29 Safer Neighbourhoods Presentation - Alan Heppenstall (Neac.23.11.23/3)

Alan Heppenstall, Team Leader, Safer Neighbourhoods, Barnsley MBC, provided Members with a verbal update on the services provided by the Safer Neighbourhoods Team to address antisocial behaviour issues in the North East area.

Members noted the following key points:

- There had been a change in the Team's management structure with Paul Stelling now responsible for leading the Team.
- The Team now had the flexibility, with the support of partners, to deal with low level anti-social behaviour issues informally, have robust conversations and offer advice to individuals.
- The Empty Homes Team were interested in receiving information from Members with regards to any empty properties within the North East Area they may be aware of. The aim was to bring empty properties back into use, due to there being considerable pressure for affordable homes in the area.
- Members were asked to make the Team aware of any properties within their areas which were overgrown and may be empty, as these properties often attracted individuals to commit low level anti-social behaviour.
- The Housing and Community Safety Team did undertake work with rogue landlords when damp and mould issues had not been addressed by them.
- Working in partnership with the Fire Service, the Team were aware that there were 110 (4%) hoarded and self-neglect properties in the borough. Individuals living in

these conditions often had mental health issues and other vulnerabilities. There were currently 4,000 people at risk in the borough due to hoarding and self-neglect increasing the risk of a fire occurring. Assurances were provided that the Team did work alongside partners and did visit properties reported to them in order to offer help and advice.

- Private rented properties were the biggest target for cannabis grows in Barnsley. The Team were working with partners and landlords as part of the Cannabis Grow Aware Scheme, which promotes property checks between 8 and 10 weeks to stop cannabis grows in the private rented sector.

A discussion arose in relation to preventing the fly-tipping of waste in the borough. It was noted that there was a duty of care placed on individuals to make sure that the person or company removing their waste was authorised to do so, if not, they could be prosecuted. Members noted that communications had been issued and were available to prevent the fly-tipping of waste.

Members raised concerns that reports of anti-social behaviour involving off-road bikers had increased significantly. In response, it was confirmed that the Team were working in partnership with the Police to tackle this issue. When reports were received, the Team did visit addresses and have robust conversations with individuals. When several reports were received regarding the same individual, the Team did have the power to seize their vehicle.

On behalf of the Area Council, the Chair thanked Alan Heppenstall for his update and requested that he attends future meetings on a regular basis to keep Members informed of the work taking place in their wards.

RESOLVED that Members noted the verbal update.
