## Chair's foreword

I am pleased to introduce the Annual Report of the Barnsley Safeguarding Children Board (BSCB) for 2014/15.

The past year has again been an important year in taking forward improvements to enhance the safety and welfare of children in Barnsley.

In June 2014 Barnsley's safeguarding arrangements were the subject of an Ofsted inspection with the BSCB being inspected in its own right for the first time.

I am pleased to be able to report that the 2014 inspection acknowledged that the quality of the safeguarding services and arrangements had improved and were judged to have improved from 'Inadequate' to 'Requires Improvement'. The same judgement was applied to the Barnsley Safeguarding Children Board.

This led in November 2014 to the Department for Education's Notice to Improve being lifted and the disbanding of the Improvement Board. This leaves the BSCB with a significant governance role in ensuring that the comprehensive Continuous Service Improvement Plan is implemented and changes are embedded.

I am confident that the board is equal to this challenge; we remain committed to enhancing the safety and welfare of children and young people. Together we aspire to improve to an Ofsted Judgement of 'Good' or better still 'Outstanding'.

In the foreword to last year's annual report, I identified the following issues as being in need of further work:

- Continued action to address Child Sexual Exploitation (CSE)
- Ensuring that the application of thresholds for service ensures that those children who are in need of support get the services they require
- Strengthening the engagement with young people and their families to inform service development
- Continuing the work to improve the performance framework
- Further work in addressing child neglect

I am pleased to report that action has been taken against each of those issues and further detail can be found in this report. The work on thresholds has been welcomed and acknowledged by agencies and has led to an increase in the number of assessments and children on child protection plans.

The board effectively uses data to identify areas for improvement and ensure positive outcomes for local children and young people. Data, audit and quality assurance are managed through the; Performance, Audit and Quality Assurance Sub Committee of the Board. Examples of this work include the use of audit data to improve the approach to supporting young people who are at risk of child sexual exploitation and changes made to the process for the delivery of Child Protection Conferences.

The board has a number of sub committees, an outline of the work undertaken by each of them is provided in the main body of this report.

In year improvements:

- The introduction of the Early Help Assessment to replace the Common Assessment Framework. To improve outcomes for children by addressing their needs in the wider family context and improving timeliness of help to prevent issues becoming more complex and challenging.
- Stronger arrangements for tackling Child Sexual Exploitation (CSE) and responding to those children that are considered to be at risk of being exploited. The CSE Strategic Group reports directly into the BSCB and considerable work has been undertaken to ensure that a relevant and comprehensive action plan is in place. CSE cases have been audited leading to changes in approach. Further audits are scheduled within the BSCB Multi-Agency Audit Plan.
- The move to a Signs of Safety model for Child Protection Conferences. This is a more dynamic process that seeks to more effectively involve children and families in the development of Child Protection Plans. A full review of this process will be presented to the Board in September 2015.
- Individual agencies have addressed actions arising from their individual Section 11 Self Assessment and the challenge process.
- New approaches to delivering training with the introduction of lunch time seminars on key issues. These have proved a timely and popular way of providing information to staff in a way that

reduces abstractions from the work place.

- One day conferences on key subjects including Child Sexual Exploitation and Neglect.

## Challenges

Each year schools are requested to submit a self assessment on their arrangements for safeguarding children. The return considered by the board in March 2015 showed a disappointing reduction of 22% in the percentage of schools submitting their return.

During the forthcoming year the board needs to establish why the return rate has fallen and to take action to see a significant improvement. Schools who did not submit their return were asked to ensure a completed return was submitted to be included in an amended report delivered to the board in May 2015.

The board has faced financial challenges resulting in a small overspend; this is largely as a consequence of commissioning three Serious Case Reviews. This led to a meeting with the partner agencies that provide a contribution to the budget to secure an increase in contributions for 2015/16.

In conclusion, the board and its member organisations, consistently display their commitment and there is clear evidence of improvements being made.

Bob Dyson QPM,DL  
Independent Chair, Barnsley Safeguarding Children Board.

## Introduction and local safeguarding context

Barnsley Safeguarding Children Board comprises of representatives from a range of statutory partners, who are passionate about promoting the safeguarding and welfare of local children, young people and families in Barnsley.

Our vision is that:

*Every child and young person should be able to grow up safe from maltreatment, neglect, accidental injury/death, bullying and discrimination, crime and anti-social behaviour.*

*Children are entitled to a strong commitment from the BSCB and its constituent agencies to ensure that they are safeguarded. Where possible, this will be done in partnership with parents and carers, and by engaging the active support of the public. We will do as much as we can within the resources available to us and, with every agency providing services, we can maintain an inter-agency safeguarding system directed at safeguarding and promoting the welfare of all Barnsley's children.*

*We will endeavour to ensure that every child is safe, well cared for and thereby supported to fulfil their potential to make the transition from childhood to adulthood.*

The board's prime responsibilities are:

- to co-ordinate what is done by each person or body represented on the board for the purpose of safeguarding and promoting the welfare of children in the area, and
- to ensure the effectiveness of what is done by each person or body for that purpose.

The board oversees work undertaken by partners to provide integrated services for children and families, with particular focus on safeguarding and promoting the welfare of children and young people.

This Annual Report provides:

- an outline of the main activities and achievements of the Barnsley Safeguarding Children Board during 2014 and 2015.
- an assessment of the effectiveness of safeguarding activity in Barnsley.
- an overview of how well children are safeguarded in Barnsley.
- ambitions for future service developments and identification of key priorities.

### Early Help

The emphasis of the work undertaken by the board and partners continues to move towards effective early intervention and prevention. Early Help services in Barnsley form part of the continuum of help and support to respond to the different levels of need of children and families. The way practitioners work together, share information, put the child and family at the centre, move swiftly to provide effective support to help them solve their problems and find solutions at an early stage is at the heart of a strong Early Help approach.

It is recognised that Early Help is everyone's responsibility across the partnership. There is commitment at all levels to work more closely together to build upon what we do for and offer to children and families. The focus of the work over the last period has been to strengthen understanding of the approach across the partnership ensuring that the shift to Early Help is embedded and is sustainable. Barnsley's whole family approach to working with families

continues with the implementation of the Early Help Assessment. In March 2015 the start of the next phase of consultation began on Early Help with practitioners, the feedback from which will be worked on together across the partnership to plan and mobilise the Early Help support we would like to see.

Support for practitioners has been developed including refreshing of the Practitioner Forums, articulation of the Early Help Offer and the revision of the Barnsley Assessment Framework to include guidance and support on Early Help. Good early help is founded in the skills and confidence of practitioners and support from safeguarding leads. To this end, training has been developed for delivery to all early help practitioners to further develop their skills and confidence in working with families and in 'holding the ring' on early support. The training includes working in a multi-agency way, understanding other practitioners' services and roles; working honestly and openly with families and with other professionals.

### **Local relationships**

The board is strongly committed to further strengthening its relationship with other strategic partners, including the Children and Young People's Trust Board, the Health and Wellbeing Board and the local strategic partnership, 'One Barnsley'.

The One Barnsley Board, of the Local Strategic Partnership (LSP) is responsible for agreeing the overall strategic direction for achieving the economic and social wellbeing of the Borough, the vision and objectives are outlined in the following two strategies:

- Barnsley Health and Wellbeing Strategy (2013-16) - responsibility for

delivery rests with the Barnsley Health and Wellbeing Board

- Barnsley Jobs and Business Growth Plan (2014-17) responsibility delivery with the Barnsley Economic Partnership

The role of the One Barnsley Board is to provide co-ordination and coherence across these two principal partnerships and to challenge partners in both partnerships, ensuring their performance contributes to the successful delivery of outcomes.

To affirm all these relationships, the board has approved a protocol covering governance arrangements and the degree to which they enable partners to assess whether they are fulfilling their statutory responsibilities to help, protect and care for children and young people. The board also articulates clear improvement priorities in its Business Plan, with actions to accomplish improved outcomes.

A chart of the structural relationship between the BSCB and its strategic partners is shown on page 12.

To ensure effective safeguarding and child protection, the BSCB operates under an information sharing agreement, however this will need to be reviewed over the course of this year.

### **Local demographic context**

Barnsley is part of a broad South Yorkshire conurbation located around traditional community bases of former mining and market towns. The latest data from the Office for National Statistics (ONS) (2013) shows the population of those under 18 years is approximately 21% of the total population at 49,500 (ONS Mid-Year

Estimates 2013) and is expected to increase by approximately 1% by 2017 to 49,900. The predicted population increase has implications for increased demands on all services, including those providing child and family support. The School Census (2014) shows that 7.8% of primary school pupils and 4.9% of secondary school pupils are from minority ethnic origins.

The Growing Up in the UK report (2013) recognises a link between infant mortality and deprivation; those born to the most deprived parents have a higher infant mortality rate per 1,000 live births compared to babies born to the least deprived. The Public Health Outcomes Framework (Feb 2015) shows infant mortality rates at 3.5 deaths per 1,000 live births. This is lower than the regional and national averages of 4.1 and 4.6, and follows a five year trend of lower rates from 2006-2012. The Index of Multiple Deprivation 2010 ranks Barnsley as the 47th most deprived local authority in England.

Women living in deprived areas are more likely to smoke during pregnancy than their more affluent neighbours (Graham, 2003) with smoking in pregnancy being a major contributor to increased infant mortality in England (Public Health England, 2013). The rate of women smoking during pregnancy in Barnsley is 23% of the maternal population; this is higher than regional average of 16.2% and national average of 12% (Health and Social Care Information Centre, 2013/14).

In Barnsley, unemployment is higher than national average for those aged 16-64 years; 8.5% compared to 6.4% nationally (Annual Population Survey, 2014) and the rate of children living in out-of-work benefit claimant households is 23.3% (Department for Work and Pensions, May 2014). This is higher than the national rate

of 17%. In 2010-2011, 29% of children living in urban areas in England lived in households below the poverty threshold after housing costs, and children are most likely to live in a household with an income below the poverty threshold (Department for Environment, Food and Rural Affairs, 2013). Child poverty in Barnsley is higher than the England average, with 22.8% of Barnsley's children under 16 years living in low income families according to the Children in Low-Income Families Measure (previously the Revised Local Child Poverty Measure or National Indicator) compared with an 18.6% national rate (HMRC, 2012).

The ONS's study into teenage conception rates in England found that rates were highest in the most deprived areas (ONS, 2014). The latest data shows Barnsley's teenage pregnancy rate is 40.9 per 1,000 of the population (ONS, 2013). This is over a third higher than the national and regional averages of 24.3 and 28.5 and follows a five year trend of lower rates from 2006-2012.

Nationally, individuals with a low level of educational attainment are almost five times more likely to live in poverty than those with high levels of education (Household Income and Expenditure Analysis, ONS, 2014). Although educational attainment continues to improve in Barnsley, results at age 16 remain below the national average in relation to the proportion of children attaining 5 A\* to C grades at key stage 4, including English and Maths (47.1 % compared to 53.4%, Children, Young People and Family Service, 2014).

Children from deprived backgrounds are more likely to have complicated health histories over the course of their lifetime, including a lower life expectancy; professionals live on average eight years longer than unskilled workers (ONS, 2011).

In Barnsley, life expectancy is slightly lower than the national average, with an expectancy of 78 for males and 82 for females compared to 79 and 83 nationally (Public Health Directorate 2009-2013). However, there is a significant inequality in life expectancy across the borough, with those living in the wards with the highest levels of deprivation dying on average 6 years sooner than those in the least deprived wards (Public Health Directorate 2009-2013)

## **Coordinating local work to safeguard and promote the welfare of children**

### **Governance and accountability**

The board's constitution was reviewed in November 2013 to ensure continuing relevance and reflect membership changes dictated by national changes in health service structures. In July 2013, a gap analysis against the 'Working Together' 2013 provided assurance that operational practice accords with the statutory guidance. A similar activity has been planned for 2015 to ensure compliance with the revised 'Working Together' document published in March 2015.

The board has six planned business meetings each year, together with additional sessions, to allow time for member development and reflection on specific issues. Special meetings are convened when required, for example to receive the findings from Serious Case Reviews or discuss key member financial contributions.

To promote optimum focus on priority issues, the board revised its sub-committee structure in 2012. These arrangements were largely retained in

2013-14 and 2014 -2015, with the addition of two new sub-groups with direct reporting lines to the board in recognition of emerging priorities relating to child sexual exploitation/missing and services to children with disabilities and complex health needs. The current subcommittee structure will be maintained for 2015/2016. The terms of reference and the membership for each subcommittee will however be reviewed over the course of the year and task and finish groups will be established to help progress some subgroup priorities, for example; Female Genital Mutilation (FGM).

