This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk ..

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either Gareth or Thilina.

Progress as at 20 July 2020

Financial Statements Audit

We undertook our initial planning for the 2019-20 audit in January 2020, and our interim audit in February to March 2020. We began our work on your draft financial statements in July.

In January we issued a detailed Audit Plan, setting out our proposed approach to the audit of the Council's 2019-20 financial statements.

We will report our work in the Audit Findings (ISA2600 Report and aim to give our opinion on the Statement of Accounts in October 2020.

Covid-19

In addition to the audit risks communicated to those charged with governance in our Audit Plan on 22 January 2020, the Covid-19 pandemic led us to update our planning risk assessment and reconsider our audit and value for money approach to reflect the unprecedented global response. On 22 April we issued an addendum to our Audit Plan, setting out a new significant financial statement risk in relation to Covid-19.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

Details of our value for money initial risk assessment with significant risks were reported to those charged with governance in our Audit Plan on 22 January 2020.

We will report our work in the Audit Findings Report and aim to give our Value For Money Conclusion in October 2020.

New Audit Code for 2020-21 onwards:

The NAO consultation on a new Code of Audit Practice (the "Code") has finished, and the new Code has completed its approval process in Parliament. It therefore came into force on 1 April 2020 for audit years 2020-21 and onwards. The new Code supersedes the Code of Audit Practice 2015, which was published by the National Audit Office (NAO) in April 2015.

The most significant change under the new Code is the introduction of an Auditor's Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations. The NAO public consultation is now underway and runs until 2 September 2020. It can be accessed through the NAO website:

<https://www.nao.org.uk/code-audit-practice/agn-03-vm-consultation/>

Progress at July 2020 (Cont.)

Other areas

Certification of claims and returns

We certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DWP). In response to the impact of the Covid-19 pandemic, the DWP has moved the reporting deadline back to 31 January 2021 from 30 November 2020. We will report our findings to the Audit Committee in January 2021.

We certify the Council's annual Teachers' Pensions return in accordance with procedures agreed with Teachers' Pensions. The certification work for the 2019-20 claim is due to be completed in advance of the 30 November deadline.

We also certify the Council's annual Pooling of Housing Capital Receipts return in accordance with procedures agreed with the Ministry of Housing, Communities & Local Government. (MHCLG). We have yet to receive from MHCLG guidance for the certification work for the 2019-20 return.

Meetings

We have held a series of very useful and informative meetings with the Chief Executive and Service Director for Finance (Chief Finance Officer) since February 2020, covering various topics including challenges arising from Covid-19 pandemic and other Council priorities. We will continue to have this dialogue with senior management during these unrepresented times for the Council. We continue to liaise with finance staff regarding emerging accounting developments and to ensure the audit process is smooth and effective, despite the challenges of remote working.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your officers attended our Financial Reporting Workshop in February, which helped to ensure that members of your Finance Team were up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

COVID-19 Update

Impact on working arrangements:

- following the government's announcement on Monday 16 March 2020, we closed our Grant Thornton offices for the foreseeable future and your audit team are now working from home
- we expect to be working remotely during your accounts audit. Although there are some audit tasks which are best undertaken in person, we will be able to complete the majority of the audit remotely. This is however likely to make the audit process longer. We continue to work closely with your finance team to make this different way of working as efficient as possible.
- there may need to be further changes to planned audit timings due to potential illness within the audit team or the finance team and due to the further developments of COVID-19.

Impact on accounts and audit opinions:

There are a number of key issues which we would continually consider as part of the year end audit, currently on going:

- impact on reserves and financial health and whether the Council needs to provide additional disclosures that draw attention to Going Concern or asset valuations
- valuation of Land and Buildings and assumptions made by valuers, particularly in respect of carrying value to current value assessment as part of the 5 year rolling valuation methodology
- impact on collectability of debts outside the public sector and assumptions made in bad debt provisions.
- impact on post-balance sheets events. The consequences of the virus post 31 March 2020 will generally be non-adjusting post balance sheet events but some form of disclosure may be needed
- disclosure of impact in the Narrative Report
- disclosure of critical judgements and material estimation uncertainties
- impact on the content of the Annual Governance Statement, particularly with regards to risks, controls and mitigation
- considerations in respect of service continuity and disaster planning arrangements
- impact on reporting to those charged with governance and signing arrangements.

