This report provides the audit committee with an overview on progress in delivering our responsibilities as your external auditors. The report also highlights the main technical issues which are currently having an impact in local government. If you require any additional information regarding the issues included within this report, please contact a member of the audit team. We have flagged the articles that we believe will have an impact at the Authority and given our perspective on the issue:

 High impact  Medium impact  Low impact  For information

External audit progress report

External audit progress report

This document provides the audit committee with a high level overview on progress in delivering our responsibilities as your external auditors.

At the end of each stage of the audit we issue certain deliverables, including reports and opinions. A summary of progress against these deliverable is provided in Appendix 1 of this report.

Area of responsibility	Commentary
Financial statements	<p><i>We have completed our audit planning, and presented our Audit Plan to you in March 2017.</i></p> <p><i>Our interim audit is substantially complete and we will bring our interim audit report to the June audit committee.</i></p>
Value for Money	<p><i>We continue our work on value for money throughout the audit. We will include any findings from our interim audit visit as part of our interim audit report.</i></p>
Certification of claims and returns	<p><i>Planning is currently underway for our certification of your claims and returns. We will be undertaking work on the 2016/17 Housing Benefit & Council Tax Benefit Claim in line with Public Sector Audit Appointments (PSAA) guidance. We also anticipate certifying the following grant claims and returns which fall outside of the PSAA regime:</i></p> <ul style="list-style-type: none"> <i>- Teachers Pension Agency Return, and</i> <i>- Pooling of Housing Capital Receipts.</i>
Other work	<p><i>We have no additional work to bring to your attention.</i></p>

Publication 'Value of Audit – Perspectives for Government'

What does this report address?

This report builds on the Global Audit campaign – *Value of Audit: Shaping the future of Corporate Reporting* – to look more closely at the issue of public trust in national governments and how the audit profession needs to adapt to rebuild this trust. Our objective is to articulate a clear opinion on the challenges and concepts critical to the value of audit in government today and in the future and how governments must respond in order to succeed.

Through interviews with KPMG partners from nine countries (Australia, Canada, France, Germany, Japan, the Netherlands, South Africa, the UK and the US) as well as some of our senior government audit clients from Canada, the Netherlands and the US, we have identified a number of challenges and concepts that are critical to the value of audit in government today and in the future.

What are the key issues?

- The lack of consistent accounting standards around the world and the impacts on the usefulness of government financial statements.
- The importance of trust and independence of government across different markets.
- How government audits can provide accountability thereby enhancing the government's controls and instigating decision-making.
- The importance of technology integration and the issues that need to be addressed for successful implementation
- The degree of reliance on government financial reports as a result of differing approaches to conducting government audits

The *Value of Audit: Perspectives for Government* report can be found on the KPMG website at

<https://home.kpmg.com/xx/en/home/insights.html>

Publication 'Reimagine – Local Government'

KPMG have published a number of reports under the headline of *Reimagine – Local Government*. These are summarised below:

Council cash crunch: New approach needed to find fresh income

- By 2020, councils must generate all revenue locally.
- More and more are looking towards diversifying income streams as an integral part of this.
- Councils have significant advantages in becoming a trusted, independent supplier.
- To succeed, they must invest in developing commercial capability and capacity.

Councils can save more than cash by sharing data

- Better data sharing in the public sector can save lives and money.
- The duty to share information can be as important as the duty to protect it.
- Local authorities are yet to realise the full value of their data and are wary of sharing information.
- Cross-sector structures and the right leadership is the first step to combating the problem.

English devolution: Chancellor aims for faster and more radical change

- Experience of Greater Manchester has shown importance of strong leadership.
- Devolution in areas like criminal justice will help address complex social problems.
- Making councils responsible for raising budgets locally shows the radical nature of these changes.
- Cuts to business rates will stiffen the funding challenge, even for the most dynamic councils.