The current sub-committee structure, as depicted in Appendix 1, provides for focus on our priorities and promotes activities aligned to the board's statutory functions. The functions of the sub-committee and sub-groups, which all meet at least six times a year, are:

- **Performance, Audit and Quality Assurance (PAQA)**  
Provides oversight of performance management data, review of a rolling programme of audit activity and improvement to service quality
- **Policy, Procedures and Practice Development (PPPD)**  
Ensures that policy and procedures are current, implemented, embedded and reflective of practice
- **Workforce Management and Development (WMD)**  
Addresses all aspects of multi-agency safeguarding training including; evaluation of impact and reviews, aspects of workforce management concerned with safer recruitment and supervision
- **Serious Case Review (SCR)**  
Oversees commissioning and management of SCRs, ensuring agencies are accountable for

implementing recommendations and action plans and promotes strategic learning from local and national reviews, including Domestic Homicide Reviews. (A separate, independently chaired, Serious Case Review Panel is convened to review individual cases as required)

■ **Child Death Overview Panel (CDOP)**

Examines the deaths of all Barnsley children, in accordance with statutory guidance and reports directly to the board

■ **Child Sexual Exploitation and Missing Panel (CSEM)**

This group is not a formal subcommittee of the board. It is an operational group to review individual cases of concern and ensure provision of appropriate services through a multi-agency response.

The Terms of Reference for this group were reviewed in November 2015 and panel arrangements were strengthened. The CSE Strategy Group has oversight of the work of the panel.

**The CSE Strategy Group**

This group is responsible for the strategic development of Barnsley's response to CSE. This includes the newly refreshed CSE Action Plan and CSE Strategy. Progress against the action plan is monitored by the group and scheduled audits in relation to CSE are conducted and submitted to the board.

**Children with Disabilities and Complex Health Needs (CWDCHN)**

Provides more robust oversight under the board's governance and support to the increased vulnerabilities of this group of children and young people ensuring continued provision and a multi-agency response

This structure provides the board with a mechanism for multi agency development and review of safeguarding practice ensuring existing and emerging priorities are identified and addressed. It also ensures a valued input from adult services in areas of mutual safeguarding concern such as domestic abuse, adult mental health and substance misuse.

Communication between the board and sub-committees is strengthened through the regular Sub-Committee Chairs Briefing held before each Board Meeting. During the briefing each of the subcommittees escalates any areas of concern to the BSCB Chair which are flagged to the board for action. It is evident that partners increasingly feel confident to use respectful challenge as a means of improving services to children and young people. Briefings provide beneficial support to the sub-committee chairs and reinforce their relationship with the board and their responsibilities as Subcommittee Chairs. This meeting also helps to retain a focus on key priorities as explained below.

■ **Focus on priorities**

Each year, the board reviews its current Business Plan to identify success in achieving objectives and identify new priorities for next year. The BSCB Chair and the Sub Committee Chairs meet regularly to review progress and ensure that workload is managed and implemented effectively, in line with the Business Plan. These meetings also consider emerging issues of interest or concern in light of the board's priorities.

When testing effectiveness the BSCB draws on both performance data and quality assurance activity that examines in detail the quality and effectiveness of front line

practice ensuring a 'line of sight' to practice at the front line.

All board members and specialist advisors have a strategic safeguarding role in relation to their own agencies. Accountability to local communities is promoted through the two lay representatives.

The BSCB provides a forum to hold partners to account and test effectiveness of multi-agency working to safeguard children. The BSCB 'holds the ring' on challenging performance providing a forum for partners to challenge across the piece.

#### ■ **Effective partnership working and relationships with strategic partners**

The board's functions and responsibilities complement those of the Children and Young People's Trust and provide for leadership and ownership of safeguarding at all levels in the council and partners.

The Children and Young People's Trust, chaired by the Executive Director for People, secures the cooperation of partners to strategically plan and align service commissioning to improve children's outcomes. These arrangements encompass all strategic partners, with a focus on working together to improve the wellbeing, life chances and outcomes of every local child.

The BSCB refers to the Children and Young People's Trust matters that have commissioning implications. The chair of the BSCB escalates matters to the governance structures of partners and / or the Health and Well-Being Board where it is considered that agencies are failing to discharge responsibilities under 'Working Together' (2015).

Our high aspirations for children and young people, relating to their ability to secure optimum health, safety, educational attainment and contribution to their communities, recognises that families need support across the whole spectrum of services, including social care, education, health, police, voluntary organisations, safeguarding and other stakeholders.

Responsibility for establishing a secure continuous service improvement approach for children, young people and families rests with the Children and Young People's Trust and the BSCB.

The shared ambition of the Barnsley Children and Young People's Trust and BSCB is to go beyond Ofsted's judgement of 'requires improvement' and to deliver the best possible outcomes for local children, young people and families. This means collectively working together to deliver services which are judged to be at least good. In order to achieve this ambition services for children, young people and families will use the Continuous Service Improvement Framework.

The framework is made up of a number of dynamic elements. It is understood that it is the people (officers, elected members, non-executive officer, independent chairs) operating at different levels with different functions in their organisations who will make the children's system work effectively. This requires everyone operating within the system to discharge their responsibilities effectively and to be held to account. These elements include:

- The Children and Young People's Trust
- The Safeguarding Children Board
- Elected Member led challenge

- A Continuous Service Improvement Officers Group
- A Continuous Service Improvement Plan
- External Review and Challenge
- Culture of Respectful Challenge
- The Voice of the child
- Joint review of the framework.

At the annual joint meeting of the BSCB and the Children and Young People's Trust Executive Group (CYP TEG) held on 10 October 2014 key areas for discussion included: An understanding of the responsibility of both boards; the Continuous Service Improvement Plan; a combined risk register; and consideration of the ways in which both boards could work more effectively together in future to achieve improved outcomes, and enabled shared priorities.

It was agreed that there needs to be a link between the BSCB risk register and identified risks to the Children and Young People's Trust, and that a single risk register would also reflect joined up working. The work to produce a joint risk register is ongoing at the time of writing this document.

The group identified the following key areas for joint development and focus:

- Keeping the needs of children at the centre of all activities.
- Early Help
- Membership roles and responsibilities
- Voluntary sector engagement
- Challenge
- Pace
- Communication
- Data sharing
- Cultural dynamics in Barnsley

The Children and Young People's Trust Children and Young People's Plan 2013-16

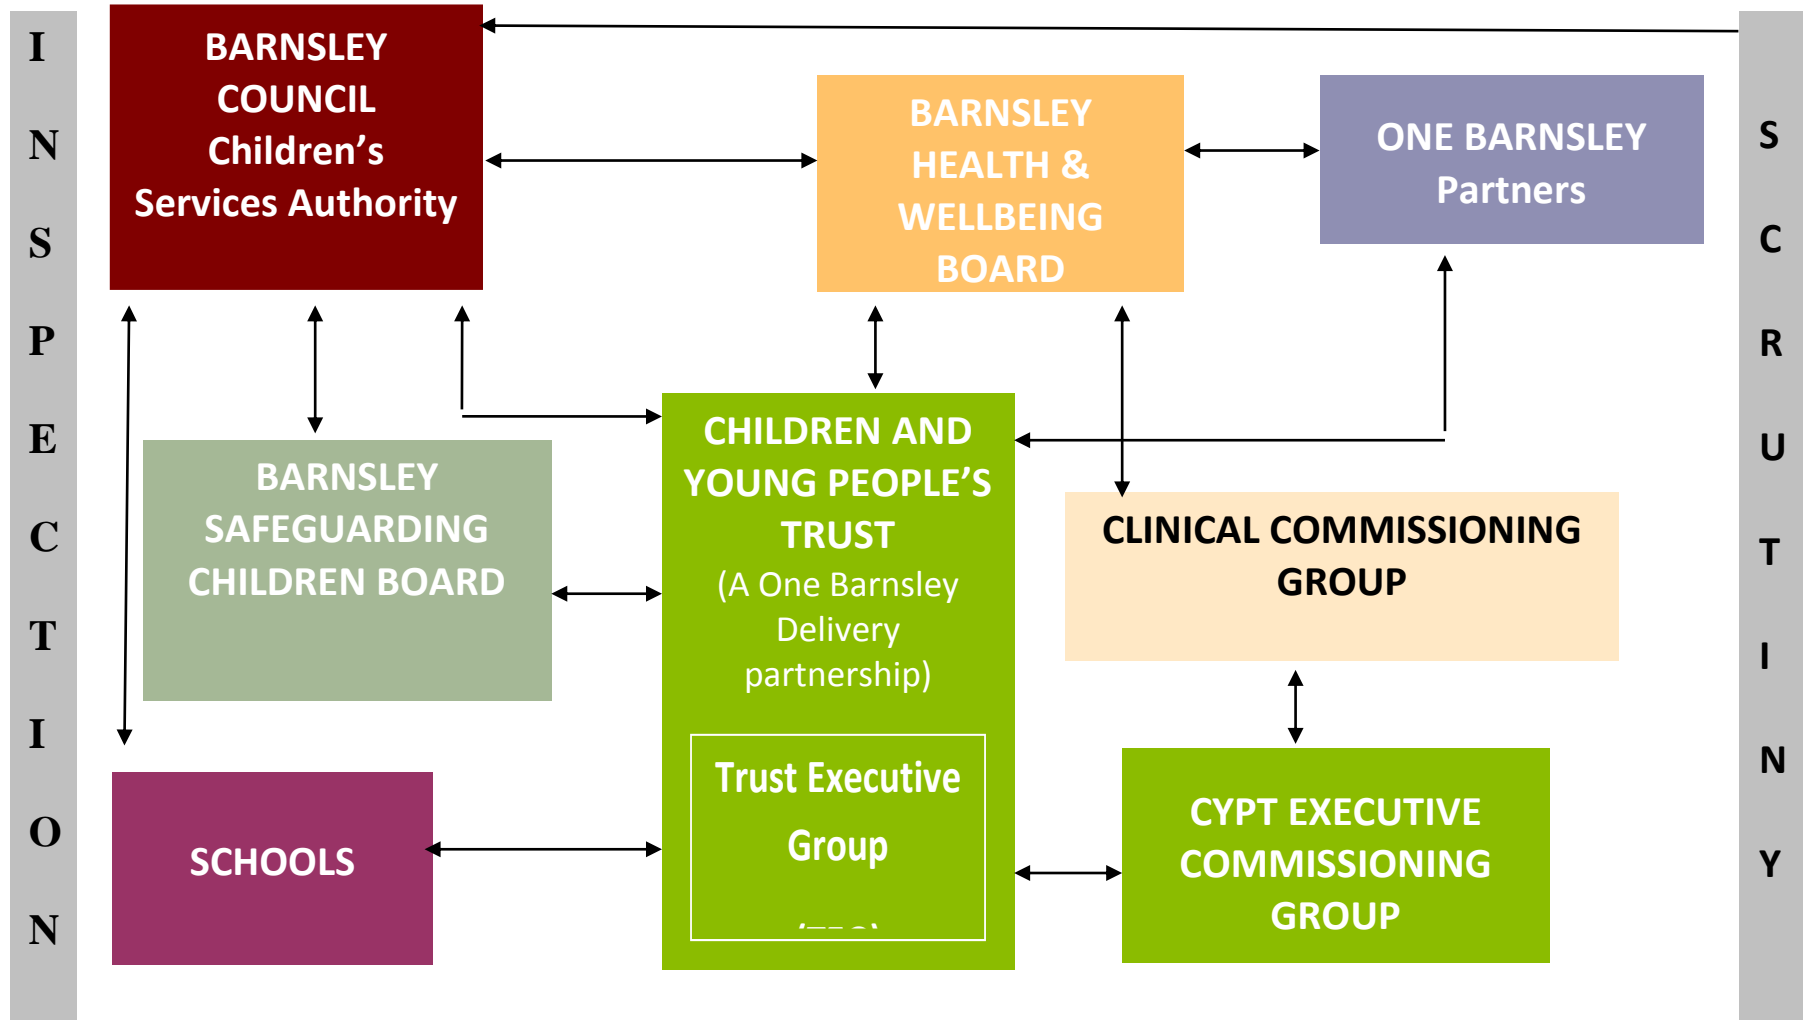

recognises the nature and value of its relationship with the BSCB through its three main safeguarding priorities:

- improving the safety of children by developing the engagement and focus of all partners via the BSCB.
- increasing confidence and understanding of referral processes and thresholds
- developing data use, information and quality assurance.

During the year, these priorities were progressed as the BSCB continued to hold individual agencies to account in discharging their responsibilities to keep children safe. From 2013-16, the Children and Young People's Trust and partners have identified the following as continuing priorities:

- maintain oversight of and take forward actions from the Ofsted Improvement Programme relevant to the BSCB
- To continue to improve performance management and quality assurance systems to ensure robust and continuous service improvement, supported by workforce development programmes to secure safe practice.
- Ensure that the board maintains a comprehensive overview of the work of partner agencies involved with safeguarding, including the voluntary sector.
- Ensure the implementation of actions within the Child Sexual Exploitation Strategy.
- Ensure all board members are up-to-date with changes in policies, guidance and practice to provide strategic direction and scrutiny of core safeguarding and child protection processes and data, and provide effective challenge.