Changes to reporting requirements:

- the Secretary of State announced that for the 2019-20 accounting period he would be extending the period for publication of principal authority accounts to 30 August 2020.
- The Council provided us with their draft accounts on 30 June 2020 and our audit commenced on 6 July 2020
- The revised target date for audited financial statements is now 30 November 2020. However, in discussions with the Council's finance team, we are aiming to complete and conclude our audit in October.
- IFRS 16 implementation has been delayed by 1 year to 1 April 2021. IAS 8 disclosures in respect of new accounting standards which have been issued but are not yet effective are still required for IFRS 16 (Leases) even though implementation is deferred to 2021-22.

Audit Deliverables

2019-20 Deliverables	Planned Date	Status
Fee Letter Confirming audit fee for 2019-20.	April 2019	Complete
Audit Plan We are required to issue a detailed audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council's 2019-20 financial statements and a Conclusion on the Council's Value for Money arrangements.	January 2020	Complete
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	March 2020	Complete.
Audit Plan Addendum We issued an updated Audit Plan to highlight the impact of Covid-19 on our audit approach. This was presented to the Audit Committee at the beginning of June.	April 2020	Complete
Audit Findings (ISA260) Report The Audit Findings Report is expected to be shared with management and members of the Audit Committee in October.	October 2020	Not yet due
Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion.	By 30 November 2020	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	December 2020	Not yet due

Sector Update

Councils continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

In-depth insight into the impact of Covid-19 on financial reporting in the local government sector – Grant Thornton

In June Grant Thornton published a report to help officers and elected members identify points they should consider when assessing and reporting the impact of Covid-19 on their authority. Each authority will be impacted in different ways and will need to make their own assessment of the impact on their financial statements. However, the report identified some of the key challenges for the sector, along with the potential financial reporting and regulatory impact, to support preparers of local authority accounts navigate through some of these key issues. The report also included a number of useful links to other resources.

The report considered:

- Operational challenges and the related financial reporting/regulatory impact
- Government support schemes – considering the accounting implications
- Significant financial reporting issues to consider
- Other sector issues and practicalities to consider
- Impact on audit work/external scrutiny process
- Engagement with experts

We shared the report with your officers and discussed relevant issues with them in a timely manner.

The extraordinary events we are living through follow a decade of austerity, triggered by the financial crisis of 2008-09, which had already placed considerable strain on local authorities' finances. Increased demand for many local public services, directly related to the outbreak of the virus, has placed immediate pressure on authorities' cash flows and expenditure budgets. The longer-term consequences of recession and unemployment on demand for services have yet to be experienced.

At the same time, several important sources of local authority income including Council Tax, Nondomestic (business) rates, fees and charges, rents and investment returns have, to a greater or lesser extent, been subject to reduction or suspension. This perfect storm of conditions presents a real threat to the financial sustainability of the sector. Now, more than ever, strong political and executive leadership is needed to re-establish priorities, review strategies and medium-term financial plans and ensure that public funds are being used as efficiently and effectively as possible. A balance has to be struck between responding to the needs of residents and businesses in a timely manner, protecting the most vulnerable and ensuring appropriate measures and controls around financial management are in place to mitigate against future 'financial shock'. In doing so, iterative scenario planning will help officers and elected members to take informed decisions at key stages, revisiting and revising plans along the way.

The full report can be obtained from the Grant Thornton website:

Guide for Audit and Risk Committees on Financial Reporting and Management during COVID-19 – National Audit Office

In June the National Audit Office (NAO) published a guide that “aims to help audit and risk committee members discharge their responsibilities and to examine the impacts on their organisations of the COVID-19 outbreak. It is part of a programme of work undertaken by the NAO to support Parliament in its scrutiny of the UK government’s response to COVID-19.”

The NAO report notes “Audit and risk committees are integral to the scrutiny and challenge process. They advise boards and accounting officers on matters of financial accountability, assurance and governance, and can support organisations, providing expert challenge, helping organisations focus on what is important, and how best to manage risk.

