications arising from the adoption of this strategy. However, the report identifies a number of potential improvements to the facilities in Barnsley, which may have an impact on financial resources should they be implemented.

Further reports will therefore be presented to Cabinet once recommendations have been investigated and the specific financial implications of these have been calculated, on a site by site basis

This may include working with partners/3rd parties to build the types of facilities required, in the locations needed,

8. Employee implications

None

9. Communications implications

We will communicate the acceptance of the strategy via the Council's webpages

The strategy will be made available online.

There is also a potential for the local media to raise some further enquires regarding the strategy and its recommendations which will be addressed as these questions arise.

10. Consultations

Phil Hollingsworth – Stronger Barnsley Locality Manager,
Paul Clifford – Group Leader Planning & Building Control
Jeremy Sykes – Service Director Assets
Stacey White – Planning Officer
Anthony Devonport - Group Leader Bereavement Sport and TPT
Sue Thiedeman - Head of Culture and Visitor Economy
Julie Tolhurst – Public Health Principal
Jo Birch – Parks Supervisor, Parks Services

A comprehensive consultation has taken place in line with statutory guidance from Sport England. This has included consultation with relevant National Governing Bodies (NGB) and local sports clubs.

11. Tackling health inequalities

This strategy supports the priorities for physical activity as outlined in both the Councils Public Health 2016-18 and Sport and Active Lifestyles Strategy 2015-2018.

12. Glossary

- NPPF - National Planning Policy Framework
- IDP - Infrastructure Delivery Plan
- CUA – Community Use Agreements
- ALC – Advanced Learning Centres
- BMB – Barnsley Metropolitan Borough

implications)

Appendix B: Sports Facilities Recommendations and Action Plan

RECOMMENDATION	ACTION
<p>RECOMMENDATION 1 (R1)</p> <p>BMBC and its partners prioritise investment into sports hall provision to:</p> <ul style="list-style-type: none"> • Address identified need for provision of an additional 20.62 badminton courts in the Borough by 2025 through new build, and negotiation of increased capacity for pay and play community use at the education sports halls. • If a 6 or 8 court hall is provided in the Borough, priority should be given to provision of facilities for Indoor Netball, Basketball, and Boccia (permanent court markings) given the needs identified in the consultation analysis 	<p>Ensure the need for additional sports hall provision is reflected in the Borough Plan</p> <p>Ensure identified facility needs are reflected in the CIL/S106 funding requirements for the Borough</p> <p>Undertake technical feasibilities to determine how best to meet identified demand for additional courts, (needs to link to revision of CUAs to increase opportunities for pay and play community use).</p>
<p>RECOMMENDATION 2 (R2)</p> <p>BMBC and its partners work with relevant education partners to review, revise and implement CUAs which provide a better balance of pay and play and club use, to address the identified participative need for sports hall space.</p>	<p>BMBC and its partners work with relevant partners to review, revise and implement CUAs which provide a better balance of pay and play and club use. Cabinet report submitted and agreed to look at reducing subsidy from 100 to 400 hours for academic year 2017. In addition, exploring options to reduce subsidy to nothing and using third party to run facilities.</p> <p>Develop a partnership approach to discussions with Kirk Balk Academy and Darton College to increase pay and play community access to the existing sports facilities</p> <p>BMBC and its partners work to extend opportunities at existing sports halls with capacity for increased community use e.g. Kirk Balk Academy Darton College</p> <p>BMBC and its partners work with local schools, and Sport England to review, revise and re-implement formal community use agreements in:</p> <ul style="list-style-type: none"> • Schools where they are currently in place, to increase opportunities for pay and play community access • Any new schools as part of Planning Conditions

RECOMMENDATION	ACTION
	<ul style="list-style-type: none"> • The aim should be to review CUA Agreements and to ensure there is no room for mis-interpretation as to the level of pay and play community use to be provided. Open discussions with the 10 new schools to find ways of increasing usage capacity, to enable provision of better balanced accessibility, to include community pay and play use.
<p>RECOMMENDATION 3 (R3)</p> <p>BMBC and its partners prioritise investment into swimming pool provision to:</p> <ul style="list-style-type: none"> • Address identified need for provision of additional swimming pool facilities in the Borough by 2025- equivalent of 1 x 8 lane x 25m pool • Addressing the need for additional swimming pool provision should include: <ul style="list-style-type: none"> ➤ Provision in areas of new housing growth, and also to the west of the Borough, to improved access for those in the Penistone area <p>Any new development should also reflect the fact that some communities have access to pools outside the Barnsley boundary eg Stockbridge Leisure Centre.</p>	<p>Ensure the need for additional swimming pool provision is reflected in the Borough Plan</p> <p>Review the options for delivery of the identified need for future swimming provision in the Borough, and decide on the way forward as all options will depend on each other</p>
<p>RECOMMENDATION 4 (R4)</p> <p>Additional swimming facility provision is planned strategically across the Borough, to make most effective use of available resources, avoid duplication, address need and deliver sustainable provision.</p>	<p>Ensure the need for additional swimming pool provision is reflected in the Borough Plan</p> <p>Ensure identified facility needs are reflected in the CIL/S106 funding requirements for the Borough</p> <p>Undertake technical feasibilities to determine how best to meet identified demand for additional pools</p>
<p>RECOMMENDATION 5 (R5)</p> <p>BMBC and its partners prioritise the need to address the current (-132) and</p>	<p>Ensure the need for additional provision is reflected in the Borough Plan</p>

RECOMMENDATION	ACTION
<p>future (-152 by 2025) under – supply of fitness stations in the Borough.</p> <ul style="list-style-type: none"> • Additional provision should be developed as part of any new build / refurbishment programme to existing facilities. 	<p>Ensure identified facility needs are reflected in the CIL/S106 funding requirements for the Borough</p>
<p>RECOMMENDATION 6 (R6)</p> <p>BMBC and its partners work with a local interested Gymnastics Club, British Gymnastics and other relevant local, regional and local partners to develop purpose built gymnastics provision, which is club led and operated.</p>	<p>Establish a partnership working group with local club to support development of facilities</p>
<p>RECOMMENDATION 7 (R7)</p> <p>Facilitate discussions to consider, with local cycling clubs, local developers, and British Cycling the development an off road circuit in the M1 Corridor with private and commercial developers</p>	<p>Support partnership working with local club, developers/commercial providers and local clubs to support development of an off-road track in the M1 Corridor</p>
<p>RECOMMENDATION 8 (R8)</p> <p>BMBC and its partners continue to work with Barnsley Athletics Club, England Athletics and other local users to improve the track at Dorothy Hyman Sports Centre, which will support increased participation and club development.</p>	<p>Establish a partnership working group with local athletics clubs to support development of improved facilities</p>
<p>RECOMMENDATION 9 (R9)</p> <p>BMBC and its partners seek to secure CIL/S106 contributions towards the development of additional and safe walking and cycling routes and where possible to open up other informal, multipurpose places and spaces where people can be active.</p>	<p>Use the Strategy evidence base to secure S106/ contributions in new housing developments.</p>

RECOMMENDATION	ACTION
<p>RECOMMENDATION 10 (R10)</p> <p>BMBC and its partners identify the level of capital funding required to address the identified investment needs for sports facilities and community halls, and investigates the various sources available for capital funding.</p>	<p>Work with BMBC planning colleagues to identify potential levels of capital funding from residential development</p> <p>Working with partners identify all potential sources of capital funding to support new facility provision in the Borough</p>
<p>RECOMMENDATION 11 (R11)</p> <p>BMBC and its partners prioritise investment in the development of high quality community sports facilities, in partnership with Public Health and other local partners.</p> <p>Increasing available capacity and therefore opportunities to take part in regular physical activity, in the local community, will contribute to reduced health inequalities, increased participation, better community cohesion at local level, and particularly in the more disadvantaged areas of the Borough.</p>	<p>BMBC to continue to work with Public Health and relevant identified community partners to ensure provision of, and access to, appropriate community sports facilities, and opportunities to be physically active.</p>
<p>RECOMMENDATION 12 (R12)</p> <p>There should be on-going monitoring of this Strategy through its implementation, but as a minimum, progress should be reviewed and refreshed every five years. On-going monitoring should include partnership working with neighbouring local authorities to keep aware of facility changes and developments.</p>	<p>Establish monitoring process</p> <p>Ensure ongoing dialogue with neighbouring local authorities</p>