# WORKING TOGETHER Partnership Groups

## **Progress on key priorities and achievements in 2014-2015**

Last year's key priorities relating to the coordination of local safeguarding activity and promotion of children's welfare are set out below, with commentary on the extent to which they were achieved. More detail and examples of specific activities relating to each priority is contained in the sections of this report which outline the work of the subcommittees throughout the year.

### **Maintaining a strong commitment to continuous improvement and challenge through oversight and taking forward relevant actions from the Ofsted Improvement Programme and new governance structure**

The board has maintained oversight of activity under the Improvement Programme through regular updates, Section 11 interviews, individual reports on particular areas of concern, and evidence from specific audit activity. The board has sought to encourage more open challenge during debates in order to secure service improvement and embraces its new role in monitoring the Continuous Service Improvement Plan under the direction of the Executive Director for People.

### **Continuing to develop and refine our Performance Management Framework**

The board is now able to secure systematic reporting of valid and useful KPIs, with sufficient contextual analysis to understand and identify improved performance across all partner organisations.

### **Addressing the increasingly high profile risk relating to child sexual exploitation, in conjunction with relevant partners**

Local analysis identified gaps within Barnsley's strategic response and

monitoring of CSE. The internal review identified the need to address child sexual exploitation in a robust and comprehensive way, in line with best practice by:

- Identifying victims and providing appropriate responses and services
- Raising awareness amongst practitioners and professionals to ensure familiarity with signs and symptoms enabling identification of potential and actual victims

The publication of the independent inquiry into CSE in Rotherham identified widespread issues with the multi-agency response to the issue. Learning from this report is being used to inform Barnsley's internal review.

Over the last year considerable effort and resource have been put into raising awareness and developing structures to provide a robust and effective local response to CSE. The CSE Strategic Group has become well established and is chaired by the Police. The group reports directly to the board which has a strong focus of challenge and pace in relation to CSE. The group's purpose is to ensure the board's CSE strategy and action plan are effectively implemented and progress monitored to achieve the key objectives above.

The CSE Strategic Group also oversees the work of the Child Sexual Exploitation and Missing Panel and in November 2014 revised the terms of reference for Panel.

The operational group focusses on reviewing high risk victims, offenders and locations with the aim of adding value to existing plans to inform better protection, prosecution of perpetrators and to inform strategic planning around CSE. The group meets monthly to review all individual cases or potential cases of CSE to ensure

there is effective safeguarding and planning of appropriate services for these young people.

During the last year the Strategic Group has:

- Completed a 'Thematic Inspection of CSE' utilising guidelines published by Ofsted in autumn 2014
- In January 2015 the group reviewed the CSE Action plan. The revised version was approved by the board in March 2015
- Carried out quarterly multi agency dip sampling of CSE cases reported directly to the board
- A suite of practice documents and policy updates in relation to CSE has been completed and an enhanced programme of training in relation to CSE is now available to all agencies. Awareness raising has also taken place in relation to taxi licensing and hoteliers

In March 2015 the CSE Strategy Group undertook to review the board's CSE Strategy and the revised strategy will be submitted to board on completion.

There is no evidence or intelligence to suggest that Barnsley has an issue of gang related CSE. However all agencies are actively monitoring information to ensure any such CSE is identified and dealt with as soon as possible.

Barnsley's CSE profile suggests that the majority of cases are single victims that have been targeted by a single offender.

What next:

- Maintain a continued focus by all agencies on CSE
- Continue to progress actions within the CSE action plan until completion

including a review of therapeutic support for victims of CSE.

- Seek assurance regarding the embedding of actions and effectiveness of the response to CSE via specific and targeted audit work
- Embed revised processes for intervention, investigation, risk assessment and utilisation of the CSE Panel for monitoring and support

The board will:

- Continue to promote multi-agency awareness raising
- Maintain oversight through regular reports on progress of the action plan via the CSE Strategic Group to the BSCB, senior officers and members of the Council
- Continue to participate in county-wide activities to raise awareness, develop best practice and address individual cases.

### **Improve our learning from Serious Case Reviews**

The SCR Sub-Committee has continued to disseminate learning through multi-agency training activity and specific single agency learning events in relation to SCR action plans. Action plans are monitored by the committee to ensure implementation of actions and an evidence bank to illustrate the changes to practice has been established. This work will continue next year as additional case specific action plans are completed in relation to a number of ongoing SCRs. A priority for 2015/16 will be to develop more robust commissioning arrangements in relation to the commissioning of SCRs.

### **Continue to promote activities to mitigate the risks to children arising from domestic abuse, adult mental health, substance misuse and digital technology**

These areas of safeguarding are progressed by the Policy, Practice, Procedure and Development Sub-Committee (PPPD). Maintaining oversight of all these vital areas, together with other emerging areas of concern and promoting activities to mitigate the risks, has been difficult and had limited success. More effort will be required next year to ensure sufficient resources are available and deployed to address these areas in a more systematic and consistent way.

**Accelerate joint working arrangements with the Barnsley Safeguarding Adults Board where this could be mutually beneficial**

The Safeguarding Adults Board is represented on the BSCB and its sub-committees to facilitate joined up working around those issues that mainly affect adults, but also impact on their children. The focus on joint practice needs to be maintained in order to ensure a whole family approach to policy, practice and assessment.

**A focus on and review of the 'Front Door'**

Over the course of 2014 the 'Front Door' has been through a period of development as a response to the review with associated realignment of threshold supported by a re-launch of the BMBC threshold for intervention being completed to embed a shared understanding of threshold for intervention. An integral part of this approach has been to be more responsive to children living in neglectful situations and to address more chronic neglectful parenting which relates to parental substance misuse, and domestic abuse. As the service has developed and the threshold realigned the volume of work has continued to increase with more children accepted for tier 3 interventions and numbers of assessments increasing. As pressure on capacity in the service has

increased strategies to prioritise case allocation and focus on timely and good quality assessment have been pressured and both social work and management capacity increased to respond.

Data and feedback from service shows increases in children in need opened for referral and assessment and conversion rate from referral to assessment shows marked increase over the course of 2014 and into 2015.

There has been an appropriate rise in numbers of children subject to a child protection plan from 200 in December 2013 to circa 340 in March 2015. Significant increase in those categorised as 'neglect'. This increase in numbers per 10,000 brings us in line with national average and closer to statistical neighbours.

More agency partners now contact their own safeguarding lead to seek advice to divert low level contacts *however it is important that all agency partners develop this practice to divert low level contacts and reduce growing pressures on the 'Front Door'*. The board will ensure this is a key priority throughout 2015/16.

**Workforce management and development**

Barnsley's biggest asset in terms of safeguarding children and promoting their welfare is its workforce, the town generally has workforce stability across all agencies and vacancies are usually filled in a timely manner. The Workforce Management and Development Sub-Committee's remit includes oversight of partner agencies' workforce responsibilities with regard to agency compliance with Working Together to Safeguard Children and statutory guidance. This includes the planning,

design, delivery and evaluation of the multi-agency Safeguarding Children Training Strategy and Programme. Adult services and community representation maintain a strong link with adult workforce training and promote a wider overview and input to safeguarding training.

During 2014-2015 the Workforce Management and Development Sub-Committee commissioned and delivered specialist multi-agency safeguarding training for 2,403 delegates across the children's workforce. The multi-agency training programme is dynamic and flexible to meet the needs of the workforce and their capacity to access training. The training programme has been developed and delivered in response to statutory requirements, learning from SCRs, current research and report findings.

Most importantly, the training substantially contributes to a firm foundation of practitioner knowledge and awareness and is key to the safeguarding of children and young people in Barnsley.

In addition to the variety of multi-agency courses the programme of lunchtime seminars which continues to be very popular has been reviewed and further topics added.

New topics include:-

- Operation Klan-Child Internet Abuse
- Fabricated or Induced Illness
- The role of the Child Death Overview Panel
- Information Sharing in difficult Situations
- Young People Affected by Intimate Partner Abuse

### **Contribution from partner agencies**

Many multi agency courses benefit from participation and contribution of partner agency colleagues, who regularly provide input through co-delivery with the multi-agency trainer or sole delivery. These include South Yorkshire Police; Trading Standards; Barnsley Hospital, CAMHS; Pathways; Addaction; Child Protection Conference Chairs; Multi-Agency Co-ordinators and the Local Authority Designated Officer. This input is valued in providing a wider multi-agency perspective. In addition, the programme is supported by reciprocal contribution from neighbouring authorities, which brings a broader regional view and economic benefit.

Strong and productive links with Yorkshire and Humber regional safeguarding trainers have also been developed resulting in joint approaches and activities including, in November 2014, a very successful Safeguarding Conference on Serious Case Reviews: What Next?

### **Key achievements**

There have been improvements to the monitoring of the impact of training and feedback to inform the training programme.

The impact of training has been added to the Section 11 Challenge Visit that the Safeguarding Board Chair and Safeguarding Board Manager undertake with all Safeguarding Board member agencies.

Managers are expected to assess the impact of training during the member of staff's annual appraisal and during supervision.

Ofsted Inspectors commented on the quality and variety of the multi-agency training programme.

This sub-group has continued to engage with Faith Communities to ensure that they are adequately safeguarding children. Links with travelers, asylum seekers and migrant communities have also been made.

A full day conference was held on neglect which was oversubscribed, and a conference on Domestic Violence 'Behind Closed Doors', held which received very positive evaluations.

### **E-Learning**

In addition to traditional classroom based courses there is an e-learning offer. The learning packages have interactive screens, learner challenges and online assessment, and issue a certificate on completion.

E-learning continues to be well used and valued, with 3187 learners accessing safeguarding e-learning courses in the reporting period. Our varied range of courses includes:

- Awareness of Child Abuse and Neglect (foundation and core levels)
- Runaways – The South Yorkshire Protocol
- Integrated Working (introductory level and strategic manager overview)
- Hidden Harm
- Safeguarding Children with Disabilities
- Safeguarding Children from Abuse by Sexual Exploitation
- Think Safe, Stay Safe, See Safe
- E-safety
- Child Development
- Basic Awareness of Domestic Violence and Abuse, including the impact on Children, Young People and Adults at Risk
- Equality and Inclusion in Health, Social Care or Children's and Young People's Settings

- An introduction to Female Genital Mutilation, Forced Marriage, Spirit Possession and Honour Based Violence
- Safer Recruitment

### **Evaluation of multi-agency training**

Training receives very positive feedback:

**"More than addressed my needs - very up- to-date and relevant evidence presented of recent cases"**

**"Very informative and challenging of preconceptions"**

**"An incredibly powerful course. The films were very hard-hitting and emphasised the seriousness and impact of domestic violence"**

**"Given me confidence to challenge other professionals and obtain advice"**

### **Future Developments**

The training programme is kept under regular review by the Workforce Management and Development Sub-Committee, to ensure that the training continues to meet the needs of organisations and individuals. Regular monitoring of course evaluations and attendances evidences the value of the courses and provides quality assurance. This has resulted in very few courses being cancelled during the year.

The group will continue to focus on evaluation of training and impact on practice. It will explore different ways of delivering training, such as webinars to reach a larger audience. Webinars could help to engage with professionals who may struggle to access training during the day such as teachers and GP's. The group want to explore ways of generating income as pressures on the BSCB budget continue to increase ensuring that the multi-agency training programme is able to be maintained and continue to keep

pace with the developing needs of Barnsley's workforce.

The group have made improvements to the Female Genital Mutilation (FGM) training as a result of National Guidance and the Serious Crime Act. Child Sexual Exploitation Champions and FGM have been recommended for all agencies and service areas.

Increasingly practitioners across both adults and children's services are being encouraged to develop family based approaches to working with vulnerability and need, to address this, a comprehensive and concentrated programme of 'Think Family' awareness raising sessions are planned to be delivered for a three month period from the end of April 2015.

To complement this, in recognition of how the co-existence of key issues, such as; domestic abuse, substance misuse and parental mental illness can significantly contribute to the abuse and neglect of children, a half day 'Safeguarding Adults and Children' course has been developed for practitioners in both Adult and Children's Services. It raises awareness of safeguarding issues for both vulnerable adults and vulnerable children and considers how practitioners in Adult and Children's services might work more effectively together.

