Report of the Executive Director Core Services

PROPOSED SCRUTINY WORK PROGRAMME FOR THE 2017/18 MUNICIPAL YEAR

1. Purpose of report

- 1.1 To outline the proposed work programme for 2017/18 for the Overview and Scrutiny Committee (OSC) and its 3 Task and Finish Groups (TFGs).

2. Recommendations

- 2.1 **That Cabinet approves the proposed Scrutiny Work Programme for 2017/18 as outlined in section 5 of this report, whilst acknowledging that this is subject to change should any urgent issues arise.**
- 2.2 **That Cabinet approves for the OSC Chair to continue to identify and invite 'Expert Participants' to scrutiny on a topic by topic basis.**

3. Introduction

- 3.1 Scrutiny was introduced in the Local Government Act 2000 (following the abolition of the old committee structure) as a means to hold the new council cabinets to account for its decisions. Since then, subsequent acts of parliament have bolstered Scrutiny by extending its remit (and its statutory responsibilities) beyond the council to the work of partner organisations as well. Much of this legislation was consolidated in the Localism Act 2011. This includes Overview and Scrutiny having a specific role in exercising the Authority's powers in relation to the scrutiny of health services and the crime and disorder partnership in the Borough.
- 3.2 In the current climate, the need for sound effective decision making has never been more important. Elected members who sit on Barnsley's scrutiny committees have a vital role to play as 'scrutineers', providing a valid mechanism of challenge to monitor decision making, tackle poor performance and to ensure value for money is delivered.
- 3.3 Barnsley Council's Scrutiny arrangements incorporate an OSC which has continued to maintain a specific safeguarding workstream further to a recent review (Cab.3.5.2017/15); as well as 3 Member-led TFGs which carry out in-depth investigations. The OSC and its TFGs are responsible for not only holding the Council to account but also for scrutinising the performance of both the Council and its partners and whether they are delivering the intended outcomes or not.
- 3.4 Area Councils have also had an increasing performance monitoring role. This has been done through performance monitoring the services and contracts that are commissioned by the Area Councils. Area Councils can undertake local investigations and invite internal and external services to discuss any concerns. The

Area Councils can also feed any areas of concern and recommendations to the OSC and its TFGs.

4. Consideration of alternative approaches

4.1 The topics proposed in section 5 of this report are a reflection of input into the work programme from a variety of sources and stakeholders to identify the key issues requiring scrutiny during the 2017/18 municipal year. It is important to note however that the programme is draft and may be updated on an ongoing basis.

5. Proposal and justification

5.1 It is important that the Scrutiny work programme is developed to ensure effective scrutiny of local services to help improve outcomes for our communities. Forward planning is undertaken to identify key issues which require scrutiny during each municipal year, as well as allowing for the work programme to be reactive and evolve should issues require scrutiny at short-notice. Therefore it is important to note that the proposals below remain subject to change and each suggested investigation will need to be scoped in more detail.

TFG 2	Public Health Strategy 2016-18
TFG 3	Asset Management Strategy

5.4 To assist the OSC and its TFGs with their investigations, as per Cabinet agreement (Cab.27.7.16/6), on occasion 'Expert Participants' have been invited to contribute to meetings. This is to be able to both advise Members as well as ask questions of their own to witnesses in relation to topics where they have particular expertise, either by profession or service user experience. Over the last year, 'expert participants' have attended meetings and contributed positively to investigations, such as Foster Carers attending regarding Child and Adolescent Mental Health Services (CAMHS). On other occasions where 'expert participants' have been unable to attend, they have provided information to Members in support of their challenge to services. The committee therefore plans to continue this practice as appropriate on an ongoing basis.

6. Implications for local people / service users

6.1 By undertaking scrutiny of the topics in the work programme, this will contribute to the continued improvement of services for local people / service users.

7. Financial implications

7.1 There are no specific financial implications arising from this report, however recommendations could be made by the OSC/TFGs as part of their investigations which would require assessment of financial implications by the appropriate services responding which may be the Council or partnership agencies.

8. Employee implications

- 8.1 There are no specific employee implications arising from this report, however recommendations could be made by the OSC/TFGs as part of their investigations which would require assessment of employee implications by the appropriate services responding which may be the Council or partnership agencies.

9. Communications implications

- 9.1 It is noted that the work of Scrutiny keeps under review the performance of the Council and other relevant organisations in providing services to Barnsley communities. Proactive communication about these services and activities takes place on a regular, planned basis as part of the communication strategy for each directorate of the Council and on occasion will be requested to be undertaken by other relevant organisations. In addition, the Communications Team promotes publication of the papers and attendance at the meeting via social media channels.

10. Consultations

- 10.1 Consultation has taken place with Councillor Wayne Johnson OSC Chair, Members of the OSC, The Leader of the Council and the Council's Senior Management Team.

11. The Corporate Plan and the Council's Performance Management Framework

- 11.1 The work of Scrutiny contributes to the achievement of and improvement in services in relation to a number of outcomes identified in the Council's Corporate Plan Performance Report. The OSC work programme is scheduled around the quarterly performance reports which enable the Scrutiny work programme to be reactive to issues requiring consideration.

12. Tackling health inequalities

- 12.1 Tackling health inequalities and ensuring the wellbeing and safeguarding of our adults and children continues to be a priority for the Council and its partners. The work of Scrutiny contributes to this work in highlighting issues and ensuring appropriate plans are in place to address them.

13. Risk management and health and safety issues

- 13.1 The Council's Scrutiny arrangements form an important part of the overall governance and internal control framework. The appetite of the Council to have meaningful and constructive scrutiny of its decisions makes a significant contribution to the transparency and accountability of Council activities.
- 13.2 The development of an agreed work-programme provides a great deal of focus and control to risks currently logged in the risk register for Business Unit 15, such as risk 3450 ('Failure to advise, support and coordinate the statutory Scrutiny functions for the Council').
- 13.3 Furthermore, an effective Scrutiny function provides a great deal of control when considering other risks within the Council's risk profile. This will be considered

further as officers are asked to update their own service and operational risks as part of the established Risk Management framework.

- 13.4 The flexibility built into the work programme (see section 11) provides a robust mitigation in the event of new or emerging issues requiring Scrutiny attention during 2017/18.

14. Promoting equality, diversity, and social inclusion

- 14.1 The Equality Act 2010 requires public authorities to pay due regard to the impact of their services, policies, functions and decisions on diverse groups (called “people with protected characteristics” in the Act). For Scrutiny this means ensuring that as part of their investigations they consider how the services or policies affect people from these groups, and ideally ensuring that people with direct experience have an opportunity to have their voices heard. Scrutiny should also seek to understand what steps services have taken to proactively assess the likely equality impact of their service design and delivery and how they have sought to monitor the actual impact once implemented. Each item of the work programme 2017/18 will therefore be assessed for potential equality impact and key lines of enquiry proposed.
- 14.2 By using ‘Expert Participants’ (see paragraph 5.4) the committee will be able to utilise a range of representatives to ensure appropriate challenge to services which will include those from minority groups. This work will require the engagement of the Equality and Inclusion Team and will be coordinated with the Network of Equality Forums, as well as exploring the options for other expert participants from within the community, when appropriate.

15. Reduction of crime and disorder

- 15.1 As part of Scrutiny’s role in performance management and service improvement, work is specifically undertaken in relation to the reduction of crime and disorder through the consideration of particular services and work with partners. During 2017/18, it is proposed that the OSC will consider the new policing model and safer neighbourhood services.