GENERAL PLANNING & PLAYING PITCH STRATEGY DEVELOPMENT	ACTION
<p>GENERAL RECOMMENDATIONS FOR PLANNING</p>	<p>Agree the following Actions for the Local Plan</p> <ul style="list-style-type: none"> • The Local Plan planning Policy, should be in accordance with the NPPF, which seeks to protect playing pitches unless the loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or the development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss. • Planning consent should include appropriate conditions and/or be subject to CIL or a Section 106 Agreement. Where developer contributions are applicable a Section 106 Agreement must be completed specifying the amount and timing of sums to be paid. • The Infrastructure Delivery Plan and the Community Infrastructure Levy Charging Schedule should include projects for investment in playing pitch facility provision and maintenance for sites • Where new pitches are provided changing rooms should be located on site as a minimum for adult use including provision for women and girls or as a minimum toilet facilities should be provided for junior and mini football use including toilets for women and girls. • Where schools or higher education establishments seek planning permission for outdoor playing pitches and/or artificial grass pitches the planning conditions must stipulate a formal community use agreement is put in place with the School and the Local Authority to provide for community use of the facility.
<p>GENERAL RECOMMENDATIONS PLAYING PITCH STRATEGY DEVELOPMENT</p>	<p>BMBC will work in partnership with the:</p> <ul style="list-style-type: none"> • Football Association Regional Investment and Facilities manager and Sheffield and Hallamshire Football Association. • England and Wales Cricket Board Facilities and Investment Manager and Yorkshire Cricket Board • Rugby Football Union Investment and Facilities Manager • England Hockey Relationship Manager for Yorkshire • Sport England <p>Short Term Action. By March 2017 BMBC will continue working with the Playing Pitch Strategy Steering Group. The Steering Group will monitor and review the PPS and site action plans on a six monthly basis.</p> <p>Short Term Action March 2017 - Long Term Action May 2020: The action plan from the PPS should be implemented by BMBC with the assistance of the Steering Group. It is important that the Playing Pitch Strategy Steering group keep this Strategy alive. This will be achieved by:</p> <ul style="list-style-type: none"> • Monitoring the delivery of the recommendations and actions. • Providing up to date annual supply and demand for pitch stock. • Addressing changing trends and formats for the different pitch sports as they develop and monitoring participation of these changes and trends. <p>The on-going monitoring of the strategy will be led by BMBC and will be linked to the Playing Pitch Strategy Group. The Strategy will be updated every 3-5 years.</p>

BARNSELY METROPOLITAN BOROUGH COUNCIL

This matter is a key decision within the Council's definition and has been included in the relevant Forward Plan.

Report of the Executive Director for
People Directorate to Cabinet
(25th January 2017)

SCHOOL TERM TIMES AND HOLIDAY DATES FOR COMMUNITY AND VOLUNTARY CONTROLLED SCHOOLS 2018-2019

1 Purpose of Report

- 1.1 To seek approval for the term times and holiday dates pattern for the 2018-2019 school year to maintain the three year rolling programme of dates following extensive non-statutory consultation.

2 Recommendations

It is recommended that:

- 2.1 **The continuation of the current 'traditional' pattern of school term and holiday dates of a long summer be adopted for the academic year 2018-2019 (see Appendix 2 – Option 2 for the proposed 2018-2019 term time and holiday dates)**

3 Introduction

- 3.1 The setting of the three year rolling programme of term times was introduced to enable schools to plan strategically over a longer period.
- 3.2 It was agreed that in each successive year the pattern will be extended by a further year to maintain the rolling three year programme
- 3.3 Term dates are determined by a set of agreed principles adopted by 26 Local Authorities in the North East of England (see Appendix 1).
- 3.4 Discussions have also taken place between the four South Yorkshire Local Authorities, as they do on an annual basis, in order to co-ordinate holiday dates as far as possible.
- 3.5 The three options for consideration and subject to the consultation were (see Appendix 2):

Option	Pattern	
1	Summer/October split	Two weeks in October and a 5 week summer break
2	Traditional	Long summer break
3	Fixed Easter	Easter is fixed and not subject to an annual change

4 **Proposals and Justification**

4.1 The results of the consultation can be found at Appendix 3.

4.2 There were a total of 2308 respondents to the online consultation.

4.3 The key findings of the consultation were:

All Respondents

Option	Pattern	% in favour	Number in favour
1	Summer/October split	33.45	772
2	Long Summer	55.29%	1276
3	Fixed Easter	11.27%	260

4.4 However, further analysis shows a different preference between groups representing school related staff and the responses of parent/carers. The school related respondents preferred to continue with the current long summer pattern whilst the parent/carer group indicated that they were favourable of a change.

Non Parent/Carer Respondents

(Headteachers, teaching and non-teaching staff, trade unions, governing bodies)

Option	Pattern	% in favour	Number in favour
1	Summer/October split	19.96	222
2	Long Summer	67.27	748
3	Fixed Easter	12.77	142

Parent/Carer Respondents

Option	Pattern	% in favour	Number in favour
1	Summer/October split	46.04	546
2	Long Summer	44.18	524
3	Fixed Easter	9.78	116

- 4.5 It is proposed that the continuation of the current 'traditional' pattern of school term and holiday dates of a long summer be adopted for the academic year 2018-2019 due to the majority of all respondents supporting this option. The respondents most in favour of the continuation of the traditional long summer were Headteachers, governing bodies, school teaching staff, non teaching staff and trade unions and therefore it is anticipated that this will facilitate the adoption of a more consistent school term and holiday pattern across the borough including those schools which set their own holiday patterns outside of the control of the council e.g. voluntary aided and academy schools
- 4.6 It is recommended however that further consideration be given to the findings by schools and governing bodies due to the majority of parent/carer respondents to the consultation being in favour of a change to the school term and holiday pattern.

5 Consultation

- 5.1 Due to consideration being given to a proposed change from the traditional model of school term and holiday dates for 2018-19, Barnsley Council undertook discretionary consultation with a wider group of stakeholders than was required statutorily.
- 5.2 The consultation was widely publicised to ensure that stakeholder groups had the opportunity to contribute their views on the pattern of school term and holiday dates for 2018-2019 academic year and to ensure adherence to the guiding principles (adopted by 26 Local Authorities in the North East of England) as far as reasonably practical.
- 5.3 The consultation process itself was circulated prior to its implementation to ensure that stakeholders had an opportunity to comment on the proposed consultation timescale and process. This included the Professional Associations and Trade Unions on the Consultative Committee for People. In addition, Headteachers of primary and secondary schools were also informed of the proposals at Headteacher meetings and by Circular Letter.
- 5.4 There have been regular social media, press and radio updates by the Corporate Communications Team
- 5.5 Information was also sent to Barnsley College, Early Years Providers, Chairs of Governing Bodies and the four MPs.
- 5.6 The consultation system was available from 7th November to 2nd December 2016.
- 5.7 The media coverage reached 302,323 people and was worth over £10,000 in AVE.
- 5.8 Social media reached around 14,000 people and had almost 600 post clicks.

6 Risk Management

- 6.1 The statutory duty for determining term times and holiday dates for community and voluntary controlled schools remains that of the Local Authority although a wide ranging consultation has been undertaken.
- 6.2 There are often minor variances at voluntary aided schools and academies since it is the responsibility of their respective governing bodies to determine their individual dates. Due to the majority of school related respondents favouring continuation of the tradition school holiday pattern it is anticipated that this may mitigate the risk of large variance across all schools across the borough.