The number and nature of multi-agency courses delivered in 2014-15 and agency attendance is set out in the table:

	Number of courses	a	b	c	d	e	f	g	h	i	j	k
Achieving Best Evidence Through Interviewing Skills	1	7	2	0	0	1	0	0	1	0	0	11

## Safeguarding vulnerable children and young people

### Children in Care

The board's oversight of children and young people in care is maintained through membership of the Care4Us Council and receipt of individual reports, including the Children in Care KPI Scorecard. The Care4Us Council, which comprises of young people in care, board members and relevant council officers, meets regularly to address issues which are important to this group. During 2014-15, the council, led and chaired by young people have:

- Built a positive working relationship with Barnsley's Youth Council and United Kingdom Youth Parliament representatives.
- After consultation a recommendation was made to increase the Leaving Care Grant to support young people into independence.
- Successful completion of ring-fenced apprenticeships within BMBC with a further 5 agreed for 2015/16.
- Delegated Authority leaflet for use by young people agreed.
- Increased numbers of Care Leavers (19) in Staying Put Arrangements
- Agreed 'Letter for Later Life Process' to inform Care Leavers in regard to their care history as an alternative to Subject Access Requests.
- Established a Youth Voice Policy and action plan to inform the participation strategy.

Young people in care contributed to a range of local, regional and national meetings and consultations including:

- Attendance at the 'Recognising Outstanding Achievements Event' at Westminster hosted by Ed Miliband.

- Participation in a national consultation on personal advisors and care leavers.

### Health of Children in Care

Substantial work has been undertaken by partner agencies to improve health outcomes for children in care. The Designated Doctor and Nurse have improved data collection quality and audited LAC health assessments to inform future work.

There is a monthly meeting between the Designated Doctor and Service Managers for Children in Care to ensure actions related to the health of Children in Care are implemented. This includes the need to improve waiting times for the Children and Adolescent Mental Health Service (CAMHS) for Children in Care and that the improvement in timescales for health assessments and dental checks are maintained.

The Health and Wellbeing of Children in Care and Care Leavers Steering Group, reporting to the Child Health Programme Board, meets every six weeks to identify service improvements to address the health needs of this group and to ensure ongoing improvement. The Steering group has representation of Foster Carers and Elected Members.

The Steering Group is/has:

- Ensured that the Strengths and Difficulties Questionnaire (SDQ) is completed and the scores recorded on the child's record.
- A review of the use of the SDQ was undertaken and as a result the SDQ is sent out before the review health assessment is undertaken and placed on SystemOne (health based recording system) by the Looked After Children Support Team to ensure that the professional undertaking the LAC

health assessment can use this as part of their holistic health assessment.

- The Designated Nurse for LAC has attended School Nurse and Health Visitor Professionals Meetings to discuss the SDQ, and training for staff took place in July 2014.
- Is implementing an agreed Health Passport for Care Leavers
- Ensured that the timeliness of Initial and Review Health Assessments has improved to ensure that Initial LAC Health Assessments are undertaken within 20 working days.
- Ensured that the CCG have updated the Service Specification for Children in Care and Care Leavers, so that providers are clear what is expected of them
- The designated nurse has undertaken an audit of review health assessments of children placed in Barnsley and placed out of area.
- The designated nurse and designated doctor for LAC have developed a data collection form to ensure a robust data set for LAC children is in place.

What difference has this made:

- All health professionals that undertake LAC health assessments have received training and meet the competency requirements recommended in the Looked after Children: Competences of Health Care staff Intercollegiate Role Framework (2012).
- Review LAC Health Assessments are undertaken by a Health Visitor for under-fives and a School Nurse for over-fives; this allows continuity of care for the child.
- There is closer monitoring of the timeliness of LAC health assessments (currently 100%) by both provider agencies, and any problems are escalated to the CCG when appropriate.

- There is closer monitoring of the quality of the LAC health assessments and improved data collection.
- Better use of the SDQ is now in progress and the data is input on to TED, the local authority IT system, so that staff can look for themes and trends.

### **Arrangements for Private Fostering Support in Barnsley**

The Board oversees local arrangements to safeguard privately fostered children and young people and monitors the extent to which the local authority undertakes its responsibilities. A private fostering arrangement is one made without the involvement of a local authority for the care of a child under the age of 16 (under 18, if disabled) with someone other than a parent or close relative for 28 days or more. Anyone involved in, or knowing about, such an arrangement must notify the local authority at least six weeks before it begins and the fostering service takes active steps to advertise this responsibility through a range of measures:

- Information disseminated via specific information sessions and training.
- Distribution of an updated Statement on Private Fostering to key stakeholders, including schools, school nurses, health visitors, GPs, children's social care teams, housing and voluntary sector professionals, setting out notification requirements, the local authority's duties and the role of local professional agencies.
- Distribution of a private fostering flyer to the same stakeholders.

Specific awareness raising activity, supported by the board, has continued throughout the year, including local advertising. Information leaflets are available for carers, parents, children and

young people and professionals. Leaflets, posters and business cards are displayed in major public buildings and information is available on the board and council websites.

Parents, carers, children and young people can receive advice and support, including training opportunities, from the Private Fostering Social Worker.

The requirements on a local authority under private fostering span both child and carer focussed services. In September 2014 a new worker was appointed to take over the service that had a safeguarding as well as a fostering background. The skill mix of this worker has ensured that the needs of the child/young person remain very much to the fore while the suitability of the placement is assessed. Should the child need more support through services for children in need or children in need of protection the Private Fostering Worker will liaise with the appropriate service particularly the Stronger Families and the Safeguarding Services. The line management arrangements have also been amended to have the Private Fostering Worker managed by a fostering manager with recent experience of safeguarding services.

The developments outlined above are having an impact on the areas of concern highlighted in the Ofsted Inspection around oversight and management of the service and a reduction in identified private fostering arrangements. Numbers are however still down on previous years and a key aspect of the current action plan is to focus on awareness-raising with other agencies. A twice yearly report is provided to the board so progress can be monitored and to remind partnership agencies to maintain a focus on identification of private fostering arrangements within their own organisation.

The current Private Fostering Worker has been undertaking a programme of regular visits to agencies to raise the profile of private fostering across the Borough. This has particularly focussed on ALCs.

Colleagues within the CCG have worked specifically with GPs and publicity materials have been developed for schools and other agencies to raise awareness across the Borough.

The board specifically funds this publicity as private fostering still remains a priority of the board. Work to ensure assessments are child-focussed as well as addressing the carer's needs is taking place alongside a focus on involving birth parents more within the process.

Above all assessments need to be timely to ensure children do not drift in unsuitable home conditions or emotionally unsupportive environments. Improvements are being made but this is still work in progress and work will continue around all aspects of private fostering in 2015/16.

## Private Fostering Figures 2013-15

		31.3.13	31.3.14	31.3.15
1	Number of children in private fostering arrangements as at 31 March	18	12	5
2	Number of new private fostering arrangements which commenced over the last 12 months	18	14	2
3	Number of private fostering arrangements that ended during the past 12 months	17	20	9
4	Number of arrangements that were visited within timescales	100%	100%	100%
5	Number of arrangements initially assessed as suitable	12	14	2
6	Number of arrangements initially assessed as not suitable	0	0	0
7	Number of arrangements that ended following an assessment by the local authority that the arrangement was no longer suitable	0	0	0

### **Children with disabilities, complex needs and/or special educational needs**

The Children with Disabilities and Complex Health service has continued to work with a range of partner agencies, children, young people and the Barnsley Parents and Carers Forum to develop and improve services for children and young people with disabilities and complex health needs.

The key areas of work undertaken during 2014/15 have included:

- Reviewing and developing services around short breaks and an increase in use of direct payments
- The development of Education and Health and Care Plans and the Local Offer outlining all local service.
- The development of a Disability Register
- The extension of person centered planning, transition planning the development of the Autism pathway and Strategy.

This year work has been undertaken to develop and progress the reach of current advocacy work for Parents and Carers within existing budgets as well as developing additional advocacy for young people following a successful grant application.

The annual SEND information event for children and families was held in June, the event centered on consultation in relation to the SEND reforms with an overall theme of 'Child First' to ensure the voice of the child is central to all our work within Barnsley. The day included contributions from children and young people, parents/carers and professionals.

Excellent feedback was received from the 200 parents/carers and young people who attended the event.

A number of additional consultation events focusing on the SEND reforms and short breaks have also taken place to ensure appropriate and responsive service commissioning and a positive and proactive parental response to change.

The Disabled Children Programme Board has met throughout the year and continues to steer and challenge progress of related sub groups and to ensure coordination of service delivery. The board took a proactive step by extending its membership so issues around hate crime could be understood by the group in relation to what life is like for children with disabilities and complex health needs.

There has also been some very positive and productive work around awareness of Safeguarding of children with disabilities and complex health needs. This work has resulted in increases in children subject to child protection plans and the number who are looked after.

From December 2014 there was a major shift in how the Aiming High Newsletter was produced with young people taking a more active role in writing articles and contributing to its development. This work is being extended further as young people are being assisted to develop their reporting and interviewing skills. Another positive step has been a young person known to the Children with Disabilities and Complex Health Needs Social Work Team delivering training to all social work staff about good practice and effective communication.

Over the next few months, a review of 'One Path One Door' (the current strategy for children with disability and complex needs) will be completed.

## **Children with Disabilities and Complex Health Needs Sub- Committee**

Work undertaken:

- Considered learning from SCRs both internal and external to inform the groups action plan
- Reviewed data to inform practice and provision development. For example in establishing and developing the Disabled Children Register. Different ideas have been explored to increase the numbers being registered so that both communications with the wider group of service users can be improved and numbers can inform the commissioning of services in the future.
- Review of the OFSTED thematic report into Safeguarding Disabled Children to strengthen safeguarding arrangements for this group. The Sub group regularly reviews the data from the Disabled Children's Team against the whole data for Children's Social Care and this has supported action to increase the number of section 47's and CP plans for this vulnerable group of children and young people.
- A gap analysis to determine how an outstanding service for this vulnerable group is established. Eight areas for development have been agreed and will be progressed by the group over the forthcoming financial year.

### **Education Welfare Service (EWS)**

The Education Welfare Service works in partnership with schools to support and advise on attendance and safeguarding issues. School attendance is tracked, including vulnerable groups such as children in care, children subject to a child protection plan or child in need, those at risk of child sexual exploitation, children who have special educational needs

(SEND) and children who are involved or at risk of criminal activity.

The EWS also oversees children missing education (CME) and those whose parents elect to provide education at home (EHE). During 2014 a central record keeping system was devised which schools complete and return on a half termly basis to the LA. This identifies pupils who are not in full time education provision with a focus on the most vulnerable groups. This became an Ofsted requirement following the publication of "Pupils missing out on education" published in November 2013. The service also contributes to a number of the board's sub-committees and related multi-agency safeguarding forums, including child sexual exploitation and missing forum and more recently the continuum of thresholds task group.

### **The Education Welfare Service and the Early Help Offer**

The service will work with schools for earlier identification of pupils who display early signs of irregular attendance including nursery and non-statutory school age. Education Welfare Officers will play a key role in undertaking and supporting early help assessments.

Policies are updated annually by the EWS These include promoting good school attendance, incorporating model school attendance policies for schools including nursery schools, and policies on Children Missing Education and Elective Home Education. Revised policies are taken to the Policy and procedures sub-group for approval before going out to schools for consideration at governors meetings. Updated policies form part of the annual head teachers safeguarding report and are located on the BSCB website.

The EWS delivers school designated safeguarding lead including, together with

the schools S175/157 safeguarding training. The service audits case files to ensure minimum standards are met.

The service has taken part in a number of multi-agency audits including children who were identified at risk of child sexual exploitation and quality of early help assessments through the thresholds continuum of assessment group. The service also completed its third year of work with vulnerable families over the summer holiday period which included:

- A total of 327 home visits were undertaken to vulnerable families who required a safe and well visit, or where school attendance was a concern.
- 45 visits were to pupils who did not have an identified school place for the start of the school term in September 2014.
- The EWS provided education representation to a number of case conferences, core groups, children in need, team around the child meetings, case planning and multi-agency risk assessment conferences (MARAC).
- 5 requests for elective home education (EHE) were dealt with.

### Dealing with allegations against professionals

The Ofsted Inspection Report published on 8 August, 2014, identified that *“there are very good arrangements in place to make sure that children are protected when allegations of abuse are made against professionals.”*

This indicates that practice has remained consistently good from the previous inspection findings.

In the period April 2014 to March 2015 contact was made with the LADO in

relation to 245 cases. This is a small increase on the previous 12 months. It follows the pattern of a gradual increase over the past 3 years of agencies contacting the LADO for advice and guidance when incidents of concerning behaviours by staff or volunteers arise in services being delivered for children.

Of the 245 cases discussed with the LADO 96 were deemed to meet the criteria of indicating a risk of harm to children, or a possible criminal offence committed against or related to a child.

The majority of behaviours reported were of a physical nature (48%) which is consistent with previous data for Barnsley and nationally. Sexual abuse allegations accounted for 28% of the total, an increase of 7% on the previous year and includes a significant proportion (22%) which were historical allegations reflecting the raised profile following media and public attention in the wake of the Saville Inquiry. Emotional abuse and neglect accounted for 13% and 11% of allegations respectively.

