

**Email sent to Martin Cooper, Licensing Officer on 6 September 2023 from
Emily Convey-McGovern**

Good afternoon

I would like to provide comment on the following application:

DESCRIPTION: Premises Licence Application - Kosta's Place, 1 Garden Street, Darfield, Barnsley

The associated documentation has been reviewed and the location and risks have been assessed and my comments are as follows:

Pollution Control object to this application under the Licensing Objective of Prevention of Public Nuisance.

I have considered the effect of the proposed licensable activity on persons living in the area around the premises and consider that noise associated with the activity (such as car doors slamming, people talking/shouting) are likely to be unreasonable after 23:00 and cause a nuisance. There is a high concentration of residential premises in the immediate area, occupants of which are likely to be negatively impacted by noise associated with the activity, most significantly in the form of sleep disturbance.

Regards