8 Financial and Employee Implications

- 8.1 There are no implications arising from this report.

9 List of Appendices

<hr/>			

GUIDING PRINCIPLES

- 1 The school year will consist of 195 school days. Pupils must attend on 190 of those days.
- 2 The starting point for consideration of each year's holiday pattern will be the pattern recommended by the LGA for that school year modified as per these principles.
- 3 Wherever possible, in any academic year, terms should be of equal length and split weeks avoided or kept to a minimum. Where there are an odd number of weeks the second half term should be shorter of the two.
- 4 **Start of the School Year**
The school year will normally start on the first day of September*
- 5 **Autumn Half Term**
The autumn half term break will be five days which are the last period Monday to Friday in October. According to the year, October half term can start as early as Monday, 21 October and as late as Monday, 27 October.
- 6 **Christmas Break**
The Christmas break will include at least 10 school days, and will normally start at the end of the school day on the Friday which is on, or otherwise immediately prior to, 22 December. It will include the New Year's Day holiday which is outside that period, and the day after New Year's Day, where this is a weekday.
- 7 **February Half Term**
The February half term holiday will be five days Monday to Friday, which divides the term as far as possible into two equal parts. Where there is an odd number of weeks the second half will be the shorter of the two.
- 8 **Easter Break**
The Spring Term will normally end at the close of the afternoon session on the Friday before Good Friday. The holiday will be 10 schools days.

Where the LGA recommended patterns would result in a break between the Easter bank holidays and the school Easter holidays, consideration will be given to modifying Easter to incorporate the bank holidays in the school holiday. The Easter bank holidays could be at the start (with the Spring Term ending at the close of the afternoon session on the Thursday before Good Friday), middle, or end of the school Easter break, but never outside the break itself.
- 9 **Spring Bank Half Term**
The Spring Bank half term will be five days Monday to Friday from the statutory holiday which falls as the last Monday in May.
- 10 **End of School Year**
Taking into account the above pattern, term will end on the date which achieves 195 school days of which five days shall be declared training days. The term will normally end on the third Friday in July

The summer break will not be less than five weeks and preferably not less than six weeks.

* During the consultation it was proposed that for Barnstaple schools the first day of term should be a Monday in order that staff and children do not start a new school year in a school holiday.

SCHOOL CALENDAR FOR THE 2018-2019 ACADEMIC YEAR For community and voluntary controlled schools

GUIDING PRINCIPLES

	Option 1 Summer/October split	Option 2 Long summer	Option 3 Fixed Easter
Wherever possible, in any academic year, terms should be of equal length and split weeks avoided or kept to a minimum. Where there is an odd number of weeks the second half term should be shorter of the two.	1 split week	1 split week	3 split weeks
The school year will normally start on the first day of September. During the consultation it was proposed that for Barnsley schools the first day of term should be a Monday in order that staff and children do not start a new school year in a split week.	✓	✓	✓
The Autumn half term break will be five days which are the last period Monday to Friday in October. According to the year, the October half term can start as early as Monday, 21 October and as late as Monday, 27 October.	x	✓	✓
The Christmas break will include at least 10 school days, and will normally start at the end of the school day on the Friday which is on, or otherwise immediately prior to, 22 December. It will include the New Year's Day holiday which is outside that period, and the day after New Year's Day, where this is a weekday.	✓	✓	✓

Individual Group Breakdown of Results

BARNSELEY METROPOLITAN BOROUGH COUNCIL

This matter is not a Key Decision within the Council's definition and has not been included in the relevant Forward Plan

Report of the Executive Director Communities

Unauthorised and Illegal Encampment Protocol

1. Purpose of report

- 1.1 The purpose of the report is to bring before Cabinet a multi-agency protocol (Appendix 1) detailing the approach for dealing with unauthorised and illegal encampments.

2. Recommendations

It is recommended that:

- 2.1 **Cabinet approve the Unauthorised and Illegal Encampment Protocol attached at Appendix 1**

3. Introduction

- 3.1 Unauthorised encampments can have a significant impact on the local community and on the environment. Unauthorised and illegal encampments are often as a result of gypsy and traveller families settling without the landowner or occupiers consent. The protocol attached at Appendix 1 outlines a holistic approach to all unauthorised and illegal encampments.
- 3.2 The protocol outlines the agreed joint approach and process adopted to respond effectively to unauthorised and illegal encampments, outlining the roles, responsibilities and powers that are available to all organisations. The protocol will ensure consistent, proportionate and appropriate decisions are made when responding to unauthorised and illegal encampments.
- 3.3 The protocol aims to promote inclusivity creating a balance of rights and responsibilities towards all members and sections of society including the settled, travelling and business community.

4. Consideration of alternative approaches

- 4.1 An alternative approach would be to have a council specific procedure for managing unauthorised and illegal encampments. It is however felt that as this issue cuts across organisational responsibilities and the available tools and powers of other key organisations, that any approaches need to be jointly addressed due to the inherent inter-dependencies.

4.2 A further alternative approach would be not to have a multi-agency protocol in place and to work on an ad-hoc basis with partners. It is felt that such an approach could lead to an inconsistency and fragmentation thus creating a confused message to our communities.

5. Proposal and justification

5.1 It is proposed that a multi-agency protocol to address unauthorised and illegal encampments is adopted and its effectiveness is monitored by the Community Safety Partnership Board. It is believed that this is the most effective approach maximising the efficient use of resources across relevant agencies.

6. Implications for local people / service users

6.1 There is often a push from the settled community to move on unauthorised and illegal encampments immediately. The protocol is designed to provide a clear outline of our duties and responsibilities both to the settled and the travelling communities.

7. Financial implications

7.1 There are no direct financial implications associated with the protocol.

8. Employee implications

8.1 There are no direct employee implications associated with the protocol.

9. Communications implications

9.1 The multi-agency protocol will be available on-line at both the Council and South Yorkshire Police websites.

10. Consultations

10.1 The protocol has been subject of an extensive period of consultation with members of the Community Safety Partnership Board. Organisations consulted include:

- South Yorkshire Police
- Barnsley Clinical Commissioning Group
- Berneslai Homes
- South Yorkshire Fire and Rescue
- National Probation Service
- Community Rehabilitation Company
- Youth Offending Team
- Police Crime Commissioners Office
- Representative of the Community Safety Forum

11. The Corporate Plan and the Council's Performance Management Framework

11.1 The adoption of the protocol will support the delivery of the following strategic priorities:

People achieving their potential

- Children and adults are safe from harm
- Early targeted support for those that need it

Strong and resilient communities

- Protecting the Borough for future generations

12. Tackling health inequalities

12.1 Health equalities can disproportionately impact the traveller community. One of the considerations for the protocol is to ensure that any unauthorised and illegal encampments receive appropriate health checks which will be taken into consideration when identifying the most appropriate actions.

13. Climate Change & Sustainable Energy Act 2006

13.1 No apparent implications.

14. Risk management issues

14.1 The Operational Risk Register identifies a risk (reference 3502) of the inability to move unauthorised and illegal encampments (particularly in high risk areas such as near schools and industrial sites) in an expedited manner due to capacity issues. The protocol is one part of mitigations against this risk.

15. Health, safety, and emergency resilience issues

15.1 Occupational Risk Assessments will be reviewed.

16. Compatibility with the European Convention on Human Rights

16.1 The protocol has considered in full the council and its partners responsibilities under the convention both to the settled and non-settled communities. A balanced and equitable approach is necessary to ensure that our duties are fulfilled appropriately in line with the European Convention on Human Rights.

