			31/07/2020	<p><b><u>November 2019:</u></b>            In relation to the review of the Strategic Risk Register, SMT have received a presentation regarding the proposed new approach which was endorsed in principle. A workshop type session is planned to ‘create’ a new version of the SRR reflecting live ‘concerns’, ‘issues’ and ‘areas of strategic focus’.</p> <p>The Audit Committee will receive a report at its January meeting regarding the changed approach and the first version of the new ‘SRR’.</p> <p>A review has also been undertaken of the various ‘boards’ and ‘steering groups’ in operation and their relationship with SMT. By way of example, the Information Governance Board (relevant to the AGS action above) will be revised with a smaller more strategic remit utilising ‘task and finish’ groups for specific pieces of work.</p> <p><b><u>May 2020:</u></b>            The Committee has received an update on the progress in the review of the risk management approach. Further reports will be presented to the Committee over the next few months.</p> <p>The planned SMT workshop was unfortunately postponed due to the CV19 issue. However, SMT have renewed their commitment to the new approach and a new workshop is being planned for the next few weeks.</p>