Each organisation will have existing risk management processes in place, but risk appetite may have changed as a result of COVID-19, for the organisation to operate effectively and respond in a timely manner. This may result in a weakening of controls in some areas, increasing the likelihood of other risks occurring. Organisations will need to consider how long this change in risk appetite is sustainable for.”

The NAO comment “This guide aims to help audit and risk committee members discharge their responsibilities in several different areas, and to examine the impacts on their organisations of the COVID-19 outbreak, including on:

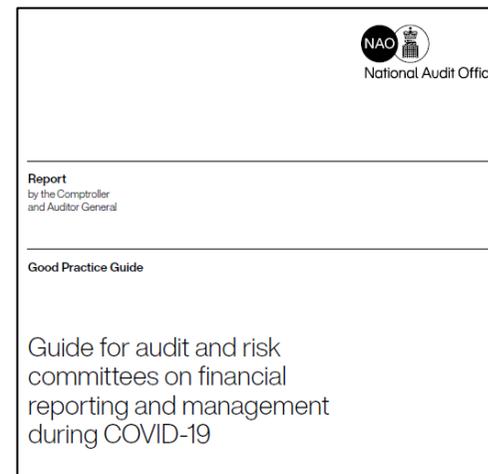

- annual reports;
- financial reporting;
- the control environment; and
- regularity of expenditure.

In each section of the guide we have set out some questions to help audit and risk committee members to understand and challenge activities. Each section can be used on its own, although we would recommend that audit and risk committee members consider the whole guide, as the questions in other sections may be interrelated. Each individual section has the questions at the end, but for ease of use all the questions are included in Appendix One.

The guide may also be used as organisations and audit and risk committees consider reporting in the 2020-21 period.”

The full report can be obtained from the NAO website:

<https://www.nao.org.uk/report/guidance-for-audit-and-risk-committees-on-financial-reporting-and-management-during-covid-19/>

Kickstarting Housing – Grant Thornton and Localis

In July Grant Thornton Head of Local Government, Paul Dossett, wrote an essay, included as part of a collection in the Localis report – “Building for renewal: kickstarting the C19 housing recovery”.

Paul asked “So how do we address “the housing crisis” in the context of an existential threat to the British economy? Just as importantly, how do we ensure our key workers, our new heroes of the Thursday night applause, are front and centre of such a response. Paul suggested that the housing response needs to move away from the piecemeal towards a comprehensive and strategic response, with five key pillars with the key worker demographic at its heart:

- **Public housebuilding.** This will involve more borrowing, but we need a bold and ambitious target to build at least one million new public sector properties at social rents by 2025. This should involve a comprehensive and deep partnership between Homes England and local authorities and underpinned by a need to minimise the carbon footprint.
- **Private sector housing needs a rocket boost** with massive Government supported investment in modern methods of construction and consideration of required workforce needed to meet capacity. This needs to go hand in hand with a major recruitment drive into all facets of the housing industries. This should include national and local training initiatives to support workers from the service sectors who are very likely to lose their jobs because of the pandemic.
- **Strategic authorities based on existing local government footprints** across the country to remove the inconsistent patchwork quilt of current arrangements so that there is consistency between local, county and national strategic priorities. They should be legally tasked and funded for development of comprehensive infrastructure plans to support housing initiatives in their areas with a strong remit for improving public transport, supporting green energy initiatives and developing public realms which create a sense of community and belonging.
- **Building on existing initiatives to improve security of tenure and quality of accommodation,** a new partnership is needed between landlord and tenants that provides a consistent national/regional footing to ensure that housing is a shared community responsibility. This should, like the response to the pandemic, be part of a shared community narrative based on state, business and local people.

- Putting key workers at the heart of the Housing strategy. The country appears to have discovered the importance of key workers. The people that keep the country running and whose contribution is never usually recognised financially or in terms of social esteem. There are several existing key worker accommodation initiatives, but they are local and piecemeal. We need a comprehensive strategy which focuses on key worker needs, including quality of accommodation, affordable mortgages/ rents, proximity to workplaces and above all , a sense of priority on the housing ladder for those who keep the country running in good times and bad and are the best of us in every sense.

Paul concluded “Housing is a basic need and if key workers feel valued in their place in housing priorities, we will have made a giant step forward.

Key workers are not the only group in need of help of course. Utilising the momentum behind keyworkers that their role in COVID-19 has brought into focus, could help kickstart housing initiatives that help all those in need.”