17. Promoting equality, diversity, and social inclusion

17.1 In dealing with unauthorised and illegal encampments, all partner agencies will have due regard to the legal requirements as set out in the Human Rights Act 1998 and the Equality Act 2010. The Barnsley Community Safety Partnership is committed to promoting equality and diversity and ensuring that everyone is treated fairly taking into account their individual needs and circumstances.

17.2 Agencies will take all reasonable steps to ensure they do not unlawfully discriminate and will treat everyone with the same level of courtesy, dignity and respect regardless of any of the protected characteristics.

17.3 Part of the work of the Gypsy and traveller liaison officer will be to try and forge more accepting relationships with the settled community and facilitate mutual understanding and respect.

18. Reduction of crime and disorder

18.1 It is anticipated that the protocol will assist in managing and minimising any disruptive impact of unauthorised and illegal encampments across the borough and that any associated issues of crime or disorder will be addressed promptly and effectively.

19. Conservation of biodiversity

19.1 No apparent implications.

20. Glossary

Barnsley Community Safety Partnership

Joint Protocol on the Management of Unauthorised Encampments

Date Created: March 2017

1. Aims of the Protocol

This protocol outlines the partnership approach of the Barnsley Community Safety Partnership (CSP) and in particular its key agencies Barnsley Council and South Yorkshire Police (SYP) in dealing with unauthorised and illegal encampments throughout the Borough.

The protocol outlines the agreed joint approach and process adopted to respond effectively to unauthorised and illegal encampments, outlining the roles, responsibilities and powers that are available to all organisations. The protocol will ensure consistent, proportionate and appropriate decisions are made when responding to unauthorised and illegal encampments.

Unauthorised encampments can have a significant impact on the local community and on the environment. Unauthorised and illegal encampments are often as a result of gypsy and traveller families settling without the landowner or occupiers consent. This protocol outlines a holistic approach to all unauthorised and illegal encampments and is not specific to the gypsy and traveller community.

The protocol aims to promote inclusivity creating a balance of rights and responsibilities towards all members and sections of society including the settled, travelling and business community.

2. Objectives of the Protocol

In pursuance of the aim of the joint protocol, the following objectives have been agreed by the Barnsley CSP:

- To provide a clear framework for all partners to understand expectations in order to achieve a consistent, proportionate and legitimate response to unauthorised and/or illegal encampments;
- To ensure people forming part of the unauthorised and/or illegal encampment are provided with support and advice pertaining to their individual needs;
- To coordinate multi-agency activity in relation to issues raised by unauthorised and/or illegal encampments;
- To ensure appropriate and effective action is taken to address crime and anti-social behaviour that is directed towards or from the unauthorised and/or illegal encampment;
- To enhance confidence and satisfaction in our communities through the application of agreed principles;
- To reduce community tensions and assess risk through appropriate and effective communication.

3. Protocol Principles

The development of an inter-agency protocol is recognised as being good practice by the Department for Communities and Local Government (DCLG). A coordinated partnership approach has been adopted locally to manage unauthorised and illegal encampments. The approach is underpinned by the following key principles:

- A consistent inter-agency approach will be taken to the management of unauthorised and illegal encampments;
- All unauthorised and illegal encampments will be dealt with proportionately and fairly in accordance the relevant legislation and good practice guidance;
- The rights of and impact on the local community and business community will be taken into account when considering the necessary enforcement action to be taken;
- The council is responsible for dealing with unauthorised and/or illegal encampments on land owned by the council but will provide advice and guidance to private landowners on unauthorised and/or illegal encampments on private land. The council does have the discretion to use powers to remove vehicles and any occupants from private land. This will only be used where there is a strong public interest to do so and where the land owner provides sufficient evidence of the action they have undertaken to remove the unauthorised encampment along with a justifiable business case as to why they are unable to resolve the matters themselves.
- Except where exceptional circumstances arise and where encampments are established on special designated sites as detailed at Section 8, decisions on enforcement action in relation to unauthorised and/or illegal encampments on land owned by the council will not be taken before the necessary welfare checks have been undertaken. This will include assessing all relevant welfare, health and/or educational needs with the engagement of all relevant agencies;
- From the powers available, a collaborative and robust approach will be adopted to identify the most appropriate ways of dealing with any unauthorised and illegal encampments. This will be determined by the circumstances of each individual case;
- The council will consider moving occupants of unauthorised and/or illegal encampments in partnership with SYP and other key agencies to the emergency stopping point where this is relevant and appropriate to do so;
- The council will ensure clean-ups are carried out on council-owned land and the security of the site is reviewed once the site is vacated to minimise any further detrimental impact to the local and business community.

In dealing with unauthorised and illegal encampments, all partner agencies will have due regard to the legal requirements as set out in the Human Rights Act 1998 and the Equality Act 2010. The Barnsley CSP is committed to promoting equality and diversity and ensuring that everyone is treated fairly taking into account their individual needs and circumstances.

Agencies will take all reasonable steps to ensure they do not unlawfully discriminate and will treat everyone with the same level of courtesy, dignity and respect regardless of:

- disability;
- age;
- gender reassignment;
- marriage and civil partnership;
- pregnancy, maternity, breastfeeding;
- race;
- religion and belief;
- sex;
- sexual orientation.

5. What is an Unauthorised Encampment?

An encampment can be deemed to be unauthorised in either or both of the following cases:

- If the owner of the land concerned does not give permission;
- If planning permission is required and has not been granted.

6. Authorised Encampments

There are a number of authorised private and council run caravan sites in the Borough. The council has a well-established site at Smithies Lane, which provides permanent pitches for gypsies and travellers who meet the eligibility criteria. In addition to this, the council also provides an emergency stopping place on Grange Lane, Stairfoot, Barnsley.

Smithies Lane Site

Berneslai Homes manage Barnsley Council's gypsy and traveller site at Smithies Lane, Smithies, Barnsley, S71 1NL. The site has recently undergone a full redevelopment and refurbishment and has 30 permanent pitches, which are all fully serviced with water, drainage and electricity.

The pitches are rented by gypsies and travellers with their own caravan units. Very few vacancies often arise on the Smithies Lane gypsy and traveller site however; Berneslai Homes do hold a waiting list for gypsies and travellers wanting to rent a pitch.

Grange Lane –Emergency Stopping Place

The emergency stopping place is located on Grange Lane, Stairfoot, Barnsley, S71 5QQ. This provides a temporary, emergency stopping site for up to 11 pitches. The maximum authorised length of stay is 14 days (this can be extended in exceptional circumstances e.g. health reasons) with no return within 3 months.

7. Legislative Framework

Powers Available to the Police

Power to direct unauthorised campers to leave land

Section 61 of the Criminal Justice and Public Order Act 1994 gives the police **discretionary** powers to direct trespassers to leave and remove any property or vehicles they have with them. The power applies where the senior police officer reasonably believes that two or more people are trespassing on land (not including the highway) with the purpose of residing there, that the occupier has taken reasonable steps to ask them to leave, and any of the following:

- a) that any of the trespassers have caused damage to land or property;
- b) that any of the trespassers have used threatening, abusive or insulting words or behaviour towards the occupier, a member of the occupier's family or an employee or agent of the occupier; or
- c) that the trespassers have between them six or more vehicles on the land.

Failure to comply with the direction by leaving the land within the given time period is an offence. Similarly it is an offence for a trespasser who has left the land in compliance with an order to re-enter it as a trespasser within three months of the direction being given.

Power to direct trespassers to an alternative site

Police have powers under sections 62 A-E of Criminal Justice and Public Order Act 1994 to direct trespassers to leave land and remove any vehicle and property from the land where there is a suitable pitch available on a caravan site elsewhere in the local authority area.

An emergency stopping site is available in Barnsley and where appropriate this power will be utilised by SYP to support the council to move occupants of unauthorised encampments to this site where it is available and deemed appropriate to do so.