Senior public sector pensions

- Recent changes to pensions taxation have particularly affected the public sector, with fears senior staff may quit as pension allowances bite.
- 'Analyse, control, engage' is the bedrock of an effective strategy.

Time for the *Care Act* to deliver

- Momentum behind last year's *Care Act* risks stalling.
- Councils are struggling to create an accessible care market with well-informed consumers.
- Local authorities must improve digital presence and engage providers.
- Austerity need not be an impediment to progress. It could be an enabler.

The publications can be found on the KPMG website <https://home.kpmg.com/uk/en/home/insights/2016/04/reimagine-local-government.html>

Publication 'The future of cities'

We are delighted to share *The future of cities*, a report that helps local government leaders build and evaluate sustainable cities for their current and future generations.

What is *The future of cities*?

The future of cities is a global report that follows from the UK firm's thought leadership partnership with the City of Bristol and the work surrounding its European Green Capital 2015 designation. The report is broken into two modules that draw on the expertise of KPMG practitioners around the world and includes a range of case studies to ensure you find approaches relevant to your context.

The first module, *The future of cities: creating a vision*, explains the central role of vision in the success of second cities, identifying seven guiding principles to make cities more attractive. Examples are provided of various cities around the globe that are putting some of these principles into action.

The second, *The future of cities: measuring sustainability*, discusses some of the ways in which cities are being measured and how these metrics could evolve. More important, it provides practical examples of what leading cities are doing, the lessons to be learned and how these can be applied to other cities.

This content is now featured on kpmg.com/futurecities where readers can access a broader collection of reports and shorter opinion pieces from KPMG's leading thinkers on different aspects on how to create better, more sustainable places to live and work.

Technical developments

Consultation on 2017/18 work programme and scales of fees

Level of impact: ● (For Information)

Public Sector Audit Appointments Ltd (PSAA) has published its consultation on the 2017/18 work programme and scales of fees.

The consultation sets out the work that auditors will undertake at principal local government and police bodies for 2017/18, with the associated scales of fees. The consultation document, and the lists of individual scale fees, are available on the 2017/18 work programme and scales of fees consultation page of the PSAA website: www.psaa.co.uk/audit-and-certification-fees/201718-work-programme-and-scales-of-fees

There are no planned changes to the overall work programme for 2017/18. It is therefore proposed that scale fees are set at the same level as the scale fees applicable for 2016/17.

The work that auditors will carry out on the 2017/18 accounts will be completed based on the requirements set out in the *Local Audit and Accountability Act 2014* and under the *Code of Audit Practice*.

The consultation closed on Thursday 12 January 2017. PSAA will publish the final work programme and scales of fees for 2017/18 in March 2017.

This is the final year for which PSAA will set fees under the current transitional arrangements. The Secretary of State for Communities and Local Government has specified PSAA as an appointing person for principal local government and police bodies, under the provisions of the *Local Audit and Accountability Act 2014* and the requirements of the *Local Audit (Appointing Person) Regulations 2015*.

This means that PSAA will make auditor appointments under new audit contracts to bodies that choose to opt into the national scheme the company is developing, for audits of the accounts from 2018/19.

Further information is available on the appointing person page of the PSAA website: www.psaa.co.uk/supporting-the-transition/appointing-person

Overview of Local Government

Level of impact: ● (For Information)

The NAO has recently published an Overview of Local Government

The overview looks at the local government landscape and summarises both matters of likely interest to Parliament and the National Audit Office's (NAO's) work with local authorities. These include Local Government Responsibilities, Funding and Service Spending and the findings from the NAOs work on Local Government.

The overview is available from the NAO website at www.nao.org.uk/report/overview-local-government

Appendix

Appendix 1

2016/17 audit deliverables

Deliverable	Purpose	Timing	Status
Planning			
Fee letter	Communicate indicative fee for the audit year	April 2016	Complete
External audit plan	Outline our audit strategy and planned approach Identify areas of audit focus and planned procedures	March 2017	Complete
