15 Social Isolation and Dementia commission

Jane Holliday, the Chief Executive Officer from Age UK Barnsley, provided a detailed update to the North East Area Council about the work of the Social isolation and

Dementia commission. The contract began 1st July 2019 and is due to end 30th June 2021 at a contract value of £30,000 a year which includes £5,000 from Age UK Barnsley. Staffing consists of two part time workers providing 1 FTE with a team of volunteers supported by a Manager with a purpose of providing support for socially isolated older people, especially those with dementia, by developing opportunities within the community and promoting dementia friendly businesses and groups.

However, from March 2020 and the first Covid-19 lockdown the project changed quickly and involved shopping, collecting medication, emergency boxes and wellbeing boxes, contact calls, reassurance, signposting, telephone befriending, garden visits and outdoor walks. There have also been two cycles of themed home-based activities. The wellbeing boxes contained a minimum of £45 worth of goods and were very well received, with 110 distributed across the area. Hot Christmas Day dinners were delivered to homes from Chilli Grill. The project has continued to evolve with the further lockdowns, working with partners such as supermarket chains and local care homes.

Following the update, Councillors were asked to decide whether they would like to maintain, and fund, the extra service provision for the Social Isolation and Dementia initiative until June 2021.

RESOLVED that Age UK Barnsley is funded to maintain the additional service provision by the Social inclusion Workers in the North East Area communities until June 2021 at a cost of £5,000.

16 Covid 19 Pandemic

Lucy Butcher, Public Health Practitioner, was welcomed to the meeting and provided the North East Area Council with a verbal update and an actions and progress update report from Public Health about the Covid 19 pandemic.

It was reported that there has been a slight increase in transmission over the past few weeks and is being assessed by the Public Health team. Asymptomatic testing at the Metrodome has picked up around 7 cases. There have been a small number of outbreaks in care homes and work places together with an increase in household transmission, with multiple positive cases. There is a higher prevalence of new variants but the increased rates are of most concern. Joint working with partners such as South Yorkshire Police, Trading Standards and the Covid Marshals is taking place. Only Barnsley-wide raw data is available at the moment and the picture changes daily. No specific ward is showing a high case rate consistently and there is a need to consider age, levels of deprivation etc. Reports of residents visiting coffee shops and parks in high numbers have been received, with cases in all wards of guidelines not being followed, particularly in supermarkets. Members were urged to continue to follow the guidelines and be vigilant. Any intelligence around non-compliance with the guidelines should be emailed to: covvidmarshalls@barnsley.gov.uk.

Members were advised that testing starts this week at the Acorn centre in Grimethorpe, with information on the website. There are various testing sites across the Borough and all schools have testing provision.

Members were aware of a number of residents offered appointments for vaccination at Halifax, Bradford, Leeds, Wakefield and Manchester, which is impossible for many people to attend and is concerning when there are local vaccination sites close by. Vaccines are being administered to vulnerable residents who cannot leave their homes and this can be arranged through GPs. Lucy will take these concerns back to Emma White in Public Health. If there are further concerns around vaccination, these should be emailed to Emmawhite@barnsley.gov.uk.

RESOLVED that:

- (i) Lucy be thanked for her attendance and contribution;
- (ii) Members note the information in the report;
- (iii) Members continue to encourage local communities to get tested, especially if they have symptoms;
- (iv) Members feedback any community-based intelligence to Covid Marshalls; and
- (v) Members contact Emma White in Public Health with any vaccination concerns