Powers Available to the Council

Power to direct unauthorised campers to leave land

The Criminal Justice and Public Order Act 1994 s77 gives local authorities the power to serve persons residing in vehicles including caravans on land with a direction to leave the land. The power applies only to land forming part of a highway, any other unoccupied land or occupied land on which persons are residing without the consent of the occupier. It is an offence to fail to comply with such a direction. If the direction is not complied with, the local authority can apply to a magistrates' court for an order requiring removal of vehicles and any occupants from the land under section 78 of the Act. Responsibility for eviction lies with the council and their officers or agents may use reasonable force to evict. It is recommended that the police attend such evictions in order to prevent a breach of the peace. People returning to the same land of which they were given a direction to leave within a three month period can be prosecuted.

Injunctions to protect land from unauthorised encampments

If a local site is particularly vulnerable and intelligence suggests it is going to be targeted for unauthorised camping, causing disruption to others going about their day-to-day lives, local authorities can consider applying to the courts under section 187B of the Town and Country Planning Act 1990 for a pre-emptive injunction preventing unauthorised camping (and/or protests) in a defined geographical area.

Possession Orders

Both the council and private landowners can obtain a possession order under Part 55 of the Civil Procedures Rules where removal of trespassers from property including land is required. A possession order may be secured quickly against trespassers however there has to be a minimum of two days' notice before a hearing can take place if the property is non-residential, or 5 days for residential property. This action is not supported by criminal sanctions.

Local Byelaws

Section 235 of the Local Government Act 1972 enables the council to make byelaws for the good rule and governance of the whole or any part of the district or borough and for the suppression and prevention of nuisances. Such byelaws include noise in streets and other public places, urinating in public etc. Section 150 of the Police Reform and Social Responsibility Act 2011 enables the council to attach powers of seizure and retention of any property in connection with any breach of a byelaw made under section 235 and enables the courts to order forfeiture of any such property on conviction for contravention of any byelaw.

Planning Contraventions

Under various sections of the Town and Country Planning Act 1990, the council can take action against private land owners where there may have been a breach of planning control. Actions can include:

- Issuing of a planning contravention notice under section 171C. Penalty for non-compliance is a maximum of £1,000 on summary conviction. A second conviction for continuing non-compliance can be penalised by a daily fine. A false or misleading response to a planning contravention notice is subject to a maximum fine of £5,000.
- Issuing of an enforcement notice, requiring steps to be taken to remedy the breach of planning control within a given period. The penalty for failure to comply is a fine up to £20,000 on summary conviction or an unlimited fine on indictment.
- Issuing of a stop notice. A stop notice may only be serviced with or after an enforcement notice relating to the same activity. Penalty for non-compliance is a fine up to £20,000 on summary conviction or an unlimited fine on indictment.
- Issuing of a breach of condition notice where there is a failure to comply with any condition or limitation imposed on a grant of planning permission. Penalty for non-compliance is a fine of up to £2,500 on summary conviction.
- Powers of entry for authorised officers for them to obtain information required for enforcement purposes. Willful obstruction of an authorised person is an offence and the penalty is a fine of up to £1,000 on summary conviction.

Off Street Parking Orders.

The Road Traffic Regulation Act 1984 and Part 6 of the Traffic Management Act 2004 provides the council with the authority to apply for and declare certain areas to be governed by an Off Street Parking Order. This is used to regulate the use of car parks in resident parking areas and public pay and display car parks.

Any such order prohibits any vehicles from causing an obstruction, staying over 24 hours and using the parking area for sleeping or camping purposes. There are various other prohibitions attached to the order.

The same order provides the council with the power to remove the vehicle from the car park.

Environmental Crime

The council has an environmental protection role and as defined in legislation has a range of responsibilities to deal with environment crime including littering, dog fouling and fly tipping. These responsibilities arise from a number of legislative acts including the Environmental Protection Act 1990, the Clean Neighbourhoods and Environment Act 2005 and more recently the ASB, Crime and Policing Act 2014. The council can take action to prosecute people committing environmental crime offences. The council will robustly enforce against any type of environmental crime however, this can only be achieved where there is evidence which can be presented to a criminal standard. Prosecutions tend to be against individuals and sufficient evidence must exist to be able to prove beyond reasonable doubt that an individual is responsible for a specific offence.

8. Managing Unauthorised and Illegal Encampments

Managing unauthorised and illegal encampments must involve a balance between the rights of the landowner, the rights of and the impact on the local community and the rights and welfare needs of the people who form part of the unauthorised encampment. The protocol provides a consistent approach to managing unauthorised and/or illegal encampments which ensures that the local community, business community and people forming part of the unauthorised encampment are treated with respect, dignity and equity.

When people are camped on land that they do not own, without the permission of the owner, they are trespassing. If a negotiated solution is not possible, then the council, the Police and private landowners all have enforcement powers which are defined at Section 7.

Initial Reports - Partnership Response

The council and SYP will respond to every report of an unauthorised and illegal encampment on a case-by-case basis with an approach that is firm, fair and proportionate. Unauthorised encampments fall into 2 categories; those on land owned

by the local authorities and those on privately owned land. Where the unauthorised and illegal encampment is on Local Authority land; the council is responsible.

Where the unauthorised and illegal encampment is on private land, the landowner is primarily responsible however; the council will provide guidance regarding the effective management of unauthorised and/or illegal encampments. In all cases, the Police are responsible for crime and disorder related issues.

Notification relating to the arrival of an unauthorised and illegal encampment can be received from a variety of sources and can be made to several partner agencies. It is essential that communication is timely in order to ensure a consistent approach is taken to effectively manage unauthorised and/or illegal encampments.

Police Receipt of an Unauthorised Encampment:

Following reports of an unauthorised and/or illegal encampment, SYP will create a ProCAD incident and the Neighbourhood Inspector or in their absence the Response Inspector will be informed.

An assessment of the incident will be made by the Neighbourhoods Inspector or in their absence, the Response Inspector following consultation with Local Policing Team (LPT) staff and partner agencies available at the time of report. Depending on the severity of the incident reported, the Neighbourhood Inspector or the Response Inspector may deploy resources to the scene however; this decision will be taken and prioritised in the context of all other demand.

An immediate assessment will be made by the Inspector following the National Decision Making Model (NDMM) and decisions documented. This will take into account the land occupied and any reports of criminality, disorder and ASB or issues affecting the quality of life of settled and business communities.

If the immediate use of police powers is necessary under s61 of the Criminal Justice and Public Order Act 1994 then it is the responsibility of the Neighbourhood Inspector to organise the police response and take appropriate action after following the NDMM. The Inspector can take advice from a Public Order Tactical Adviser and specialist advice from a Silver Public Order Commander or duty Critical Incident Manager. Resourcing advice can be sought through the Force Incident Manager and the Operational Planning Unit.

In all cases, the Neighbourhoods Inspector or in their absence the Response Inspector will ensure that the council's Community Safety and Enforcement team is notified via the Single Point of Contact (SPOC) about the unauthorised and illegal encampment. The

SPOC for the councils Community Safety and Enforcement service is the Community Safety and Investigations Manager. The council will create a Civica APP incident and maintain a casefile detailing the chronology and any action taken.

Council Receipt of an Unauthorised Encampment:

The council should be notified of all unauthorised and illegal encampments in order that land ownership can be ascertained. Notifications can be made by either e-mailing saferbarnsley@barnsley.gov.uk or by telephoning 772468.

Reports of unauthorised and illegal encampments will in the majority of cases be received by the council's Customer Services Team. Some reports may be received direct by the council's Community Safety and Enforcement Team but in either case, a Civica APP incident will be created and a casefile detailing the chronology and any action taken will be maintained by the operational service.

In all cases, the council's Community Safety and Investigations Manager will notify the SYP Neighbourhoods Inspector or in their absence the Response Inspector of the unauthorised and/or illegal encampment.