The full report can be obtained from the Grant Thornton website:

CIPFA – Financial Scrutiny Practice Guide

Produced by the Centre for Public Scrutiny (CfPS) and CIPFA, this guide provides guidance to councils and councillors in England on how they might best integrate an awareness of council finances into the way that overview and scrutiny works.

The impact of the COVID-19 pandemic on council finances, uncertainty regarding the delayed fair funding review and future operations for social care – on top of a decade of progressively more significant financial constraints – has placed local government in a hugely challenging position.

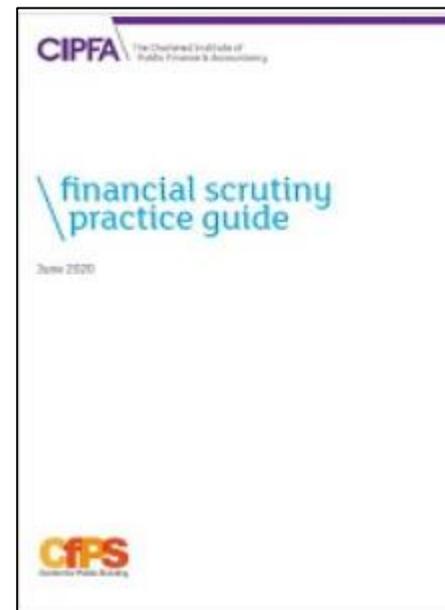

For the foreseeable future, council budgeting will be even more about the language of priorities and difficult choices than ever before.

This guide suggests ways to move budget and finance scrutiny beyond set-piece scrutiny 'events' in December and quarterly financial performance scorecards being reported to committee. Effective financial scrutiny is one of the few ways that councils can assure themselves that their budget is robust and sustainable, and that it intelligently takes into account the needs of residents.

Scrutiny can provide an independent perspective, drawing directly on the insights of local people, and can challenge assumptions and preconceptions. It can also provide a mechanism to ensure an understanding tough choices that councils are now making.

This paper has been published as the local government sector is seeking to manage the unique set of financial circumstances arising from the COVID-19 pandemic. This has resulted, through the Coronavirus Act 2020 and other legislation, in changes to local authorities' formal duties around financial systems and procedures.

The approaches set out in this guide reflect CfPS and CIPFA's thinking on scrutiny's role on financial matters as things stand, but the preparation for the 2021/22 budget might look different. CfPS has produced a separate guide to assist scrutineers in understanding financial matters during the pandemic

The full report can be obtained from CIPFA's website:

<https://www.cipfa.org/policy-and-guidance/reports/financial-scrutiny-practice-guide>

Future Procurement and Market Supply Options Review – Public Sector Audit Appointments

Public Sector Audit Appointments (PSAA) has commissioned an independent review of the sustainability of the local government audit market. The review was undertaken by an independent consultancy, Touchstone Renard.

PSAA note that the report “draws on the views of audit firms active in the local authority market as well as others that are not. In doing so it identifies a number of distinctive challenges in the current local audit market. In particular it highlights the unprecedented scrutiny and significant regulatory pressure on the auditing profession; the challenges of a demanding timetable which expects publication of audited accounts by 31 July each year; and the impact of austerity on local public bodies and its effect on both the complexity of the issues auditors face and the capacity of local finance teams”.

Key findings in the report include:

- A lack of experienced local authority auditors as the main threat to the future sustainability of the market.
- It will be difficult to bring the non-approved firms into the market.
- Of the nine approved firms, only five have current contracts with PSAA.
- Almost all of the approved firms have reservations about remaining in the market.
- Firms perceive that their risks have increased since bids were submitted for the current contracts.
- The timing of local audits is problematic.

Key issues for the next procurement round include:

- Number of lots and lot sizes.
- Lot composition.
- Length of contracts.
- Price:quality ratio.

The report notes that “PSAA will need to balance the views of the firms with wider considerations including the needs of audited bodies and the requirement to appoint an auditor to every individual body opting in to its collective scheme”.

The full report can be obtained from the PSAA website:

<https://www.psa.co.uk/wp-content/uploads/2020/03/PSAA-Future-Procurement-and-Market-Supply-Options-Review.pdf>