The referrals were made by a wide range of statutory and voluntary agencies. Education providers in the borough (Primary, Secondary, Special Schools and College) accounted for 39% of all referrals reflecting the frequency, duration and intensity of the direct work with children in the education sector.

Awareness raising activities have taken part during the year with training provided to a multi-agency audience and bespoke training to foster carers and taxi drivers and the designated safeguarding leads within schools.

Records evidence that referrals made to LADO received a timely and robust initial response which ensured that children and

young people were protected. The timescale for completion was however delayed for those allegations that required a police investigation due to the increased volume of work referred to the Police Public Protection Unit. The majority of allegations were investigated by management investigations undertaken by the employers and in total 86% of the allegations had been concluded by the end of the year. Of these 35% were concluded as being substantiated in that there was sufficient evidence to prove the allegation. A further 39% were concluded as unsubstantiated because there was insufficient evidence to prove or disprove the allegation. The remainder were concluded as unfounded or false, and none were considered to have been malicious during the year. The Board will continue to monitor the level of referrals to encourage all partners to refer to the LADO appropriately.

### Equality, diversity and participation

The board is strongly committed to promoting equality of opportunity and ensuring that all safeguarding activities take account of the diverse needs of all children and young people in the borough.

Equality objectives for children and young people supported by the Barnsley Children and Young People's Trust and BSCB include:

- providing support to schools and settings to meet their public sector equality duty
- helping schools and settings identify, record and deal with bullying and harassment in schools
- narrowing the gap between different sections of the community, including where different levels of achievement are related to disability, gender, ethnicity or economic background

- challenging the barriers faced by looked after young people
- fulfilling the 'Pledge' to children in care.
- meeting the needs of children and young people with special educational needs, learning difficulties, disability and complex health needs
- implementing/reviewing the One Path One Door strategy
- continuing to reduce the number of young people not in education, employment or training and address the needs of specific groups
- undertaking work to improve transition of vulnerable groups, particularly those with learning difficulties

All newly developed strategies, policies and procedures are subject to an equality impact assessment. Active steps taken to facilitate inclusion include the provision of appropriate support for families to enable them to participate fully in child protection conferences and representation of young people's views at the board's sub-committees. Where necessary, specialist support, for example, interpretation and translation services are engaged to support families.

Key points of development within the Continuous Service Improvement Plan for the BSCB are:

- The needs arising out of ethnicity, faith and identity should be consistently considered and reflected within assessments.
- To introduce systematic use of cultural competence tool (completed July 2014)
- Review BSCB training to ensure ethnicity, faith and identity are included in all relevant training.
- Monitor impact and outcomes through multi and single agency case file auditing and S11 audit process.

### Current Position and the Improvement Journey

#### EFFECTIVENESS

What we need to do	How are we doing and what difference did it make?	How do we plan to improve?
Overall: 'good' characteristics are widespread and 'common practice'	"Good" characteristics are not yet consistently embedded in daily practice.	Actions are ongoing to improve performance and embed good practice through our continuous service improvement programme.
Overall: How effectively LSCB evaluates and monitors the quality and effectiveness of partners	Multi agency performance data was provided but the Board was not satisfied that it routinely reported the right measures. Special meetings in February and March 2014 identified the KPIs to be routinely monitored by the Board and PAQA Sub-Committee. From April onwards appropriate data collection has taken place and is routinely reported to the Board and PAQA where it is explored to ascertain areas of progress and areas for development/further exploration. The Section 11 audit challenge process evaluates and monitors the quality of partners' effectiveness. Further supporting information has been requested from partners this year to ensure actions/impact is able to be demonstrated.	<p>The PAQA Sub-Committee will continue to refine its suite of KPIs and monitor audit outcomes from the single and multi-agency audit schedule. Work has been undertaken to develop the schedule of audits and audit reporting during 2014/15. This work will be further developed during 2015/16 and be assisted by increased resource identified to support quality assurance activities.</p> <p>A programme of multi-agency audits will continue to be undertaken to examine priority areas of concern and identify key actions which will be monitored by PAQA through the development of specific action plans. Audit finding will be disseminated by PAQA into the relevant services.</p>
Complies with its statutory responsibilities in accordance with the Children Act 2004	The Board was established on 1 April 2006 and CDOP on 1 April 2008 in accordance with legislation. The Annual Report and Business Plan are produced and published each year.	The Board will undertake more rigorous and systematic review of its Business Plan objectives to ensure continuing relevance and evidence of achievement.
Complies with the Local Safeguarding Children Board Regulations 2006.	Enshrined in Constitution. Board and CDOP established in accordance with legislation. SCRs are commissioned when criteria are met and findings published.	Where criteria for holding SCRs are not met the Board will undertake alternative learning events in compliance with its Learning and Improvement Framework to promote and disseminate learning.
Able to provide evidence that it coordinates the work of statutory partners in helping, protecting and caring for children in its local area	Section 11 self assessments to demonstrate compliance and impact. Multi-agency training programme The Board produces multi-agency policies, procedures and	Section 11 challenge process to be more rigorous. Interviews take place and evidence bank introduced however further review work throughout the year could be introduced which would focus on key areas for

	<p>strategies.</p> <p>A multi-agency Sub-Committee structure is operational</p> <p>Action plans are created and monitored for SCRs, Learning Lesson events and specific strategies/policies/pathways are developed as a result.</p>	<p>development and support reporting against actions within the Continuous Improvement Plan.</p> <p>The Board needs to review its policies and procedures more systematically to ensure they are all up to date and relevant.</p> <p>Action Plans from SCRs, other learning events and strategies need to be SMART and implementation of actions and impact clearly able to be demonstrated.</p>
<p>There are mechanisms in place to monitor the effectiveness of those local arrangements</p>	<p>Section 11 challenge process</p> <p>Multi-agency training evaluation process</p> <p>Action plans monitored</p> <p>Multi agency audit programme in place and findings reviewed by PAQA Committee.</p>	<p>A more systematic review of multi and single agency audit activity.</p> <p>Improve evaluation process for multi-agency training to evidence impact of training more effectively.</p> <p>Improvement in this area has been made during 2014/15 with agencies demonstrating how they are recording and monitoring the impact of training. These improvements can be used to drive further development during 2014/15.</p>
<p>Multi-agency training in the protection and care of children is effective and evaluated regularly for impact on management and practice.</p>	<p>Comprehensive programme of multi-agency training provided.</p> <p>Evaluation process in place with plans to develop this further to evidence improved outcomes for children.</p> <p>Guidance published to encourage management support in ensuring that messages from training are embedded in practice.</p> <p>Regular monitoring of evaluations by the WMD Sub-Committee</p>	<p>Training will continue to be monitored and developed to address emerging priorities.</p> <p>Evaluation of impact will continue to be improved.</p>
<p>LSCB checks that policies and procedures in respect of thresholds for intervention are understood and operate</p>	<p>New thresholds document approved and disseminated February 2014. Staff summary leaflet developed.</p> <p>Multi-agency training provided on thresholds.</p> <p>Multi agency thresholds group working to further develop</p>	<p>There is clear evidence to suggest that the Escalation Policy is being used but work will be undertaken during 2015/16 to review the current policy and improve the process for formally recording and collating escalations</p>

effectively and identifies where there are areas for improvement	and embed understanding of thresholds across all agencies. Development and endorsement of the Barnsley Assessment Framework January 2015 which is consistent with Early Help development. Safeguarding leads encouraged to use escalation policy re thresholds.	which will increase reliability of data and allow for themes and trends to be identified.  Further work required to raise partner agency understanding of thresholds, increase the use of agency safeguarding leads and 'hold the ring' on early help.  Multi-agency audit on thresholds and work to collate data in relation to the pressures on the front door.
Challenge of practice between partners rigorous and leads to improvement	Section 11 challenge Encourage challenge on debate at Board and Sub-Committee meetings Log of challenges and outcome is developing. Use of Escalation policy is encouraged and monitored	Maintain and strengthen challenge relating to attendance and representation at the Board and Sub-Committees. Continue to monitor challenges made to identify themes, trends and response/outcome.
Casework auditing is rigorous and used to identify where improvements can be made in front-line performance and management oversight	Substantial audit work undertaken however quality of audits undertaken need to be improved.	The programme of single and multi agency audits reported to PAQA Sub-Committee needs refining and more systematic scrutiny.  The Board will undertake an agreed programme of multi-agency audits.
Serious case reviews, management reviews and reviews of child deaths are used by the local authority and partners as opportunities for learning and feedback that drive improvement.	SCRs undertaken when criteria met - where not met learning lessons reviews commissioned if appropriate. Action plans monitored by SCR Sub-Committee. Multi agency training provided on SCRs Individual reviews disseminated through relevant forums e.g. Head teachers meeting	The Board will continue to disseminate lessons derived from SCRs and similar reviews and develop specific multi-agency training to address identified need.
The LSCB provides robust and rigorous evaluation and analysis of local performance that influence and inform the planning and delivery of high-quality services.	Performance management system still developing. Safeguarding Board's set of key indicators identified for regular review at each meeting. Wider set also identified for the PAQA Sub-Committee to review and escalate issues of concern to the Board.	Further strengthen the role and function of the BSCB through building on current work to improve performance management, including: Coordination of the process to evaluate the impact of multi-agency training.

	<p>Supplementary audit programme to evidence practice improvements.          Much improved data for LAC.          Areas of poor performance identified for action as part of the Continuous Improvement Plan monitored by the BSCB.</p>	<p>Performance data and audit activity integrating child protection and IRO activities to provide learning from quality assurance.</p>
--	---	--

**WHAT GOOD LOOKS LIKE**

<b>What we need to do</b>	<b>How are we doing and what difference did it make?</b>	<b>How do we plan to improve?</b>
<p>The governance arrangements enable LSCB partners (including the Health and Well-Being Board and the Children's Trust) to assess whether they are fulfilling their statutory responsibilities to help (including early help), protect and care for children and young people.</p>	<p>Clear relationship articulated between SCB and Children's Trust (TEG report November 2013)          Common members on all 3 bodies i.e. SCB/TEG/HWB provides opportunity for mutual reporting          Protocol agreed to articulate relationship between SCB, TEG and HWB.</p>	<p>Embed the developing performance management process to clarify and understand how well statutory responsibilities are fulfilled.</p>
<p>The LSCB effectively prioritises according to local issues and demands and there is evidence of clear improvement priorities identified that are incorporated into a delivery plan to improve outcomes.</p>	<p>Priorities are set out in Board's Business Plan and Annual Report.          New priorities identified as local issues arise and action taken.          Sub-Committees review their Business Plan priorities regularly for achievement and relevance.          Reports to the BSCB are required to show the link between the subject of the report and the board priorities.</p>	<p>The Board needs to monitor its own priorities more systematically and develop a clear delivery plan. This should feed directly into the Continuous Development Plan monitoring Process.</p> <p>More formal evidence of Board and Sub-Committee achievement required to ensure continuing validity of the purpose, values and vision. This should include specific developments in relation to identified vulnerable groups and key areas of development priority.</p> <p>The Board will improve its oversight of the extent of neglect as a local feature and the processes in place to monitor the efficacy of interventions to ensure that all partner agencies are addressing neglect robustly and without compromise.</p>

		The Board aims to improve oversight of missing children and continue to develop its strategic approach to CSE which includes Female Genital Mutilation in line with local and national developments.
Regular and effective monitoring and evaluation of multi-agency front-line practice to safeguard children identifies where improvement is required in the quality of practice and services that children, young people and families receive. This includes monitoring the effectiveness of early help.	Regular audits. Performance reporting with escalation from PAQA Sub-Committee.	Regular reports on effectiveness and monitoring of Early Help to the Board.
Partners hold each other to account for their contribution to the safety and protection of children and young people (including children and young people living in the area away from their home authority), facilitated by the chair.	Board Chair encourages open debate at Board meetings and culture where respectful challenge is encouraged.  Performance information provides transparency to rate partners' performance.	More clarity and systematic reporting needed on children placed out of district.  A report to the Board to highlight recent work undertaken by key partners facilitated by PAQA.
Safeguarding is a priority for all of the statutory LSCB members and this is demonstrable, such as through effective section 11 audits. All LSCB partners make a proportionate financial and resource contribution to the main LSCB and the audit and scrutiny activity of any sub-groups.	Revised more rigorous Section 11 self assessment. LSCB partner contributions have been reviewed during 2014/15 to try to increase levels of funding to the Board in order to maintain its current programme of work including facilitation of SCRs. Sub-Committees have multi-agency representation. Multi-agency audits undertaken. Additional contributions in kind considered e.g. the provision of training venues and meeting rooms.	Feedback to be provided by school representatives to all schools through the weekly bulletin following key meetings (BSCB, Schools Forum, SEE, Improvement Board, Trust Executive Group, Challenge Board, Children and Families Act Project). Sub-Committee attendance will continue to require proactive oversight and action to address unsatisfactory attendance The Board will need to meet challenges posed by partner agency reorganization and impact on attendance.