The councils' Community Safety and Enforcement Service will determine whether the land is owned privately or by the council. The approach taken by the council will depend on land ownership as defined below.

Managing unauthorised and illegal encampments on land owned by the council

The council has the responsibility for the management of unauthorised and illegal encampments on land owned by the council. This includes any relevant action necessary to remove the trespassers from council-owned land. The councils' Community Safety and Enforcement Service is responsible for dealing with unauthorised and illegal encampments on council-owned land.

Barnsley has two designated special sites being Penny Pie Park at Dodworth, Barnsley and the Keresforth/Broadway playing fields, Barnsley.

Where unauthorised and illegal encampments are established on these sites, enforcement action will be instigated immediately and the adherence to this protocol and standard procedure will be circumvented. In these circumstances the council will:

- Proceed immediately to the service of a notice under Section 77 of the Criminal Justice and Public Order Act 1994 giving the encampment a maximum of 8 hours to vacate the site;

- If the notice is not complied with, the council will seek support from SYP to affect immediate removal of an encampment in these locations under Section 61 of the Criminal Justice and Public Order Act 1994.

The council reserves the right to designate other locations as special sites according to locally defined needs.

In the majority of other circumstances, the standard process will be followed when dealing with unauthorised and/or illegal encampments. There may however be exceptional circumstances where the council (under the direction of the Director of Legal Services) may make a unilateral decision to pursue immediate enforcement action to remove the occupants of an unauthorised and illegal encampment from a particular site or location. This action will only be taken where there is a firm evidence base (beyond general public dissatisfaction) to warrant immediate action being commenced by the council.

Stage 1 – Initial Investigation

Where the emergency stopping site is available and it is deemed appropriate, the councils' Community Safety and Enforcement SPOC will determine in collaboration with the SYP Neighbourhoods Inspector or in their absence the Response Inspector whether it is appropriate for SYP to invoke the use of s62 of the Criminal Justice and Public Order Act 1994 to move occupants of the unauthorised encampments to this site.

Where a decision is taken not to invoke s62, an authorised council officer will carry out a site investigation and initial welfare check within 1 working day of receiving notification of the encampment.

At the visit the authorised council officer will:

- Undertake the site investigation and initial welfare assessment and complete the relevant report (Appendix 1);
- Advise and liaise with individuals and families about ownership of land, and give them a copy of the code of practice (Appendix 2);
- Advise the occupants that the relevant partners will be informed and that they may also visit the site;
- Where appropriate, advise the occupants that a Unauthorised Encampment Case Conference will take place to consider the toleration and any potential enforcement action to be taken in relation to the unauthorised encampment;
- Take photographs of the site and the surrounding area for verification of any environmental impact and the change in numbers forming part of the settlement. Individuals forming part of the encampment should be notified of the reasons for

taking photographs. These should not contain images of individuals who could be identifiable and should not include children and young people without permission;

- Provide refuse sacks and detail the arrangements for the proper disposal of household waste.

Barnsley council will undertake a health and welfare assessment to be undertaken by a Health professional. The assessment will usually be undertaken within 2 working days of the request for a health assessment being received.

A health and welfare assessment visit form (see Appendix 3) will be completed by a Health professional and provided to the councils' Community Safety and Enforcement Team within 1 working day of the assessment being undertaken. This will detail the circumstances of the encampment occupants and any recommendations in relation to action to remove the encampment from council land.

Stage 2 – Communication with Local Communities

The council will work proactively to provide information to the settled and business communities regarding the unauthorised and illegal encampment providing a brief overview of the agreed protocol and process for the management of unauthorised and illegal encampments.

The council will within 2 working days of receiving a notification regarding the unauthorised and/or illegal encampment, distribute a resident's letter and frequently asked questions overview (see Appendix 4) to residents in close vicinity of the encampment. This will provide details of a point of contact in the council as well as providing advice in relation to circumstances when the Police should be contacted.

Contact will be maintained with residents and elected members for the full duration of an encampment advising of any notable events and feeding back responses to concerns and contacts.

Stage 3 - Managing the Encampment

For the duration of the encampment, the councils' Community Safety and Enforcement Service will visit the site on a daily basis to monitor the encampment and ensure compliance with the code of conduct. The councils' Community Safety and Enforcement Team will seek to enforce robustly compliance with the code of conduct specifically

around environmental and behavioural standards in line with the relevant legislation as set out at Section 7.

Site clearance will be undertaken by the councils Neighbourhood Services team on vacation of the land. Where any significant public health risks are present, interim clearances will be undertaken by the councils Neighbourhood Services team accompanied by representatives from the councils Community Safety and Enforcement Team or SYP where this is deemed appropriate.

Stage 4 - Decision on Action to be taken

A case conference will normally be convened within 5 working days where possible of the welfare checks being received to make a decision as to whether action will be taken to seek removal of the unauthorised and/or illegal encampment. The case conference will comprise of the following representatives:

- South Yorkshire Police
- BMBC Community Safety and Enforcement Service
- BMBC Legal Services
- BMBC Children's Services & Safeguarding
- BMBC Adults Assessment and Care Management (if applicable)
- BMBC Parks Services (if applicable)
- BMBC Highways
- BMBC Neighbourhood Services

Each case will be considered individually taking into account all information to enable a balanced and informed decision to be made concerning tolerance or action to be taken. The decision may well be to seek immediate possession of the land.

In reaching a decision as to the need to seek the removal of occupants from unauthorised and/or illegal encampments, the case conference will review the health and welfare assessment completed by the Health professional taking into consideration any recommendations based on the health needs of the occupants of the encampment.

The following criteria will also be taken into consideration before reaching a decision on eviction of unauthorised encampments on council owned land:

- Public health and safety including highway safety, obstruction or danger to road users as well as environmental and other dangers;
- Any unacceptable conduct causing nuisance to nearby residents and businesses;
- Whether the presence seriously interferes with or prevents the use of that land for its normal use or an imminent change of use;
- Reports of criminality, disorder or anti-social behaviour directed to or from the encampment;

- Environmental impact and whether the code of conduct has been complied with.

Decisions taken by the case conference to delay proceedings to evict occupants of an unauthorised and illegal encampment will usually relate to the acute health or welfare needs of encampment occupants. Where a decision to tolerate is taken, a timescale will be agreed by the Case Conference and a further health and welfare check will be carried out by a designated Health professional prior to the review date.

Whilst these health or welfare needs are being met, the site will continue to be proactively managed by the councils' Community Safety and Enforcement Service.

In certain circumstances, it may be appropriate to pursue action to evict the occupants from the land but to exclude the person with immediate health or welfare needs along with a small number of occupants who can provide them with support. This will be handled sensitively to ensure that an individual is not left isolated or unsupported potentially leading to greater need.

All decisions taken by the case conference will be full recorded and documented.

Stage 5 – Eviction Process

Where the council has, either at Case Conference or via the direction of the Director of Legal Services, determined that immediate possession is required, the council will act swiftly to use the powers most appropriate to the circumstances.

The council will typically take action under Section 77 of the Criminal Justice and Public Order Act 1994. The direction to leave will be drawn up and authorised by the councils Legal Team within 1 working day of the decision to take the action.

The councils Community Safety and Enforcement service will serve the Section 77 notice on the occupants of every caravan or motorhome forming part of the unauthorised and/or illegal encampment within 1 working day of receiving the documentation from the council's Legal team.

The notice will direct the persons and any others with them to leave the land and remove the vehicle or vehicles and any other property they have with them on the land. The notice will provide a timescale deemed as "reasonable" for the occupants to comply. Timescales for compliance will depend when the notice is issued but typically a request for vacation of the site will normally be within 24 hours.

If the encampment fails to comply with the terms of the Section 77 notice, the councils Community Safety and Investigations Manager will liaise with with the SYP LPT Inspector to decipher whether it is appropriate for SYP to invoke the use of s61 of the

Criminal Justice and Public Order Act 1994 to direct trespassers to leave and remove their property and vehicles from the land.

