

## Case Study Central: Oct - Dec 2020.

### Warren Quarry Lane/Highstone Road, Barnsley

This particular area is part of the Worsbrough Ward and can be very busy at times with the public for walking to and from the town centre. This area was therefore brought to our attention by a complaint's from the local council neighbourhood services as well as being noted by our officers for the amount of litter on the street during their routine patrols. Emails received as well from the council alerted us to fact that fly tipping was taking place frequently down the back alleys of these streets. Although not allowed to issue FPN's for fly tipping, our officers were able to identify particular sites and report them on the BMBC fly tipping site.

Over the quarter our officers have patrolled the area and were able to identify some of the offenders and issue 12 x FPN's to those who dropped their litter in on these streets and surrounding areas.

Our officers have renewed/placed stickers and signage in the area, the feedback has been good and, our officers will continue their patrols in this area.

It should also be noted that District is now working with BMBC providing Covid Marshal's for the Barnsley Area. The Marshal's have been seen out patrolling the Central area since November, reporting back to the council any Covid compliance breeches, as well as gatherings which take place against the current regulations in force at the time.