		Further work to address resourcing issues in relation the Board to be addressed.
The LSCB has a local learning and improvement framework with statutory partners. Opportunities for learning are effective and properly engage all partners. Serious case reviews are initiated where the criteria set out in statutory guidance are met and identify good practice to be disseminated and where practice can be improved. Serious case reviews are published.	Learning and Improvement Framework approved and published on the SCB website. Learning lessons opportunities undertaken with frontline practitioners and resulting action plans monitored through SCR Sub-Committee. SCRs initiated where criteria are met and are published Learning from SCRs and learning events disseminated by partner agencies and through multi-agency training.	Learning from SCRs and learning events will continue to be disseminated to partner agencies and through multi-agency training.
The LSCB ensures that high-quality policies and procedures are in place (as required by <i>Working Together to safeguard children</i> ) and that these policies and procedures are monitored and evaluated for their effectiveness and impact and revised where improvements can be made. The LSCB monitors and understands the local application of thresholds.	Policies and procedures in place and accessible via website.  Continued focus of the Board in relation to thresholds.  Work to improve the monitoring and reporting of escalations through the Continuous Improvement Plan.	Undertake more regular and systematic review of the Board's Policies and Procedures to ensure they are comprehensive, up to date and relevant.  Need better evidence of the effectiveness and impact of policies and procedures and when they are revised following review.  Application of thresholds needs to be more consistent and better understood by partner agencies which can be demonstrated via appropriate data and regular progress reporting to the Board. This should include input from partner agencies.
The LSCB understands the nature and extent of the local issues in relation to children missing and children at risk of sexual exploitation and oversees	SCB received reports on children missing and at risk of CSE in January 2014. Local CSE Strategy and Action Plan in place. Strategic CSE Group maintains coordinated oversight and monitors CSE Strategy Action Plan. CSEM Forum monitors individual cases. Review of CSEM Forum TORs and practice.	The Strategic CSE Group will monitor and periodically report on achievement of the CSE Strategy Action Plan.  Regular audits in relation to CSE undertaken and reported.

<p>effective information sharing and a local strategy and action plan.</p>	<p>The Board is represented on the South Yorkshire Police and Crime Commissioner's county wide forum and is participating in the county wide CSE campaign lead by the PCC.</p> <p>In March 2014 the Board agreed a county wide addendum to the information sharing Protocol re CSE.</p>	
<p>The LSCB uses case file audits including joint case audits to identify priorities that will improve multi-agency professional practice with children and families. The Chair raises challenges and works with the local authority and other LSCB partners where there are concerns that improvements are not effective.</p>	<p>Case file audits undertaken including multi-agency audits to identify priorities for improvement.</p> <p>Log of challenges developing to evidence challenge from Chair and Board to partners, including the local authority.</p> <p>Board minutes evidence challenge by partners to improve effectiveness of services e.g. health service DNA polices.</p>	<p>Findings from the multi - agency and case file audits will be incorporated into Action Plans where appropriate for monitoring by the PAQA Sub-Committee and report back to the Board.</p> <p>In overseeing partner effectiveness the Board will provide challenge in respect of any areas of concern</p>
<p>Practitioners and managers working with families are able to be involved in practice audits, identifying strengths, areas for improvement and lessons to be learned. Experiences of children and young people are used as a measure of improvement.</p>	<p>Practice audits undertaken by managers.</p> <p>Developments ongoing to capture voice of young person e.g. in cp conference reports.</p>	<p>More development is needed to capture and use the experiences of children and young people as a measure of improvement and to inform service delivery</p>
<p>The LSCB is an active and influential participant in informing and planning services for children, young people and families in the area and draws on its assessments of the effectiveness of multi-agency practice. It uses</p>	<p>The LSCB has influenced service delivery e.g. continued concerns on thresholds has led to additional work. The report on private providers of Children's homes led to new meetings and additional work to ensure compliance. DNA concerns led to additional work to ensure effectiveness. The SCB contributes to the C&amp;YP plan.</p> <p>The Chair has influenced the Health and Well Being Section</p>	<p>The Board will continue to influence the planning of services for children in areas of identified need e.g. next neglect, appropriate resources to support young people who have been victims of CSE.</p> <p>Ensure the Board clearly communicates commissioning priorities to the Children's Executive Trust.</p>

<p>its scrutiny role and statutory powers to influence priority setting across other strategic partnerships such as the Health and Well-being Board.</p>	<p>of the C &amp; YP Plan to ensure that CSE was captured under the Sexual Health section in response to a consultation on the draft plan. The Board had approved a Protocol to clarify relationships between the SCB, TEG and HWB</p>	
<p>The LSCB ensures that sufficient, high-quality multi-agency training is available and evaluates its effectiveness and impact on improving front-line practice and the experiences of children, young people, families and carers. All LSCB members support access to the training opportunities in their agencies.</p>	<p>The Board provides a comprehensive programme of high quality multi-agency training which is flexible and adapted to meet newly identified needs e.g. response to CSE. Effectiveness and impact on frontline practice evaluated through new evaluation process. Multi-agency membership of Sub-Committee promotes take up of training plus wide promotion through website, flyers etc. Managers are encouraged to ascertain impact on practice through guidance approved by Sub-Committee and published on website</p>	<p>Better evidence of the impact of multi-agency training is required and should be reported with supporting evidence within Section 11 Audits.</p> <p>Sustainability of the MA Training Programme should be explored and issues around access by private providers considered and addressed via commissioning and contract arrangements.</p>
<p>The LSCB, through its annual report, provides a rigorous and transparent assessment of the performance and effectiveness of local services. It identifies areas of weakness and the causes of those weaknesses, and evaluates and where necessary challenges the action being taken. The report includes lessons from management reviews, serious case reviews and child deaths within the reporting period.</p>	<p>LSCB's Annual Report provides assessment of performance and effectiveness of local services, including areas of weakness and future priorities for action.</p> <p>Annual Report includes information from SCRs, lessons learned reviews and child deaths.</p>	<p>Consideration should be given to the develop of a monitoring timetable for activities of the board and sub committees which could be used to develop the report and ensure that board priorities are being met and are consistent with the priorities outlined in the annual report and business plan.</p>

### **Monitoring the effectiveness of local work to safeguard and promote the welfare of children**

The work of the board is progressed largely through its sub-committees and sub-groups who have undertaken the following work over the last year:

### **Performance, audit and quality assurance sub-committee**

This is the key forum through which the board examines and verifies the quality of individual agency safeguarding practice. It oversees performance management, scrutinises a developing suite of key performance indicators (KPIs) and secures quality assurance through findings from single and multi-agency audit activity.

### **Performance management and quality assurance framework**

A Quality Assurance and Performance Management Framework is in place and has been endorsed by the board. This confirms the need for continuous service improvement and delivery to be driven through quality standards, monitoring of improvement targets and focus on a suite of selected KPIs.

The board and sub-committee have held development sessions to determine the data to be received by the Board and sub-committee. Respective scorecards of multi-agency KPIs have been identified for regular reporting. The sub-committee will escalate any issues of concern to the Board. The Board has developed a more effective performance management culture through increasing focus on performance and quality assurance. More valid data with contextual information will enable constructive challenge and provide proper reassurance about safeguarding from partner agencies.

The board's own set of KPIs, framed around the child's journey from early intervention through to Tier 4 and looked after status include:

### **Early Intervention**

1. Number of CAFs reported and completed by agency
2. Number of escalations received and resolved in respect of threshold disputes
3. Percentage of referrals to assessment, i.e. conversion rate
4. Total number of referrals

### **Assessment and Section 47 investigation - contacts in and conversion rates**

5. Number of contacts received
6. % of contacts to referral
7. Number of Section 47 Investigations
8. % of Section 47 Investigations converting to child protection conference
9. % of assessments completed within 20 days
10. % of assessments completed within 45 days and those out of timescale
11. Number of Section 47 investigations relating to children at risk of CSE
12. Number of strategy meetings and referrals to the CSE Forum

### **Child Protection**

13. % of children becoming the subject of a CP Plan for the second or subsequent time within 2 years
14. % of children becoming the subject of a CP Plan for the second or subsequent time ever
15. % of open CP Plans lasting 2 years or more
16. CP Plans lasting 2 years or more – ceased within period

## Children in Care

17. Number of children/young people missing from care.
18. Looked after children missing from care incidents (episodes)
19. Police Data. In May 2015 new police measures and safeguarding performance data was provided by South Yorkshire Police (SYP) across a range of categories
20. For 2015/16 the numbers of unallocated assessments to Children's Social Care will be reported.

## Assurance from audit activity

The sub-committee promotes practice improvement through review of audit outcomes, drawn from an evolving programme of planned single and multi-agency audits. Efforts continue to improve systematic reporting of single and multi-agency practice in terms of identifying priority areas and promoting multi-agency contribution. The sub-committee has considered the following findings from partner agency audits:

- Multi-agency audit to examine the quality, effectiveness and validity of child protection plans
- Case Audit to Examine Use of the Protocol for Safeguarding Children Living in Families with Drug and / or Alcohol Misuse – CSC and Phoenix
- Audit of Children on a Child Protection Plan for a Second Time – CSC
- Re-referrals to Children's Social Care - CSC
- Multi-Agency Child Sexual Exploitation Audit.
- Multi-Agency Child Sexual Exploitation Audit - Re-evaluation
- Multi agency deep dive audit of case decision making in respect of Children's Social Care S47 cases.
- Audit of 'Did Not Attend' from BHNFT

- LAC health assessments on children placed out of area – BHNFT
- Record Keeping Special Care Baby Unit Audit - BHNFT

**Overview of vulnerable groups:** In fulfilling its objective to review the welfare of vulnerable groups of children, the sub-committee questioned information on the following during the year:

- **Children missing education (CME):** This relates to children of compulsory school age, not on school roll or educated otherwise, who have been out of any educational provision for at least four weeks. The sub-committee sought information on local numbers and how the children were monitored to ensure they receive suitable education and are safeguarded. Although potential complications relate to school transfer and relocation to another area, the EWS request a safe and well visit to ensure a child's welfare as soon as relocation is known. The service has revised its CME policy and procedure guidance during the year in response to a national consultation. Ofsted has commended our procedures as robust.
- **Looked After Children:** The sub-committee continue to closely review performance indicator data relating to looked after children.
- **Child Sexual Exploitation:** Two multi-agency audits have been undertaken in respect of children and young people who are at potential risk of CSE. The first in October 2014 was commissioned by BSCB and facilitated by an independent facilitator. The second audit in January 2015 found a more robust approach in intervention and planning.

Work to increase audit work and review of the audit programme will increase over 2015/16 and be assisted by additional quality assurance resource.

### **Policy, procedures and practice developments sub-committee**

This sub-committee oversees a range of areas of safeguarding practice. In acknowledgment that many safeguarding issues relevant to children and young people are derived from adult behaviours, membership of the sub-committee contains representation from adult services. These clear links to adult mental health and substance misuse provide for more cohesive working in these areas of safeguarding concern and forge stronger alliances with relevant partner agencies. The sub-committee has found this extensive remit to be a challenge in terms of addressing all issues thoroughly, and has therefore established periodic time-limited task groups to address particular pieces of work. Last year, it built on this approach in its considerations to:

- develop and consult on new multi-agency protocols, policies and procedures on specific safeguarding issues or in response to Serious Case Review findings
- ensure relevant communications to frontline staff
- identify any gaps in safeguarding practice that need to be addressed through development of new safeguarding policies/procedures
- respond to national and local policy changes and advise the Board of the implications of relevant publications and safeguarding developments
- work with the Serious Case Review Sub-Committee to undertake 'lessons learnt' reviews, and identify required amendments to policy and procedure

- ensure development of a holistic approach to the safe use of digital technology and ensure that e-safety safeguards are audited and evaluated within the board's Performance Management Framework
- provide advice and support on digital technology safeguarding requirements
- maintain oversight of interagency arrangements to protect young people who are vulnerable/exposed to risk of harm through sexual exploitation and/or running away from home and/or substance misuse. Receive reports from the Sexual Exploitation and Young Missing Forum. Report on specific areas of unmet need to advise the Board of potential and necessary resources/services to meet these needs
- ensure multi-agency training on the impact of adult mental health on parenting children and promote shadowing opportunities for relevant staff in partner agencies
- strengthen engagement of young people with the Board through maintenance of links with relevant forums, such as the Youth Council, to secure the voice of the young person
- promote better awareness of the impact of adult mental health, learning difficulties, substance misuse and domestic abuse.
- ensure that work relating to anti bullying policies and strategies reflects a zero tolerance approach.

