• FLEXIBLE WORKFORCE • WORKING WITH OUR PARTNERS, COMMUNITIES AND RESIDENTS • ENABLING ORGANISATION

INTRODUCTION

Our journey to become a customer focused, modern, efficient and business minded 'Future Council' began in 2013 and since that time we have implemented a programme of organisational change and transformation at a scale, strength and pace we have not seen before.

As part of our transformation plans, we developed a new vision '**Working together for a brighter future, a better Barnsley**' supported by our values and behaviours which have been central to supporting the positive changes in our organisational culture.

We are now planning the next phase of our journey to 2020 and our [Corporate Plan 2017-2020](#) sets out our plans of what we want to achieve over the next three years.

This strategy has been developed to ensure we are efficient, effective and in the best position possible to support the achievement of our priorities and plans and to meet our customers' needs and expectations. It builds on the progress already made as a result of our previous Future Council Strategy 2014-2017 and has been developed in consultation with our employees and our members.

The Organisation Improvement Strategy is one of a number of other strategies that are in place to continue to drive our journey of improvement to 2020.

OUR JOURNEY SO FAR

Our Future Council Strategy 2014-2017 set out what we wanted to do and achieve in order to bring about the fundamental transformation needed to enable us to become an effective, efficient, high performing and sustainable Future Council.

Our key achievements during the period 2014-2017 are shown below:

Achieved efficiencies by reviewing and realigning common services and functions	Developed and introduced a new organisational model putting our residents and customers at the heart of everything we do	Enabled a more flexible workforce by introducing job families and generic job profiles	Implemented a new approach to business planning that put our customers at the heart of the process
Introduced a revised approach to financial planning and performance management including multi-year planning to provide more stability	Developed and introduced a new vision and values in consultation with our employees and members which has driven culture change	Developed the 2020 outcomes framework to enable employees to clearly see their contribution to our priorities	Launched the excellence awards scheme to recognise and reward our employees' innovative ideas, suggestions and achievements
Launched our revised Workforce Development Programme 'The Barnsley Offer'	Revised and improved our Member Development offer to align it to Future Council and their community leadership role	Developed and rolled out the Barnsley Leadership Programme to drive forward the culture change needed to become a Future Council	Reviewed senior manager pay and integrated this into a revised 17 grade pay structure
Implemented a revised operating model for social care and improved our debt recovery process as a result of our customer service programme	Successfully enabled an increase in self-service contact with the council by over 27% as a result of our customer service programme	Enhanced the employee benefit offer and launched the employee benefits brochure 'JUST4YOU'	Introduced our Improvement and Growth Fund to drive and support additional innovation and change within the Council
Revised and improved our approach to employee communication, engagement and collaboration	Identified real positive changes and improvements as a result of our employee survey feedback	Became recognised as an Investors in People Gold accredited organisation	Shortlisted as a finalist for the LGC Council of the Year Award 2016

WHAT'S NEXT FOR US?

We've looked back at the progress made over the last three years and used feedback from our Investors in People assessments to see where we need to make further improvements and do things differently. We also used our recent Talkabout events to ask our employees and members for their help to identify where we need to focus our efforts over the next three years.

This feedback has identified four themes for our Organisation Improvement Strategy 2017-2020. These will enable us to continue to drive forward changes and improvements at pace to ensure we meet the demands required of a modern council.

OUR ORGANISATION IMPROVEMENT THEMES

MAKING IT HAPPEN AND MONITORING PROGRESS

Our delivery plan clearly sets out the actions we will take against each of the themes in order to bring about the required improvements and efficiencies to our organisation and how we operate. Progress against the delivery plan will be reported to and monitored by the Future Council Improvement and Growth Board on a bi-monthly basis.

We are aware that the environment in which we operate is constantly changing so it's important that throughout the next three years we continuously reflect, review and evaluate what we are doing to make sure we are still focussing on the right things and are making a positive difference. We will do this by undertaking a 'lessons learned' approach and by reviewing performance data, findings and recommendations from inspections, employee surveys and Investors in People assessments. We will also use feedback from employees, members, partners, communities and customers.

In addition, we have developed 10 areas of focus that are helping us to change the way we work. We have aligned the actions within this strategy to the 10 areas to help us to identify progress towards their achievement. These areas of focus are:

1. Clear vision and values – we have developed these together and they define what we are trying to achieve in our communities and for our customers, as well as how we do what we do.

2. Customer focus – we will understand all our customers and put them at the centre of everything we do.

3. Commercial and business acumen – we will focus on outcomes and making every penny count, removing bureaucracy and running our organisation really well for our customers and residents.

4. Efficient delivery of projects and programmes – we will strengthen and standardise our approach. Working together to ensure accountability and value for money.

5. Innovative and managed risk taking – we will remove barriers to change, encourage, support and empower our employees to develop great new ideas and implement improvements.

6. Learning organisation – we will invest in our employees, recognise success and achievement, and become stronger from our mistakes.

7. Leaders at every level – we will have leaders at every level of the organisation who are highly skilled, and able to inspire and empower their teams to respond effectively to local needs.

8. Flexible workforce – we will ensure our employees are healthy, agile, skilled, and flexible so that we can continue to meet our customers' changing needs.

9. Working with our partners, communities and residents – we will work better together to identify and meet local needs by joining up our work, and playing to our different strengths.

10. Enabling organisation – we will enable our partners, communities and residents to do more for themselves, rather than stepping in when we are not needed or where others can do something better than we can.

ORGANISATION IMPROVEMENT STRATEGY 2017-2020 – HIGH LEVEL DELIVERY PLAN

Key Theme 1: Culture and behaviour change		<i>Continue to build and develop a healthy and positive organisational culture to ensure we are a customer focused, modern, efficient and business minded Future Council</i>