Where s61 is deemed appropriate, SYP and the council will work collaboratively and expediently to direct trespassers to leave and remove their property and vehicles from the land.

Where s61 powers are invoked, a police officer will visit the encampment and advise the occupants that they are required to leave by a given date and time, providing them with a copy of the Direction to Leave Land form, ensuring this is understood. Failure to comply with the direction or return to the site within a 3 month period is a criminal offence and will be dealt with by SYP accordingly.

Where s61 is deemed inappropriate, the council's Legal Services will apply to the court for a section 78 order to remove the occupants of the unauthorised and/or illegal encampment from council land. The application to the court will be made within 1 working day of non-compliance with the section 77 notice however; how quickly this can be heard by the court depends upon availability of court dates.

Once a court date is secured, a Court summons will be formulated by Legal Services and served on the encampment by Community Safety and Enforcement service at least the day prior to the Court hearing date.

The court will make a decision on the day of the hearing as to whether a section 78 order will be granted.

Section 78 is a binding court order which if not complied with, gives the council the power to remove the encampment. The councils Community Safety and Enforcement service will serve the Section 78 order on the occupants of every caravan or motorhome forming part of the unauthorised and/or illegal encampment within 1 working day of receiving the documentation from the court.

Once the Section 78 order is served, the occupants must be given 24 hours to comply with the Order. The councils Community Safety and Enforcement team will alert relevant parties including SYP to the potential for an eviction from site.

Where compliance with Section 78 is not achieved, after 24 hours of serving the Court Order, the councils Community Safety and Enforcement team will enforce removal, which may be supported by bailiffs. The councils Community safety and Enforcement service will attend the eviction along with SYP whose role will be to ensure public order is maintained.

Stage 6 – Following vacation of land/eviction

The councils' Community Safety and Enforcement Team will notify the councils' Neighbourhood Services on the same working day following the vacation or removal of the unauthorised and/or illegal encampment from council land. The councils' Neighbourhood Services team will seek to clear the site of any refuse or waste subject to resource availability within 1 working day of the site being vacated.

On vacation of the site, an exit survey will be issued to the surrounding settled and business community in order to ensure community feedback is gathered to establish the extent (or otherwise) of any local disruption. Community feedback will be taken into account when considering further preventative measures.

Once a site is vacated and depending upon the circumstances, the council will seek to secure the site within the available resources in order to prevent or deter further infractions.

Data relating to the encampment will be used by the council to help inform any relevant policies and strategies including cohesion and housing needs in addition to planning and shared with relevant partners as appropriate in line with relevant legislation and information sharing agreements.

Managing unauthorised and illegal encampments on privately-owned land

It is the responsibility of private landowners to determine the appropriate action and seek to remove trespassers where appropriate. In line with Government guidance, the council will provide information and advice to private landowners of how to effectively manage unauthorised and illegal encampments and the related powers available to recover possession of the land however, any action will be responsibility of the private landowner. Private landowners are also responsible for the management and clearance of any environment damage and/or waste occurring as a result of the unauthorised and illegal encampment on private land.

Private landowners can also seek advice and assistance from the Police. Police have the power to assist private landowners to remove trespassers under s61 CJPOA 1994, as they do the local authority.

Private landowners must consider if they choose not to take any action whether they are in breach of any relevant legislation such as the Town and Country Planning Act 1990 or the Environmental Protection Act 1990.

Where the legislation is breached, failure by private landowners to take action may result in enforcement and/or legal action being taken against them by the council if the owners have condoned the occupation else invited the occupants onto their land. The council will seek to recover all costs incurred from the private landowner as a result of taking any necessary enforcement and/or legal action.

The council will not normally intervene with unauthorised and illegal encampments on private land. The council does however have the discretion to use powers under Section 77 and 78 of the Criminal Justice and Public Order Act 1994 to remove vehicles and any occupants from private land. This will only be used where there is a strong public interest to do so and where the land owner provides sufficient evidence of the action they have undertaken to remove the unauthorised encampment along with a justifiable business case as to why they are unable to resolve the matter themselves.

The following protocol will be followed once the council receives a notification that an unauthorised and illegal encampment has been established on private land:

- The councils' Community Safety and Enforcement Service is responsible for dealing with unauthorised and illegal encampments;
- The council will take all reasonable steps to identify who owns the land upon which the unauthorised and illegal encampment has been set up including consulting with land registry and the councils' highway department;
- The council will contact the landowner or agent who will be advised of their responsibilities to determine and implement the most appropriate course of action;
- Where there are multiple land owners, the council will inform all land owners however, the responsibility for the coordination of actions will be with the land owners and not the council;
- The council will provide information and advice to private land owners but will not intervene unless there is a strong public interest to do so and private land owners have demonstrated a business case to necessitate this action;
- In exceptional circumstances where the council does choose to intervene, the process for removing illegal encampments on public land will be followed and a site visit and welfare assessment will be undertaken prior to any enforcement action being taken. The council reserves the right to recover any costs incurred from private land owners.

9. Data Protection and Information Sharing

All data and information recorded by agencies in the management of unauthorised and illegal encampments will be processed under the Data Protection Act 1998.

The council sets out how it uses and protects the personal information of its customers in its corporate privacy notice and Data Protection Policy which can be viewed on the council’s website. The council’s Confidentiality and Information Security and Computer Usage Policies set out further controls as part of the council’s overall information management and security environment.

Where appropriate, information will be shared between key partners such as the council, Police and Health professionals in order to prevent and detect crime and to ensure a coordinated approach is taken to effectively managing unauthorised and/or illegal encampment. In these circumstances, information will be shared securely in line with data protection laws, other relevant legislation including the Crime and Disorder Act 1998, the Inter-Agency Information Sharing Protocol and information sharing agreements in place with key partner agencies.

10. Protocol Review

The protocol will be reviewed every three years, or earlier, in line with Government guidance, best practice and legislative changes. As part of the review, consultations will be undertaken with the Barnsley CSP, residents and other stakeholders regarding the contents and effectiveness of the protocol.

11. Authorisation

The following signatories hereby agree to:

- Subscribe and work to the principles contained within the Protocol, and;
- ensure that the Protocol is fully implemented within the organisation/authority and all relevant staff are trained in the principles and legal requirements.

5) Type of Land:	School <input type="checkbox"/> Park <input type="checkbox"/> Highway Verge <input type="checkbox"/> Business/Industrial Estate - Used <input type="checkbox"/> Business/Industrial Estate – Disused <input type="checkbox"/> Other (please specify) <input type="checkbox"/>
6) Land Owner:	
7) Number of adults forming part of the encampment:	
8) Number of children forming part of the encampment:	
9) Are all the encampment occupants travelling together?	

Details of the Encampment Occupants

Surname	First Name(s)	D.O.B / Age	M/F	First Language	Child seen Yes/No
Surname	First Name(s)	D.O.B / Age	M/F	First Language	Child seen Yes/No

14) What was the location of the group prior to this encampment?	
15) Are there any specific reasons for the encampment? i.e. wedding/funeral	
16) How long has the group indicated they wish to stay?	
17) Where does the group intend to travel to next?	
18) What services (if any) are available on site? (i.e. water, toilets etc.)	
19) Please provide an overview of any environmental impact (including fly tipping, refuse/waste, excrement etc.)	

Part B – Community Impact Assessment

20) Are rights of way affected by the encampment and if so, in what way?	
21) Is access to or from nearby properties or amenities obstructed by the encampment?	
22) Is operational use of the land obstructed by the encampment and if so, in what way?	
23) Has the site been occupied by an unauthorised encampment in the previous 12 months?	
24) How far is the encampment from the nearest residence or business?	
25) Is the encampment	

separated from other properties by a road or a boundary?	
26) Has the encampment prevented members of the settled community from using amenities?	
27) Has the Code of Conduct been issued and been explained to the group?	
28) Has criminal and/or anti-social behaviour been witnessed against or by members of the encampment? If yes, please provide details.	
29) Please provide any further details of any community impact.	