### **Development of new policies and procedures**

The board's policies and procedures were revised and updated in September 2014 and March 2015. In response to identified needs or recommendations from SCRs/learning events, the board approved the following new policies and procedures, developed with multi-agency consultation:

- Revisions to Protocol to safeguard children living in families with drug/alcohol abuse
- Consideration of the process to address DNAs
- Revised Missing Children Procedure
- Revised CSE Joint Investigation Team Protocol
- The Assessment Framework
- Policy for under 18's accessing needle and syringe programme
- Anti Bullying Policy

### Serious case review sub-committee

During 2014/15 the sub-committee's two action plans, arising from Learning the Lessons reviews, were monitored to completion and signed off by the full BSCB.

The information and findings from SCRs and learning events are used to ensure that we continue to improve practice in Barnsley to safeguard children and young people.

During the last 12 months the sub-committee has taken a more robust approach to evidencing that actions arising from reports have been completed and that there is an audit trail to show the work completed.

#### Serious Case Review Panel

During 2014/15, the SCR Panel met four times to consider cases that may potentially have met the criteria for a SCR. In three of those cases the panel concluded that the criteria for a SCR were met; independent authors have been commissioned to complete those reviews. In the other case a decision was taken to conduct a Learning the Lessons Review; again, an independent author was commissioned to complete that review.

The intention is to publish all SCR reports on the BSCB website unless there are exceptional and compelling reasons why publication cannot take place. All three current SCRs will be published. In order to protect the wider family and any siblings, reports do not contain the names of the children concerned. All three reports are in their final stages of preparation for submission to the BSCB with draft reports having been considered by the SCR sub-committee. One case is subject to a Coroner's Inquest that is scheduled to take place in the autumn which may delay publication.

#### What have we learnt?

Examples of lessons learnt from reviews that have been completed and actioned are:

- Ensuring that agencies policies and procedures for following up where children Do Not Attend (DNA) for medical appointments are fit for purpose and are being complied with. This includes the auditing of cases to ensure effective practice.
- Actions around the training of staff in relation to Common Assessment Frameworks (now revised to become Early Help Assessments)
- The review and development of the multi agency process for their collective response to critical incidents involving children. The process and policy is in place and was the subject of a half day dedicated training event attended by staff from a range of agencies.
- Improving the transitional arrangements for children moving from primary schools to secondary schools. Transitional arrangements are in place for all secondary schools.
- Ensuring professionals are inquisitive about significant others involved with

families and that they share information on any concerns.

- Ensuring that birth visits are conducted by health visitors within 10 to 14 days of a baby’s birth even if the baby is still in hospital
- Ensuring that the record keeping on the Special Care Baby Unit meets national recording standards
- Ensuring the correct action is taken to complete risk assessments around domestic violence and notifications to other agencies
- Ensuring a co-ordinated approach to effective bereavement follow up.

The board will assess how well this learning is embedded in practice through evidence from quality assurance and audit findings.

### Child Death Overview Panel

The BSCB is responsible for reviewing the deaths of all children who are normally resident in their area. The key purpose of reviewing all child deaths is to learn lessons in order to improve the health, safety and wellbeing of children and to seek to reduce the number of future deaths. The current system for child death reviews was introduced in 2008 and is designed to collect information on all child death reviews which have been undertaken by the Child Death Overview Panel (CDOP) on behalf of the board. This is the 7th year of data collection.

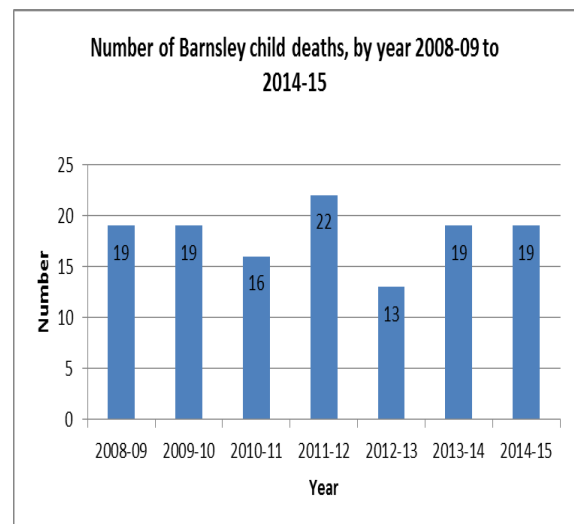

Reviewing child deaths requires the collection of information about the circumstances of the death, categorising the death in accordance with the national dataset, assessing whether there were any modifiable factors that may have prevented the death and determining whether there are lessons to be learned.

### Child Death Overview Panel Terms of Reference

CDOP is a multi-agency Panel responsible for reviewing information on all deaths of a child or young person under the age of 18 years in Barnsley. CDOP meets at least quarterly to review individual cases in accordance with the guidelines set out in Working Together to Safeguard Children 2015.

### Number of child deaths notified

From 1 April 2014 to 31 March 2015 there were 19 deaths notified to Barnsley CDOP. Figure 1 shows the number of Barnsley child deaths by year, 2008-09 to 2014-15.

### Cases Reviewed

The panel met 4 times and completed 19 reviews during the April 2014 - March 2015 reporting period. Because of the small numbers of deaths that occur each year in Barnsley, identifying trends and patterns is difficult. An analysis has been undertaken of the child death information held on the CDOP database over the period 2008/09 to 2014/15 to provide a picture of what is happening over a longer time period.

Figure 2 shows the breakdown of child deaths reviewed by CDOP by age over the

period 2008-09 to 2014-15 (total 110 deaths).

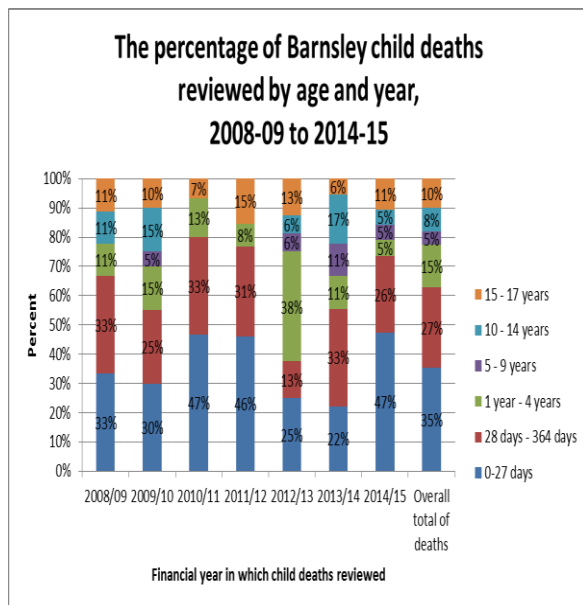

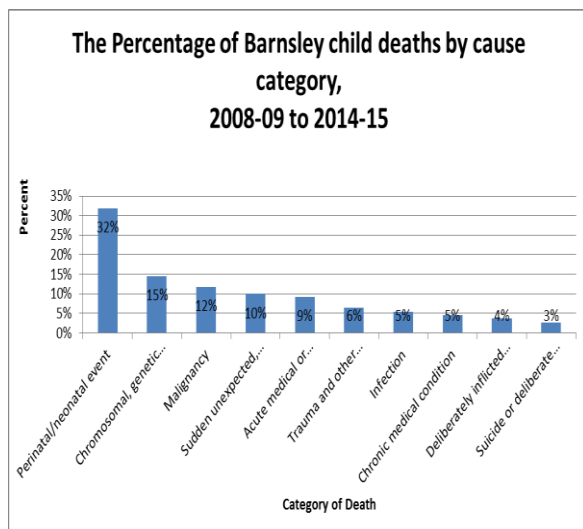

Figure 3 shows the percentage of child deaths reviewed by cause category over the period 2008-09 to 2014-15.

The findings show that the pattern of child deaths seen locally reflect those identified in national findings with approximately a third of deaths being associated with premature birth.

National and local data show that there is a significant link between inequalities and child deaths. The evidence base shows that it is the following interventions that

will have the greatest impact on reducing the gap in inequalities and giving every child in Barnsley the best start in life:

- Reducing smoking during pregnancy and in the home
- Reducing the prevalence of obesity in the population and obesity during pregnancy
- Promoting early access to antenatal care i.e. before 12 weeks into the pregnancy
- Reducing teenage pregnancy
- Reducing Sudden Unexpected Death in Infancy (SUDI) through safe sleeping risk assessment and promotion of safe sleeping practices
- Reducing child poverty
- Reducing parental alcohol and/or substance misuse

### Progress against 2014-15 recommendations

In accordance with the previous year's proposed service developments, the following have been successfully completed:

- The national data collection Form C has been completed at multi-agency case review meetings for each unexpected child death and then ratified at CDOP, which has streamlined the process.
- Any actions/recommendations raised at the multi-agency case review meetings have been received by the Serious Case Review Sub Committee of the Barnsley Safeguarding Children's Board for monitoring until completed.
- An analysis of modifiable factors identified from reviews of still births and neonatal deaths has been undertaken to identify areas where care during pregnancy and in labour can be improved.

- Ongoing detailed analysis of child mortality has been developed as part of the approach to the Joint Strategic Needs Assessment.

In addition to the above:

- The child death data collection, a statutory annual return has been submitted to the Department for Education.
- Terms of Reference have been revised and updated to reflect the appointment of the Head of Public Health as the new Chair and to note the updated Working Together Guidance released in March 2015.
- Quarterly CDOP Highlight Reports have been submitted and received by the Barnsley Safeguarding Children Board.
- 'When a Child Dies - an awareness raising event for frontline practitioners' was held in September 2014, which was a well attended and successful conference.

### **Recommendations for 2015-16**

The Panel has discussed and agreed the following actions during 2015/16 to improve the efficiency and effectiveness of the child death review process:

- An audit will be undertaken of the governance arrangements and administrative processes.
- A review and update of the local CDOP Protocol and Rapid Response Protocol will be undertaken.
- The way that we communicate the CDOP process to families will be reviewed by a small Task and Finish Group.

- Links will be made with national Child Accident prevention organisations for learning and good practice.
- A further 'When a Child Dies, awareness raising event for frontline practitioners' will be arranged

### **Partner agency contributions to safeguarding**

The board values the contributions of all partner agencies in promoting and monitoring the effectiveness of safeguarding in the area. An effective board requires all partner agencies to participate fully, engage in the board's business and transfer the safeguarding ideology into their own sphere of activity. Barnsley organisations and services continue to meet the requirements of an ever challenging safeguarding agenda and fulfil regular commitments to training, supervision, advice, support and audit in relation to safeguarding. This section highlights some of the work within individual agencies in relation to safeguarding practice.

The issue of children failing to attend health appointments has featured in national and local child deaths and remains of concern to the board. BHNFT's 'Did Not Attend' policy has been revised and updated to ensure that, when a child misses a hospital appointment, a safeguarding review is undertaken to assess risk. Cancelled appointments are also reviewed to assess issues of veiled compliance to ensure improved health outcomes for children and addressing of neglect. A similar process has taken place within South West Yorkshire Partnership NHS Foundation Trust (SWYPFT). Some of the services SWYPFT are responsible for are; children's therapies, health visiting, and the Family Nurse Partnership.

As part of the work under taken by the CCG the Designated Nurse for Safeguarding Children the Designated Nurse for Adults and the Named Doctor have developed a Safeguarding Vulnerable People Section 11 Audit to inform the forth coming 'safeguarding stock take' of primary care which will contribute to the board's understanding and assessment of safeguarding practice across the Borough.

It is acknowledged that the impact on children living in families where domestic abuse features can be immense and negative affect a child's quality of life. Over the last year, Barnsley Police Public Protection Unit (PPU) has gradually increased in size as a result of increased funding provision from the Police and Crime Commissioner. The team now has additional staff across all areas, with increased capacity available for child abuse and child sexual exploitation investigations. In Barnsley there is also a new team dedicated to vulnerable adult investigations, which includes all high-risk domestic abuse cases. This team has strong links to child protection colleagues and other relevant partners which means that the risk to any children is identified and managed at the earliest opportunity.

'Something Doesn't Look Right' is a developed strategy which Berneslai Homes has initiated to provide practical support and interventions to address identified issues to prevent progression to other services for example social care or the police. Their strategy aims to ensure the early intervention of risks during routine visits to thousands of homes within the Borough.

### **Integrated working with partners**

Integrated and partnership working is a particular local strength and all the individual partner agency contributions to safeguarding are valued. The board maintains links with partners and contributes to local initiatives on a variety of safeguarding themes, through representation on a range of multi-agency working groups.