Part D – Initial Welfare Enquiries

30) Are there any medical concerns with any members of the group? Please provide details	
31) Are there any vulnerable members of the group? i.e. elderly, infirm. Please provide details	
32) Are there any members of the group who are pregnant? Please provide details	
33) Are there any other areas of concern for members of the encampment?	
34) Are there any concerns for the welfare of any animals on the site?	
35) Is there anything affecting the occupants ability to travel? If yes, please provide details.	
36) Do occupants of the encampment have access to accommodation elsewhere? If yes, please	

provide details	
37) Are there places on authorised or the temporary stopping place available to the occupants of the encampment?	
38) Do occupants of the encampment wish to apply for places on the authorised sites?	
39) Do the occupants require any support with making a homelessness application in Barnsley?	
40) Does any occupant of the encampment require the services of an Education Officer? If yes, please provide details.	
41) Are any of the children living on the encampment attending school? Please provide details.	

Appendix 2

CODE OF CONDUCT FOR UNAUTHORISED ENCAMPMENTS ON COUCIL LAND

You are occupying this location illegally. The council is considering what, if any, enforcement and legal action to pursue in line with its protocol on unauthorised and

illegal encampments. We expect you to treat the land you have occupied with respect, and to respect the rights of other people who also wish to use the area. Whilst you are on this location, the following behaviour is not acceptable:

1. Forcing entry to land, by causing damage to any fixtures, fittings or landscaping (including planted areas). This includes digging away of earthwork defences, which have been placed at a landowner's expense to prevent trespass.
2. Causing any other damage to the land itself, or property on it. Particular care should be taken not to cause damage to those features provided as a public amenity.
3. Driving vehicles along any footpath or other right of way not specifically designed for road vehicles. This practice is not only illegal but is also highly dangerous.
4. Parking vehicles or caravans on any road or footpath that causes an obstruction to other people wanting to pass by. This includes parking immediately next to footpaths.
5. Dumping or tipping rubbish, waste materials or trade waste such as tree cuttings, rubble, etc. You will be provided with plastic refuse bags that will be collected during or after your stay at the site. It is your responsibility to keep the site clean and tidy.
6. Council Liaison Officers can direct you to Civic Amenity Sites (Council tips) where you will be able to pay to dispose of trade waste.
7. Use of the area as a toilet. You must not deposit or leave human waste openly in public areas.
8. Abuse, intimidation or harassment of any person who is lawfully using the area.
9. Excessive noise or other forms of anti-social behaviour.
10. Animals that are not kept under control or that attack persons lawfully on the land, or nearby.
11. Interference with electrical, water or gas supplies. Any person(s) found abstracting electricity, or wasting quantities of water may be the subject of criminal proceedings.

These codes are the same standards of behaviour that are expected of the settled community. Barnsley Council is committed to ensuring that the rights and expectations of all parties are balanced and attended to in the most appropriate manner, however behaviour that is deemed unacceptable will not be tolerated. Any contravention of this code of conduct will be considered as part of the decision making process to determine possible enforcement and legal action.

Appendix 4

Dear Resident,

As you may be aware there is an unauthorised encampment at -----.

There are certain guidelines all local authorities have to follow in terms of welfare checks and case conferences. If we fail to follow these steps then it is likely the courts would not grant orders for removal of encampments.

Welfare checks have to be carried out by specialist Community Nurses. After they have been carried out, a case conference is called where a decision is made about how soon

notices can be served requiring the occupants of the unauthorised encampment to quit the land.

If the occupants of unauthorised encampments do not comply with the direction to leave notice, Barnsley Councils Legal Team will apply to the courts for an eviction order which is also served on the occupants of the unauthorised encampment.

If the occupants of unauthorised encampments do not comply with this order, Barnsley MBC Community Safety and Enforcement Service will instruct bailiffs to remove the occupants of the unauthorised encampment from the land.

This process does take time and your patience in this matter is appreciated. Community Safety and Enforcement Officers will attend the site on a daily basis. They will take photographs and collect evidence for court purposes.

You can contact Community Safety and Enforcement Service, if you wish to report or pass any information to us, online using the following email address:

safer@barnsley.gov.uk

You can also contact our Customer Services Team on 772468.

Immediate issues around anti-social behaviour, threats intimidation or any other crime should be reported to the police using the 101 number or in the event of an emergency, please dial 999.

Yours Faithfully

Community Safety & Investigations Manager
Community Safety and Enforcement Service
Barnsley MBC

Appendix 4

Unauthorised Encampments

Frequently Asked Questions

1) Can the council remove unauthorised encampments from their land immediately?

No, the council must:

- Show that the occupants of the unauthorised encampment are on the land without consent;
- Make enquiries regarding the general health, welfare and children's education;
- Ensure that the Human Rights Act 1998 has been fully complied with;
- Follow a set protocol in terms of proving ownership of the land, providing details of the unauthorised encampment, service of notices and summonses that will enable the necessary authority to be sought through the courts to order the occupants of unauthorised encampments to leave the site.

2) How long will it take unauthorised to remove unauthorised encampments from council land?

This will depend upon the circumstances of each individual case. The council will need to take account of the issues outlined above as well as how soon a Court hearing date can be obtained.

3) Can the court refuse to grant the council an order to move on the unauthorised encampment?

Yes, the court can refuse to grant an order if:

- The council fails to make adequate enquiries regarding the health, welfare and education of the occupants of the unauthorised encampment;
- There is an unavoidable reason for the occupants of the unauthorised encampment to remain on the site.

It is important that the council takes the necessary time follow the correct protocol, to make all the relevant enquiries and collate the necessary evidence before making an application for a court order.

4) Why doesn't the council recover its legal costs from the occupants of unauthorised encampments or prosecute for fly tipping or littering?

Unfortunately there is very little any council can do to recover money from unauthorised encampments. As with any environmental crime, like fly tipping or littering, the council needs people to be willing to provide eyewitness information or for a council officer to witness or the evidence that links the incident to an individual. Without this the council can't issue a Fixed Penalty Notice, or successfully take the matter to court.

Once an encampment moves on, Barnsley Council will move quickly to clean up and where possible secure the area so that it can once again be enjoyed by local residents.

5) What measures does the council take to prevent unauthorised encampments accessing council land?

The council regularly reviews security arrangements at popular sites in an attempt to deter unauthorised vehicle access. All security measures are considered as applicable to individual sites including the installation of bollards, fencing, gates and landscaping.

6) How can the council help if an authorised encampment moves on to private land?

If the unauthorised encampment is on private land it is primarily the responsibility of the land owners to deal with the eviction. The council can provide information and advice to private land owners of how to effectively manage unauthorised and illegal encampments and the related powers available to recover possession of the land. Private land owners are also responsible for the management and clearance of any environment damage and/or waste occurring as a result of the unauthorised and illegal encampment on private land.

The council has the discretion to use powers under Section 77 and 78 of the Criminal Justice and Public Order Act 1994 to remove vehicles and any occupants from private land. This will only be used where there is a strong public interest to do so and where the land owners provides sufficient evidence of the action they have undertaken to remove the unauthorised encampment along with a justifiable reason as to why they are unable to resolve the matter themselves.

7) What can the council do if the private land owner fails to take action to move the unauthorised encampment?

Private land owners must consider if they choose not to take any action whether they are in breach of any relevant planning legislation and the Caravan Sites Act 1960. If planning permission has not been granted, failure to take action may result in enforcement and/or legal action being taken against them by the council. The council will seek to recover all costs incurred from the private landowner as a result of taking any necessary enforcement and/or legal action.