### **Planned future developments and key priorities for 2015-16**

Barnsley Safeguarding Children Board's strong commitment to continuous service improvement and addressing the needs of the most vulnerable children and young people is evidenced through the objectives in our 2015 -16 Business Plan. Future aims and priorities are identified in the context of significant change, nationally and locally, particularly in the light of continuing budgetary pressures. The continuing effectiveness of the board's work will continue to be subject to close scrutiny. The synergy obtained from strong partnership working remains an essential element of effective safeguarding. The objectives of the board and sub-committees/groups for the coming year have been determined with multi-agency input and will be subject to regular review throughout the year to measure their achievement and impact.

In recognition of the importance of effective, locally based partnership working, the police force is disbanding the Central Referral Unit and introducing Multi-Agency Safeguarding Hubs (MASH). The Barnsley MASH and will incorporate partners from Police, Social Care and Health, working together to safeguard children. This new safeguarding structure will be in place summer 2015. This means

that in future, all child protection referrals will be received and actioned by a dedicated team of professionals within the MASH, who will also be able to progress joint investigations and ensure services required by children and families are signposted to the relevant partner agency without delay.

### **Oversight and progress of actions from the Continuous Improvement Programme**

The board will assume responsibility for driving and monitoring practice to secure mainstreamed continuous improvement. It will assimilate learning from the Improvement Programme and use it to inform future safeguarding developments through partner agency participation. The board will also require regular update reports of specific case file thematic audit and general audit activity.

### **Encourage challenge**

The board will seek to strengthen and evidence its own effectiveness through rigorous challenge, participation and engagement. This will include challenge sessions for each refresh of the Section 11 self assessment, encouraging challenge at board debates, monitoring use of the escalation policy and promoting participation and engagement of stakeholders wherever possible. The Section 11 challenge will also seek evidence that current austerity measures and budget reductions are not having an adverse effect on the ability of partner agencies to fulfil their responsibilities.

### **Child sexual exploitation**

Although the board has an approved strategic approach in relation to CSE there is a need for continuous focus which will include a strategy refresh and procedure update. The development of the Multi-Agency Service Hub (MASH) will support

the early identification and intervention for children at risk of CSE.

### **Promote understanding on thresholds and monitor pressures on the 'front door'**

Continued work to ensure that the thresholds are understood and correctly applied by partner agency staff and that effective use is made of the escalation process in cases where there are concerns about the decision making.

To encourage agencies to ensure that non urgent referrals and contacts into social care are quality assured and discussed with agency safeguarding leads prior to children's social care.

Ensure developments in relation to Early Help are supported and monitored.

### **Strengthening work with partners**

The board will seek to improve its overview of the work of partner agencies involved with safeguarding children, including the voluntary and community sector and local faith groups through issues reported and escalated by the sub-committees. It will actively seek to strengthen existing links with the VCS and associated groups and continue to explore the benefits of closer co-operation through multi-agency working, building on establishment of the Joint Investigation Team and the development of the MASH.

### **Performance management and quality assurance**

Development of the board's Performance Management Framework and routine reporting of key indicators has continued to be refined during the year. The board is now able to scrutinise performance in a more informed and systematic way and challenge areas where it appears that improvements are required. This approach will continue to evolve to ensure the board receives the necessary

information to be assured about the safety and quality of frontline services. Responsibility for regular mainstream scrutiny rests with the PAQA Sub-Committee, who will escalate areas of concern to the board through exception reporting.

Through oversight of a comprehensive audit programme, the PAQA Sub-Committee will continue to scrutinise findings from commissioned single and multi-agency audits to ensure actions are embedded through practice changes. The board has also agreed to receive themed presentations on performance from partners for challenge at board meetings. PAQA has agreed a priority robust performance management framework for agency audit action plans. The board are keen to retain a key focus in relation to CAMHS and monitor improvements within this service.

### **Developing stronger means of engaging with young people and their families to be clear about how they feel safe in the borough**

Securing the voice of children and young people to inform strategic and service planning is being developed but is an area where further work and a more systematic approach to engagement is required. There are examples of engagement with young people for specific activities and the board maintains links with the Care4Us Council and the Youth Council. The board holds meetings in schools, so that board members can enter into a dialogue with young people about their priorities/ views on safeguarding and a series of stakeholder engagement events will be arranged with Barnsley College for the new academic year to help drive policy/service development. A programme of awareness raising activities will be developed over the forthcoming year to raise the profile

of the board, engage in consultation activities and promote the safeguarding agenda across the borough.

### **Learning from serious case and other reviews to inform practice**

Continue to assimilate and act on the learning and improvements derived from Serious Case Reviews, the CDOP, and other learning events in order to improve practice and service delivery. The SCR Sub-Committee will continue to inform local practice through examining findings from SCRs held elsewhere to identify lessons with local resonance for dissemination to agency practitioners.

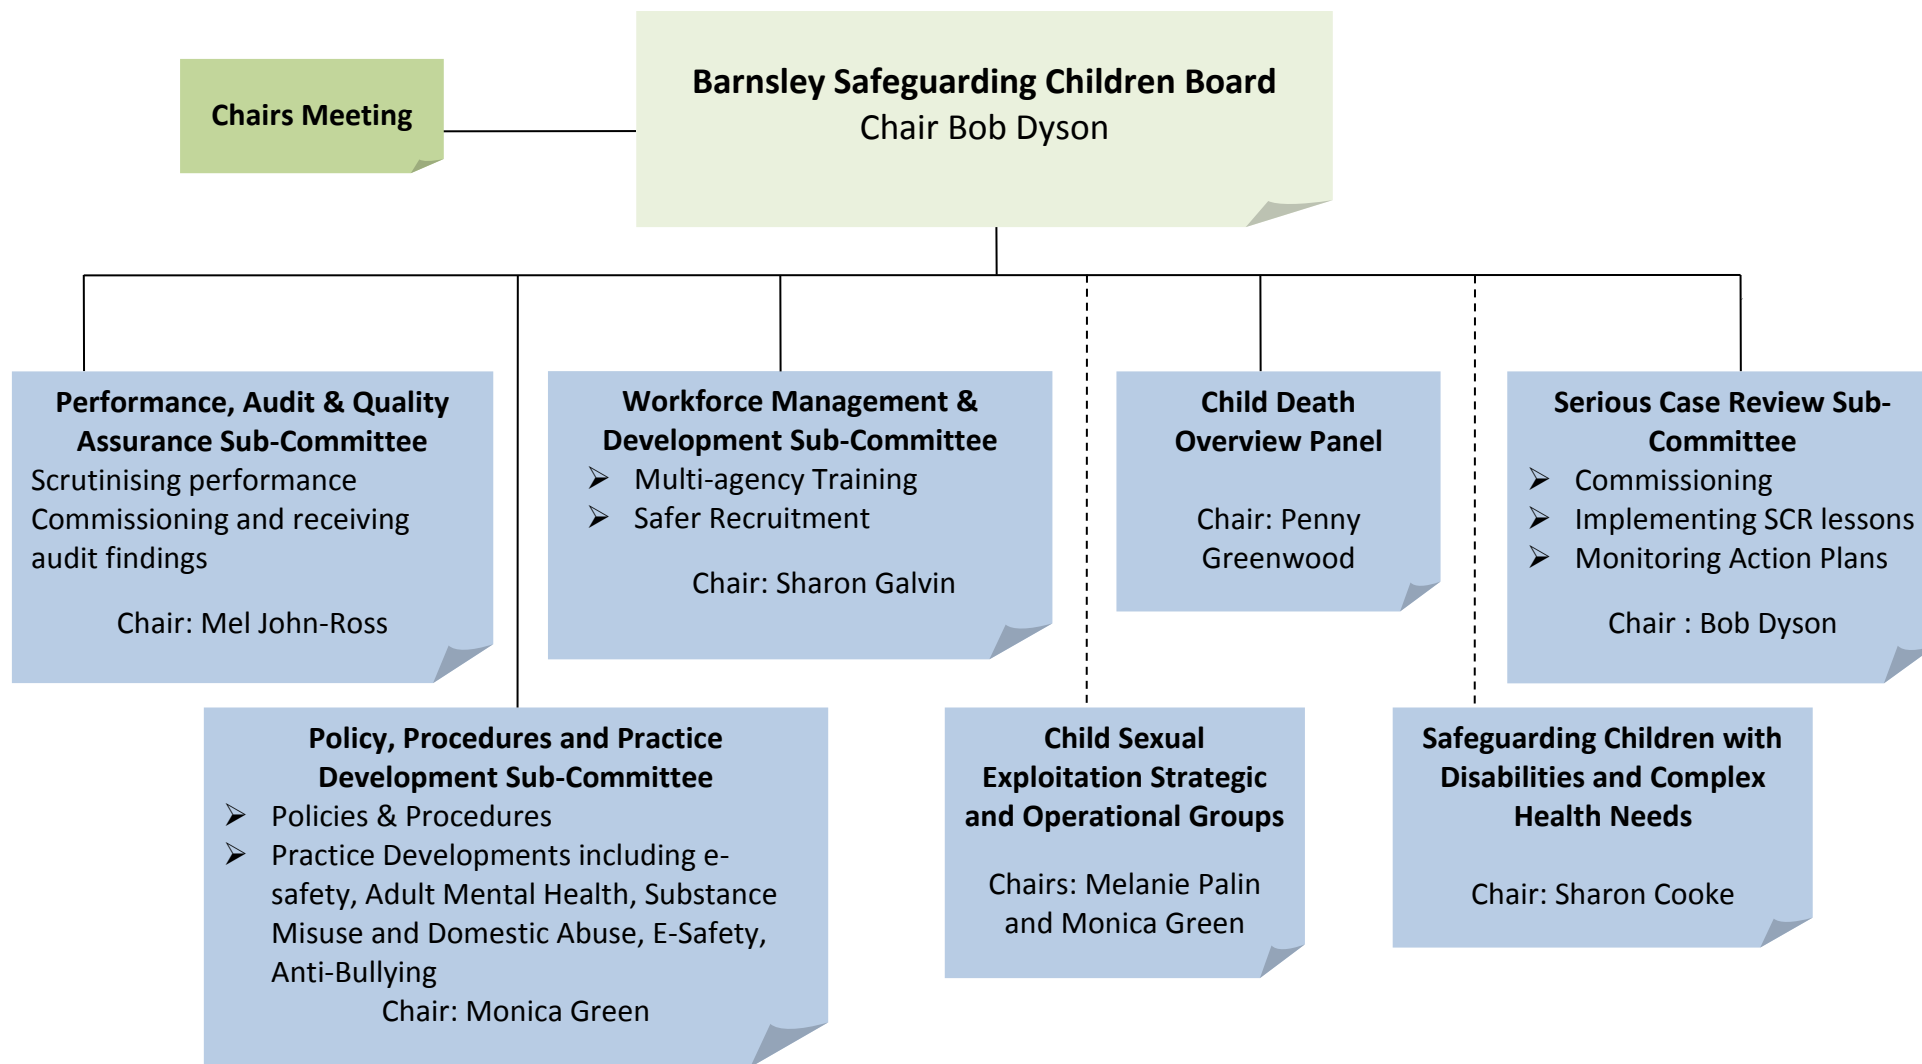

### **Board Attendance**

Board membership represents all key local partner agencies. Last year saw a limited number of membership changes. The majority of changes were in relation to school membership and the replacement of interim staff with permanent staff members. Board membership and sub committee membership will be reviewed and further engagement from partners in education developed.

### **Member attendance at Safeguarding Children Board meetings in 2014/15**

From March 2014 until March 2015 there were seven ordinary meetings, one special meeting to discuss the 2014/15 budget with key partner agencies and a joint meeting with the Children's Trust Executive Group (TEG). The board maintains regular oversight of attendance to promote regular and consistent participation. Analysis shows that attendance and participation is generally very good, especially by key stakeholder representatives from the local authority, health services - particularly the safeguarding children teams within the CCG, BHNFT and SWYPFT, Barnsley College, the police and the voluntary and community sector.

**BARNSELY SAFEGUARDING CHILDREN BOARD GOVERNANCE STRUCTURE**

**MEMBERSHIP**

The list of members and advisors to the Barnsley Safeguarding Children Board, as at 3 May 2015, is set out below.

<b>Members</b>	<b>Representative Agency</b>

<b>TOTAL</b>	<b>£162, 107</b>	<b>TOTAL</b>	<b>£170, 104</b>

### **The BSCB Budget 2014/2015**

The board is funded by contributions from partner agencies. The budget breakdown and contributions made by member organisations for the 2014-15 year are shown above.

There was a pressure on the budget this year due to the increased level of Serious Case Review Work which resulted in the budget being overspent.

The budget reduced in real terms last year due to inflation and standstill partnership contributions. The police provided an additional amount of funding to the board within year. Contributing member agencies met together towards the end of the financial year to discuss and agree budget contributions for 2015/2016 which have resulted in a budget increase to maintain the work of the board and secure some of the business support required to support the work of the board and the multi-agency training programme.
